Specializing in Native, Rare and Unusual Plants at www.thimblefarms.com

Hours of Operation:

Open 9am-4:30pm daily February 9th through August
September through January open Tuesday through Saturday 9am-4:30pm

Welcome to our 2016 catalogue.

We have made many new and exciting additions to our plant offerings this year, arisaemas, disporums, polygonatums, primulas, dwarf hostas and hepaticas to name a few. We will have an ever increasing selection of hepaticas available at the nursery, both European and Japanese forms. We'll have a good selection of hepaticas that can be chosen in bloom at the nursery this year. We are also developing hundreds of new cultivars that you will soon be able to order or pick in bloom for future availability. At this point it looks like spring is going to come early. We have hellebores, the first hepaticas, cyclamen, scoliopus, witch hazels and sarcococca all starting to bloom the first week in January as well as adonis, edgeworthia and many others starting to push their flower buds. This year we will have four events: Helleborganza, our Yukiwariso (hepatica) festival, Growing Native and Orchidmania. Watch the website (events page) or go to our facebook page for details, including the best bloom timing especially for the Yukiwariso festival. The website lists only a small portion of what is available at the Nursery.

Our first major event in 2016 will be 'Helleborganza'(Hellebores), February 12th-March 31st . Helleborganza is our celebration of hellebores and other early blooming perennials including species snowdrops, winter aconites, adonis, double hepaticas and bulbocodium to name a few. We are absolutely hellebore crazy and love to see the reaction of people (especially those new to hellebores) when they see the incredible diversity in both blooms and foliage at a time of year when we can all use more colour in our gardens. We owe a huge debt of gratitude to the dedicated hellebore breeders around the world who have toiled over the last twenty odd years to bring us so many fine plants. The event will run over a month this year as every day more and more plants come into bloom. As we did last year, we will also offer an assortment of smaller and larger plant sizes. Please see our website, www.thimblefarms.com for mouth watering pictures. This year we have increased our numbers in the varieties and strains we believe have the best flower colour and put on the best show, like the Winter Jewels strains. Discounts and specials will be offered at the nursery at this time.

Our next event, March 15th (?) – April 14th will be our Yukiwariso festival, a celebration of hepaticas. We would really like to encourage people to look at some of the images on our facebook page that show the incredible diversity in this group. Timing of this event is hard so in mid-march we will post an update on the events pages as to the best time to visit. I encourage those interested to look at our events page and our Japanese hepatica page.

Our third event will be 'Growing Native' (Native Plants), May 1st-7th and we will offer 20% off native plants during this week. This event is designed to feature and promote the use of native plants. We grow a vast array of Pacific Northwest and North American native plants. This year we'll be hosting the event in our growing area and hopefully we've timed it to catch the peak of the blooming season for many of our favourite wildflowers. Check the events page on our website.

Our fourth event held in conjunction with 'Growing Native' is 'Orchidmania'. The number of hardy ground orchids has exploded and we would like gardeners to become more familiar with these beauties. The hybrids are very easy to grow and make a valuable and unique addition to the garden. We also have many species for the purist, some of which are easy to grow and some are not. All ground orchids will be 10% off during this week. We will also be holding classes during Orchidmania on how to grow and care for your hardy orchids. The Fee will be \$50.00 for the class and at the end of the class you will receive a \$50.00 voucher for use on the purchase of Hardy Orchids. Find out all you need to know on how to grow these hardy garden orchids and ask as many question as you like.

We would like to offer a PDF version of the catalogue via email as well as occasional e mails about new offerings. If you would like to receive these emails please see the instructions on page two.

New plants will be posted on our Facebook page as well as a new page on our web site called 'New Plants' before being posted in the main listing of the website. This way we will be able to post new plants throughout the year.

There are new plant introductions scattered throughout the catalogue in almost every group of plants we grow. Please keep in mind we have thousands more plants available at the nursery.

We would like to thank our customers, staff and suppliers for a great year and we're looking forward to a fantastic 2016,

Thank you, Richard and Nancy Fraser

Fraser's Thimble Farm

Email list

Get on our email list!

If you would like to receive our catalogue as a pdf via email, please send an email to thimfarm@telus.net with 'pdf catalogue' in the subject header. If you would like to receive periodic updates on the new plants available, email thimfarm@telus.net with 'New plants' in the subject header. The advantages to being on the email list is that you will be alerted to additions to our plant offerings. By changing to an email and web site only catalogue we will be free to offer more plants to our customers more often.

Thank you, Richard and Nancy Fraser

Coming to the Nursery?

The fastest way is a ferry from Tsawwassen (Near Vancouver) to Swartz Bay (Near Victoria) then another from Swartz Bay to Fulford Harbour (Salt Spring). This is not your only option as there are three ferry routes to SaltSpring Island so for Ferry information phone 1-888-223-3779 Or go to www.bcferries.com

Hardy Orchids-Ferns

Hardy Orchids

This includes a diverse group of ground orchids from around the world. Some of these groups are relatively easy to grow like the *Bletilla* and *Pleiones* and some are more challenging like the *Cypripediums*. The cultural requirements for most of these orchids are similar. They require well drained but moist soil when in active growth and excellent (almost dry) drainage in the winter when dormant. Light shade or partial sun works well. *Bletilla* are more tolerant of varying soil conditions and require more sun than other species.

Amitostigma X enomotoe \$12.00ea
Ht. 10-5cm. Z5. Lovely little new orchid hybrid from Japan (A. keiskei x A. kinoshitae). The flower stalk arise from the tiniest tuber bearing showy pink flowers. These seem to multiple fast to form a clump. Plant in semishade with good drainage .

Amitostigma kinnoshitae \$12.00ea
Ht. 10-5cm. Z5. Lovely little new orchid from Northern Japan. The flower stalk arise from the tiniest tuber bearing showy white flowers. These seem to multiple fast to form a clump. Plant in semishade with good drainage .

Bletilla

This is a wonderful group of easy to grow hardy ground Orchids. These are best planted 5cm deep in light shade to full sun in a well drained humus-rich soil. In colder areas (Zone 5-6) they need to be planted 10-15cm deep and in yet colder areas they can easily be grown in pots indoors or in an alpine house.

Bletilla striata \$6.00ea
Ht. 20-40cm. Z5-6. This hardy ground orchid has long, arching ribbed leaves and soft rose to magenta erect inflorescence of up to 10 flowers.

Bletilla striata Big Bob \$12.00ea
Ht. 50-90cm. Z5. A large, tall growing, vigorous selection of the species.

Bletilla striata Kuchibeni Crimson Mouth *Bletilla*..... \$12.00ea
Ht. 20-40cm. Z5-6. A new selection with soft pale pink flowers with white ruffled lip crests that are infused with deep pink-purple at the mouth.

Bletilla striata `Soryu`\$29.00ea
An awesome mauve-blue flowered *bletilla* with darker mauve blue lip. Soryu means Blue Dragon.

Bletilla striata var. japonica alba..... 11cm pot \$6.00ea
Ht. 20-40cm. Z5-6. Similar to species but with white flowers; some with pale lilac margin on the lip.

Bletilla striata variegated (albostrata)\$12.00ea
Ht. 20-40cm. Z5-6. Same as species except leaves are striped with white.

Bletilla ochracea\$15.99ea
Ht. 25cm. Z5-6. A rare species with yellow petals and sepals with deeper yellow, red marked lip. Somewhat variable, blooms June-July.

Bletilla `Brigantes` (striata x ochracea).....\$15.99ea
Z5-6. A variable cross with mid rose-purple petals and sepals. Purple lip with yellow markings.

Bletilla `Penway Dragon` (formosana x szetschuanica)\$15.99ea
Z5-6. Flowers are variable in this cross but typically have purple-pink petals and sepals, white lip with purple pink margin and spot. This has turned out to be one of the more stunning and vigorous selections. Plant in full sun to part shade.

Bletilla `Penway Paris` (striata x szetschuanica)\$15.99ea
Z5-6. Rose purple petals, sepals and lip with white keels on lip.

Bletilla `Penway Princess` (formosana x yunnanensis)\$15.99ea
Z5-6. Light rose pink sepals and petals, darker on the reverse. Lip spotted red and yellow with purple red margin.

Bletilla `Yokohama` (striata x formosana).....\$12.99ea
Z 5-6. Pale lilac petals and sepals, throat yellow with lilac markings. Makes a nice clump in only a few years.

Bletilla Yokohama Kate \$12.00ea
Ht. 50-100cm. Z5. A vigorous selection with light pink flowers with yellow markings on the lips and a darker pink trim.

Calanthe

This is a large group of hardy and semi-hardy ground orchids from Asia. Most can be grown in the garden but the frost tender species should be brought indoors. They prefer a lightly shaded woodland setting with humus rich soil. Most spread quite rapidly, and are extremely showy and rare in North America. Great companion plants for Ferns, Hostas, and Bleeding Hearts. These like to be fed a lot with a weak solution of liquid fertilizer while in active growth.

Calanthe aristulifera.....\$33.00ea
Ht. 30-45cm. Z7. From Kyushu Island in Japan comes this beauty with spikes of large, soft pink flowers.

Calanthe bicolor.....\$20.00ea
Ht. 30cm. Z7. Similar to C.discolor in habit. Flower has a golden yellow, deeply cleft lip, occasionally marked with deep red. Upper petals are orange brown. Fragrant flowers in early summer.

Calanthe discolor.....\$15.00ea
Ht. 30cm. Z6. One of the hardiest species from Japan with spikes of bicolored flowers, usually purple-brown on top and white below. Easy in humus rich soil in shade to part sun.

Calanthe Kojima Red\$29.95ea
Ht. 30cm. Z6. One of the showiest *calanthe* with flowers in the red tones.

Calanthe masuca\$33.00ea
Ht. 30-50cm. Z9 From Kyushu and Ryuku islands in Japan comes this elegant pink flowered species with long pink spurs. Blooms in July–October. Probably not frost hardy.

Calanthe nipponica.....\$30.00ea
Ht. 30cm. Z5. This is a rarely offered species from the mountains of Japan. Yellowish green flowers with a brighter yellow lip.

Calanthe okinawensis.....\$33.00ea
Ht. 30-50cm. Z9. A lovely species from Okinawa, Japan with stunning pink-purple flowers. In some plants the lip color is darker than the sepals. Very showy species. Probably not frost hardy.

Hardy Orchids-Ferns

Calanthe reflexa.....\$16.00ea
Ht. 30cm. Z7. Lavender petals and purple-violet (rarely white), intricately cleft lip in late summer or early fall. Semi-evergreen.

Calanthe striata sieboldii.....\$17.50ea
Ht. 30-45cm. Z7. Bright golden yellow flowers often streaked brownish red. Blooms in early spring.

Calanthe tricarinata Monkey Orchid.....\$22.00ea
Ht. 60cm. Z7. A striking species with bright green tepals and a much divided purplish brown lip with white markings. This species is harder to get than most of the others.

Calopogon tuberosus - Common Grass Pink.....\$39.00ea
Ht.30cm. Z4. A striking species with large pink flowers that arise from a small tuber. Only a few available.

Cypripediums - Lady Slippers

The most beautiful of all the Hardy Ground Orchids are the Lady Slippers, however, they are not the easiest plants to grow. Frequently, people need several attempts before mastering their cultivation. In cultivation, many have success growing them in pure perlite or in pots with a mix of equal parts of peat, sand and perlite. In nature, they often grow in bogs, but they tend not to like soggy conditions. Until recently it was not known how to germinate the seed of these beauties, but a few people (labs) have worked out how to in sterile medium (including us now). We will be offering laboratory raised seedlings that are out of culture for three to six seasons. These should bloom in one to two years. We will also have a small selection of mature single eyed divisions of garden grown plants (mature plants) and a few larger plants.

Cypripedium acaule.....Special \$39.95ea
We are offering a few mature single eyed divisions this year. Unlike most other Cypripediums, it is essential the pH remain low, around pH 4-5 for this plant to thrive. We suggest planting in an acidic medium and fertilising regularly with a weak liquid acidifying fertiliser. For us, this seems to be the trick. We now have fantastic plants. Sepals and petals greenish-brown. Lip pouch, large, incised in the middle, rose pink with darker venation.

Cypripedium Aki (macranthos x pubescens).....\$59.95ea
Ht.45cm Z4. Large inflated lip of a stupendous plum color and twisted sepals. We offer near bloom sized seedlings that should bloom with another years growth.

Cypripedium Aki (macranthos x pubescens).....\$79.95ea
Double eyed bloom sized seedlings.

Cypripedium Aki Light (macranthos x pubescens).....\$69.95ea
Ht.45cm.Z4. Large inflated lip of a light pink color striped with cream and dark plum coloring. We offer near bloom sized seedlings that should bloom with another years growth.

Cypripedium Aki light (macranthos x pubescens).....\$99.95ea
Double eyed bloom sized seedlings.

Cypripedium Birgit Pastel (cordigerum x macranthos album)
.....\$59.00ea
Ht.40cm.Z4. The lovely pale form of this hybrid is a beauty. Near bloom sized plants that need another year to bloom.

Cypripedium calceolus European form.....\$60.00ea
Ht.50cm. Z5. Flowers; sepals and tepals purple brown, lip bright yellow sometimes spotted red within. A very showy yellow lady slipper that seems to be particularly easy to grow. Mature single eyed division from seed raised plants.

Cypripedium x columbianum (montanum x pubescens).\$79.00ea
Ht.50cm. Z5. The appearance of this hybrid tends towards the C.montanum parentage with the trait of larger flower size from the C.pubescens parent. It has a white, or very pale yellow lip with deep brown tepals. Mature single eyed divisions from seed raised plants. Only a few available.

Cypripedium cordigerum\$89.00ea
Ht.30-40cm. Z4. A rarely offered species with large white lip pouch and yellow-green tepals and sepals. Relatively easy to grow in well drained soil. Lovely fragrance.

Cypripedium candidum x fasciolatum\$69.00ea
Ht.40cm. Z4. A huge creamy white lip pouch and darkly colored sepals and tepals speak volumes for this cross. Also not to be missed is the wonderful twist to the sepals.

Cypripedium candidum x fasciolatum \$99.00
Larger double eyed plant.

Cypripedium debile \$59.00ea
Ht.7-10cm Z4-5. This is one of the smallest Cypripediums with small greenish white flowers streaked with purple. We offer small mature divisions of this rarely offered woodland orchid.

Cypripedium Delphine (kentuckiense and franchetii ...\$59.95ea
Ht.20-30cm. Z4. A hybrid that produces a large showy flowers with a huge white lip pouch streaked and splashed with pink and darker pink tepals.

Cypripedium Delphine larger double eyed plants\$89.95ea

Cypripedium Dietrich (kentuckiense x calceolus).....\$69.00ea
Ht. Z4. Huge flowers of C.kentuckiense and the intense coloring of the European C.Calceolus make this a must have. Large yellow lip and long twisted burgundy brown-red tepals. Near bloom sized seedlings.

Cypripedium Emil (C.parviflorum X C.calceolus).....\$59.00ea
Ht. 25-35cm. Z4. The vigour of parviflorum and mid way between the two parents in coloring and flower size make this an ideal choice for the garden. Small plants.

Cypripedium fasciolatum\$69.00ea
Ht. 35-50cm. Z5-6. Huge white or creamy white flower pouch that has a fine burgundy trim. Tepals are a creamy-lime color with a touch of burgundy. Bloom sized seedlings.

Cypripedium fasciolatum\$99.00ea
Larger double eyed plant

Cypripedium fasciolatum x segawai..... \$59.00ea
Ht.40cm. Z4. The huge flowers from fasciolatum and brilliant yellow colour from segawai give this dream combination of a huge inflated lip and bright yellow coloration. Throw in a few red marking and multiple flowers to make this a beauty.

Hardy Orchids-Ferns

Cypripedium fasciolatum x segawai \$89.00ea
Larger double eyed plant

Cypripedium fasciolatum x segawai \$109.00ea
Larger triple eyed plant

Cypripedium flavum \$49.99ea
Ht. to45cm. Z7. Clear yellow flowers, lip very inflated, bright yellow, spotted lightly with purple and brown. Native to China. We have 6 year old seedlings.

Cypripedium flavum \$79.99ea
Larger double eyed plants.

Cypripedium formosanum (japonicum var.formosanum).\$45.00ea
Ht. 40-50cm. Z6-7. This native of Taiwan has a large pale pink lip pouch, petals and sepals spotted darker pink. Leaves are rounded and pleated like a fan. Blooms early summer. This species is very easy to cultivate. Mature single eyed division. Probably the easiest species to cultivate.

Cypripedium franchetii\$59.95ea
Ht. 40cm. Z6. This species is closely allied to C.macranthum. Rose-purple flowers with darker veining. Native to China. Stems hairy. Rare in cultivation. Mature single eyed divisions

Cypripedium Francis (kentuckiense X speciosum)..... \$59.95ea
Ht.20-30cm. Z4. A hybrid between C. kentuckiense with C. speciosum which produces a plant with large variable reddish coloured flowers. Light colored form shown. Some forms have darker marking on the lip.

Cypripedium Francis (kentuckiense X speciosum)
Double eyed plants \$89.95ea

Cypripedium Gabriela (kentuckiense x fasciolatum) \$59.95ea
Ht.40cm. Z4. The huge flowers from fasciolatum and huge flowers from kentuckiense have merged in this beauty. Large creamy yellow lip often light marked with red, sepals and tepals a lovely rich reddish-brown.

Cypripedium Gabriela (kentuckiense x fasciolatum) \$89.00ea
Larger double eyed plant

Cypripedium Gisela (parviflorum x macranthos) ..Special \$49.95ea
Ht. 25cm. Z5. This is a robust garden hybrid and it is easy to grow. Flower tepals are a rich burgundy-red with lighter streaks that have a touch of yellow. The large, inflated pouch is creamy yellow streaked and infused with burgundy-red. Blooms start of yellow in bud, then age to burgundy-red. Bloom sized seedlings.

Cypripedium Gisela Yellow (parviflorum x macranthos) ..\$49.00ea
Ht. 25cm. Z5. By careful selection a more yellow form has been developed. These are all yellow with a lesser amount of red on the tepals and pouch. These are nice bloom sized seedlings. A nice vigorous hybrid.

Cypripedium Gisela Yellow (parviflorum x macranthos)
We have a few larger double eyed plants \$50.00ea

Cypripedium guttatum.....\$59.95ea
Ht.3-5cm. Z4. This has a deep cup-shaped lip pouch with the rim folded outwards. The base color is white covered with wine-red blotches. The sepals and tepals are white, overlaid with more wine red blotches. Must have a well drained site.

Cypripedium Hank Small (parviflorum x henryi)\$59.95ea
Ht.20-30cm. Z2. This dwarf hybrid looks like a superb small version of the European lady slipper. Similar to C.Emil.

Cypripedium Hank Small (parviflorum x henryi)\$89.95ea
Larger divisions with two eyes.

Cypripedium Hans Erni (franchetii x calceolus)..... \$59.00ea
Ht.40cm. Z4. This hybrid produces flowers with a white lip with deep cherry veining and deep cherry striping on the upright tepal and hanging sepals.

Cypripedium Hans Erni (franchetii x calceolus).....\$89.00ea
Larger double eyed plant

Cypripedium henryi \$69.95ea
Ht.60cm. Z7. This species is from China and is similar to the larger flowered C.calceolus with sepals and petals green to yellowish green. Lip bright yellow often spotted red.

Cypripedium Ivory (kentuckiense x cordigerum).....\$59.95ea
Ht.45cm. Z4. Large flowers with large white lip pouch with sepals and tepals lightly striped and freckled with mahogany brown. Bloom sized or near bloom sized seedlings.

Cypripedium Ivory (kentuckiense x cordigerum) Double eyed plants
.....\$89.95ea
Larger double eyed plants.

Cypripedium japonicum \$75.00ea
Ht.30-60cm Z5. This species has a lovely pair of leaves that are folded and pleated. Flowers have a large pink pouch with greenish sepals and tepals.

Cypripedium Jens (fasciolatum x shanxiense)\$69.00ea
Ht.40cm. Z4. The huge flowers from fasciolatum and coloration from shanxiense produces large flowers in a unique orange-red hue.

Cypripedium Kathleen Ann Green (kentuckiense x henryi)\$59.00ea
Ht.30-50cm. Z4. Stunning flowers have a soft primrose yellow pouch and sepals and tepals spotted and streaked with burgundy red. Bloom sized seedlings. Only a few available.

Cypripedium Kathleen Ann Green (kentuckiense x henryi).....
Larger double eyed plant, Only a few available\$99.00ea

Cypripedium kentuckiense \$59.00ea
N.A.Native. Ht.50cm. Z4. A huge stunning flower with large white to creamy yellow lip pouch and darker mahogany red brown tepals and sepals. We offer six year old seedlings that are at or near bloom size.

Cypripedium kentucky Pink Blush Special.. \$39.00ea
Ht.50cm.Z4. A huge stunning flower with large white to creamy yellow lip pouch blushed pink and darker tepals and sepals. A complex hybrid with C.kentuckiense at its core. Bloom sized plant.

Cypripedium kentucky Pink Blush Larger double eyed plant Special
\$59.00ea

Cypripedium kentucky Pink..... Special.. \$39.00ea
Ht.50cm.Z4. A huge stunning flower with large pink lip pouch and long pink sepals. A complex hybrid with C.kentuckiense at its core. Bloom sized plant.

Hardy Orchids-Ferns

Cypripedium kentucky Pink Larger double eyed plant.....Special \$59.00ea

Cypripedium kentuckiense x microsaccus..... \$79.00ea
N.A.Native. Ht.50cm. Z4. An excellent hybrid between kentuckiense x microsaccus. *Cypripedium microsaccus* is a natural hybrid of (calceolus x shanxiense)! A huge stunning flower with large red infused lip and reddish sepals and tepals. Bloom sized seedlings. Awesome.

Cypripedium kentuckiense x microsaccus\$109.00ea
Larger double eyed plant

Cypripedium Kristi Lyn (pubescens x henryi)\$79.95ea
Ht. Z4. Large pure yellow pouch with striking brown striped sepals and tepals. Tepals are nicely twisted. Bloom sized seedlings.

Cypripedium Kristi Lyn (pubescens x henryi)\$139.95ea
These are near bloom sized double eyed rhizomes.

Cypripedium Lady Dorine (C.fasciolatum x formosanum) \$69.00ea
Ht. 30cm. Z4. Wow, what a cool cross! Large inflated ribbed white lip with pink spots around the lip and inside the pouch. A few pink spots on the sepals add to the overall affect. Plants increase well when happy.Mature single eyed division.

Cypripedium Lady Dorine Larger, double eyed plants. \$99.00ea

Cypripedium Lady Dorine Larger, triple eyed plants. \$119.00ea

Cypripedium macranthos (C.macranthum).....\$69.95ea
Ht. 35-45cm. Z5-6. This is considered by some to be the showiest of all Cyps. Large, usually deep purple flowers are somewhat checkered on the lip. Mature single eyed divisions. Must be in well drained soil.

Cypripedium macranthos (C.macranthum).....\$109.95ea
Larger divisions with two eyes.

Cypripedium macranthos album (C.macranthum album).\$89.95ea
Ht. 35-45cm. Z5-6. A lovely white flowered form of the species. Maybe a little easier to grow. Mature single eyed divisions.

Cypripedium macranthos var. Hotei-atsumorianum\$89.00ea
Ht.50cm. Z4. An excellent variety of macranthos from Honshu, Japan that is sometimes listed as a separate species. Fantastic flowers with an extra wide inflated pouch in shades of violet-purple-red. Bloom sized seedlings. More difficult than others

Cypripedium Michael \$59.95ea
Ht. Z4. Large flowers usually with a large, wide slightly corrugated lip. Lovely rich purple red coloration with darker venation. Near bloom sized plants.

Cypripedium micranthum..... **Fall only** \$59.95ea
Ht.10cm. Z4. A dwarf species with yellow sepals heavily striped with dark reddish brown, pouch deep yellow striped dark brown. Flower stem and outer surface of sepal is densely coated with fine red hairs. Grows in open woodland settings. Easy to grow. **Fall only.**

Cypripedium memoriam Gerd Kohls (calceolus x henryi)\$60.00ea
Ht. 60cm. Z4. This hybrid combines the bright yellow lip and burgundy-brown tepals of the European C.calceolus with the trait of bearing multiple flowers on each stem from C. henryi. Mature, seed raised bloom sized plants.

Cypripedium memoriam Gerd Kohls Double eyed plants\$109.00ea

Cypripedium memoriam Shawna Austin (hotei x calceolus)\$69.00ea
Ht. 60cm. Z4. This hybrid between macranthos var. hotei-atsumorianum and calceolus is awesome. Flowers are variable but generally plum coloured sometimes with the creamy yellow showing through on the pouch. Mature, seed raised bloom sized plants.

Cypripedium memoriam Shawna Austin Double eyed \$109.00ea

Cypripedium montanum Fall only \$79.95ea
Native. Ht.25-65cm. Z4. Showy flowers have twisted maroon-brown sepals and petals with a large white lip pouch. Plant in well drained soil in full sun to full shade. Protect from winter moisture. We offer single eyed, near bloom sized plants.

Cypripedium Monto (hotei-atsumorianum x fasciolatum).\$69.95ea
Ht.45cm. Z4. Huge light-reddish-pink pouch with a very dark ring around the mouth and darker striping on the sepals and tepals. Bloom sized or near bloom sized seedlings.

Cypripedium Monto (hotei-atsumorianum x fasciolatum). \$99.95ea
Larger double eyed plants.

Cypripedium parviflorum var. pubescens (C. pubescens)Special \$25.00ea

N.A.Native. 30-45cm. Z2. This is the larger flowered yellow North American native lady slipper. Flowers are medium sized to large with yellow sepals and petals often streaked with deep rusty brown, and a yellow lip pouch with magenta spots and streaks within. Requires shade to bright shade in humus-rich, well drained, sandy soil. Available as mature single eyed garden divisions. Most will bloom.

Cypripedium parviflorum var. pubescens (C.calceolus var. pubescens) \$49.99ea
Larger divisions with two eyes.

Cypripedium parviflorum var. parviflorum\$44.95ea
N.A.Native. 20-30cm. Z2. This is the smaller flowered yellow North American native lady slipper. Intense yellow pouch and darker brown sepals and tepals.

Cypripedium passerinum\$55.00ea
Native. We are offering 5-6 year old seedlings that will bloom this year or next. White flowers.

Cypripedium Paul (parviflorum x franchetii)\$79.95ea
Ht. Z4. Large primrose yellow or creamy white pouch finely lined in red with red trim around the mouth. Tepals and petals are lined more heavily in the rich red. These are bloom sized seedlings.

Cypripedium Paul (parviflorum x franchetii)\$139.95ea
Ht. Z4. Large primrose yellow or creamy white pouch finely lined in red with red trim around the mouth. Tepals and petals are lined heavier in the rich red. These are bloom sized or near bloom sized double eyed rhizomes.

Cypripedium Philipp (macranthos x kentuckiense)..... \$69.95ea
Ht.45cm. Z4. Combine the huge flower of C.kentuckiense with the colouring of C.macranthos and you have C.Philipp. Large soft pinky-purple flowers with large white lip delicately suffused with pink. Near bloom sized seedlings.

Hardy Orchids-Ferns

Cypripedium Philipp (macranthos x kentuckiense) \$99.00ea
Larger double eyed plants

Cypripedium Philipp (macranthos x kentuckiense) \$119.00ea
Larger triple eyed plants

Cypripedium Pixi (calceolus x tibeticum) \$69.95ea
Ht.45cm. Z4. A lovely hybrid with flowers the rich dark maroon color of port wine. Bloom sized seedlings.

Cypripedium pubescens x shanxiense \$89.00ea
Ht.40cm. Z4. Wonderful large lip pouch in a rich orange-red infused over yellow with darker russet-red tepals and sepals.

Cypripedium pubescens x shanxiense \$139.00ea
Larger double eyed plant

Cypripedium Rascal (kentuckiense x parviflorum) \$69.00ea
Ht. Z4. Huge flowers of C.kentuckiense and the intense coloring of the North American C.parviflorum give this great coloration and good size. Large yellow lip and long twisted maroon-red tepals. Near bloom sized seedlings.

Cypripedium Rascal Larger double eyed plant \$99.00ea

Cypripedium reginae Special \$39.00ea
N.A.Native. Ht. 90cm. Z4. The showiest of all North American Cyps. The flowers have white sepals and petals, a large pink lip pouch and a white staminode with a yellow blotch and red spotting. These are five year old seedlings that should bloom soon.

Cypripedium reginae \$49.00ea
Larger, double eyed plants. Limited quantity.

Cypripedium reginae alba Special \$44.00ea
N.A.Native. Ht. 90cm. Z4. The rarer pure white form of the species. Mature single eyed plants.

Cypripedium Sabine (fasciolatum x macranthos) \$59.99ea
Ht. Z4. Huge flowers have a large white lip with a faintly infused pink venation and heavier venation on the sepals and petals. Bloom sized seedlings.

Cypripedium Sabine (fasciolatum x macranthos) \$89.99ea
Larger Double eyed plants..

Cypripedium Sabine Pastel (fasciolatum x macranthos) \$69.00ea
Ht. Z4. Huge flowers have a large white lip and petals often with a few pink hairs at the base. Near bloom sized seedlings.

Cypripedium schoko (calceolus x shanxiense) \$59.00ea
Ht.30cm. Z3. A recreation of a wild hybrid with fragrant flowers. The lip pouch is yellow and totally infused with mahogany red. The sepal and tepals are usually a chocolaty mahogany. Schoko is German for chocolate.

Cypripedium schoko larger double eyed plants \$89.00ea

Cypripedium Segawai \$65.00ea
Ht.20cm. Z6. This species is rare in cultivation with a vibrant yellow flower often with a touch of red infused into the bottom of the pouch and a few red spots on the pistol.

Cypripedium Saggi (C.Froschii x C.calceolus) \$59.00ea
Ht. 30cm. Z4. This hybrid between the new species C.froschii and the European calceolus is fantastic. Nice soft pastel-pink lips with deeper reddish veining with a darker lip opening. Sepals and petals are darker burgundy. I want one of these! Mature single eyed division.

Cypripedium Saggi \$89.00ea
Larger, double eyed plants.

Cypripedium Saggi \$109.00ea
Larger, triple eyed plants.

Cypripedium speciosum x hoteli-atsumorianum \$59.00ea
Ht. 30cm. Z4. A great cross resulting in a well colored large, fat lipped plant that is vigorous when happy. Mature single eyed division.

Cypripedium speciosum x hoteli-atsumorianum \$89.00ea
Larger, double eyed plants.

Cypripedium speciosum x hoteli-atsumorianum \$109.00ea
Larger, triple eyed plants.

Cypripedium Sunny (fasciolatum x calceolus) \$59.95ea
Ht.20-30cm. Z4. A hybrid that produces a showy yellow flower with a huge lip pouch and mahogany tepals. This hybrid is more vigorous than the parents.

Cypripedium Sunny larger double eyed plants \$89.95ea

Cypripedium tibeticum \$65.00ea
Ht.30cm. Z4. From the Himalayas and China; is closely related to C.macranthum. Sepals and petals streaked and dotted maroon; lip, large streaked dark purple. Mature single eyed division.

Cypripedium tibeticum \$89.00ea
Larger, double eyed bloom sized plants.

Cypripedium Tilman (C.fasciolatum x C.tibeticum) \$59.00ea
Ht. 30cm. Z4. This hybrid between two large flowered chinese species is choice. Large rounded lip of pale pink to soft ivory with a hint of rich red staining at the base. Sepals and petals streaked. Easy to culture plant. Mature single eyed division.

Cypripedium Tilman \$89.00ea
Larger, double eyed plants.

Cypripedium Tilman \$109.00ea
Larger, triple eyed plants.

Cypripedium Ulla silkens (flavum x reginae) \$49.00ea
Ht. 25-35cm. Z3-4. Wow! This produces plants with white sepals and petals and a large white lip pouch with a varying amount of red spotting on the lip. The red lip spotting may only be in the center and around the pouch opening or there may be a red flush over the front half of the lip. Also the sepals might have a faint red spotting. Near to bloom sized plants.

Cypripedium Ulla silkens (flavum x reginae)
Double eyed plants. \$89.00ea

Hardy Orchids-Ferns

Cypripedium Ursel (*fasciolatum* x *henryi*)\$79.95ea
Ht. Z4. Large yellow pouch with darker yellow tepals and petals. Plants produces multiple flowers per flower stalk with age. These are near bloom sized seedlings.

Cypripedium Ursel (*fasciolatum* x *henryi*)\$139.95ea
Ht. Z4. Large yellow pouch with darker yellow tepals and petals. Plants produces multiple flowers per flower stalk with age. These are near bloom sized. Double eyed rhizomes.

Cypripedium x ventricosum\$69.00ea
This is a hybrid between the reddish *C. macranthos* and the yellow and brown *C. calceolus*. Colour is fairly variable in this hybrid, however, we have found the flower shape tends towards *C. calceolus*. Only a few available.

Cypripedium x ventricosum\$109.00ea
Larger double eyed plants

Cypripedium x ventricosum light\$79.00ea
AKA *Cypripedium Ventricosum Pastel*. This is a hybrid between the white *C. macranthos album* and the yellow and brown *C. calceolus*. The result is a magnificent plant with a large white to creamy white pouch, sepals and tepals often with a small amount of red speckling on the tepals.

Cypripedium x ventricosum light\$109.00ea
Larger double eyed plants

Cypripedium Victoria (*pubescens* x *fasciolatum*)\$79.95ea
Ht. Z4. Large sulphur-cream colored pouch that fades to white with time and large broad tepals and petals of rich red brown. These are near bloom sized seedlings.

Cypripedium Victoria Double eyed rhizomes\$139.95ea

Cypripedium Vicky's Delight (*C. Ulla Silkens* X *C. Ulla Silkens*)\$69.00ea
.....Double eyed Plant \$99.00
Ht. 25-35cm. Z3-4. Wow! This produces plants with white sepals and petals and a large white lip pouch with a varying amount of red spotting on the lip. This is a great vigorous new hybrid.

Dactylorhiza

These wonderful hardy ground orchids are currently widely planted throughout Europe. Initially the flower stalks are short but as they get older the flower stalks get longer and fuller and the flowers get larger. Mature plants are stunning. All sprout from a tuber and multiply freely if the conditions are right. Most prefer humus-rich soil with good drainage. All our plants are grown from seed that is open pollinated so expect some variability.

Dactylorhiza alpestris Alpine Orchid.....\$29.00ea
Ht. 50-70cm. Z4. Leaves usually densely spotted with deep violet purple. Flowers are dark purple with the lip being well-patterned all over with deeper red-purple marks. Blooms late spring to early summer.

Dactylorhiza maculata Heath spotted Orchid\$18.00ea
Ht. 60cm. Z5. Spikes of pink flowers with purple stencilling. Leaves usually spotted. Blooms late spring to early summer.

Dactylorhiza maculata larger plants.....\$29.00ea

Dactylorhiza pardalina Leopard spotted Orchid.....\$29.00ea
Ht. 70cm. Z6. Usually well spotted leaves and rich purple-pink flowers with well marked lip. Blooms late spring to early summer.

Dactylorhiza praetermissa Southern Marsh Orchid\$18.00ea
HT. 20-70cm. Z6. Spikes of pale purple flowers with fine darker spots on the lip. The most gardenworthy of the English species and it will form sizeable colonies if planted in moist peaty compost with added leaf mold. Leaves spotted or not. Bloom sized plants, most will bloom this year. This is definitely one of the showiest species in the genus.

Dactylorhiza purpurella Northern Marsh Orchid\$18.00ea
Ht. 40cm. Z4. This is one of the hardiest of the *Dactylorhizas*. Leaves usually spotted near the apex, flowers in dense spikes in shades from pale claret to maroon-red. Most are a deep dark purple with long lasting flowers. Small bloom sized plants that will get much larger with time.

Dactylorhiza purpurella Larger plants\$29.00ea

Eleorchis japonica \$25.00ea
Ht.40cm. Z4. A bog orchid from Japan and Russia with bright pink flowers. Easy to grow in well drained chopped sphagnum. Comes from a small pseudobulb that multiplies well.

Eleorchis japonica alba..... \$25.00ea
Ht.40cm. Z4. A bog orchid from Japan and Russia with bright white flowers. Easy to grow in well drained chopped sphagnum. Comes from a small pseudobulb that multiplies well.

Epipactis helleborine \$15.00ea
Ht.40-100cm. Z6. This is one of the few orchids that will self sow. Flowers are usually greenish with a purple blush in spikes of up to 50 flowers. Easy to grow.

Epipactis palustris..... \$25.00ea
Ht.50cm. Z6. This attractive orchid bears a loose spike with flowers having a ruffled white lip and white petals with rose pink markings set in front of darker burgundy brown sepals. Easy to grow.

Epipactis royleana \$25.00ea
Ht.50cm. Z6 Flowers are very showy in shades dark pink red to deep dark red. On trusses of up to 15 per stem. Small plants

Epipactis x 'Sabine'\$25.00ea
Ht.50-90cm. Z6. This hybrid between *E.gigantea* and *E.palustris* has showy flowers with yellow-green petals with red-brown flushing and a yellow and white lip. Great clumper. Easy.

Epipactis thunbergii..... \$30.00ea
Ht.50cm. Z6 Flowers are very showy in shades of yellow, orange-yellow and tangerine on 60cm tall stems. Each flower has an intricate pattern in shades of pink, and hot pink and orange marks on the lip.

Goodyera oblongifolia Rattlesnake-plantain Orchid\$9.50ea
Native. Fl.Ht. 20-30cm. Z6. Evergreen. Dark green oblong leaves patterned with variable white markings in a basal rosette. Inconspicuous flowers are greenish in a terminal spike. Prefers humus-rich soil in shade to semi-shade.

Goodyera oblongifolia Willard \$20.00ea
Native. Ht. 1-3cm. Z2. A clonal selection with very good mottling on the leaves.

Pectelis radiata (Habenaria radiata) \$10.00ea
 Ht.45cm. Z8. This tiny hardy ground orchid has green lanceolate leaves and pure white, fragrant flowers with jagged white margins. This is an easy to grow species forming large showy colonies over time. Plants arise from a very small tuber, smaller than a pea. Plant in humus rich soil in semi-shade.

Platanthera dilatata Fragrant White Rein Orchid \$29.95ea
 Ht.15-100cm. Z4. Very fragrant white flowers held in terminal clusters. Easy to grow in semi-shade in peaty soil.

Platanthera stricta Slender Rein Orchid \$29.95ea
 Ht.15-100cm. Z4. Spikes of light green flowers. Easy to grow in semi-shade in peaty soil.

Pleiones

Pleiones are a genus of near-hardy orchids originating in the Himalayas and the mountainous regions of China. Most species and hybrids produce their incredible flowers in Spring. They grow in a variety of habitats from moss covered rocks to leaf litter under shrubs, but always in sites with excellent drainage. For most, the rules of cultivation are simple: Do not over water in early Spring as the new roots emerge and once the plant has developed a root system, feed regularly with a well balanced liquid fertilizer. Finally, a rest period is required during the winter with a low temperature of 0-4C for a time. On the west coast many people are growing Pleiones outdoors in well drained beds in sheltered conditions, as we do in our own garden. However, it is rather risky. The genus has minimal cultivation requirements which make them ideal for growing in the home, in a coldframe or in a cool greenhouse. If a mature pseudobulb is fed well it will produce two or more new pseudobulbs each year. The old one shrivels and should be discarded in fall. Most species will also produce a small bulbil atop the old pseudobulb which can be grown in two or three seasons to bloom size. Most species are easy to grow indoors or out (with protection) in very free draining humus rich soil (we generally use 40:40:20 peat and perlite and sand mix). For those of you who make a trip to the Nursery, we have other species and hybrids that we are still multiplying to the point where we can sell them.

Pleione albiflora 'Pinchbeck Diamond'\$24.50ea
 Large flowers of mauve pink with yellow keels and red spotting on the lip. Blooms very early. Some consider this a hybrid now but as always, we are slow with name changes.

Pleione aurita (P.chunii)\$22.00ea
 This relatively new species was discovered and introduced into cultivation in 1988. Large pale, rose pink or purple flowers with yellow or orange yellow lip striping. Showy and easy to grow.

Pleione formosana
 \$6.00ea
 The most frequently grown pleione. The species and all of the

Hardy Orchids-Ferns

cultivars are very easy to grow, multiply and bloom. Flower color ranges from white to rose pink with a whitish lip with yellow or reddish markings. Most or all will be pink.

Pleione formosana 'Achievement' **Fall only** \$10.00ea
 Pseudobulbs purplish, flowers pale mauve-pink with a large heavily blotched lip.

Pleione formosana 'Blush of Dawn'\$9.50ea
 Pseudobulbs green, flowers are large creamy white flushed with pale pink and lip is marked yellow and brown.

Pleione limprichtii **Fall only** \$12.00ea
 We finally have a much better supply of this, the only truly hardy pleione. Flowers pink to rose magenta, lip spotted with red and lamellae white. This is thought to be the hardiest Pleione, surviving minus 20C in dry conditions.

Pleione speciosa (P. pleionoides)\$10.00ea
 Large rose purple flowers with yellow markings on lip. We have had several bloom with two flowering stems per pseudobulb and two flowers per stem

Pleione Hybrids

Pleione Barcena(P. formosana x P. praecox) \$24.00ea
 This hybrid has deep pink flowers with deep yellow and red throat markings. Blooms in early winter. One of the most reliable bloomers.

Pleione Brigadoon(P.Confusa x P.pleionoides)\$24.00ea
 This hybrid has mauve to violet flowers with a lip marked with red and yellow or sometimes with a solid red base.

Pleione Fuego (P.bulbocodioides x P. formosana)\$12.00ea
 Flowers are varying shades of lilac mauve with very frilled lips with dark red spotting inside. **Fall only.**

Pleione Orinico(P.Tongariro x P.Eiger)\$12.00ea
 Early, light purple flowers with red spotting on lips.

Pleione Piton (P.formosana x P.yunnanensis)\$16.00ea
 An excellent variety with long lasting flowers of pale lavender (almost streaked onto white background) with purplish red or violet markings on the lip. Very reliable.

Pleione saxicolat \$12.50ea
 Ht. 10-20cm Z8. An autumn flowered species with deep rose coloured flowers. The lip has three white frills on it that are lightly marked with yellow. This one needs a bit of moisture throughout the year and likes a bit of fine bark in the growing mix.

Pleione Tolima (P.speciosa x P.formosana)\$16.00ea
 A variable cross with mauve pink to very rose-purple flowers and the lip is most often marked with red and yellow.

Pleione Vesuvius(P.bulbocodioides x P. confusa) \$9.50ea
 Large flowers of dark pink to mauve, lips are well frilled and speckled and spotted with dark pink or red. Most clones have yellow throat and many are fragrant. This is one of the showiest and the easiest one to grow. Very reliable.

Pleione Volcanello(P.Soufrière x P.bulbocodioides) \$14.00ea
 Purple-pink flowers with a red spotted lip and bright yellow keels.

Hardy Orchids-Ferns

the garden over time. Another great fern from Asia.

Pogonia ophioglossoides Rose Pogonia \$25.00ea
N.A. Native. Ht. 50-75cm. Z4. From the smallest rootstock imaginable, with one or two tiny brown roots, comes a single leaf and a large showy rose-pink flower. Forms a nice colony over time.

Ponerorchis graminifolia (Orchis graminifolia) \$18.00ea
Ht. 8-15cm. Z6. This is an easy to grow Japanese ground orchid with a splendid range of colors. Flowers range from pink to purple to white and bicolors. A perfect one for the rock garden. Plant in well drained soil and supply moisture during the growing season. We offer 3-4 year old, bloom sized seedlings. Tubers are naturally small, about the size of a pencil eraser.

Spiranthes cernua var. odorata 'Chadds Ford' \$22.00ea
N.A. Native. Ht. 50-75cm. Z4. Rosettes of shiny leaves produce, at summers end, spires of small fragrant sparkling white flowers.

Ferns

Adiantum aleuticum Western Maidenhair 1 gal \$10.00ea
Native. Ht. 40cm. Z3. Recently, this western form of Maidenhair fern has been separated from the eastern form, *A. pedatum*, as a separate species. This form has slightly more erect fronds and the pinnae overlap a touch, but both plants are very similar. To make matters worse, *A. pedatum* is still found out west in disjunct populations.

Adiantum aleuticum imbricatum 10cm pt \$5.00ea
..... 1gal \$10.00ea
Ht. 15-30cm. Z2. This is a rarely offered and very lovely dwarf form of the typical Maidenhair Fern. It quickly forms a nice, full clump.

Adiantum pedatum Maidenhair Fern 1 gal \$10.00ea
Native. Ht. 40cm. Z3. Deciduous. Delicate fan shaped fronds with green lacy leaves set atop black shiny stems. Plant in moist humus-rich soil in shade to part shade. Most Northwest plants are now considered *A. aleuticum* but not all. At any rate, both are very similar.

Adiantum pedatum 'Miss Sharples' 1gal \$10.00ea
Ht. 30-45cm. Z3. Golden Maidenhair Fern. The original plant was given to the well known British Nurseryman Reginald Kaye many years ago by Miss Sharples. A great maidenhair with broader pinna segments and a lighter yellow-green coloration.

Adiantum venustum Himalayan Maidenhair Fern 1gal \$10.00
Ht. 40cm. Z5. A fantastic maidenhair that is evergreen in most areas. New growth is pinkish. Makes an excellent groundcover in a shady spot. This is one of the most sought after ferns.

Adiantum x Tracyi Tracy's Maidenhair Fern \$10.00ea
Ht. 20-60cm. Z6. This is a natural hybrid between *Adiantum aleuticum* and *Adiantum jordanii*. Another hardy evergreen maiden hair fern.

Arachniodes aristata var. variegata Variegated East Indian Holly Fern \$10.00ea
Ht. 30-60cm. Z6. Evergreen. This extremely showy fern has dark, waxy green, broadly triangular fronds with a light yellow green band that runs along the pinna axis.

Arachniodes miqueliana Miquel's Fern 10cm pot \$5.00ea
Ht. 45cm. Z5. Long creeping rhizome slowly makes a nice cluster in

Asplenium platyneuron Ebony Spleenwort 10cm pot \$8.00ea
N.A. Native. Ht. 40cm. Z5. A lovely little fern for the collector. Only a few small plants available.

Asplenium trichomanes Maidenhair Spleenwort 10cm \$5.00ea
Native. Ht. 30cm. Z2. Evergreen. Vigorous, small fern with deep green, maidenhair fern-type foliage. Best in dryish rockery or walls in shade to part shade. Our most popular small Fern.

Asplenium trichomanes Cristatum Crested Maidenhair Spleenwort 10cm \$6.00ea Ht. 30cm. Z2. Evergreen. We have the crested form of the species! The end of most fronds branches into a crest. Plants will be small for spring. This one is rarely offered.

Athyrium angustum f. rubellum Lady In Red 1gal \$10.00ea
Ht. 75-90cm. Z3. Fantastic burgundy-red coloured stems create a sharp contrast with the green fronds. Plants must undergo a winter dormancy for bright colour to appear.

Athyrium asplenoides. Southern Lady Fern 1gal \$10.00ea
N.A. Native. Ht. 45-90cm. Z4. Broad triangular upright fronds form nice clumps over time. Shade to part sun.

Athyrium Branford Rambler Running Lady Fern \$5.00ea
Ht. 45-60cm. Z4. A hybrid between *Athyrium filix femina* and *Athyrium nipponicum*. A great deciduous groundcover fern with lovely green foliage and red tones on the stem.

Athyrium filix-femina (*A. cyclosorum*) Lady Fern .. 1gal \$10.00ea
Special five plants for \$30.00
Native. Ht. 60-150cm. Z2. Deciduous. Lacy looking fronds are bright green. Clumps are dense, easy to grow, great in shade to part sun; or even in sun in a wet site.

Athyrium filix femina 'Dwarf Form' \$5.00ea
Ht. 20-30cm. Z2. A great dwarf selection that only gets 12" tall.

Athyrium filix femina 'Encourage' \$15.00ea
A great new selection from a batch of sporlings of *A.f.f. 'Vernoniae cristatum'*. This selection has special crested and tassled fronds.

Athyrium filix-femina 'Frizelliae' Tattling Fern 10cm \$5.00ea
Ht. 30-45cm. Z2. This distinctive form of the lady fern has small, rounded pinnae which give the fronds a very narrow, almost necklace-like appearance.

Athyrium filix-femina 'Rotstiel' 10cm pot \$5.00ea
Ht. 60-150cm. Z2. Red Ribbed Lady Fern. This selection tends to have red stems and stipes with the typical green pinnae.

Athyrium filix-femina 'Victoriae type' \$10.00ea
Ht. 70-100cm. Z2. This spectacular fern has paired (forked at their base) narrow pinnae with crested tips, which (like 'Fieldiae') are arranged into crosses; thereby, forming a lattice work of diamond shaped spaces. Truly the Queen of Green.

Athyrium filix-femina 'Vernoniae' Lady Fern 10cm pot \$5.00ea
Ht. 60-75cm. Z2. Deciduous. This distinctive selection has crisped fronds with each pinnule having a lacy edge. Found in the 1850's.

Ferns

Athyrium filix femina 'Vernoniae cristatum' Crested Lady Fern
.....10cm pot \$5.00ea
Ht. 60-75cm. Z2. Deciduous. A very classy form first introduced in England in 1873 with crested pinnae. Elegant and easy to grow.

Athyrium otophorum Eared Lady Fern.....10cm pot \$5.00ea
Ht. 30-45cm. Z4. Deciduous. This beautiful fern has pale green young fronds with maroon colored stems. With age, the fronds become dusky green in color with dark red stems. Very easy.

Athyrium niponicum 'Pictum Applecourt' Crested Japanese Painted Fern 10cm pot \$5.00ea
Ht. 30-45cm. Z4. Deciduous. A wonderful form of lady fern with crested fronds.

Athyrium niponicum 'Pictum' Japanese Painted Fern
.....1gal\$10.00ea
Ht. 30-45cm. Z4. Deciduous. Fronds are a soft, metallic grey color with reddish or bluish hues. Shade to part shade.

Athyrium niponicum 'Red Beauty' Red beauty Japanese Painted Fern
..... 10cm pot \$5.00ea
Ht. 30-45cm. Z4. Deciduous. Broad, upright habit with the grey foliage of Pictum, it also has attractive, reddish-brown tints which are especially attractive in the young foliage.

Athyrium pycnocarpon (Diplazium pycnocarpon) Glade Fern...
\$10.00ea
N.A.Native. Ht 60-90cm Z3. Arching green fronds with undivided lance shaped pinnae. Slowly forms a colony.

Athyrium thelypteroides Silvery Glade Fern \$12.00ea
N.A.Native. Ht.60cm. Z4. Broadly lance shaped green fronds with silvery undersides when spores are developing. Forms a nice colony over time.

Athyrium vidalii 1gal \$10.00ea
Ht.30-45cm Z6. A graceful fern with colorful reddish new growth.

Blechnum discolor Crown Fern.....5gal \$50.00ea
Z8. These are nice mature ferns with a 5-7cm diameter, 10-20cm tall trunk with light green fronds forming a nice shuttlecock. These form a colony of crowns over time.

Blechnum gibbum Silver Lady Dwarf tree Fern.....5gal \$50.00ea
Z10. A short growing Tree Fern, 3-4', with graceful showy fronds.

Blechnum nipponicum Japanese Deer Fern2gal \$25.00ea
Z6. Ht. 35cm. This is closely allied to B.spicant, our native Deer fern. The difference is the Japanese version has fronds that emerge a showy pink. Rare but easy to grow.

Blechnum penna-marina 10cm pot \$5.00ea
Ht.10-20cm. Z5. Evergreen. This form of the species is smaller than most. Fertile fronds are erect and sterile fronds lay more or less flat. New growth is reddish-rose in colour. Good for edging a semi-shaded path or as a small scale ground cover.

Blechnum penna-marina 'Cristatum' 10cm pot \$5.00ea
Ht.10-20cm. Z5. Evergreen. Fronds with crested tips.

Blechnum spicant Deer Fern 1 gal \$10.00ea
Native. Ht. 20-30cm. Z5. Evergreen. Dark green sterile fronds form regular flat rosettes. Narrow fertile fronds are held vertically.

Cryptogramma acrostichoides Parsley Fern..... 11cm pot \$10.00ea
Native. Ht. 12cm. Z2. Leathery parsley-like sterile fronds are wintergreen and die back in spring. Fertile fronds are taller and slender and are deciduous in autumn.

Cyathea smithii Rough Tree Fern.....5gal \$90.00ea
Larger sizes at the nursery priced from \$100.00-\$600.00
Z9. Ht.3M. From New Zealand. Large lance shaped fronds with abundant brown scales. Can also be grown indoors.

Cyrtomium caryotideum Fishtail Holly Fern10cm \$5.00ea
Ht. 30-60cm. Z6. Evergreen. Native to Japan and China, the leaflets are larger and softer in appearance than C. falcatum.

Cyrtomium falcatum Japanese Holly Fern.....10cm \$5.00ea
Ht. 30-40cm. Z7. Evergreen. Fronds look like Oregon Grape leaves; dark green, shiny and leathery. Individual pinnae look like holly leaves. Not as coarsely toothed as C.falcatum Rochfordii. Shade to part sun.

Cyrtomium fortunei 1gal \$10.00ea
Ht. 50-60cm. Z5. Dull pea green Oregon grape-like fronds with black scales on the stipe. Plant in shade to part sun, adds great texture to the shade garden.

Cyrtomium macrophyllum Large Leaved Holly Fern 1gal \$10.00ea
Ht. 30-75cm. Z6. Evergreen. This is similar to the other three Cyrtomium listed, except the leaflets are larger and the fronds are a light green in color. It can also be grown indoors.

Dennstaedtia punctilobula Hayscented Fern 1gal \$10.00ea
N.A.Native. Ht. 45-90cm. Z3. Deciduous. This delicate looking fern has light green, upright, arching fronds. It is found in light shade or open sun and spreads by slender underground rhizomes. Turns a soft yellow color in fall. A great groundcover fern.

Deparia okuboana \$5.00ea
Ht.50-75cm. Z5. Japanese glade Fern is a nice tall spreading fern for the woodland garden.

Deparia petersenii 10cm pot \$5.00ea
Ht 30cm Z6. Medium sized fern from the Philippines with pea green foliage can even be grown in full sun if given enough moisture.

Deparia pycnosora (Athyrium pycnosorum) \$5.00ea
Ht.90cm. Z4. The 'Tapering Glade Fern' is a superb deciduous fern for the woodland garden with green pubescent fronds.

Dicksonia antarctica Tasmanian Tree Fern 2gal \$39.00ea
.....5gal \$69.00ea
Fronds.50-250cm. Trunk Ht. 3-10Meters. Z7-8. Evergreen. This beautiful tree fern has a spreading crown of glossy green arching fronds atop a massive fibrous stem. At a young age it looks like a normal fern. Frond length increases rapidly but trunk height increases slowly. Grow in shade, sun or indoors.

Dicksonia fibrosa Wheki Ponga tree fern \$150.00 - \$500.00
Z9 (8). A nice tree fern with a thick stem and a large, arching crown of dark green leathery fronds.

Ferns

Dicksonia squarrosa Wheki Tree Fern 10-15cm short trunk \$90.00
Larger sizes at the nursery from \$100.00 - \$500.00
We have a nice selection of larger D.squarrosa at the Nursery.
Z9. Slender trunk with dark, shiny, prickly, arching deep green fronds up to 2meters in length.

Dryopteris affinis Golden-scaled Male Fern 10cm pot \$5.00ea
..... 1gal \$10.00ea
Ht. 60-150cm. Z4. Evergreen. This is a large fern which looks similar to D.filix-mas, except fronds are more leathery and the stipe is covered in golden scales. An adaptable fern that is happy in shade as well as in a part sun. Many selections made during the Victorian fern craze.

Dryopteris affinis 'Crispa' Crisped Golden-scaled Male Fern
..... 10cm \$5.00ea or 1gal \$10.00ea
Ht. 25-35cm. Z4. A beautiful small fern with crisped fronds.

Dryopteris affinis 'Crispa gracilis' Crisped Dwarf Golden-scaled Male Fern 10cm pot \$5.00ea
Ht. 15-20cm. Z4. A beautiful small fern with congested and crested fronds. Evergreen. One of the best dwarf evergreen ferns.

Dryopteris affinis 'Cristata Angustata' Narrow Crested Golden-scaled Male Fern 10cm pot \$5.00ea
..... 1gal \$10.00ea
Ht. 45-60cm. Z4. Evergreen. This is similar to 'The King' but fronds are narrower and shorter and the crests are fuller.

Dryopteris affinis 'Cristata The King' 10cm pot \$5.00
..... 1gal \$10.00ea
Ht. 70-100cm. Z4. Evergreen. New frond stalks are densely covered in golden brown scales. Old fronds are dark glossy green and leathery. Fronds are crested when mature. Robust fern for shade to part sun.

Dryopteris affinis cambrensis Insubrica 10cm pot \$5.00ea
This is a subspecies of dryopteris affinis.

Dryopteris affinis 'Pinderii' Narrow Golden scaled Male Fern
..... 10cm pot \$5.00ea
Ht. 70-90cm. Z4. Evergreen. An elegant version of the species with very narrow fronds, much tapered at both base and apex. Somewhat similar to D. filix-mas 'Barnesii'.

Dryopteris affinis 'Polydactyla Dadds' 10cm pot \$5.00ea
..... 1gal \$10.00ea
Ht. 60-120cm. Z4. Evergreen. This is similar to 'The King' but the fronds are wider and the crests are long finger-like tassels rather than wide fans.

Dryopteris affinis 'revolvens' Recurved Goldenscale Male Fern
..... 10cm pot \$5.00ea
Ht. 90-100cm. Z6. Semi-evergreen. A lovely urn shaped fern with pinnae that curve downwards at the margins.

Dryopteris atrata Shaggy Sheild Fern 1gal \$10.00ea
Ht. 20-50cm. Z7. Evergreen. Light green fronds with distinctive black hairs (scales) which clothe the frond stalk. Shade to part sun. Very easy to grow.

Dryopteris x australis 10cm pot \$5.00ea
Ht. 100-150cm. Z5. One of the great ferns for the garden. Tall slender .dark green fronds.

Dryopteris austriaca Until recently this was the correct name for Spiny Wood Fern. It has now been changed to D.expansa and the European equivalent has been restored to D.dilatata. In any case they are both similar, easy to grow ferns.

Dryopteris x bootii Boot's Wood Fern 1gal \$10.00ea
N.A.Native. Ht. 45-90cm. Z2. Evergreen. This is a natural hybrid between D.cristata X D.intermedia. It has tall fronds with horizontally tilting pinnae giving them an almost venetian blind-like appearance. Best in shade or semishade.

Dryopteris carthusiana Narrow Buckler Fern 10cm pot \$5.00ea
..... 1gal \$10.00ea
N.A.Native. Ht. 50-90cm. Z5. Evergreen. Fronds are light green and widely used by florists for cut foliage. Very easy fern to grow in shade to part sun.

Dryopteris celsa Log Fern 1gal \$10.00ea
N.A.Native. Ht. 75-120cm. Z5. Evergreen. An easy to grow, large, dark green, shiny leaved fern that normally grows on rotting logs or in rich soil in a woodland setting.

Dryopteris clintoniana 10cm pot \$5.00ea
Ht. 60-90cm. Z4. Narrowly lance shaped fronds on this elegant easy to grow fern. We've sold this as D.claytoniana in the past.

Dryopteris crassirhizoma (Dryopteris bushiana) Thick-stemmed Wood Fern 1gal \$10.00ea
Ht. 60-105cm. Z5. Semi-evergreen. The massive crown of this fern and the stems are covered with long brown scales. The fronds form a perfect vase shape on the forest floor making this fern an ideal specimen plant.

Dryopteris cristata 10cm pot \$5.00ea
Native. Ht. 30-90cm. Z3. Evergreen. A nice fern with stiffly erect fertile fronds with the pinnae being at right angles to the plane of the fronds. The sterile leaves are more arching.

Dryopteris dilatata Crispa Whiteside 10cm pot \$5.00ea
Ht. 60cm. Z3-4. First grown by Robert Whiteside in England. An attractive semi-evergreen fern with broadly triangular, erect, arching fronds that have a crispy texture. Part sun to shade.

Dryopteris dilatata 'Grandiceps' 1gal \$10.00ea
Ht. 60cm. Z4. Semi-evergreen. Large dense crests terminate the fronds, and pinnae are terminated with small crests.

Dryopteris dilatata 'Jimmy Dyce' Jimmy's Upright Broad
Buckler Fern 10cm pot \$5.00ea
Ht. 50-60cm. Z4. Evergreen. Very nice dark green, stiffly erect fern. This fern was originally collected by Jimmy Dyce from the Isle of Arron. Easy to grow in shade to part sun.

Dryopteris dilatata 'Lepidota Cristata' Lacy Crested Broad Buckler Fern 10cm pot \$5.00ea
..... 1gal \$10.00ea
Ht. 25-40cm. Z4. Evergreen. Finely cut dark green leaflets with crested tips make the fronds resemble parsley. Shade to part sun, very easy to grow.

Ferns

***Dryopteris dilatata* 'Recurvata'** Recurved Broad Buckler Fern
.....1gal \$10.00ea
Ht. 45-60cm. Z4. Evergreen. Lacy looking, triangular fronds with edges and tips that curl down so the overall effect is almost weeping. Shade to part sun.

Dryopteris erythrosora Autumn Fern..... 10cm pot \$5.00ea
1gal \$10.00ea
Ht. 20-45cm. Z6. Evergreen. New fronds are coppery-bronze, contrasting against the older dark green fronds. Easy to grow in shade to part sun.

***Dryopteris erythrosora* 'Prolifica'** Proliferous Autumn Fern
..... 1gal \$10.00ea
Ht. 20-45cm. Z6. Evergreen. Similar to *D.erythrosora* but has narrower segments which make it lacier in appearance. Rarely, plantlets are produced on the upper surface along the midriff of the frond.

Dryopteris expansa Spiny Wood Fern or Broad Buckler Fern
..... 1gal \$10.00ea
Native. Ht. 60-100cm. Z4. Evergreen. Until recently this fern was known as *D.austriaca* or part of the *D.dilatata* complex. This fern has many different latin and common names so don't get confused. It is a vigorous fern, which forms a rosette of broad, triangular medium green fronds. Shade to part sun; easy to grow.

Dryopteris filix-mas Male Fern 10cm pot \$5.00ea
Native. Ht. 60-90cm. Z2. Semi-evergreen. Elegant fronds of lacy dark green leaves. Robust and easy to grow fern in shade to part sun.

***Dryopteris filix-mas* 'Barnesii'** Barne's Narrow Male Fern
..... 10cm pot \$5.00ea
Ht. 90-120cm. Z2. Semi-evergreen. A very attractive and distinct variety with long narrow fronds which give it a tall narrow profile.

***Dryopteris filix-mas* 'Cristata'** 1gal \$10.00ea
Ht. 60-90cm. Z2. Semi-evergreen. The fronds and pinnae on this showy form are crested.

***Dryopteris filix-mas* 'Crispa Cristata'** 10cm pot \$5.00ea
Ht. 60-90cm. Z2. Semi-evergreen. The fronds are crispy with lightly crested pinnae and frond tips.

***Dryopteris filix-mas* 'Crisspatissima'** Crinkled Male Fern
..... 1gal \$10.00ea
Ht.20-35cm. Z2. Semi-evergreen. This form has narrow upright fronds with crinkled margins to the leaflets (pinnules). Introduced by the late Reginald Kaye.

***Dryopteris filix-mas* 'Grandiceps'** 10cm pot \$5.00ea
Ht. 45-100cm. Z4. Semi-evergreen. This strong grower has large erect arching fronds with a large arching terminal crest and crested pinnae. Elegant and stately in appearance.

***Dryopteris filix-mas* 'Linearis polydactyla'**
Many Fingered Male Fern 1gal \$10.00ea
Ht. 50-80cm. Z4. Semi-evergreen. Lacy, fine textured fronds with forks or crests at the tips of each leaflet. Shade to part sun.

***Dryopteris filix-mas* 'Parsley'** Parsley Male Fern 10cm pot \$5.00ea
Ht. 45-60cm. Z4. Semi-evergreen. A new unusual form with crinkled and crested dark green fronds.

Dryopteris formosana Limelight Fern..... 10cm pot \$5.00ea
Ht. 45-90cm. Z6. Semi-evergreen. This oriental beauty has large triangular fronds that are considerably wider at the base.

Dryopteris goldiana Goldy's wood fern..... 10cm pot \$5.00ea
Ht.100-130cm. Z3. Deciduous. Large triangular firmly textured fronds from a short creeping rhizome. Makes an attractive stand with arching fronds. New fiddleheads in spring are covered with showy shaggy brownish scales.

Dryopteris laeta 1gal \$10.00ea
Ht. 30-60cm. Z5. Semi-evergreen. This medium sized fern has light green, triangular fronds. Very easy to grow in shade to part sun.

Dryopteris labordei Golden Mist Wood Fern 10cm pot \$6.00ea
Ht. 50cm. Z5. Golden, yellowy-orange new growth gradually matures to dark green.

Dryopteris marginalis Leather Wood Fern..... 1gal \$10.00 ea
N.A.Native. Ht. 45-60cm. Z4. Deciduous. Fronds are dark blue-green. Great for contrast against other ferns. Very easy to grow in shade to part sun. Good in rock gardens.

Dryopteris pseudo-filix-mas Mexican Male Fern 10cm pot \$5.00ea
Ht. 75-120cm. Z5. A vigorous fully hardy fern from Mexico. Large upright good looking fern.

Dryopteris pycnopteroides Japanese Wood Fern \$5.00ea
Ht.60cm. Z6. This Asian fern is evergreen in warmer climates (Zone 8). Shiny, dark green fronds droop elegantly at the tips and can reach up to 2 feet in height.

Dryopteris x remota Remote Fern 10cm pot \$5.00ea
Ht. 60-100cm. Z4. Evergreen. This is a natural hybrid between *D. filix-mas* and *D. expansa*. It is fuller than either of the parents. A very nice looking fern. New fronds lighter green than older fronds.

Dryopteris scottii Scott's Wood Fern..... 1gal \$10.00 ea
Ht. 20-45cm. Z7-8. Evergreen. This is one of my favourite ferns and is probably harder than we have indicated. Dark green, thick, leathery fronds are held stiffly erect. The leaflets (pinnae) are undivided with shallow, half centimeter blunt teeth. Sori are large and dark in color.

Dryopteris sieboldii Siebold's Wood Fern 10cm pot \$5.00ea
Ht.30-60cm. Z6. Evergreen. A striking fern with up to five pairs of dark green, leathery, undivided pinnae with a terminal pinnae 20-30cm long. New fronds are light green.

Dryopteris stewartii Stewart's Wood Fern..... 10cm pot \$5.00ea
Ht. 90-120cm. Z6. Semi-evergreen. A large fern with light green broadly triangular fronds.

Dryopteris tokyoensis Tokyo Wood Fern 1gal \$10.00ea
Ht.45-90cm Z5. A striking fern with stiffly erect narrow fronds in a slender vase shape.

Dryopteris wallichiana Wallich's Wood Fern 1gal \$10.00ea
N.A.Native. Ht.60-120cm Z4. Evergreen. Forms strong upright clumps of large triangular dark green fronds with a contrasting dark stem. New fronds are light green to golden with numerous dark reddish scales. With time, plants will form a short trunk. A nice fern for shade to semi-shade.

Ferns

Gymnocarpium dryopteris Oak Fern 10cm pot \$5.00ea
Native. Ht. 20-40cm. Z2. Deciduous. Dainty, lacy, triangular fronds are held horizontally under stalks. Spreads by rhizome to form small patches. Best in shade. Great as a groundcover in the woodland garden.

Gymnocarpium dryopteris 'Plumosum' Plumose Oak Fern
 10cm pot \$5.00ea
 Ht. 20-40cm. Z2. Deciduous. This selection has broader, overlapping segments than the species.

Lygodium japonicum Japanese Climbing Fern \$10.00ea
 Ht. 3-5M. Z7. Japanese climbing fern is a lovely, self-clinging fern with lacy fronds up to 5 meters in height! It's a great one to let scamper through open shrubs or up trees.

Matteuccia struthiopteris Ostrich Fern 1gal \$10.00ea
Native. Ht. 40-150cm. Z4. Deciduous. Olive green, sterile fronds held in funnel-shaped clusters are spread by underground rhizomes. Fertile fronds appear in the center of the cluster and turn a rust brown color. Vigorous, easy fern to grow in shade to part sun.

Matteuccia struthiopteris European Form European Ostrich Fern
 \$5.00ea
 This form of the Ostrich fern differs from the North American form by having more erect fronds which give it a less open, shuttlecock appearance.

Onoclea sensibilis Sensitive Fern 1gal \$10.00ea
 N.A. Native. Ht. 30-60cm. Z4. Deciduous. The large fertile fronds are leafy and deeply lobed; very un-fern-like. The sterile fronds are stiff, erect and have spore-bearing pinnae aligned like a string of beads at their tips. Spreads by rhizome. Shade to part sun.

Osmunda cinnamomia Cinnamon Fern 1gal \$10.00ea
 N.A. Native. Ht. 90-150cm. Z4. Deciduous. Sterile, dark green deeply lobed, fronds are held in vase shaped clusters. Fertile fronds are erect and held centrally, lack leaves and have terminal panicles that turn from green to cinnamon in color. Imagine a perfect fern with nice arching fronds and a bunch of cinnamon colored feather dusters in the center. It's hard to beat this species once established.

Osmunda claytoniana Interrupted Fern 1gal \$10.00ea
 N.A. Native. Ht. 60-120cm. Z2. Fronds resemble the Cinnamon Fern except that the vegetative frond is interrupted in the middle with fertile pinnae. The fertile pinnae are covered in sporangia and are jet black in color making this a unique and showy fern. Easy to grow in shade to sun.

Osmunda regalis Royal Fern 1gal \$10.00ea
 2gal \$20.00ea
 N.A. Native. Ht. 90-150cm. Z3. Deciduous. A majestic fern that forms a large crown, and sends out a ring of arching fronds made up of rounded leaflets. Fertile fronds stand erect in the center of the clump and have a terminal panicle that turns golden brown. Grow in shade to full sun if in a bog.

Osmunda regalis 'Cristata' 10cm pot \$5.00ea
 Ht. 90-150cm. Z3. Deciduous. This selection of Royal Fern has crested segment tips.

Phyllitis scolopendrium (Formerly *Asplenium*) Hart's Tongue Fern
 10cm pot \$5.00ea
 1gal \$10.00ea
 N.A. Native. Ht. 40cm. Z5. Evergreen. Medium green fronds are strap or tongue shaped (not divided at all). Shade to part shade. Like a little lime from time to time.

Phyllitis scolopendrium Angustifolia 1gal \$10.00ea
 Z5. Ht. 30cm. Evergreen. Strap shaped fronds with a tight crinkling along the margins. A favourite dwarf fern.

Phyllitis scolopendrium Cristata 10 cm pot \$5.00ea
 1gal \$10.00ea
 Z5. Ht. 30cm. Fronds with crested or forked tips.

Phyllitis scolopendrium furcata 10 cm pot \$5.00ea
 Z5. Ht. 30cm. Fronds forked and crested at the tip.

Phyllitis scolopendrium Undulata 10 cm pot \$5.00ea
 Z5. Ht. 30cm. Fronds have a wavy margin.

Polypodium glycerhiza Licorice Fern 10cm pot \$5.00ea
Native. Ht. 10-40cm. Z6. Summer Deciduous. This creeping fern grows on trees and rock outcrops. It goes dormant in the dry summer and is green all winter. Rhizomes have a sweet licorice taste. Great on stumps or rock walls in shade to part sun.

Polypodium scolopendrium Leathery Polypody \$10.00ea
 Native. Ht. 10-35cm. Z7. This is simply the showiest of the polypodies. It has deep, dark green extremely glossy, leathery fronds. This fantastic creeping fern is slow to spread, but worth the wait. We offer small divisions. It often takes a full year for this fern to settle in and start to spread.

Polypodium vulgare 'Bifidum Multifidum' Crested Polypody
 1gal \$10.00ea.
 Ht. 25-35cm. Z5. Evergreen. The pinnae tips are forked. This is a small showy fern for rock walls and rockeries. Easily grown, but rare.

Polystichum acrostichoides Christmas Fern 1 gal \$10.00 ea
 N.A. Native. Ht. 30-60cm. Z5. Evergreen. Fronds are a leathery, dull dark green. Used as cut foliage by florists. Nice large fern, similar to *P. munitum*, for shade to part sun.

Polystichum aculeatum Hard Shield Fern 10 cm pot \$5.00ea
 1gal \$10.00 ea
 Ht. 75-90cm. Z4. Evergreen. Glossy dark green stiff fronds with reddish brown scales. Nice large fern, similar to *P. setiferum*, but stiffer. Plant in shade to part sun.

Polystichum andersonii 2gal \$20.00ea
 Native. Ht. 40-80cm. Z3. A rarely offered large native fern with nice lacy upright fronds.

Polystichum braunii Braun's Holly Fern 10cm pot \$5.00ea
Native. Ht. 30-60cm. Z5. Semi-Evergreen. Dark green fronds with golden brown scales on the stalks. New foliage has a silvery flush to it. Nice dense growing, mid-sized fern.

Polystichum makinoi Makinoi's Holly Fern 1 gal \$10.00ea
 Ht. 45-60cm. Z5. One of the best evergreen ferns!! Dark glossy evergreen fronds make a spectacular backdrop for your shade garden. Originates from the mountains of China.

Ferns

Polystichum munitum Sword Fern 1gal \$10.00ea
 10cm pot \$5.00ea
Native. Ht. 30-120cm. Z5. Evergreen. A fantastic and much under used fern. Glossy dark green, leathery fronds form dense clumps. Great for naturalizing. Good in dry to moist shade.

Polystichum neolobatum.....1 gal \$10.00ea
 Ht.45-60cm. Z5. A great evergreen fern with very stiff glossy green fronds. This fern stands up to snow better than most.

Polystichum polyblepharum Tassel Fern..... 1gal \$10.00ea
 Ht. 60-75cm. Z5. Evergreen. Very glossy dark green fronds contrast nicely with the light green, tassel-like, newly emerging fronds. Very shiny, attractive fern for shade to part sun.

Polystichum retro paleaceum Narrow tassel fern1gal \$10.00ea
 Ht. 90cm. Z5. Evergreen A nice new fern from Japan with soft green evergreen fronds. New fronds emerge early.

Polystichum rigens1gal \$10.00ea
 Z5. Evergreen A great evergreen fern from Japan with rigid glossy leathery fronds held in an erect crown. New fronds are tinted a delightful yellow in the spring and quickly age to green.

Polystichum setiferum Soft Shield Fern..... 10cm pot \$5.00ea
 1gal \$10.00ea
 Ht. 50-150cm. Z5. Evergreen. This fern forms a ground hugging rosette of spreading fronds which are attractively dissected and soft to touch. Stalks covered with brown, chaffy scales. Large fern for shade to part sun.

Polystichum setiferum Congestum 10cm pot \$5.00ea
 Ht.15-25cm Z5. Evergreen. An excellent dwarf fern with erect fronds in upright clumps and congested foliage. Probably the form found in Padley in South Devon in 1865.

Polystichum setiferum 'Dahlem' Dahlem Fern..... 1gal \$10.00ea
 Ht. 75cm. Z5. Evergreen. Nearly erect, narrow, triangular stiff fronds make this newer selection of *divisilobum* worth a spot in the garden.

Polystichum setiferum 'Divisilobum' Divided Soft Shield Fern
 1gal \$10.00ea
 Ht. 25-50cm. Z5. Evergreen. Fronds four times divided with finely cut segments. A beautiful medium sized fern, year round, for shade to part sun.

Polystichum setiferum 'Herrenhausen'10cm pot \$5.00ea
 Ht.50-70cm. Z5. Evergreen. This new variety from Germany is a 'Divisilobum' type with proliferous buds (baby ferns grow from buds on old fronds). New growth has a wonderful, almost silver-gray quality.

Polystichum setiferum 'Plumosum' 10cm pot \$5.00ea
 Ht.60-90cm. Z5. Evergreen. Glossy, grass-green plume-like fronds are four times divided and have overlapping pinnae.

Polystichum setiferum 'Plumoso-densum' (Plumoso-multilobum)
 Downy Filigree Fern 1gal \$10.00ea
 Ht.60-90cm. Z5. Evergreen. Similar to 'Plumosum' but the pinnules are divided into segments that are not narrowed. The overall effect is a much fuller frond.

Polystichum setiferum divisilobum 'Mossy Mama' 1gal \$10.00ea
 Ht.25-50cm Z5. A few years ago we spotted this special fern among a thousand or so sporelings. We have since multiplied it vegetatively. A finely dissected fern with very full fronds with proliferous buds (baby plants) on mature plants. The pinnae are slightly rotated on the fronds giving the fronds a 3-5cm thickness when two to three years old. Late spring or Fall.

Polystichum setiferum 'Proliferum' 10cm pot \$5.00ea
 Ht. 40-60cm. Z5. Evergreen. This is similar to the species but is lacier in appearance and smaller with proliferous buds along the mid-rib on mature fronds.

Polystichum setiferum rotundatum cristatum Crested Soft Shield Fern..... 1gal \$10.00ea
 Ht.30-60m. Z5. A great form with a simple crest at the apex of the frond and numerous proliferous bulbils are scattered down the mid-rib.

Polystichum tsus-simense Korean Rock Fern 10cm pot \$5.00ea
 Ht. 20-30cm. Z8. Evergreen. Neat compact clumps of dark green fronds with dark stems and ribs. New fronds are purplish green when young. Nice small fern for shade to part sun.

Thelypteris decursive pinnata Japanese beech Fern 1gal \$10.00ea
 Ht. 40cm. Z5 The narrow upright, bright, light green fronds are held stiffly vertical making this fern noticeable from a distance.. The bright color and form add some punch to a shady spot.

Thelypteris kunthii Southern Wood Fern 10cm pot \$5.00ea
 N.A.Native. Ht. 30-40cm. Z8. Deciduous. Creeping rhizome with numerous light green, lance-shaped fronds. This fern makes a nice groundcover around other dark green ferns in shade to part sun. This fern can be very late to resprout after a cold winter.

Thelypteris noveboracensis New York Fern 1gal \$10.00ea
 N.A.Native. Ht. 30-50cm. Z4. Deciduous. This species has lance-shaped, erect fronds which are produced at intervals from a creeping rhizome. A nice ground cover in shade to part sun

Thelypteris palustris Narrow Beech Fern 10cm pot \$5.00ea
 N.A.Native. Ht. 45-75cm. Z2. Deciduous. Pale bluish-green, thinly textured, triangular fronds arise from long creeping rhizomes.

Thelypteris phegopteris Narrow Beech Fern 1gal \$10.00ea
Native. Ht. 10-45cm. Z2. Deciduous. Pale green, thinly textured, triangular fronds arise from long creeping rhizomes. This native fern likes a shady humus-rich site to grow in.

Woodwardia areolata Netted Chain Fern..... 11cm pot \$6.00ea
 N.A.Native. Ht.30cm. Z4-5. A creeping rhizomatus fern with attractive dimorphic (separate fertile and sterile fronds) fronds. The sterile fronds are reddish green in early spring and become a deep glossy green with netted venation.

Woodwardia fimbriata Giant Chain Fern 10cm pot \$7.50ea
 2gal \$20.00ea
Native. Ht. 100-200cm. Z8-9. Semi-Evergreen. This large fern forms a handsome clump of erect, arching, dark green fronds. Truly a specimen fern. Plant in shade to part sun.

Ferns-Perennials

Woodwardia unigemmata Oriental Chain Fern \$10.00ea
Ht 1-2 M. Z8. A large semi-evergreen fern. The new fronds emerge a wonderful red-orange and slowly change to a dark leathery green. Old fronds have small plantlets on the underside of the leaf tip. Plants can be as large as 4' tall with 6' long arching fronds.

Woodwardia orientalis Oriental Chain Fern1gal \$12.00ea
Ht.30-60cm Z7-8. A large evergreen fern (except on harsh winters) with thick leathery fronds. New fronds emerge a coppery orange color. Older fronds are topped with small plantlets that can be plucked and planted.

Fern Special

12 ferns from 10cm pots(reg.price\$5.00) for \$50.00

Choose 14 ferns (12 plus two spares) in 10cm pots and we will pick out the nicest 12, pack them and you've got yourself the start of a fine fernery. Ferns that cost more than \$5.00 are not included nor are ferns that are available only in the fall.

Perennials

Acanthus mollis Bear's Breeches.....1gal \$10.00ea
Ht. 50-200cm. Z7-8. Large, dark green, glossy, lobed leaves radiate out from a central crown. Flowers are white with purple venation on tall spikes.

Aceriphyllum rossii (Mukdenia rossii).....\$6.00ea
Ht.40-60cm Z5. Maple-like leaves emerge a bronze-green then age to a mid-green and are finally splashed with bright red in fall. Numerous white, bell-shaped flowers held in a branched panicle in mid spring. From North China and Korea. Forms a wonderful ground cover.

Achillea millefolium Yarrow... 10cm pot \$4.00ea, or 1gal \$10.00ea
Native. Fl.Ht. 30-50cm. Z3. Large, white, flat flower heads with a pink tinge, appear from June till August. Low, feathery, highly dissected foliage.

Achlys triphylla Vanilla-leaf.....1gal \$10.00ea
Native. Ht. 25-45cm. Z7. Large light green trifoliate leaf on a slender stalk. Good groundcover spread by underground rhizome. Dried leaves have a vanilla scent. Semi-shade.

Aconitum x cammarum 'Bicolor' Monkshood.....1gal \$10.00ea
Ht.90cm. Z2. Deeply lobed dark green leaves and large showy white flowers rimmed in blue. Full sun to part shade. All parts of this plant are extremely poisonous.

Aconitum x cammarum 'Bressingham Spire'.....1gal \$12.00ea
Ht.65cm. Z2. Deep blue-violet spires on shorter stockier stems in June to August make this a valuable new monkshood.

Aconitum x cammarum 'Eleanor'1gal \$10.00ea
Ht.100-130cm. Z2. This variety has pure white flowers with violet tips. Prefers a peaty soil in sun to part-shade. All parts of this plant are extremely poisonous.

Aconitum x cammarum 'Pink Sensation' 1gal \$12.50ea
Ht.100cm. Z5. This variety has extremely glossy green dissected leaves and showy pale pink flowers from late June to early August. All parts of this plant are extremely poisonous.

Aconitum x cammarum 'Stainless Steel'.....1gal \$10.00ea

Ht.100cm. Z2. This variety has dark grey-green foliage and metallic blue flowers. Prefers a peaty soil in sun to part-shade. All parts of this plant are poisonous.

Aconitum carmichaelii fischeri1gal \$10.00ea
Ht.70cm. Z2. This species has dark royal blue flowers and glossy leaves. Prefers a peaty soil in sun to part-shade. All parts of this plant are poisonous.

Aconitum 'Cloudy' Monkshood.....1gal \$10.00ea
Ht. 100cm. Z4. Soft blue blooms. Full sun to part shade. All parts of this plant are poisonous.

Aconitum japonicum1gal \$12.99ea
Ht.50-100cm. Z6. This is a showy fall blooming species with hooded flowers of rich velvety blue with a hint of purple. A very valuable late bloomer which makes an impressive clump with handsome foliage. All parts of this plant are poisonous.

Aconitum henryi 'Spark's Variety' Monkshood.....1gal \$10.00ea
Ht.100-150cm. Z4. Highly cut dark green foliage. Helmet shaped flowers of deep violet blue bloom in July-Aug. Prefers part-shade in humus-rich soil. All parts of this plant are extremely poisonous.

Aconitum lamarckii Yellow Monkshood1gal \$10.00ea
Ht.100-130. Z5. Deeply lobed dark green leaves grow in a stiff habit. Vibrant yellow flowers in large, many flowered inflorescences, bloom in July to August. Prefers a peaty soil in sun to part-shade. All parts of this plant are extremely poisonous.

Aconitum napellus.....1gal \$10.00ea
Ht.100-130cm. Z2. This species has beautiful violet blue hooded flowers. Prefers a peaty soil in sun to part-shade. All parts of this plant are poisonous.

Aconitum napellus 'Album'.....1gal \$10.00ea
Ht.100-130cm. Z5. This variety has beautiful white flowers. Prefers a peaty soil in sun to part-shade. All parts of this plant are poisonous.

Aconitum napellus 'Arendsii'.....1gal \$10.00ea
Ht.100cm. Z5. Large spikes of azure blue flowers. Prefers a peaty soil in sun to part-shade. All parts of this plant are poisonous.

Aconitum napellus 'Blue Valley'.....1gal \$10.00ea
Ht 90cm. Z3. This variety has large spikes of dark blue-violet flowers. All parts of this plant are poisonous.

Aconitum napellus rubellum1gal \$10.00ea
Ht.100-130cm. Z2. A wonderful pink hooded form. Prefers a peaty soil in sun to part-shade. All parts of this plant are poisonous.

Aconitum septentrionale 'Ivorine'1 gal \$10.00ea
Ht.100cm. Z5. Spikes of white flowers in summer.

Actaea asiatica Black Berry 1gal \$25.00ea
Ht.70cm. Z5. A woodland perennial from China with white flower racemes and glossy dissected foliage. Flowers are followed by jet black fruit.

Perennials

Actaea pachypoda (alba) Doll's Eyes, \$10.00ea
N.A. Native. Ht. 40-80cm. Z3. A woodland perennial with white flower racemes followed by white berries with a dot (which makes them look like a doll's eye). AKA White Baneberry

Actaea rubra Red Baneberry, 1gal \$10.00ea
N.A. Native. Ht. 40-80cm. Z3. A woodland perennial with white flower racemes (sometimes tinged purple) followed by red berries. Fantastic woodland plant!

Adonis amurensis 10cm pot \$15.00ea
Ht. 5-15cm. Z3. This rarely offered perennial is a Japanese favorite as it symbolizes the start of a new year with its butter yellow flowers. Fern like foliage disappears in late spring. In the West it often starts blooming in early January, in the east it pushes blooms up through the melting snow. Plant in humus rich soil in deciduous shade. Goes dormant very early.

Adonis amurensis 'Beni Nadeshiko' 10cm pot \$69.95ea
Ht. 5-15cm. Z3. One of the coolest flowers we have ever offered. Semi-double flowers with orange petals with serrated ends. In the flower center is a ring of orange stamen filaments holding yellow anthers all around a yellow pistil. This stunning plant has fern like foliage that disappears in late spring. Plant in humus rich soil in deciduous shade. Goes dormant very early.

Adonis amurensis 'Chichibu Beni' 10cm pot \$59.95ea
Ht. 5-15cm. Z3. It has been a while since we offered this rare cultivar with rich orange flowers. It has fern like foliage that disappears in late spring. Plant in humus rich soil in deciduous shade. Goes dormant very early. Available After March 1.

Adonis amurensis 'Sandan Zaki' 10cm pot \$59.95ea
Ht. 5-15cm. Z3. Sandan Zaki means triple bloomer and refers to the three zones in the amazing flower. The base of the flower is rings of golden yellow followed by rings of feathery green petals and finally a golden yellow cluster in the center. What a stunning flower! It has fern like foliage that disappears in late spring. Plant in humus rich soil in deciduous shade. Goes dormant very early.

Aegopodium podagraria 'Variegatum' 10cm. pot \$4.00ea
Ht. 15cm. Z4. Bishop's Weed is a rapid spreading groundcover for shade to part sun with green and white variegated leaves.

Agapanthus 'Blue Globe' Lily-Of-The-Nile 1gal \$10.00ea
Ht. 100cm. Z5. Large light blue flowers.

Agapanthus x 'Blue Triumphator' Lily-Of-The-Nile gal \$10.00ea
Ht. 75-90cm. Z7. Rich blue flower color in large ball shaped clusters. Thick strap shaped foliage in clumps. Best in sun.

Agapanthus 'Silver Moon' Lily-Of-The-Nile 1gal \$14.00ea
Ht. 60cm. Z6-7. A dwarf variety with green variegated white leaves and typical blue flowers, very floriferous.

Agapanthus 'White Superior' Lily-Of-The-Nile 1gal \$10.00ea
Ht. 70cm. Z5. A lovely white flowered variety with sturdy stems.

Agoseris aurantiaca Orange Agoseris, 10cm pot \$5.00ea
Native. Ht. 30-50cm. Z2. Burnt orange dandelion like flowers rise above narrow basal leaves.

Alchemilla erythropoda 1gal \$10.00ea
Ht. 15-20cm. Z5. Bluish green palmately lobed leaves in a basal cluster. Yellow flowers on much branched inflorescence in summer.

Alchemilla mollis Lady's Mantle 1gal \$10.00ea
Ht. 50-80cm. Z3. Similar to the above species but larger in all respects. Excellent ground cover for sun to light shade.

Alectorurus yedoensis var. platypetalus \$12.99ea
Ht. 15-20cm. Z6. From the cliffs of Shikoku and Kyushu islands in Japan come this rare member of the lily family. Flat, Iris like leaves and panicles of small white flowers in late summer.

Allium acuminatum Hookers Onion 10cm pot \$4.50ea
Native. Ht. 10-20cm. Z6. Deep rose pink flowers in early summer. Prefers a hot spot with excellent drainage. Naturally tiny bulbs.

Allium carinatum ssp. pulchellum \$5.00ea
Ht. 45-55cm. Z5. Graceful reddish-pink flower heads in the summer.

Allium cernuum Nodding Onion 10cm pot \$4.00ea
Native. Ht. 20-30cm. Z4. Nodding pale to bright pink flowers bloom in June to August. Bulbs multiply quickly and were eaten by native people.

Allium crenulatum Olympic Onion \$6.00ea
Native. Z.5. Ht. 4" A fantastic dwarf onion with brilliant rose-purple flowers. Rarely offered.

Allium dichlamydeum \$5.00ea
Native. Dark rose purple flowers in June- July.

Allium douglasii 10cm pot \$5.00ea
Native. Ht. 30cm. Z4. A very showy native with bright pink clusters of flowers. We believe this is the var. columbianum.

Allium flavum var. tauricum \$4.00ea
Z.7 Ht. 15-20cm. A great selection with flowers in a range of colours from white to oranges to yellow and reddish shades.

Allium haematociton 8cm pot \$4.00ea
Native. Ht. 10-40cm Z7-8. Compact umbels of white to pink flowers with darker central veins. Multiplies to make a nice clump.

Allium obtusum var. conspicuum 10cm pot \$5.00ea
Native. Ht. 10-20cm. Z4. Tepals light pink to dark pink with dark purple or greenish purple midveins. A rarely offered species.

Allium rotundum 10cm pot \$6.00ea
Ht. 10cm. Z7. Blackish purple flowers with lighter insides in dense spherical umbels.

Allium senescens \$5.00ea
Ht. 15-20cm. Z5. A lovely little allium with fragrant dark lilac flowers in late June to early July.

Allium stellatum Pink Prairie Onion \$4.00ea
N.A. Native. Ht. 30-50cm. Z3. This rarely offered onion exhibits pink starry flowers in ball shaped clusters in late summer. Prefers dry, well drained soil in sun to part shade.

Allium textile Prairie Onion \$4.00ea
Native. Ht. 5-30cm. Z3. A rarely offered onion with creamy white flowers in May-July. Prefers a hot, dry sunny location.

Perennials

Allium triquetrum 10cm pot \$4.00ea
Ht.25cm. Z8. Long lasting, hanging white flowers with a green midrib in late spring to early summer.

Alyssoides utriculata\$5.00ea
Ht 25-40cm. Z7. A mat forming perennial similar to alyssum with yellow flowers, evergreen foliage and attractive ruddy bladder-like seed pods. Good for the rockery.

Alstroemeria hybrids\$9.50ea
Ht. Z7. This is a mixed bag. Plants may be yellow, orange, pink, rose or red.

Alstroemeria pulchella 'Mona Lisa'\$12.50ea
Ht. Z7. Flowers are a merry blend of red with green bands inside and chocolate brown outer feathering. This amazing perennial is quick to form a sizeable patch.

Amianthium muscaetoxicum Fly Poison 11cm pot \$12.99ea
N.A.Native. Flower Ht.15-30cm. Z3. A rarely offered native with showy dense racemes of white flowers that age to green. Very long bloom period makes this a valuable garden plant. Strap shaped daylily like foliage. Historically the bulbs of this poisonous plant were ground and mixed with honey for a fly poison.

Amorphophallus dunnii..... \$20.00ea
Ht.75cm. Z6. Glossy, deep green leaflets held aloft by an ornamental stem marked with white and green patterns. Creamy spathe with white spots and a purple center, creamy white spadix.

Amorphophallus konjac \$26.00ea
Ht.1-1.75cm. Z6. A massive divided leaf (up to 1.25m across) atop a green stem is heavily mottled with dark purplish blotches. When the tuber is large enough it produces a massive 1-1.5m tall flower. The spathe is the color of a dark purplish red cabbage and sits atop a 60cm mottled stem. The spadix is slightly lighter purple in color and measures up to 90cm long. We sell small tubers around the size of a quarter that will bloom in about 2 years. Amorphophallus corms may at any time delay sprouting for a season, particularly after blooming, so mark where you plant them. Shade to part sun. Eventually the corms can weigh up to 8 kilos. This species is extensively used as a food source in Indonesia and Japan.

Amorphophallus yunannensis..... \$20.00ea
Ht.1-1.75cm. Z6. The single leaf is held atop a 2-3' tall, smooth, dark green stalk, exquisitely mottled with lighter green to creamy coloured blotches. The 3-6" tall spadix is white with a pink head partially hidden in a green speckled spathe atop a mottled stem.

Anaphalis margaritacea Pearly Everlasting 10cm pot \$4.00ea
Native. Ht. 20-90cm. Z3. Dark green, narrow, pubescent leaves with dense white wooly undersides. Pearly white flowers in dense clusters are produced in August. Excellent dried flower. Sun to part shade.

Anemonella thalictroides 10cm pot \$4.00ea
N.A.Native. Ht. 10-20cm. Z4. A dwarf anemone relative with finely divided feathery foliage appearing in spring from tiny, dahlia-like tubers. Pure white single anemone-like flowers. Makes a very nice groundcover in light shade. From naturally small tubers.

Anemonella thalictroides 'Cameo' 8cm pot \$19.00ea
N.A.Native. Ht.10-20cm. Z4. This is one of those hard to get forms with double rose flowers. From naturally small tubers.

Anemonella thalictroides 'Betty Blake' 8cm pot \$25.00ea
A uniquely fabulous double pompom green with highlights of lighter green. Also known as A. Double Green. From naturally small tubers.

Anemonella thalictroides 'Kikuzaki Pink' 8cm pot \$25.00ea
Ht.10-20cm. Z4. A new semi-double pink flowered form from Japan.

Anemonella thalictroides 'Kikuzaki White' 8cm pot \$25.00ea
Ht.10-20cm. Z4. A new semi-double white flowered form from Japan.

Anemonella thalictroides 'Just Precious' (Green Hurricane)\$25.00ea
This uniquely bizarre double green flowered Rue has oddly twisted light green petals laid on top of a perfect ring of vibrant green bracts. It has also been sold under many names including Anemonella thal. Jade Feather, Just Precious, Green hurricane and Green Dragon. In the end the name Just Precious should hold as it appears to be the first published. From naturally small tubers.

Anemonella thalictroides 'Rosea' 8cm pot \$8.00ea
N.A.Native. Ht.10-20cm. Z4. This form has single rose pink flowers that self seed true. From naturally small tubers.

Anemonella thalictroides 'Schoaff's Double' 8cm pot \$19.00ea
N.A.Native. Ht.10-20cm. Z4. This is probably the best known double flowered form with long lasting pink flowers. From naturally small tubers.

Anemonella thalictroides 'White Double' 8cm pot \$25.00ea
N.A.Native. Ht.10-20cm. Z4. Pure white double flowers. From naturally small tubers.

Anemone appennina 'alba' Fall only 10cm pot \$9.50ea
Ht.10-20cm. Z4. Foliage is deep purple when emerging then ages to dark green. Flowers are snow white on the interior, shaded pale blue or pale pink on the exterior. From a small tuber. Fall only.

Anemone blanda Radar 10cm pot \$6.50ea
Ht.8-10cm Z.3-4. One of the most sought after anemone blanda types with large reddish-purple flowers with a white center. Plants arise from small tubers.

Anemone canadensis Canada Anemone \$5.00ea
Native.Ht.30-50cm. Z3. A spreading woodland groundcover with beautiful veined cut foliage and white flowers in late spring and summer. A great ground cover.

Anemone hupehensis 'Crispa'1gal \$10.00ea
Ht.80cm. Z4. This is a unique fall blooming anemone with crisped ruffled foliage with red markings along edges and pretty pink flowers.

Anemone hupehensis 'Prinz Heinrich'1gal \$10.00ea
Ht.50-90cm. Z4. Pink semi-double flowers in loose cymes bloom in late summer to fall. Plant in part sun in well drained humus-rich soil.

Anemone hupehensis 'September Charm'1gal \$10.00ea
Ht.90cm. Z4. Light pink flowers with yellow centres in early fall.

Anemone x hybrida 'Queen Charlotte'1gal \$10.00ea
Ht.100cm. Z4. Large, semi double silvery pink flowers atop dark green foliage bloom in September to October.

Perennials

Anemone x hybrida 'Honorine Jobert' 1gal \$10.00ea
Ht.100-120cm. Z4. Large, 6-7cm in diameter white flowers atop dark green foliage. Blooms in September to October. Prefers semi-shade in humus-rich soil.

Anemone x hybrida 'Party Dress' 1gal \$12.00ea
Ht.90cm. Z5. Very large double pink flowers in late summer to early fall.

Anemone x hybrida 'Whirlwind' 1gal \$10.00ea
Ht.95cm. Z4. Semi double white flowers with a yellow center in early fall.

Anemone leveillei \$10.00ea
Ht.60cm. Z5. Pretty, low growing, vigorous anemone with deeply divided foliage and single white flowers with striking purple stamens.

Anemone nemorosa Wood Anemone 10cm pot \$4.00ea
Ht.15-20cm. Z5. A delightful woodland groundcover that spreads by slender rhizome. Leaves deeply cut and very attractive. Single Anemone type flowers are white, light pink, or bluish in color. Flowers close up on cloudy days and at night.

Anemone nemorosa 'Allenii' 10cm pot \$6.00ea
Ht.10-15cm. Z4. Large flowers that are rich lavender blue on the inside and paler on the reverse. Similar to *A. nemorosa* Robinsoniana.

Anemone nemorosa 'Blue Eyes' 10cm pot \$8.00ea
Ht.10cm. Z4. Double to single white flowers develop a distinct blue eye just prior to petal drop.

Anemone nemorosa 'Blue form' 10cm pot \$4.00ea
Ht 10-15cm Z4 We have selected out some of the bluish single flowered form. This makes a great herbaceous ground cover.

Anemone nemorosa 'Bowles Mauve' 10cm pot \$5.00ea
Ht.10cm. Z4. Nice mauve blue flowers. We think this is the same as *Anemone nemorosa* Bowles Purple.

Anemone nemorosa 'caerulea' \$8.00ea
Ht.10-15cm. Z5. A nice smaller variety of woodland anemone with large dark purplish blue flowers with lighter blue edges.

Anemone nemorosa 'Green Fingers' 10cm pot \$10.00ea
Ht.10-15cm. Z4. This odd selection has green flowers tinged with white set atop green sepals.

Anemone nemorosa 'Lychett Variety' 10cm pot \$9.50ea
Ht. 10-15cm Z4. A handsome variety with large white flowers.

Anemone nemorosa 'Mart's Blue' 10cm pot \$12.00ea
Ht.10-15cm. Z4. This selection from Estonia blooms later than most and has dark blue flowers.

Anemone nemorosa 'Monstrosa' 10cm pot \$8.00ea
Ht 20cm. Z5. A large double flowered form of wood Anemone with a unique mix of green and white petals.

Anemone nemorosa 'Phyllodic Form' 10cm pot \$7.50ea
Ht.10-15cm Z4. Another bizarre selection which typically has white outer petals and inner petals replaced by numerous very finely dissected leaves.

Anemone nemorosa 'Robinsoniana' 10cm pot \$5.00ea
Ht.10-15cm. Z4. A nice selection with large pale wisteria blue flowers and deep green foliage tinged purple.

Anemone nemorosa 'Rosea' 10cm pot \$5.00ea
Ht.10cm. Z4. Flowers emerge from a pink bud and fade to white then age to a strong dusky pink on the exterior.

Anemone nemorosa var. Vestal 10cm pot \$6.00ea
Ht.10-15. Z4. Double white flowered form.

Anemone nemorosa vindobonensis 10cm pot \$10.00ea
Ht.10-15cm. Z4. This form has cream colored flowers. Blooms earlier than the hybrid *Anemone x lipsiensis*.

Anemone nemorosa white form 10cm pot \$4.00ea
Ht.10-15cm. Z4. We have separated out a pure white single flowered form of this wonderful species.

Anemone multifida Pacific Anemone 10cm pot \$5.00ea.
Native. Ht.25-30cm Z3. A showy windflower typically with lovely white flowers but occasionally some may bloom red.

Anemone raddeana F. roseum \$18.00ea
Ht.10-15cm. Z4 Similar to the species but this form from Japan is pink on the reverse of the petals and the flowers have a pink blush overall. Rarely offered. Plant in well drained rich soil in part shade.

Anemone ranunculoides 10cm pot \$4.00ea
Ht.10cm. Z4. This spreading woodland beauty has deep golden yellow flowers set above dark green (tinged purple) leaves in early spring.

Anemone rivularis 1gal \$10.00ea
Ht. 40cm. Z6. This wonderful anemone has white flowers with a metallic blue reverse and blue anthers.

Anemone stonifera Double Flower 10cm pot \$15.00ea
Ht. 30cm. Z6. A rarely offered semi double white flowered form of this Japanese Native. This easy to grow species makes small mats of deeply cut dark green foliage.

Anemone sp? \$15.00ea
Ht.15-20cm. Z? We have no idea what this really is. It looks like a larger, more robust form of *Anemone nemorosa* Robinsoniana with larger flowers that have some darker streaking on the reverse. It has been suggested that it might be a form of *Anemone oregonum*. This form is very slow to multiply. We have been growing it for more than 30 years in our garden.

Anemone sylvestris 'Macrantha' 1gal \$10.00ea
Ht.15-30cm. Z4. Very vigorous form with large white, yellow centered flowers. Leaves basal and shaggy pubescent.

Anemone tomentosa 'Robustissima' 1gal \$10.00ea
Ht. 100-120cm. Z3. Light pink flowers in open cymes bloom in August to September. This is the hardiest and most vigorous of the autumn anemones. Prefers semi-shade in humusy soil.

Anemone trifolia 10cm pot \$13.00ea
Ht.15-20cm. Z6. A small spreading Anemone from Yugoslavia with trifoliate leaves and crisp white flowers. From a slender rhizome. Plant in shade to part sun.

Perennials

Anemone x lipsiensis (A. x seemanii) 10cm pot \$5.00ea
Ht. Z4. A natural hybrid of A. ranunculoides and A. nemorosa that has pale yellow flowers.

Anemone Wild Swan..... 15cm pot \$15.00ea
Ht.30-45cm. Z5. An amazing new Japanese hybrid Anemone with large white flowers and blue backsides. Blooms from Mid June until the first hard frost.

Anemonopsis macrophylla \$27.00ea
Ht.50-80cm. Z4. Waxy nodding flowers held above dark glossy green feathery foliage on black wiry stems. Flowers made up of an outer ring of 7-10 sepals that are a light lavender purple and an inner ring of 10 petals that are light lavender-purple with darker purple tips. A summer bloomer for the woodland garden.

Anometheca laxa \$5.00ea
Ht.15-30cm. Z8. An Iris-like perennial which arises from a small corm. Flowers are typically red but may range from white to pale blue.

Antennaria microphylla Rosy Pussy Toes.....10cm pot \$5.00ea
Native. Ht. 10cm. Z2. Low mats of fine silvery foliage and soft reddish fuzzy flowers.

Antennaria umbrinella Woolly pussytoes 10cm pot \$4.00ea
Native. Ht. 1-3cm. Fl. Ht.15-20cm. Z1. Beautiful grey woolly leaves are mat forming; a most attractive ground cover in sun.

Apios americana Ground Nut.....\$12.00ea
N.A. Native. Ht. 1-4M. Z3. Called Indian potato or Ground nut, Apios is a neat native vine that produces edible tubers. It has a showy dusky pink pea like flowers. Tubers are edible and high in protein and used in soups and stews. This one might spread so plant it were you want it.

Aquilegia formosa Red Columbine 10cm pot \$4.00ea
Native. Fl.Ht. 40-60cm. Z5. Nodding red and yellow flowers with reddish spurs. Shade to semi-shade.

Aralia nudicale Wild Sassafras..... \$12.50ea
Native Ht. 50cm. Z3. Erect woodland perennial with a compound single leaf divided into 3 divisions and 5 leaflets per division. White fuzzy flowers in clusters followed by black fruit. Divisions.

Arisaema candidissimum \$29.99ea
Ht. 40cm. Z3. Probably the most sought after Arisaema. Lower spathe green striped white, upper portion pink striped white rarely all white. Sprouts very late in the season and is quite fragrant to men but rarely to women.

Arisaema tosaense\$20.00ea
Ht.60-80cm. Z4.

Arisaema griffithii Griffith's Cobra Lily \$20.00ea
Ht. 30cm. Z6-7. A wide but twisted deep violet-purple spathe with white and green stripes produced just above ground level. The leaflets are ornamented with yellow, red or purple margins which become more accentuated by fall. This one is incredible and definitely one of the most unusual Arisaema. Blooms April-May.

Arisaema heterophyllum\$20.00ea
Ht.90cm. Z5. Called the Dancing Crane Cobra Lily, this one has a green spathe (pitcher) usually tinged with purple and a 30cm long spadix (tongue) that curves out of the flower and stands erect. A heterophyllum features a horseshoe-shaped leaf held on the stalk just below the inflorescence that boasts over a dozen leaflets.

Arisaema kishidae.....\$25.00ea
Ht.60-80cm. Z5. A Japanese species usually splashed with silver marks on the 5-9 leaflets. The spathe is brownish purple.

Arisaema kiushianum Japanese Cobra Lily..... \$18.00ea
Ht. 45cm. Z5. One of my favourite Arisaema from Japan with a dark purple spathe with white markings and a dark tail like spadix. The single leaf is divided into 7-13 leaflets. Plant in well drained soil in shade to part shade. Does well on the wet coast

Arisaema longipedunculatum Japanese Cobra Lily..... \$30.00ea
Ht. 45cm. Z5. One of the rarest Arisaemas we have ever offered with bright green striped spathe.

Arisaema peninsulae Japanese Cobra Lily \$30.00ea
Ht. 45cm. Z5. A great arisaema from Japan with white striped green spathe. Some plants are lined or speckled with lighter shades of green.

Arisaema ringens.....\$20.00ea
Ht.60cm. Z4. Long lasting, deep brownish-black hooded spathe that is vividly striped in white makes this a cool addition to the woodland garden. The flowers last for a long time in the cool spring weather and produce bright red showy seed heads that will persist into fall. The leaves are huge and almost trillium-like in their appearance but they have wavy edges and a glossy, waxy texture that is very eye catching

Arisaema sazensoo.....\$20.00ea
Ht.30cm. Z5. A pair of deep green leaves, each subdivided into 5 leaflets emerges for each tuber. The flower spathe which is a deep, purple-brown is striped in white and has a broad top that arches over the open mouth. The white spadix is tucked away but visible from the side.

Arisaema serratum Giant Japanese Cobra Lily \$20.00ea
Ht. 150 cm. Z5. Spathe green to dark purple. Pale green stem mottled with purple brown. We are offering nice large tubers of this showy plant.

Arisaema serratum var. Mayebarae Japanese Cobra Lily \$20.00ea
Ht. 100 cm. Z5. Dark purple striped spathe. Stem mottled with purple brown. This is a rarely offered form from Japan.

Arisaema sikokianum \$25.00ea
Ht. 15-40cm. Z5. Spathe deep purple-brown with white club shaped spadix. Spadix is completely exposed, making this a unique and showy Arisaema. As they mature most will develop silver white markings on the leaves. This is one of the showiest species. This is the real thing from Japan, not the imposter from China. For spring we offer large tubers.

Arisaema ternatipartitum\$20.00ea
Ht.30cm. Z5. Diminutive, very rare species with 3-parted leaves and flares or "ears" on the brown spathe. This species sends out short rhizomes from the tuber and makes new tubers on the ends eventually forming colonies. Tubers are always small. Blooms in mid-spring and is easy to grow.

Perennials

Arisaema tosaense\$20.00ea
Ht.80-90cm. Z6. A tall species from Shikoku Island in Japan with a green spathe with white lines often tinged brown.

Arisaema triphyllum Jack-in-the-Pulpit \$8.00ea
N.A.Native. Ht.40-60cm. Z4. Two large, three parted leaves. Spathe, purple or bronze with greenish white stripes, followed by red berries in clusters.

Arisaema urishima\$20.00ea
Ht.30-45cm. Z5. An elegant Japanese species which makes a good-sized clump in the garden over time. The spathe is white speckled with purple-brown at the base, darkening to purple-black at the very flared mouth. The long whip like chocolate-purple spadix winds up out of the spathe first heading upward then arching toward the ground. The leaf is split into up to 15 leaflets.

Arisarum proboscideum Mouse Plant 10cm pot \$4.00ea
Ht.5-8cm. Z7. Spathe erect, gray white beneath and dark brown above, drawn out to a long, ascending tail-like apex. From naturally small tubers.

Armeria maritima 'Sea Thrift' \$4.00ea
Native. Ht.20cm. Z3. Pink pom pom flowers atop grass like foliage. Very showy.

Arnica camissonis Silver Arnica 10cm pot \$4.00ea.
Native. Ht.30-45cm. Z.A great perennial with bright yellow daisy like flowers and silvery foliage.

Arum dracunculoides(*Dracunculus vulgaris*)..... 1gal \$10.00ea
Ht. 80-100cm. Z8. Divided leaves with curled up edges. Crimson-red spathe with wavy edges and a very dark black-red spadix. Blooms in June or July. Scarlet red berries last into the fall. This striking plant likes a sunny spot.

Arum italicum 'Pictum' 11cm pot \$5.00ea
Ht.15-25cm. Z.4-5. A dwarf form with white mottled leaves and orange-red fruits.

Aruncus aethusifolius Goatsbeard 1gal \$10.00ea
Ht. 20-30cm. Z3. Forms a compact mound of foliage above which are held clusters of white flowers in summer. Full sun to part shade.

Aruncus dioicus 'Kneiffii' Goatsbeard..... 1gal \$12.00ea
Ht.60cm. Z2. Very deeply cut glossy green foliage topped with airy plumes of creamy white flowers.

Aruncus 'Horatio' Horatio Goatsbeard 1gal \$12.00ea
Ht.60-90cm. Z4. A small shrub like Goat's Beard with finely cut foliage and masses of airy creamy white flowers on bronze tinged stems.

Aruncus Misty Lace Misty Lace Goatsbeard 1gal \$15.00ea
Ht.75cm. Z2. A compact new hybrid that has pure white blooms and a compact habit. Very tolerant of heat and humidity.

Aruncus sylvester Goatsbeard 1gal \$10.00ea
Native. Ht. 1.5-2m. Z4. Long, feathery, creamy white blooms (Astilbe-like) with attractive divided foliage. Blooms June to July.

Asarum arifolium Evergreen Wild Ginger..... 10cm pot \$5.00ea
N.A.Native. Ht. 5-10cm. Z4-5. Evergreen. Triangular dark blue-green leaves splashed in variable patterns of grey and silver. Flowers red-brown and about 3cm long. This is one of the easiest and toughest of the gingers. Makes a great groundcover.

Asarum canadense Wild Ginger 10cm pot \$5.00ea
N.A.Native. Ht. 5-10cm. Z3-4. Deciduous. Light green, hairy, heart shaped leaves make this a particularly attractive ground cover for shade to part sun. Flowers are tubular and brown red.

Asarum caudatum 10cm pot \$5.00ea, or 1gal \$12.00ea
Native. Ht. 10-20cm. Z4. Deciduous. Large, light green heart shaped leaves make this a great ground cover for shade for those with patience as it is slow.

Asarum europaeum 1gal \$12.00ea
Ht.10cm Z4-5. A fantastic slow spreading evergreen groundcover with rounded dark green glossy leaves. Plant in shade to part sun. Always a favorite.

Asarum forbesii \$20.00ea
Ht. Z. Long arrowhead shaped foliage most often veined with pewter. The flowers are chocolate/purple with a white centre.

Asarum maximum Panda faced Ginger \$15.00ea
Ht. 15-25cm. Z5. Large heart-shaped leaves, dark green with silvery markings or marbling. Large flowers are white trumpets, rimmed with black peaking out among the leaves.

Asarum Splendens Select 1gal \$12.00ea
Ht.10-16cm. Z5. Evergreen. This surprisingly hardy plant has large heart shaped leaves splashed with vivid silver markings. Flowers large and dark purple.

Asclepias incarnata 2gal \$20.00ea
N.A.Native. Ht. 80-120cm. Z3. Stems branched. Darker pink buds open to lighter pink flowers with vanilla scent. Plant in open sunny area with lots of water. Great around ponds etc. Important butterfly plants.

Asclepias incarnata 'Ice Ballet' 1gal \$10.00ea
N.A.Native. Ht. 80-120cm. Z3. Stems branched. Flowers white, scented vanilla. Plant in open sunny area with lots of water. Great around ponds etc.

Asclepias incarnata 'Soul Mate' 1gal \$10.00ea
N.A.Native. Ht. 80-120cm. Z3. Stems branched. Flowers off white to light pink set off by deeply red colored bract, scented vanilla. Plant in open sunny area with lots of water. Great around ponds etc.

Aster subspicatus Douglas Aster 1gal \$10.00ea
Native. Ht.50-90cm. Z2. A relatively large aster with large flowers from bluish purple through to rosy purple. This species ranges from Alaska to Northern California. Blooms in summer.

Aster eatoni 1gal \$10.00ea
Native. Ht.60-120cm. Z. A pretty native aster with purplish blue flowers displayed in tall inflorescence. Sun to partial shade.

Aster chilensis 1gal \$10.00ea
Native. Ht.2.5-7.5cm. Z. Low carpet-like spreading aster has violet flowers with yellow centers in spring. Can tolerate drought and prefers full to part sun.

Perennials

Aster foliaceus Leafybract Aster. 1gal \$10.00ea
Native. Ht.15-60cm. Z. This aster is quite variable in height and produces flowers that can range in colour from violet, purple, blue or rose with a yellow center.

Asteropyrum peltatum \$30.00ea
 Ht.15-30cm. Z6. A rare evergreen species from China with 5 lobed hepatica-like leaves that have a lighter green reticulated pattern. Single white hepatica-like flowers are held just above the foliage. Shade to part sun in well drained soil.

Astilbes

Astilbes are herbaceous perennials with feathery, plume-like flowers set above mounds of fern-like foliage. Foliage is half to two-thirds the height of the flowers. All are very easy to grow in shade to part sun in humus-rich soil. Bloom time: Early (early June), Mid (late June to early July), Late (July to early August).

Astilbe x arendsii 'Amethyst' 1gal \$9.50ea
 Flower Ht. 90-100cm. Z3. Blooms lilac-lavender, mid season.

Astilbe x arendsii 'Bridal Veil' 1gal \$9.50ea
 Flower Ht. 70cm. Z3. Blooms with crisp white loose plumes, mid season.

Astilbe x arendsii 'Cattleya' 1gal \$9.50ea
 Flower Ht. 100cm. Z3. Blooms deep rose, late season.

Astilbe x arendsii 'Color Flash' 1gal \$9.50ea
 Flower Ht. 60cm. Z3. Ferny leaves that begin chartreuse in spring develop burgundy and purple tones as they mature. Feathery blush-pink plumes appear in midsummer.

Astilbe x arendsii 'Color flash Lime' 1gal \$9.50ea
 Flower Ht. 60cm. Z3. Ferny leaves that begin bright yellow in spring later fade to chartreuse as they mature. Feathery blush-pink plumes appear in midsummer.

Astilbe x arendsii 'Fanal' 1gal \$9.50ea
 Flower Ht. 60cm. Z3. Blooms deep red, mid season.

Astilbe x arendsii 'Erica' 1gal \$9.50ea
 Flower Ht. 90cm. Z3. Blooms light pink, new foliage burgundy red turning to dark green as it ages, mid season.

Astilbe x arendsii 'Gertrud Brix' 1gal \$9.50ea
 Flower Ht. 60cm. Z3. Blooms bright red, mid season.

Astilbe x arendsii 'Jump & Jive' 1gal \$9.50ea
 Flower Ht. 60cm. Z4. Nice compact dark green foliage with floriferous deep pink red blooms. Great for growing in a pot.

Astilbe x arendsii 'Lollipop' 1gal \$9.50ea
 Flower Ht. 30cm. Z3. Nice dwarf variety with fragrant, deer resistant medium pink blooms, mid season.

Astilbe x arendsii 'Sister Theresa' 1gal \$9.50ea
 Flower Ht. 60cm. Z4. Nice compact dark green foliage with lovely pink flowers. Great for growing in a pot.

Astilbe x arendsii 'Weisse Gloria' 1gal \$9.50ea
 Flower Ht. 80-100cm. Z3. Blooms pure white, late season.

Astilbe x chinensis 'Milk and Honey' 1gal \$9.50ea
 Flower Ht. 75cm. Z3. Showy flower plumes emerge creamy white and age to soft pink. Foliage is lightly mottled with silver when young.

Astilbe x chinensis 'Pumila' 1gal \$9.50ea
 Flower Ht. 30cm. Z5. Blooms lilac blue, late season.

Astilbe x chinensis var. *taquetii* 1gal \$9.50ea
 Flower Ht. 50cm. Z5. Blooms dark red, late season.

Astilbe x chinensis var. *taquetii* 'Superba' 1gal \$9.50ea
 Flower Ht. 120cm. Z5. Blooms lavender purple, late season.

Astilbe x chinensis 'Vision in Red' 1gal \$9.50ea
 Flower Ht. 45cm. Z3. Sweetly fragrant purplish red blooms on red stems above bronze green foliage.

Astilbe x chinensis 'Vision in White' 1gal \$9.50ea
 Flower Ht. 45cm. Z3. Sweetly fragrant white flowered new introduction.

Astilbe x crispa 1gal \$9.50ea
 Flower Ht. 25cm. Z5. Blooms lilac blue, very late season. Very similar to 'Pumila' but blooms a little later and is a touch darker.

Astilbe x crispa 'Perkeo' 1gal \$9.50ea
 Flower Ht. 20cm. Z3. A tiny dwarf astilbe with hot pink flower plumes above crinkly dark green foliage with a hint of bronze.

Astilbe glaberrima 1gal \$10.00ea
 Ht. 6-8cm. Fl.Ht. 10-15cm. Z6. This exceptional dwarf species has deep green leaves tinted red beneath and recurved edges. Flowers mauve, tipped white. Great for the rock garden.

Astilbe x japonica 'Avalanche' 1gal \$9.50ea
 Flower Ht. 50-60cm. Z5. Blooms pure white, mid season.

Astilbe x japonica 'Europa' 1gal \$9.50ea
 Flower Ht. 50-60cm. Z5. Blooms light pink, early season.

Astilbe x japonica 'Deutschland' 1gal \$9.50ea
 Flower Ht. 60cm. Z5. Blooms pure white, mid season.

Astilbe x japonica 'Koln' 1gal \$9.50ea
 Flower Ht. 45cm. Z5. Blooms deep pink, mid season.

Astilbe x japonica 'Mainz' 1gal \$9.50ea
 Flower Ht. 50cm. Z5. Blooms lilac pink, early season.

Astilbe x japonica 'Peach Blossom' 1gal \$9.50ea
 Flower Ht. 60cm. Z5. Blooms salmon pink, mid season.

Astilbe x japonica 'Radius' 1gal \$9.50ea
 Flower Ht. 50-60cm. Z4. This outstanding new hybrid produces red buds which open to lovely fragrant rose red flowers. Foliage emerges from dormancy deep red and ages to dark green. Blooms mid season.

Astilbe rivularis myrantha 1gal \$9.50ea
 Flower Ht. 50-150cm. Z6. Blooms are pink and have larger and broader panicles than other astilbes. Flowers in late August.

Astilbe simplicifolia 'Bronze Elegance' 1gal \$9.50ea
 Flower Ht. 30cm. Z6. Salmon pink blooms, Bronze foliage.

Astilbe simplicifolia 'Hennie Graafland' 1gal \$9.50ea
 Flower Ht. 30cm. Z6. Blooms pale shell pink, late season. Can tolerate more sun than other astilbes.

Perennials

Astilbe simplicifolia 'Key West' 1gal \$9.50ea
Flower Ht. 15cm. Z3. Very prolific blooms of pink-red above gorgeous dwarf dark burgundy/green foliage.

Astilbe simplicifolia 'Moulin Rouge' 1gal \$9.50ea
Flower Ht. 30cm. Z3. Extremely dwarf, deer resistant cultivar with very prolific blooms of purple-red above gorgeous dwarf dark burgundy/green foliage.

Astilbe simplicifolia 'Sprite' 1gal \$9.50ea
Flower Ht. 30cm. Z6. Blooms soft pink, late season. Can tolerate more sun than other astilbes.

Astilbe simplicifolia 'White Sensation' 1gal \$9.50ea
Flower Ht. 45cm. Z3. Bright white blooms, bronze/green foliage.

Astilbe thunbergii 'Ostrich Plume' 1gal \$9.50ea
Flower Ht. 75-85cm. Z6. Blooms soft salmon pink, mid season.

Astilbe 'Younique Carmine' 1gal \$9.50ea
Flower Ht. 40cm. Excellent dwarf variety with an abundance of fragrant carmine-fuchsia flowers atop compact foliage. The 'Younique' series blooms heavily and usually a few weeks earlier than other early varieties.

Astilbe 'Younique Lilac' 1gal \$9.50ea
Flower Ht. 40cm. Excellent dwarf variety with an abundance of fragrant lilac pink flowers atop compact foliage. The 'Younique' series blooms heavily and usually a few weeks earlier than other early varieties.

Astilbe 'Younique White' 1gal \$9.50ea
Flower Ht. 40cm. Excellent dwarf variety with an abundance of fragrant white flowers atop compact foliage. The 'Younique' series blooms heavily and usually a few weeks earlier than other early varieties.

Astilboides tabularis 1gal \$10.00ea
Ht. 90cm. Z3. This is a great large, bold perennial to plant pondside or in a cool, shady part of the garden. Huge, rounded, tropical looking leaves are accented with tall spikes of astilbe-like creamy white flower plumes in late spring to early summer.

Astrantia carniolica 'Rubra' Masterwort 1gal \$10.00ea
Ht. 20-30cm. Z5. Simply an old fashioned perennial that never goes out of fashion. The deep pink buds first appear in June, and as they open, the bracts remain a deep reddish pink both inside and out, with attractive veining.

Astrantia major Masterwort 1gal \$10.00ea
Ht. 50-60cm. Z5. A good summer blooming perennial with greenish pink flowers in clusters that are surrounded by pinkish green bracts, giving a star-like effect. Sun to semi-shade.

Astrantia major 'Buckland' 1gal \$10.00ea
Ht. 60cm. Z3. This selection has very large creamy flowers.

Astrantia major 'Hadspen Blood' 1gal \$12.50ea
Ht. 75cm. Z3. Very vigorous form with nice mounding habit and blood red flowers. Blooms freely all summer.

Astrantia major 'Lars' 1gal \$10.00ea
Ht. 80cm. Z3. This selection has totally red flowers.

Astrantia major 'Lola' 1gal \$12.50ea
Ht. 60cm. Z3. Nice mounding habit and large dark pink buds which open to pink flowers. Blooms freely all summer.

Astrantia major 'Pink Pride' 1gal \$10.00ea
Ht. 60cm. Z3. A new variety with pink flowers set in silvery bracts.

Astrantia major 'Roma' 1gal \$12.00ea
Ht. 60cm. Z3. This continuous bloomer has light red flowers with silvery pink bracts.

Astrantia major 'Ruby Wedding' 1gal \$10.00ea
Ht. 60cm. Z3. Lovely clusters of ruby red flowers bloom freely all summer and again in fall.

Astrantia major 'Star of Beauty' 1gal \$10.00ea
Ht. 60cm. Z5. Showy bracts with burgundy-purple edges and a glowing white center. Blooms freely all summer.

Astrantia major 'Star of Billion' 1gal \$10.00ea
Ht. 60cm. Z4. Pretty pure white flower bracts. Blooms freely all summer.

Astrantia major 'Star of Fire' 1gal \$10.00ea
Ht. 60cm. Z5. Showy bracts of burgundy-red with white centers. Blooms freely all summer.

Astrantia major 'Star of Heaven' 1gal \$10.00ea
Ht. 60cm. Z3. Lovely white flower bracts with green tips and an unusual red accent in the center. Blooms freely all summer.

Astrantia major 'Star of Summer' 1gal \$13.50ea
Ht. 40cm. Z3. Purple red flowers with a white interior. Blooms freely all summer.

Astrantia major 'Sunningdale Variegata' 1gal \$10.00ea
Ht. 70cm. Z3. Distinctive silver to soft pink blooms rise above large pointed leaves marked with cream and yellow. Blooms freely all summer.

Astrantia 'Temptation Star' Masterwort 1gal \$12.50ea
Ht. 50cm. Z3. Lovely lavender pink flowers with pale centers.

Astrantia major 'Vanilla Gorilla' 1gal \$12.00ea
Ht. 70cm. Z3. Wonderful variegated foliage. Creamy markings on the leaf edges and random blue gray markings make this plant unique. Add in silvery pink flowers in summer and pink highlights on the foliage in colder weather and you get this great new introduction.

Balsamorhiza sagittata \$10.00ea
Native. Ht. 20-60cm. z3-4. Large arrow shaped leaves and large yellow sunflower-like flowers. This plant prefers an open woodland setting.

Baptisia australis False Indigo 1gal \$10.00ea
N.A. Native. Ht. 95cm. Z3. Large perennial with clear violet-blue flowers. Plant in well drained soil in full sun to part shade.

Baptisia 'Purple Smoke' 1gal \$12.00ea
N.A. Native. Ht. 90cm. Z3. Smoky purple blooms.

Perennials

Beesia calthifolia \$150.00ea
Ht.15-30cm. Z6. A rarely offered evergreen perennial from China with gorgeous glossy heart shaped leaves intricately covered with a network of lighter green veination. Leaves turn a purple-red in winter. Small white flowers in short racemes on purple stems displayed above the foliage. Shade to part sun in well drained soil. Showy year round.

Begonia grandis 10cm pot\$6.00ea
Ht.60-80cm. Z6. A hardy begonia with fragrant pink flowers and olive green leaves with red veins and red beneath. Plant in shade to part sun, mulch in Zone 5 for winter protection.

Begonia grandis alba..... \$6.00ea
Ht.60-80cm Z6. A white flowered form of this hardy begonia.

Begonia sinensis Hardy Begonia..... \$6.00ea
Ht.40cm. Z7. Creamy pink flowers over vibrant foliage. Prefers part sun in rich, well drained soil.

Bergenia 'Baby Doll' 1gal \$10.00ea
Ht. 30cm. Z2. Evergreen. Large rounded, fleshy, somewhat serrated green leaves. Good soft pink flower which darkens so that each plant has flowers with several shades of pink. Blooms in April to May.

Bergenia 'Bressingham White' 1gal \$10.00ea
Ht.40cm. Z2. Evergreen. White bell shaped flowers mature to soft pink. Large deep green leaves with copper-red highlights.

Bergenia 'Eden's Dark Margin' 1gal \$13.50ea
Ht.30cm. Z2. Evergreen. Purplish-red flowers with leathery maroon-green foliage with a fine pencil line of red on the edges.

Bergenia 'Eroica' 1gal \$10.00ea
Ht.40cm. Z2. Evergreen. Deep pink-red blooms with large deep green leaves with copper-red highlights.

Bergenia Silberlicht 1gal \$10.00ea
Ht.40. Z2. A nice form with silvery white flowers.

Bergenia 'Winterglut' 1 gal \$10.00ea
Ht.45cm. Z2. Thick clusters of florescent red flowers and dark green foliage. Fantastic red fall highlights

Boykinia elata 1gal \$10.00ea
Native. Ht. 30cm. Z 7. A mounding perennial with attractive maple like leaves and clusters of white flowers.

Bulbocodium vernum 10cm pot \$5.00ea
Ht.10cm. Z4. Colchicum-like rosy purple flowers in late winter to early spring. This bulb makes a great companion for snowdrops or other early spring blooming plants and bulbs.

Brodiaea coronaria Harvest Brodiaea..... 10cm pot \$5.00ea
Native. Ht. 20-30 cm. Z8. Starlike bluish-violet to lilac flowers with light colored throat. Blooms June-July. Very narrow grass-like leaves. Mature bulbs are small, pea-sized.

Brunnera macrophylla 1gal \$10.00ea
Ht. 10-20cm. Z4. Blue, forget-me-not-like flowers appear in May til June. Leaves bright green and heart-shaped. Prefers shade to semi-shade but will thrive in sun if soil is moist.

Brunnera macrophylla 'Emerald Mist' 1gal \$15.00ea
Ht.35cm. Z2. A great new selection with more silvery barring on the leaf and a dusting of silver over the entire leaf.

Brunnera macrophylla 'Hadspen Cream' 1gal \$15.00ea
Ht.35cm. Z2. This selection has green leaves with very thin yellow edges that mature to cream. A very stable variegation that does not revert. Plant in shade to semi sun in humus rich garden soil.

Brunnera macrophylla 'Jack Frost' 1gal \$15.00ea
Ht.35cm. Z2. This early spring bloomer produces stunning mounds of silver foiled foliage topped with sprays of blue.

Brunnera macrophylla 'Langtrees' 1gal \$15.00ea
Ht.35cm. Z2. This selection has green leaves with silvery spots and the typical blue flowers. Plant in shade to semi sun.

Brunnera macrophylla 'Looking Glass' \$15.75ea
Ht. 45cm. Z2. The foliage of this sport of B. Jack Frost emerges apple-green with silvery foiling and ages to stunning completely silver. Blue forget-me-not-like flowers in spring.

Brunnera macrophylla 'Silver Wings' 1gal \$17.00ea
Ht.35cm. Z2. A very vigorous form with clear and regular silver markings on nice green foliage. Blue flowers. Plant in shade to semi sun in humus rich garden soil.

Brunnera macrophylla 'Variegata' 1gal \$15.00ea
Ht.35cm. Z2. This selection has green leaves with large clear white edges and purple blue flowers. Plant in shade to semi sun.

Cacalia delphinifolia \$16.00ea
Ht.30-90cm. Z5. A shade plant from Japan with mounds of showy, shiny maple-like leaves. Tubular white flowers are held on racemes above the foliage

Calceolaria sp. \$5.00ea
Ht. 10-20cm. Z6. An easy to grow white flowered calceolaria that spreads to make a nice small scale groundcover.

Caltha palustris alba...White marsh Marigold..... 10cm pot \$6.00ea
Lovely white flowers very early in the year. Grows in normal garden soil or in damp moist areas. Great beside a pond.

Camassias

Camas was an essential part of the diet of many groups of Native peoples throughout the plants range, but do not dig them in the wild to eat as an associated bulb 'Death Camas', is very posionous. These onion-like bulbs multiply quickly, naturalizing well, and are best grown in sun to light shade. All species have star shaped flowers borne on a terminal flower spike.

Camassia cusickii Cusick's Camas..... 1gal \$10.00ea
Native. Fl.Ht. 80-120cm. Z5. Large bulbs up to 250 grams each! Multiplies freely. The tall stem carries sky blue flowers.

Camassia leichtlinii Great Camas 1gal \$10.00ea
Native. Fl.Ht. 80-120cm. Z5. Bulb is usually a little bigger than a golf ball. Flower is a deep, dark purple. Very showy.

Perennials

Camassia leichtlinii alba White Great Camas..... 1gal \$10.00ea
Native. Fl.Ht. 80-120cm. Z5. Clear, clean white flowers make this a very striking plant. This is not white death camas, that is a different species.

Camassia leichtlinii 'San Juan'..... 1gal \$10.00ea
Native. Fl.Ht. 80-120cm. Z5. This form is a darker blue than the species and is found native throughout the San Juan and Gulf Islands.

Camassia leichtlinii 'Semi-plena'..... 1gal \$12.50
Native. Fl.Ht. 80-120cm. Z3. This is a rare semi-double flowered form with creamy white to yellow flowers.

Camassia quamash Common Camas 10cm pot \$4.00ea
Native. Fl.Ht. 30-70cm. Z5. Small bulbs, multiply very quickly. Flower color medium blue. Great for naturalising.

Camassia quamash 'Blue Melody'..... 10cm pot \$4.00ea
Native. Ht.20-30cm. Z5. A very striking garden selection with variegated foliage and blue flowers. Special 10 for \$35.00.

Camassia quamash 'Orion' 10cm pot \$4.00ea
Native. Ht. 20-35cm. Z5. This selection has deep violet blue flowers. Smaller near bloom sized bulbs.

Camassia quamash 'San Juan'..... 10cm pot \$4.00ea
Native. Fl.Ht. 30-70cm. Z5. Darker blue than typical.

Campanula sarastro \$10.00ea
 Ht.45cm. Z4. Strong, upright stems bear large bell shaped, hanging, icy deep purple blooms in summer. Deadheading will ensure multitudes of blooms. Prefers full sun to light shade.

Cardamine pulcherrima \$5.00ea
Native. Ht. 20-30cm. From a small rhizome emerges this charming spring ephemeral With dark green waxy leaves and lovely pinkish flowers in clusters above the leaves.

Cardiandra alternifolia 10cm pot \$15.00ea
 Ht. 30-60cm Z5. A rare Japanese plant in the Hydrangea family with white fertile flowers surrounded by pink sterile ones over large dark green hydrangea like leaves with serrated edges. This rarity looks a lot like a Lace Cap Hydrangea in flower but is a perennial, not a shrub. Awesome summer bloomer for the woodland garden.

Cardocrinum giganteum \$23.99ea
 Young plants \$7.50ea
 Ht.200-300cm. Z5. From large bulbs. White trumpet shaped flowers, 15-20cm long with red throat are held in clusters of 10-20 atop giant leafy stems. Leaves are large, to 40cm long. The bulbs are monocarpic, they die after blooming but leave behind numerous bulblets which will bloom in 3-4 years. This spectacular flowering bulb is best in shade to part sun.

Caulophyllum thalictroides Blue Cohosh..... 1gal \$12.00ea
 N.A. Native. Ht. 30-75cm. Z 4-5. Bronzy divided foliage and bright blue fruits.

Cautleya gracilis (C.lutea)..... \$12.00ea
 Ht. 40-60cm. Z7. This Ginger relative from the Himalayan foothills of Kashmir has slender leaves and bright yellow flowers in terminal spikes followed by black fruit. .

Cerastium arvense Field Chickweed..... 10cm pot \$4.00ea
Native. Ht. 10-40cm. Z3. This native Snow-in-the-summer forms a small trailing mat with showy white flowers in the summer. Each petal is notched.

Ceratostigma plumbaginoides 10cm pot \$5.00ea
 Ht. 20-30cm. Z5. Brilliant blue star shaped flowers in late summer. Green foliage turns bright scarlet in Fall.

Chaerophyllum hirsutum 'Roseum' 1gal \$10.00ea
 Ht.100-120cm. Z6. Showy pink umbels float above feathery finely cut foliage in the spring. Use as an bold accent plant in the woodland garden.

Chamaelirium luteum Fairy Wand..... 11cm pot \$12.99ea
 N.A. Native. Flower Ht.15-30cm. Z3. A rarely offered native with a basal rosette of leaves and 10-30cm tall flower stems that are topped with masses of small, tightly packed white flowers. Plant in partial shade.

Chelone lyonii 1gal \$10.00ea
 N.A. Native. Ht. 60cm. Z4. This species of turtlehead has deep pink flowers in late summer to early fall. In spring the new emerging growth has a bronzy appearance fading to a luscious green. Full sun to full shade.

Chelone obliqua Turtlehead..... 1gal \$10.00ea
 N.A. Native. Ht. 40-60 cm. Z5. Deep rose flower spikes bloom August to October. Individual flowers resemble a turtles head with its mouth open. Lance shaped dark green glossy leaves. Excellent fall blooming perennial.

Chelone obliqua 'Alba' White Turtlehead 1gal \$10.00ea
 N.A. Native. Ht. 40-60cm. Z5. This selection has pure white flowers. Another great late season bloomer.

Chelidonium hylomeconoides..... 15.00ea
 Ht. Z6. This woodland poppy from Japan produces loads of yellow flowers and is lovely for a shady spot. Each flower stalk has 2-4 yellow round flowers and come up from spring to autumn. It is less weedy than other chelidoniums

Chionographis japonica 10cm pot \$15.00ea
 A rarely offered member of the lily family from Japan with a flat rosette of near evergreen leaves and spikes of white lightly scented flowers. Cool.

Chrysoplemium sp. Golden Saxifrage \$5.00ea
 Ht.20cm. Z3. A great groundcover for shade with masses of yellow flowers in early spring.

Chloranthus japonicus..... \$8.00ea
 Ht.20-35cm. Z4. Choice, rarely seen shade perennial with a showy spike of white bottlebrush flowers in spring atop a whorl of four leaves.

Chloranthus serratus \$8.00ea
 Ht.20-35cm. Z4. A shade woodlander from Japan. Each stem typically has four leaves with twin spikes of small white flowers held above.

Perennials

Cimicifuga acerina \$10.00ea
Ht.60-80cm. Z5. Leaves all basal with long pointed lobes. White fragrant flower racemes to 35cm in length. Another great fall bloomer.

Cimicifuga racemosa 'Atropurpurea' 1gal \$12.99ea
Ht. 125cm. Z4. This form has dark purplish leaves.

Cimicifuga racemosa var. cordifolia Black Snakeroot 1gal \$10.00ea
N.A. Native. Ht. 1.2-2m. Z4. Yellowish white to pale amber branched flower spikes on stiff, black, wiry stems bloom August to October. Exceptional fall bloomer. Fragrant. Prefers moist soil and full sun to semi-shade.

Cimicifuga ramosa 'Brunette' 1gal \$22.00ea
Ht. 1-1.4m. Z4. An incredibly dark foliaged form with a rich purplish black color. Very fragrant white flowers in summer.

Cimicifuga ramosa 'Pink Spike' \$22.00ea
Ht.125cm. Z3. Spires of pinkish-white blooms atop deep purple foliage.

Cimicifuga simplex White Pearl Bugbane 1gal \$10.00ea
Ht. 1-1.4m. Z4. Feathery fragrant white flower spikes bloom in August to October. Very effective when massed in a moist shady to semi-shade site.

Cimicifuga simplex 'Black Negligee' \$25.00ea
Ht.150cm. Z3. Spires of pinkish-white blooms rise above dark purple foliage.

Cimicifuga simplex 'Hillside Black Beauty' 1gal \$30.00ea
Ht. 1-1.4m. Z4. Creamy white flower plumes and contrasting near black foliage. Very effective when massed in a moist shady to semi-shade site.

Clintonia udensis Japanese Blue bead lily 10cm pot \$16.00
Ht 20cm. Z3. Two to three wide glossy strap shaped leaves held close to the ground make this an attractive shade perennial from Japan. Two to twelve white flowers are held well above the leaves on a slender stalk and are followed by dark blue berries.

Conandron ramondioides 'Akabana' \$24.00ea
Ht.30cm. Z7. This pretty perennial from Japan features star shaped dark pink flowers in summer. Prefers well drained soil in partial shade.

Conandron ramondioides 'Momobana' \$24.00ea
Ht.30cm. Z7. This pretty perennial from Japan features star shaped pink flowers in summer. Prefers well drained soil in partial shade.

Conandron ramondioides 'Noushoku' \$24.00ea
Ht.30cm. Z7. This pretty perennial from Japan features star shaped dark purple flowers in summer. Prefers well drained soil in partial shade.

Convallaria majalis Lily of the Valley \$4.00ea
Ht.40cm. Z2. White fragrant flowers make this a popular ground cover.

Convallaria majalis Dorien \$4.00ea
Ht.40cm. Z2. The best variety of Lily of the Valley for cutting with scented white flowers.

Convallaria majalis Flore pleno \$12.00ea
Ht.40cm. Z2. Double white fragrant flowers.

Convallaria majalis Hardwick Hall \$15.00ea
Ht.158-20cm. Z2. This rarely encountered selection of the Lily of the Valley has been grown for generations in the noted English garden at Hardwick Hall. An outstanding selection distinguished both by extra broad leathery leaves each very narrowly margined with pale yellow green and extra large, sweetly fragrant pendulous flowers. This is the best performing and most stable variegated lily of the valley.

Convallaria majalis Rosea Pink flowered Lily of the valley 10cm pot \$6.00ea
Ht.158-20cm. Z2. This form of lily of the valley has scented clear pink flowers.

Convallaria majalis Variegata \$10.00ea
Ht.158-20cm. Z2. This form of lily of the valley has dark green leaves with numerous narrow bright yellow lines running the length of the leaf blade.

Convallaria majuscula American Lily of the Valley \$5.00ea
Ht.25-35cm. Z4. A lovely woodland plant similar to the familiar lily of the valley.

Cornus canadensis Bunchberry 10cm pot \$4.00ea
Native. Ht. 19-20 cm. Z2. Small white (typical dogwood like) flowers with greenish purple centres bloom atop clusters of ovate mid-green leaves and are followed by red berries. An excellent groundcover for peaty, woodland soils. Shade to semi-shade.

Coptis japonica var. dissecta \$8.00ea
Ht.20cm. Z4. A small evergreen woodland perennial from Japan with dissected fern-like foliage (looks like parsley). Starry flowers on dark reddish stems in early spring followed by pinwheels of reddish seed pods in fall.

Corydalis

Attractive clumps of dainty divided leaves are similar to those of the closely related Bleeding Hearts. Clusters of spurred flowers are held slightly above the foliage. Effective in rock crevices and woodland gardens in shade to semi-shade.

Corydalis flexuosa 'China Blue' 10cm \$5.00ea
Ht. 40cm. Z5.. This form of *C. flexuosa* is slightly taller than 'Blue Panda' and the flowers are darker. Fragrant. Blooms all summer long in humus-rich soil in shade to semi-shade. Often summer dormant.

Corydalis flexuosa Award of Merit Form 10cm pot \$5.00ea Ht. 30cm. Z4. A form that has been awarded The award of merit by the RHS. in England. Clear blue flowers. Often summer dormant.

Corydalis flexuosa 'Pere David' 10cm pot \$5.00ea
Ht. 30cm. Z4. Another English selection with rich blue flowers. A real spreader with reddish purple leaf markings. For us this has been the best performing *C. flexuosa* as well as the one least likely to go dormant in the summer.

Perennials

Corydalis flexuosa Purple leaved Form 10cm pot \$5.00ea
Ht. 30cm. Z4. Another English selection with rich blue flowers and reddish purple leaf markings. One of the best forms. Often summer dormant.

Corydalis scouleri..... \$15.00ea
Native. Z6 Ht.to 1M. Lovely native perennial with grey green foliage and racemes of pink to white blooms in early summer.

Corydalis solida 'Beth Evans' 10cm pot \$8.00ea
Ht.15-25cm. Z6. A form with abundant soft pink flowers with a white throat. From bulb.

Corydalis solida 'George Baker'..... 10cm pot \$9.50ea
Ht.15-25cm. Z6. Striking red flowers. From bulb.

Corydalis solida incisa..... 10cm pot \$8.00ea
Ht.15-25cm. Z6. A mix of the colours from the C. solida series. From bulb.

Corydalis solida 'Penza Strain' 10cm pot \$8.00ea
Ht.15cm. Z4. A strain from Russia with an amazing array of colours from white, pink blue, purple to red. Forms nice colonies over time. From bulb.

Corydalis quantmeyerana 'Chocolate Star' \$15.00ea
Ht. 25-40cm. Z5. A very interesting new plant with chocolate colored foliage and white flowers.

Cosmos atrosanguineus Chocolate Cosmos 11cm pot \$7.00ea
Ht.60-90cm. Z6. An unusual tuberous perennial with dark maroon flowers with a strong chocolate aroma. These emerge late in the spring or early summer. The tubers can be lifted in cooler areas.

Crococsmia 'Babylon'..... 1gal \$10.00ea
Ht.75cm. Z5. Large flowers of clear orange-red. The paler center is ringed by a series of brown marks.

Crococsmia × crocosmiiflora 'Carmin Brilliant' AGM 1gal \$10.00ea
Ht. 60cm. Z7. Sword-shaped foliage. Award of Garden Merit form with complex colors of carmine red and orange-pink flowers.

Crococsmia 'Ember Glow'..... 1gal \$10.00ea
Ht.75cm. Z5. Vibrant burnt scarlet red blooms above gladiolus-like foliage.

Crococsmia 'Emily Mackenzie'..... 1gal \$10.00ea
Ht.40cm. Z7. Sword-shaped foliage and spikes of orange flowers with red accents.

Crococsmia 'George Davidson' 1gal \$10.00ea
Ht. 60-120cm. Z7. Sword-shaped foliage and spikes of canary yellow flowers. Forms large clumps in time.

Crococsmia 'Kathleen'..... 1gal \$10.00ea
Ht. 65cm. Z6. Sword-shaped foliage. Scarlet buds open to orange flowers with pale yellow center and crimson markings on the reverse.

Crococsmia 'Lucifer'..... 1gal \$10.00ea
Ht. 60-120cm. Z7. Sword-shaped foliage and spikes of brilliant red flowers. Forms large clumps in time.

Crococsmia masoniorum 1gal \$10.00ea
Ht. 150cm. Z6. Sword-shaped foliage and spikes of brilliant orange red flowers. Forms large clumps in time.

Crococsmia 'Severn Sunrise'.....\$10.00ea
Ht.90cm. Z6. A superb variety which has branched stems packed with cantaloupe orange flowers which fade to pink to give a stunning show.

Crococsmia 'Twilight Fairy Crimson'..... \$10.00ea
Ht.45cm. Z6. Bronzy foliage and spikes of red flowers.

Cyclamen coum 11cm pot \$5.00ea
Ht. 10-15cm. Z6. Deep, crimson rose to pale pink flowers with a white eye at the base with a darker spot above it. Rounded, deep green leaves with dark green or silver markings; undersides red. Blooms January to April.

Cyclamen coum album..... 10cm pot \$8.00ea
Ht.10-15cm. Z6. These are seedlings grown from forms that have white flowers and a deep violet nose. Leaves plain green or lightly mottled. Blooms in late winter to early spring.

Cyclamen coum dark rose flowered form 10cm pot \$8.00ea
Ht.10-15cm. Z6. A uniform deep crimson rose color.

Cyclamen coum Patterned Leaved Form 11cm pot \$8.00ea
Ht.10-15cm. Z6. Deep, crimson rose to pale pink flowers with a white eye at the base with a darker spot above it. All have some silver or grayish marking on the leaves.

Cyclamen hederifolium = C.neapolitanum..... 11cm pot \$5.00ea
Ht.10cm. Z6. Large, green, ivy shaped leaves marbled silver and white. Rose to dark pink flowers with a dark spot at the base. Blooms August to October. After a few years these tend to naturalize (self sowing) making a beautiful groundcover for the winter and a great floral display in early fall.

Cyclamen hederifolium album 11cm pot \$9.99ea
Ht.10-15cm. Z6. A white flowered form of the species.

Cyclamen hederifolium long leaved form..... 11cm pot \$10.00ea
Ht.10cm. Z6. Elongated leaves with silver markings. Fantastic.

Cyclamen intaminatum Young Plant..... 10cm pot \$7.50ea
Ht.10-15cm. Z8. Lightly marbled green leaves with lighter green undersides sometimes marked with purple. Flowers are white to pale pink with grey venation.

Cynanchum ascyrifolium \$18.00ea
Ht.50cm. Z5. An attractive medium to large perennial from Japan that produces a well behaved clump. Waxy white flowers are produced in large loose racemes. Also known as the mosquito Trap as the flowers entrap mosquitoes and other small insects.

Darmera peltata Indian Rhubarb 1gal \$10.00ea
N.A. Native. Ht 60-70cm. Z5. Large, dark green, deeply lobed leaves, 30cm in diameter, occasionally to 60cm. Pink flowers appear before the leaves in clusters on a stout stem in April.

Darmera peltata Dwarf Form \$10.00ea
N.A. Native. Ht. 20-55cm. Z6. A dwarf form of this wonderful foliage plant with lovely deep lobed leaves and pink flowers in early spring. Grow it in lean soil.

Perennials

Deinanthé bifida \$12.99ea
Ht.20-40cm. Z4. This is a beautiful Hydrangea relative from China (and Japan) that grows to become a lovely, bushy shrub-like plant with each leaf divided in 2 at the tip. Pretty nodding white flowers are produced in the summer. Prefers moist, well drained loamy soil in shade to part sun.

Deinanthé caerulea \$24.00ea
Ht.50cm. Z4. This is a beautiful Chinese Hydrangea relative that grows to become a lovely, bushy shrub-like plant with each leaf divided in 2 at the tip. Lovely nodding violet blue flowers are produced in the summer. Prefers moist, well drained loamy soil in shade to part sun.

Delphinium menziesii Menzies' Larkspur \$6.00ea
Native. Ht.20-75cm. Z3. From a small tuber arises this lovely larkspur with blue to purple flowers (occasionally yellow). It is usually associated with the grassy bluffs of Garry Oak meadows.

Delphinium tricorne Dwarf Larkspur \$5.00ea
N.A.Native. Ht.45cm. Z4. Lovely small early blooming woodland perennial with finely cut foliage and clusters of dark blue to violet flowers. Grows from a very small tuber.

Dentaria diphylla Toothwort\$4.50ea
Ht. 10-20cm. Z6. Two leaves each divided into three lobes with white flowers held on slender stems above. Blooms in early spring then goes dormant. Small fleshy tubers.

Dentaria laciniata\$4.50ea
Ht. 10-20cm. Z6. Clusters of pinkish white flowers rise above lacy dark green foliage in early spring. Arises from a small tuber. Plant in shade to sun in rich, well drained soil.

Dicentra 'Burning Hearts'\$15.00ea
Ht.25cm. Z3. A new hybrid with heart shaped, deep red flowers outlined with creamy white on arching stems above delicate, mounding blue-green ferny foliage.

Dicentra 'King of Hearts'\$10.00ea
Ht.25cm. Z3. A new hybrid with heart shaped, rich carmine rose flowers on arching stems above delicate mounding blue-green ferny foliage.

Dicentra canadensis Squirrel Corn 10cm pot \$5.00ea
N.A.Native. Ht. 20-30cm. Z3. Fragrant flowers are white tinged mauve with yellow tips. Finely cut bluish basal leaves arise from small yellow tubers. Shade to part sun.

Dicentra cucullaria Dutchmans Breeches..... 10cm pot \$5.00ea
N.A.Native. Ht. 20-40cm. Z3. Glaucous, triangular leaves arise from small tubers. Pendulous flowers are white to pink with yellow tips and two inflated appendages. Flowers in April to May and goes into dormancy in early summer.

Dicentra eximia 'Luxuriant' Fringed Bleeding Heart 1gal \$10.00ea
N.A.Native. Ht. 25-40cm. Z3. Dark blue-green ferny foliage. Flowers dark cherry red. Blooms April to August. Semi-shade to full sun in humus-rich soil.

Dicentra formosa Western Bleeding-heart..... 1gal \$10.00ea
Native. Ht. 25-45cm. Z3. Rose pink, slightly reflexed heart shaped flowers extend above mounds of grey-green fern-like foliage. Thrives in shade to semi-shade in humus-rich soil.

Dicentra formosa 'King of Hearts' 1gal \$12.00ea
Ht. 25cm. Z3. Deep pink flowers with greyish blue foliage.

Dicentra spectabilis Common Bleeding Heart 1gal \$10.00ea
Ht. 60-80cm. Z3. Rose red heart-shaped flowers with glistening white protruding inner petals. Grey-green leaves. Blooms May and June. Humus-rich soil in shade to semi-shade.

Dicentra spectabilis alba White Bleeding Heart 1gal \$10.00ea
Ht. 60-80cm. Z3. A lovely pure white flowered form of *D. spectabilis*.

Dicentra spectabilis 'Gold Heart' 1gal \$15.00ea
Ht. 60-80cm. Z3. This selection has lovely golden yellow foliage and the same showy flowers. Foliage color is best in strong light.

Dichelostemma congestum 10cm pot \$4.00ea
Native. Ht.30-90cm. Z7-8. A nice native bulb with heliotrope blue flowers in early summer and grass-like leaves.

Dichelostemma x venusta Pink Diamond 10cm pot \$4.00ea
Native. Ht.30-90cm. Z7-8. A nice native bulb with rosy magenta flowers with inner white segments.

Dichocarpum nipponicum (Isopyrum nipponicum)\$12.99ea
Ht.15-25cm Z6. This charming woodland species from Japan with divided leaves forms dense mounds, bearing pendant funnel-shaped creamy flowers often tinted purple-red at the base of the petals. Best in a leafy soil in full to part shade.

Dictamnus albus albiflorus\$10.00ea
Ht. 60cm. Z2. Spikes of white lemon scented blooms. Small plants.

Dictamnus albus rosea\$10.00ea
Ht. 60cm. Z2. Spikes of purple-pink lemon scented blooms. Small plants.

Dierama dracomontanum 10cm pot \$5.00ea
Ht. 30-100. Z8. Flowers pale to deep rose pink, purple, pink, deep coral on arching stems.

Dierama igneum 10cm pot \$5.00ea
Ht. 45-90cm. Z8-9. Similar to *D. pulcherrimum*. These are seedlings grown from a form with tomato red bell shaped flowers.

Dierama parviflorum 10cm pot \$5.00ea
Ht.40-85cm. Z8. A nice *Dierama* with light to dark pinkish-mauve bell shaped flowers. Foliage is often absent at the time of flowering.

Dierama pulcherrimum Angel's Fishing rod 10cm pot \$5.00ea
Ht.90cm Z8. From a corm come grass-like leaves with arching flower stems bearing deep magenta bell shaped flowers. Multiplies into large showy clumps.

Digitalis lutea Yellow Foxglove..... 10cm pot \$5.00ea
Ht.60cm Z5. An unusual foxglove with smooth glossy rich green leaves and stout stems bearing soft yellow trumpet shaped flowers in Summer.

Diphylleia cymosa Umbrella leaf.....\$15.00ea
N.A.Native. Ht.30-75cm. Z5 A bold perennial with very large glossy green umbrella like leaves up to 50cm wide. Clusters of white flowers are followed by blue fruits held above the foliage on red stems. An awesome bold perennial.

Perennials

Diphyllia grayi Japanese Umbrella Leaf..... 2gal \$25.00ea
Ht.30-60cm Z5. Clusters of white flowers held above very large twin leaves followed by blue fruits. Great bold addition to the woodland.

Disporopsis perneyi..... 11cm pot \$6.00ea
Ht. Z5-6. This is an evergreen relative of *Disporum* with white bell shaped flowers and bluish black fruit. Part shade to shade in humus-rich soil.

Disporum cantoniense 11cm pot\$9.99ea
Ht. Z6. This is a wonderful *Disporum* with red or white elongated bell shaped flowers in clusters along branching stems. These are followed by blue fruit. We finally have some to sell.

Disporum flavens \$11.99ea
Ht.30-60cm. A wonderful woodland fairy bells from China with large showy yellow hanging bells in mid spring.

Disporum hookerii Hooker's Fairy Bells..... \$10.00ea
Native. Ht.100cm. Z7. A lovely woodland perennial with creamy white hanging bell shaped flowers in umbels. Followed by striking yellow to orange berries.

Disporum lanuginosum..... 11cm pot \$8.00ea
N.A.Native. Ht.50-90cm. Z5. Yellowish bells interspersed along branched stems followed by reddish orange fruits.

Disporum maculatum Spotted Fairy Bells..... \$10.00ea
Ht.30-60cm. Creamy white flowers covered in small purple spots. We were delighted to see these bloom this year.

Disporum sessile 'Aso'\$30.00ea
Ht.30-40cm. Z4. This selection from Japan emerges with golden foliage that slowly fades to light green as the season progresses. Creamy white, bell shaped flowers.

Disporum sessile 'Awa no Tsuki'\$30.00ea
Ht.30-40cm. Z4. This absolutely beautiful, 'must have' *Disporum* cultivar comes to us from Shikoku Island, Japan. Rounded dark green leaves have a large golden yellow central variegation and are stunning in a shaded woodland garden where it will spread to make a lovely carpet. Pendant white flowers adorn this beauty in spring.

Disporum sessile 'Cricket'\$20.00ea
Ht.5-10cm. Z4. Dwarf Fairy Bells from Japan, with dark green foliage strikingly contrasted with creamy white central markings. Wonderful woodland clumper.

Disporum sessile 'Hakkaisan' \$20.00ea
Ht.30-40cm. Z4. A larger form that emerges with creamy white shoots and ages to light green with a white variegated margin. Bell shaped white flowers.

Disporum sessile 'Kinga' \$20.00ea
Ht.15cm. Z4. Wide green leaves are heavily streaked with creamy yellow that fades to white as the season progresses, often merging to form a solid white center.

Disporum sessile Yellow Margin Tweetie10cm pot \$16.00ea
This is a Japanese variegated cultivar of *D. sessile* with broad oval leaves striped and frosted with white lines and streaking. Some leaves have clearly defined lines of color and others have indistinct frosted lines.

Disporum sessile Variegatum 10cmpot \$8.99ea
N.A.Native. Ht.40-60cm. Z7. Flowers white, tips tinged green, solitary or clusters. Leaves broadly striped cream. An excellent variegated plant for the woodland garden.

Disporum smilacinum flore plena..... 10cm pot \$10.00ea
Native. Ht. 50cm. Z5. We are proud to offer this very rare plant with double creamy white flowers. Makes a slow spreading clump in shade to part sun in humus rich soil.

Disporum smilacinum 'Kino Tsukasa' \$20.00ea
Ht. 10cm. Z4. This showy cultivar from Japan has dark green foliage that is prominently marked throughout with yellow. It is easy to grow in a woodland setting in humus rich soil. The Japanese name translates to 'yellow umbrella'.

Disporum smithii Large flowered FairyBell..... 10cm pot \$5.00ea
Native. Ht. 50-90cm. Z7. Large, 3cm, creamy bell-shaped flowers hang from the tips of branched stems and bloom in late spring; followed by brilliant orange, football-shaped berries. Plant in shade to semi-shade.

Dioscorea japonica Japanese Yam.12cm deep pot \$10.00ea
Ht. 1-3M. Z4. From the woodlands of Japan comes this interesting and hardy yam. It is a vigorous climber with beautiful foliage and clusters of small white flowers. The shiny arrow shaped leaves alone are reason enough to grow this one. It's the roots that are particularly interesting: up to four feet long and two inches thick, they are eaten boiled or baked and are said to have a very pleasant taste. We have a small supply of tubers and more growing for next year. I would plant it where you want it as it might be a spreader.

Dodecatheons

Shooting stars are herbaceous perennials with green leaves held in rosettes that dry up and disappear in early summer. The nodding cyclamen-like flowers resemble a shooting star streaking across the sky. All do best in half sun, half shade.

Dodecatheon alpinum Alpine Shooting Star 10cm pot \$4.00ea
Native. Ht. 20cm. Z4. An alpine species with pale lavender to deep magenta flowers.

Dodecatheon cusickii Cusick's Shooting Star 10cm pot \$4.00ea
Native. Flower Ht. 20-30cm. Z5. Leaves are pubescent giving them a grey green appearance. Flowers similar to *D.pulchellum* with a shorter heavier flower stalk.

Dodecatheon dentatum White Shooting Star..... 10cm pot \$4.00ea
Native. Flower Ht.15-40cm. Z5. This *Dodecatheon* is unique in that it has toothed leaves and showy white flowers. Easy.

Dodecatheon hendersonii Broad-leaved Shooting Star
..... 10cm pot \$4.50ea
Native. Flower Ht. 30-50cm. Z5. Flowers deep purple to pale-pink with a ring of clear yellow at the base of each lobe. Leaves are unmistakable, being thick, shiny, smooth, broadly oval and pressed firmly to the ground. Exceptional.

Dodecatheon jeffreyii Shooting Star10cm \$5.00ea
Native. Fl.Ht.30-50cm. Z4. Flowers deep red-pink to purple, with corolla lobe strongly reflexed. Narrow upright leaves.

Perennials

Dodecatheon macrocarpum..... 10cm pot \$4.00ea
Native. Ht.20-50cm. Z4. A species most often considered to be a variety of *D.pulchellum*. A nice selection with fleshier leaves and predominantly dark magenta purple flowers.

Dodecatheon meadia alba..... 10cm pot \$4.00ea
N.A.Native. Flower Ht. 20-30cm. Z5. This a white form of the species that in some areas in nature is wide spread.

Dodecatheon pulchellum 10cm pot \$4.00ea
Native. Flower Ht. 20-50cm. Z4. Flowers bright rose-purple with a ring of deep-yellow at the base which is overlaid with a zig-zag trim of rose purple. Delightful.

Dodecatheon pulchellum 'Sooke' Sooke Shooting Star
..... 10cm pot \$4.00ea
Native. Flower Ht. 20-35cm. Z5. This naturally occurring form found on Southern Vancouver Island has deep rose pink flowers on a stiffer more compact stem. Leaves thicker and more rounded than the species.

Dracocephalum parviflorum Dragon Head..... \$4.00ea
Native. Ht.90cm. Z7. Spikes of pale blue to violet flowers.

Dracunculus vulgaris (Arum dracunculus).....1gal \$10.00ea
Ht. 80-100cm. Z8. Leaves divided with edges curled up. Crimson-red spathe with wavy edges and a very dark black-red spadix. Blooms in June or July. Scarlet red berries last into the fall. This striking plant likes a sunny spot in well drained soil.

Doronicum orientale 'Little Leo'..... 1gal \$10.00ea
Ht.40cm. Z2. Cheerful semidouble yellow daisies in abundance .

Drosera rotundifolia Round leaved Sundew.....\$7.50ea
Native. Ht. 3cm. Z6. Open cluster of long thin leaves tipped in a round end (spoon-shaped leaves) covered in bug and dew catching gland tipped hairs. Flowers white to pink. Insectivorous. Plant in peaty soil, keep slightly moist and do not fertilize.

Dysosma versipelle (Podophyllum versipelle)..... \$16.00ea
Ht. Z. This Podophyllum relative is a wonderful new perennial introduction from China. We were amazed when we saw the plants that bloomed. The plant emerges and at 3-5cm branches into two or three stems with each stem carrying a single large, finely dentate, usually eight-sided leaf. The drooping flowers are carried on short stocks that emerge from where the leaves branch.

Echinacea purpurea 'Coconut Lime'..... 1gal \$15.00ea
Ht.55cm. Z3. Creamy vanilla petals with a double creamy green central cone.

Echinacea purpurea 'Double Decker' 1gal \$10.00ea
Ht.60cm. Z3. Large magenta pink flowers the first year. The second year produces a second flower atop the central brown cone giving a two tiered effect (double decker). Very unique.

Echinacea purpurea 'Green Envy'..... 1gal \$15.00ea
Ht.90cm. Z4. Unusual lime green flowers with rounded petals. As the flower matures, the base of the petals assumes a purple tone. !

Echinacea purpurea 'Hot Papaya'..... 1gal \$15.00ea
Ht.90cm. Z3. This is the very first double to have hot spicy orange pom-pom shaped double flowers. This is a stand out new perennial.

Echinacea purpurea magnus.....1gal \$10.00ea
Ht.90cm. Z3. Non-drooping petals of deep rose with a red center. Prefers full sun in well drained soil.

Echinacea purpurea 'Pink Double Delight' 1gal \$15.00ea
Ht.60cm. Z4. Gorgeous double pink blooms.

Echinacea purpurea 'Sundown' 1gal \$15.00ea
Ht.75cm. Z4. A brand new selection with deep orange flowers.

Ellisiophyllum pinnatum 10cm pot \$5.00ea
Ht.10cm. Z5. This is a rare creeping perennial with pinnate foliage and starry white flowers throughout summer and fall. Great woodland groundcover. Five for \$21.00

Eomecon chionantha Snow Poppy..... 1gal \$9.99ea
Ht.45cm. Z6. A rather interesting spreading woodland plant with scalloped heart shaped leaves and attractive clusters of single white flowers with a central boss of yellow anthers

Epimedium acuminatum 11cm pot \$15.00ea
Ht.25-40cm. Z5. Long narrow leathery leaves emerge pink, tinted maroon. A rarely offered species from China with large inflorescence of dark lavender maroon petals and lighter white or pale yellowish tinted lilac sepals.

Epimedium 'Amber Queen'..... \$15.00ea
Ht.25-40cm. Z4. A new hybrid (*E.flavum* x *E.wushanense*). Deep yellow flowers, the back face of the sepals is red tinted, and the petals are speckled with red. As a result, the freely produced flowers appear pale orange - amber is an excellent description.

Epimedium 'Atlas'..... \$15.00ea
Ht.25-40cm. Z5. A new introduction by Free Spirit Nursery. A floriferous hybrid that forms a nice mounding clump with flowers held above the foliage.

Epimedium 'Benichidori'..... 11cm pot \$14.99ea
Ht. 15-40cm. Z5 Large gorgeous incredibly dark pink-red flowers with long petal spurs that are white tipped.

Epimedium brachyrrhizum..... Fall only \$15.00ea
Ht.15cm. Z5. A short growing species with large rose-pink flowers nearly 5cm across. New leaflets may be mottled with deep purple markings that later turn dark green. A few small divisions.

Epimedium cantabrigiense..... 1gal \$10.00ea
Ht. 20-30cm. Z5. Semievergreen. Olive to brownish leaves. Flowers light yellow with reddish margins. Makes a good ground cover in light shade.

Epimedium chlorandrum Fall only \$18.00ea
Ht. 40-60cm. Z5. This evergreen Epimedium from China forms mounds of glossy green leaves. New growth in spring is often splashed with a wonderful red mottling. Large yellow flowers backed with white on long spikes of 30-60 flowers.

Epimedium diphyllum 'Roseum'..... \$10.00ea
Ht.30cm. Z5. Rosy pink flowers without spurs often rebloom.

Epimedium diphyllum 'Variegatum'..... \$20.00ea
Ht.20cm. Z5. White flowers are held above leaves variously mottled with flecks of white.

Perennials

Epimedium epsteinii \$20.00ea
Ht.15-20cm. Z5. A new species with wide, pure white, sepals and striking reddish purple spurs and cup. Forms a nice low dense groundcover. We offer a few small divisions.

Epimedium 'Fire Dragon' \$15.00ea
Ht.25-40cm. Z4. A new hybrid (*E.davidii* x *E.leptorhizum*). Large yellow flowers with deep pink sepals. Small Divisions.

Epimedium franchetti \$25.00ea
Ht. 40-50cm. Z5. This evergreen species from China has incredibly showy mottled new growth and arching stems with spidery lemony yellow flowers.

Epimedium 'Fujinami' 1gal \$15.00ea
Ht. 20-40cm. Z5. This new Japanese variety has soft lavender flowers with wonderfully long spurs having the slightest hint of white at their tips.

Epimedium grandiflorum Longspur Barrenwort1gal \$10.00ea
Ht. 40cm. Z5. Large, soft, purplish-pink flowers with long, white, downward curving spurs. Very showy. New growth bronzy red. Shade to semi-shade.

Epimedium grandiflorum var. higoense \$12.50ea
Ht.20cm. Z5. This small early blooming Epimedium is adorned with creamy white flowers. Blooms appear when the foliage is only 12cm high.

Epimedium grandiflorum 'Lilafee' 1gal \$10.00ea
Ht.15-25cm. Z4. A dwarfier selection with lavender violet flowers and a clump forming habit.

Epimedium grandiflorum 'Mars' \$15.00ea
Ht.30cm. Z4. Purple-red flowers.

Epimedium grandiflorum 'Nanum' \$12.00ea
Ht.10-30cm. Z4. White flowers above dwarf foliage in spring. Foliage is often rimmed with a purple band. When in bloom this plant is much shorter and grows to its maximum height after blooming.

Epimedium grandiflorum 'Queen Esta' \$12.00ea
Ht.20cm. Z5. This variety, named by Harold Epstein and his wife, has purple new growth in spring with large flowers with dark lavender inner sepals and paler spurs.

Epimedium grandiflorum 'Red Queen' \$18.00ea
Ht.35cm. Z4. Large vivid rosy red flowers peak out from enormous leaves when mature.

Epimedium grandiflorum 'Rose Queen'1gal \$10.00ea
Ht. 40cm. Z5. Large, showy deep pink flowers with long, white, downward curving spurs. New growth bronzy red. Shade to semi-shade.

Epimedium grandiflorum 'Saxton's Purple' \$12.00ea
Ht.20-35cm. Z4. New foliage has a coppery overlay. Large lavender flowers are held well above the leaves.

Epimedium grandiflorum 'Sirius' \$12.00ea
Ht.15-40cm. Z4. Only 15cm tall when in bloom with large elegant pink flowers above soft green foliage. Later grows to about 40cm.

Epimedium grandiflorum 'Tama No Genpei' \$15.00ea
Ht.20-40cm. Z4. Large bicoloured flowers of lavender and white often rebloom. Lovely new foliage is tinted with purple.

Epimedium 'Hagoromo-no-mai' 11 cm pot \$12.00ea
Ht. 25-40cm. Z5 This variety has dark pinkish red flowers with long petal spurs that are barely white tipped and overlapping sepals that are almost as long.

Epimedium 'Jujisei' \$15.00ea
Ht. 25-40cm. Z5 At long last it's back. A rarely offered selection from Japan with reddish pink. The open flowers lack the typical lamina blade which in most species and hybrids hide the stamens. The large open faced dark pinkish red flowers lie flat with prominent yellow stamens showing. Petal spurs are white and protrude like a little horn from the upper surface of each petal. Jujisei means star cross in Japanese.

Epimedium x kaguyahime \$20.00ea
Ht.35cm. Z5?. This near evergreen Barrenwort has lovely arrow-shaped foliage beautifully mottled with purplish red in early spring. Tall panicles carry multitudes of striking flowers with dark reddish purple spurs and rose pink inner sepals. We are offering only a few small divisions.

Epimedium 'Koharu'1gal \$15.00ea
Ht. 25-40cm. Z5. This variety has large petals with broad pink petal lamina and long narrower spurs suffused with white. Overlapping pink sepals, fading to white in the center.

Epimedium koreanum 'Harold Epstein' \$18.00ea
Ht.30cm. Z5. A clone that has huge butter yellow flowers and huge leaflets. Used to be considered *Epimedium grandiflorum* ssp. *Koreanum*. We offer only a few small divisions.

Epimedium leptorhizum \$15.00ea
Ht.15-20cm. Z5. A wonderful spreader with large rose pink flowers. Great as a groundcover in dry shade.

Epimedium Mizuho-maru' \$12.00ea
Ht. 20-75. Z5. Broad white sepals with dark rosy pink outer edges and inward curving spurs make this Japanese selection unique.

Epimedium myrianthum \$15.00ea
Ht.30cm. Z4. Glossy evergreen foliage with long narrow leaflets is often lightly marked with reddish patches in spring. This broad clumper has taller flower stems with myriad very small white flowers with short spurred yellowish inner petals (sometimes over 100 flowers per stem) which creates a very airy effect.

Epimedium pallidum 1gal \$10.00ea
Ht.30cm. Z4. A newly offered species with yellow flowers held above nicely contrasting green foliage.

Epimedium pauciflorum \$12.99ea
Ht. 30cm. Z5. Evergreen species from China with thick, dark green leaves with spines along the margins. Soft pink to white flowers.

Epimedium x perralchicum 1gal \$10.00ea
Ht.30cm. Z6. A hybrid with bright yellow flowers with brown centres. Heart shaped glossy green leaves with bronze colored new growth.

Perennials

Epimedium xperralchicum 'Frohnleiten' 1gal \$10.00ea
Ht.30cm. Z7. Evergreen. A hybrid with bright yellow flowers with brown centres. Heart shaped glossy green leaves with bronze colored new growth.

Epimedium 'Pink Elf' \$15.00ea
Ht.25-40cm. Z4. A new hybrid. Long lasting white flowers are marked with pink, especially on the petals. Late flowering. Small Divisions

Epimedium pinnatum ssp. colchicum \$12.00ea
Ht. 30cm Z6. Native to Georgia near the Black Sea. This drought tolerant variety has bright yellow sepals held open to show off the short reddish spurs.

Epimedium pubigerum 1gal \$10.00ea
Ht. 20-75. Z5. This species has dark green leathery leaves and creamy yellow flowers. Rarely offered.

Epimedium pubigerum 'Orangekonigin' 1gal \$12.00ea
Ht. 20-75. Z5. This selection has large heart shaped leaves and true orange flowers.

Epimedium sempervirens 'White Purity' \$12.00ea
Ht. 20cm. Z7. A large leaved form of the species with white flowers.

Epimedium stellulatum 'Long Leaved Form' \$25.00ea
Ht. 30-45cm. Z5. Nice foliage with long narrow leaves. Numerous tall sprays of starry-white flowers with minute yellow spurs held above the foliage. The plant grows to its mature height after blooming.

Epimedium x Red Beauty 12cm pot \$12.00ea
Ht. 30-40cm. Z4. Strong pinky-purple flowers.

Epimedium x 'Rubrum' Red Barrenwort 1gal \$10.00ea
Ht. 30-40cm. Z5. Blooms April to May with bright red flowers in loose 20-30 blossom panicles. Compact, strong growth habit. Shade to semi-shade.

Epimedium x Rubrum 'Sweetheart' \$15.00ea
Ht. 30-40cm. Z5. Blooms April to May with dark rose-red flowers. Leaflets larger and darker green with a fine red tracing around the edge. We offer only a few small divisions.

Epimedium x 'Sasaki' 1gal \$12.00ea
Ht.3 0-40cm. Z4. Blooms April to May with pure pink flowers. Shade to semi-shade.

Epimedium x versicolor 'Sulphereum' 1 gal \$10.00ea
Ht. 30-50cm. Z5. Evergreen. Blooms April to May with 8-20 yellow flowered inflorescences. Very vigorous habit. Leaves green, new growth reddish-bronze. Shade to semi-shade.

Epimedium x warleyense 1gal \$10.00ea
Ht. 25-50cm. Z5. This form has incredible coppery orange flowers. A stand out in the shade garden.

Epimedium wushanense 'Caramel Bloom' \$25.00ea
Ht. 30cm. Z5. Red mottling over the long jagged newly emerged leaves and the caramel-amber colored flowers make this a must for the woodland garden.

Epimedium youngianum 'Baby Doll Pink' \$12.00ea
Ht. 10-25cm. Z5. Spurless flowers emerge from dark pink buds and open to a lovely soft pink edged with darker pink.

Epimedium youngianum 'Capella' \$12.00ea
Ht. 10-25cm. Z5. Dark rose flowers held above small foliage for a long period. The plant grows to its mature height after blooming.

Epimedium youngianum 'Kozakura' \$12.00ea
Ht. 25cm. Z5. Large white flowers strongly flushed with rose.

Epimedium youngianum 'Mertin' \$12.00ea
Ht. 30cm. Z4. The large dusky violet flowers of this cultivar fade to white in the center producing a two toned effect.

Epimedium youngianum 'Niveum' 1gal \$10.00ea
Ht. 25cm. Z5. This form has pure white flowers. A stand out in the shade garden.

Epimedium youngianum 'Roseum' \$10.00ea
Ht. 30cm. Z5. Flowers pale violet to purple. A good small scale cover for a shade garden.

Epimedium youngianum 'Shein' \$12.00ea
Ht. 25cm. Z5. This odd variety has flowers which consist of only four purple petals.

Epimedium youngianum 'Tamabotan' \$15.00ea
Ht. 30-40cm. Z5. Large lavender flowers atop lovely dark purple foliage that ages to deep green. AKA E.Pink Ruffles.

Epimedium youngianum 'White Star' \$12.00ea
Ht. 12-20cm. Z5. Very floriferous white flowers above the foliage. The plant grows to its mature height after blooming.

Epimedium youngianum 'Yenomoto' \$15.00ea
Ht. 30cm. Z5. White flowers with long spurs. A very floriferous clone.

Eranthis hyemalis Winter Aconite \$4.00ea
Ht. 10cm. Z4. Early blooming bulb with buttercup like flowers. Tends to bloom before E.cilicica.

Eranthis pinnatifida White Winter Aconite..... \$15.00ea
Ht. 10cm. Z4. Also known as Shiateranthus pinnatifida. A very early spring or late winter blooming bulb (naturally very tiny) with white flowers and dark stamens. Rarely offered.

Eremerus himalaicus Foxtail Lily..... 2gal \$19.00ea
Ht. 80-120cm. Z5. This species has starry white flowers in dense racemes. These come from massive roots.

Eremerus robustus Foxtail Lily..... 2gal \$19.00ea
Ht. 200-250cm. Z5. This species has pink flowers in a gigantic raceme.

Eremerus stenophyllus var. bungei Foxtail Lily 1gal \$10.00ea
Ht. 100-120cm. Z5. This form has canary yellow flowers with orange stamens in a dense flower spike.

Eremerus x isabellinus 'Cleopatra' \$12.00ea
Ht. 150-175cm. Z5. This selection has spikes of orange flowers with darker ribs, borne on a narrow elongated raceme.

Perennials

Eremerus x isabellinus` Shelford Hybrids`1gal \$12.00ea
Ht.80-125cm. Z5. Narrow green leaves. Flower shaft up to 40cm on 100cm flower stalk, blooms July to August. Mixed colors, pink, peach, yellow, orange.

Erigeron peregrinus Sub alpine Fleabane..... 10cm pot \$4.00ea.
Native. Ht.10-60cm Zone 2. Lavender-pink aster like flowers.

Erinus alpinus Fairy Foxglove 10cm pot \$4.00ea
Ht10-20cm. Z3. Easy little alpine plant, ideal for shady parts of the rock garden. It forms a low cushion or mound of evergreen leaves, bearing short stems of starry magenta-purple or pink flowers in late spring and early summer.

Eriophyllum lanatum Woolly Sunflower, Oregon Sunshine.....
..... 10cm pot \$4.00ea
Native. Ht20-30cm. Z4-5. Forms mounding mats of grayish green wooly foliage with bright yellow 5cm sunflower type flowers. Very drought tolerant once established. Plant in full sun to part shade in poor soil to keep tight compact shape.

Erythroniums

Early spring flowering, lily-like plants are produced from fleshy corms. Species described have narrow to broad, lance shaped green leaves often mottled. Nodding flowers have six pointed petals and all are more or less reflexed. All thrive in well drained humus-rich soil in shade to semi-shade.

Erythronium albidum 10cm pot \$8.00ea
N.A.Native. Ht. 10-20cm. Z3. Leaves mottled. Flowers white inside with yellow centers and a blue or pink tinted exterior. Easy to grow in humus rich soil in shade to part sun.

Erythronium americanum Trout lily..... 10cm pot \$4.00ea
N.A.Native. Ht.10-15cm. Z2. Glossy narrow leaves with heavy brownish purple mottling. Bright yellow solitary flowers bloom April to May. Naturally small corms.

Erythronium californicum`White Beauty`..... 10cm pot \$10.00ea
Ht. 20-30cm. Z5. This is now considered by most to be a form of *E.californicum*. It was considered to be a hybrid or selection of *E.oregonum* and before that a hybrid or selection of *E.revolutum*. Similar to *E.oregonum* except White Beauty is more vigorous, tends to have more flowers and the central markings are yellow and brown.

Erythronium dens-canis Dog's tooth violet 10cm pot \$5.00ea
Ht. 10-20cm. Z3. Narrow blue-green leaves with reddish-brown mottling. Flowers lilac to soft pink in color with a brown basal ring inside a white basal ring.

Erythronium dens-canis`Frans Hals` 10cm pot \$12.00ea
Ht. 10-20cm. Z3. A large rich deep violet purple flower with a brown throat surrounded by a yellow ring.

Erythronium dens-canis`Niveum` 10cm pot \$8.00ea
Ht. 10-20cm. Z3. A Bulgarian form which has white flowers tinted with a light touch of lavender.

Erythronium dens-canis`Pink Perfection` 10cm pot \$8.00ea
Ht. 5-10cm. Z3. Flowers clear bright pink in colour.

Erythronium dens-canis`Rose Queen` 10cm pot \$8.00ea
Ht. 10-20cm. Z3. This selection has mottled leaves and rose pink flowers.

Erythronium dens-canis`Snowflake` 11cm pot \$9.00ea
Ht. 10-20cm. Z3. White flowers, olive at base, chartreuse with a faint ring of red specks inside base.

Erythronium dens-canis`White Splendor` 10cm pot \$9.00ea
Ht. 10-20cm. Z3. White flowers with dark brown basal blotch.

Erythronium grandiflorum Yellow Glacier Lily **Dwarf** ... \$10.00ea
Native. Ht. 15-50cm. Z4. Large unmarked bright green leaves. Golden yellow flowers in groups of 1-3. Blooms April to May. Needs well drained soil in semi-shade. This is easy to grow.

Erythronium grandiflorum Yellow Glacier Lily **large Form** \$12.00ea
Native. Ht. 15-50cm. Z4. Large unmarked bright green leaves. Golden yellow flowers in groups of 1-3. Blooms April to May. Needs well drained soil in semi-shade. This large form is new for us and more typical of the species.

Erythronium japonicum Pink Japanese Lily 10cm pot \$8.00ea
Ht. 12-18cm. Z5. We finally have a good supply of this Japanese beauty. Narrow deep green unmottled or lightly mottled leaves. Dainty, highly reflexed lilac pink to grape purple flowers with dark stamens.

Erythronium montanum White Avalanche lily..... \$15.00ea
Native. Ht. 20-30cm. Z5. One to ten, crisp, white, orange centred flowers per flower stem. Green, unmarked strap shaped leaves.

Erythronium oregonum White Fawn Lily.10cm \$8.00ea
Native. Ht. 25-30cm. Z5. White nodding flowers with inner orange-yellow markings in groups of 1-6. Mottled leaves.

Erythronium revolutum Pink Fawn Lily..... \$8.00ea
Native. Ht. 15-20cm. Z5. Leaves mottled with light brown markings. Pink flowers (rarely white) are usually solitary but occasionally clustered up to five per stalk.

Erythronium tuolumnense Yellow Fawn Lily..... \$7.00ea
Native. Ht. 30-50cm. Z5. Light green unmottled leaves. Up to five bright yellow flowers per stalk. Blooms April to May.

Erythronium tuolumnense`Citronella`..... \$7.00ea
Ht. 30-50cm. Z5. An *E.tuolumnense* hybrid. Large, lemon yellow flowers have a light brown clover leaf shaped basal band in the throat.

Erythronium tuolumnense`Kondo` \$8.00ea
Ht. 30-50cm. Z5. An *E.tuolumnense* hybrid. Large yellow flowers (slightly darker than 'Pagoda') with a dark, bronze basal ring. Leaves lightly mottled.

Erythronium tuolumnense`Pagoda`..... \$7.00ea
Ht. 30-50cm. Z5. An *E.tuolumnense* hybrid. Large, sulfur yellow flowers. Large, green lightly mottled leaves.

Eupatorium cannabinum Plenum2gal \$16.00ea
Ht. 200cm. Z4. Upright stems with terminal clusters of double purple-pink flowers in July to Sept. Best in sun and moist soil.

Perennials

Eupatorium fortunei f. variegata..... \$15.00ea
Ht. 130cm. Z4. A stately architectural border plant from Japan with green leaves with creamy edges that turn maroon in Fall. Fragrant clusters of fuzzy pink flowers in Fall.

Eupatorium maculatum atropurpureum \$10.00ea
Ht. 120-200cm. Z3. Excellent architectural border plant for late summer to autumn with deep red stems crowned with panicles of wine red flowers.

Eupatorium rugosum 'Chocolate'.....1gal \$10.00ea
N.A.Native. Ht. 150-200cm. Z3. A new selection with chocolate-purple foliage. White flowers in terminal clusters appear in late summer. Sun to partial shade in average soil.

Farfugium (Ligularia) japonicum aureomaculata \$12.00ea
Ht.60cm. Z7. Large perennial with broad green, rounded and undulated leaves with creamy yellow spots. Yellow daisy-like flowers

Farfugium (Ligularia) japonicum cristata\$12.00ea
Ht.60cm. Z7. This gorgeous perennial had crested and frilled fans of gray-green foliage rimmed with pink highlights. Yellow daisy-like flowers.

Farfugium (Ligularia) japonicum 'Giganteum'\$12.00ea
Ht.60cm. Z7. Each attention drawing clump is comprised of huge, 40cm, leaves and topped in fall with stalks of bright yellow daisy-like flowers.

Farfugium (Ligularia) japonicum 'Jitsuko's Star' \$12.00ea
Ht.40cm Z7. A bold textured perennial for light shade with tropical looking, 6" green leaves topped with spikes of double yellow daisy-like flowers.

Farfugium (Ligularia) japonicum 'Kagami Jishi'\$12.00ea
Ht.60cm Z7. Similar to F. aureomaculata but as an added bonus the foliage is also crested.

Fauria crista-galli Deer Cabbage..... 11cm pot \$5.50ea
Native. Ht.20-30cm Z3. A lush plant with glossy green rounded heart shaped leaves and white flowers clustered on erect stalks. Plant in a moist site from sun to part shade. Makes a nice cover around the edge of a pond.

Filipendula palmata 'Nana' Dwarf Chinese Lace Flower . \$10.00ea
Ht. 30-40cm. Z3. A great little plant with mounds of fern-like foliage bristling with plumes of soft pink flowers.

Filipendula purpurea 'Elegans'..... 1gal \$10.00ea
Ht. 60-70cm. Z3. Airy plumes of delicate pink flowers are a wonderful source of fresh color in late summer just when most other mid-border perennials are dying back. Will tolerate dry conditions.

Filipendula ulmaria Queen of the meadow 11cm pot \$5.00ea
Ht. 1m. Z3. A great perennial for naturalizing along pond edges or stream sides. Stems covered liberally with irregularly pinnate green leaves. Sprays of striking creamy white flowers in early summer.

Filipendula ulmaria 'Aurea'.....1gal \$15.00ea
Ht. 90cm Z3. This great naturalizing or pondside perennial has nice white flower plumes atop bright yellow-green foliage.

Filipendula ulmaria 'Variegata'.....1gal \$10.00ea
Ht. 1.50m. Z4. White flowers and green leaves with a central golden-yellow stripe. Blooms late spring to early summer, a great one to naturalize along stream and pools.

Filipendula vulgaris 'flore pleno'.....1gal \$10.00ea
Ht.30-60cm. Z3. Drooping panicles of double creamy white flowers in mid summer.

Filipendula vulgaris 'Kahome'1gal \$10.00ea
Ht.30-50cm. Z3. Very long lasting pink flowers atop dark green ferny foliage.

Filipendula vulgaris 'Rubra' Red Meadowsweet.....1gal \$10.00ea
Fl. Ht. 30-75cm. Z4. Red flowers appear on loose, flattened panicles in June and July. Mid-green, ferny leaves are deeply cut. Prefers a sunny to semi-shade site, with well drained soil.

Fragaria chiloensis Coastal Strawberry 10cm pot \$4.00ea
Native. Ht. 5-15cm. Z4. Evergreen. Dark green glossy leaves have silky white undersides. White flowers appear in spring. Edible, small strawberries appear in mid-summer. Excellent evergreen, mat forming ground cover for full sun to semi-shade.

Fragaria vesca Wood Strawberry 10cm pot \$4.00ea
Native. Ht. 8-15cm. Z5. Thin, light green leaves. White flowers appear in May to June and again in fall. Small edible fruit. Prefers a woodland site in shade to semi-shade.

Fragaria virginiana Scarlet Strawberry 10cm pot \$4.00ea
Native. Ht. 8-15cm. Z3. Blue green foliage is topped with white flowers and followed by delicious small strawberries.

Francoa sonchifolia 10cm pot \$4.50ea
Fl.Ht. 60cm. Z6-7. This native of Chile produces nice evergreen rosettes of softly hairy leaves from a slowly creeping rhizome. Showy spikes in summer of rich pink flowers with a darker pink center stripe or blotch on each petal. A good looking perennial year round. Drought tolerant.

Fritillaria acmopetala\$5.00ea
Ht.15-45cm. Z7. Large green bell shaped flowers with chocolate markings.

Fritillaria acmopetala Brunette\$12.00ea
Ht.15-45cm. Z7. Green bell shaped flowers with darker markings. Flowers are larger than the species.

Fritillaria acmopetala Wendelboi.....\$14.00ea
Ht.15cm. Z7. A dwarf form of the species with large green bells and darker, stronger markings.

Fritillaria biflora Martha Roderick\$12.00ea
Native. Ht.15-40cm. Z8. Rusty red to chocolate brown bell shaped flowers with creamy green tips.

Fritillaria camschatcensis Northern Rice root , Chocolate Lily
..... \$12.99ea
Native. Ht. 35-60cm. Z5. Edible 2.5cm bulbs resemble clusters of rice grains. Bell shaped bronze-purple -black lightly mottled flowers appear in May to June. Whorled, lance-shaped leaves. Prefers shade to semi-shade in humus-rich soil.

Perennials

Fritillaria camschatcensis flavescens 11cm pot \$18.99ea
Native. Ht. 35-60cm. Z5. A rare yellow form of the species.

Fritillaria carica 'Brown' \$11.00ea
 Ht.5-15cm. Z7-8. A nice chocolatey brown selection of this species.
 Native to Southwest Turkey.

Fritillaria davisii 11cm pot \$ 8.99ea
 Ht.15-20cm. Z7-8. Bell shaped checkered flowers are a deep
 chocolate brown. Blooms Feb.-Mar. Naturally small bulbs.

Fritillaria elwesii 10cm pot \$10.00
 Ht.20-50cm. Z4. Bluish black flowers with a green midrib and a
 greyish blush.

Fritillaria graeca \$7.00ea
 Ht.6-20cm. Z7. Green bells tessellated with brown or black and a clear
 central green stripe.

Fritillaria hermonis ssp. amana 10cm pot \$7.50ea
 Ht.10-35cm. Z7-8. Bell shaped green flowers faintly tessellated with
 purple or brown.

Fritillaria lanceolata Chocolate Lily 11cm pot \$12.99ea
Native. Ht. 60-75cm. Z5. Bulb similar to F.camschatcensis. Bowl-
 shaped, brownish-purple flowers are mottled with greenish
 yellow. Whorled lance-shaped leaves. Shade to semi-shade.

Fritillaria minuta Brunette \$6.00ea
 Ht.10-20cm. Z8. Bell shaped flowers are yellow tinged or blotched
 with purple-brown.

Fritillaria pontica \$5.50ea
 Ht.15-45cm. Z6. Showy soft green bells edged in terracotta.

Fritillaria pudica \$8.75ea
 Native. Ht.10-20cm. Z3. Fragrant yellow bells shaped flowers.

Fritillaria stanathera 10cm \$23.00ea
 Ht.15-20cm. Z6. A rarely offered pink fritillaria from China with up
 to 10 pink flowers with purplish base per stem.

Fritillaria sibirnyi 10cm \$12.50ea
 Ht.16-30cm. Z. Exterior green interior intense purple brown.

Fritillaria thunbergii 11cm pot \$10.00ea
 Ht. 30-80cm. Z7. Light yellow bell shaped flowers faintly checkered
 with a grid of small mauve squares and overlaid with green veins.
 Easy to grow in humus-rich soil in shade to light shade. Japanese
 form. Fast to multiply.

Fritillaria verticillata \$10.00ea
 Ht. 20-60cm. Z5. Up to five large white bell shaped flowers with
 greenish veins.

Galax urceolata Galaxy 10cm pot \$7.50ea
 N.A. Native. Ht.10-15cm. Z4. A handsome and desirable plant, it
 makes mats of rounded lustrous leathery leaves. Flowers are small,
 white and in spire-like spikes held 30-60cm above the foliage. The
 leaves are collected in vast quantities for the floral trade. Best in light
 shade in humus rich soil.

Gallium boreale Northern Bed Straw \$5.00ea
 Native. Ht. 20-80cm. Tall stems topped with clusters of small fragrant
 white flowers. Can tolerate moist soils.

Galtonia candicans \$8.00ea
 Ht. 20-30cm. Lovely waxy white bell shaped flowers hanging down on
 tall stems emitting a light fragrance during its summer bloom. Mature
 blooms sized bulbs.

Gentiana acaulis 10cm \$5.00ea
 Ht.4-6cm. Z3. A wonderful late spring blooming Gentian with intense
 blue flowers. Great for the rock garden forming mats over time.

Gentiana asclepiadea Willow Gentian \$5.00ea
 Ht.40-60cm. Z6. A gracefully arching plant with slender, leafy
 stems. The 2 in. deep blue flowers are solitary or grouped by 2 or 3
 in the upper leaf axils.

Gentiana asclepiadea alba White Willow Gentian \$5.00ea
 Ht.40-60cm. Z6. A gracefully arching plant with slender, leafy
 stems. Large white flowers occur singly or in groups of 2 or 3.

Gentiana septemfida gal \$10.00ea
 Ht. 15-30cm. Z2. Compact mounds with blue trumpet shaped
 flowers.

Gentian sino-ornata 'Kingfisher' \$5.00ea
 A wonderful fall blooming species with kingfisher blue flowers that
 electrify your rock garden in late summer to early fall. Regrows each
 season from small threadlike white roots.

Geraniums

The Crane's-bill Geraniums listed here are hardy, free flowering, easy
 to grow herbaceous perennials. Many do as well in shade or
 semishaded sites as sunny sites in a perennial border, as a specimen, a
 groundcover or in a rockery.

Geranium 'Brookside' 1gal \$10.00ea
 Ht. 80cm. Flowers a rich blue atop rich medium green foliage.

Geranium x cantabrigiense 'Biokova' 1gal \$10.00ea
 Ht.10-15cm. Z5. This is a hybrid of G.dalmaticum and
 G.macrorrhizum. Flowers are light pink and are carried above the
 foliage. Leaves turn a brilliant red in fall.

Geranium x cantabrigiense 'Cambridge' 1gal \$10.00ea
 Ht. 20cm. Z5. Similar to G. Biokova except this excellent
 groundcover has dark rose colored flowers.

Geranium cinereum 'Ballerina' 1gal \$10.00ea
 Ht. 10-15 cm. Z6. Flowers are silvery lilac-pink with distinctly darker
 purple venation and bloom throughout summer. This is a great little
 geranium for the rockery.

Geranium cinereum 'Purple Pillows' \$15.00ea
 Ht. 15cm. Z4. Unusual burgundy purplish red flowers with darker
 veins.

Geranium cinereum 'Splendens' 1gal \$10.00ea
 Ht. 10-15cm. Z5. This form has brilliant iridescent purple-red flowers
 with darker veins and a black-red basal blotch with white margins.

Perennials

Geranium clarkei 'Kashmir Purple'.....1gal \$10.00ea
Ht. 50-60cm. Z7. This is a vigorous, spreading plant with deeply divided leaves and numerous large, upfacing, cup shaped deep violet-purple flowers.

Geranium dalmaticum1gal \$10.00ea
Ht. 10-15cm. Z5. Flowers June to August with clusters of 3cm soft pink flowers. Forms neat dense mound of glossy green leaves that are often tinted red in fall. Sun to semi-shade.

Geranium 'Dilys'1gal \$10.00ea
Ht. 30cm. Z4. Blooms in summer with magenta pink flowers. Often reblooms in fall.

Geranium 'Dragon Heart'1gal \$15.00ea
Ht. 60cm. Z5. A hybrid with magenta flowers and black center and veination. Blooms almost all summer long.

Geranium endressii.....1gal \$10.00ea
Ht. 35-45 cm. Z5. Flowers from May to September with 3 cm rose-pink flowers.

Geranium endressii 'Wargrave Pink'.....1gal \$10.00ea
Ht. 40-50cm. Z5. This selection of G.endressii is vigorous and is covered with numerous salmon pink flowers.

Geranium himalayense1gal \$10.00ea
Ht. 25-45 cm. Z4. Blooms in June and July with 5cm blue- violet flowers. Sun to semi-shade.

Geranium himalayense 'Plenum'.....1gal \$10.00ea
Ht. 25-30 cm. Z4. Blooms June and July with very pretty double lavender-blue flowers. Sun to semi-shade.

Geranium 'Johnson's Blue'.....1gal \$10.00ea
Ht. 35-45 cm. Z4. Blooms June to August with 5cm cup shaped sky blue flowers with red venation. Sun to semi-shade.

Geranium 'Leeds Form'.....1gal \$10.00ea
Ht. 40cm. Z4. This selection has a compact habit with reddish flowers with black veins.

Geranium maculatum1gal \$10.00ea
N.A.Native. Ht. 30-60cm. Z4. Leaves deeply 3-5 lobed, somewhat hairy on top. Flowers are held erect in terminal clusters and range from rose purple to pink. Good for woodland naturalizing or for the back of the perennial border.

Geranium maculatum Chatto.....1gal \$10.00ea
Ht. 60cm. Z4. This selection has pale lilac pink flowers and deeply divided green foliage. Great for the edge of a woodland.

Geranium maculatum Espresso1gal \$11.00ea
Ht. 60cm. Z4. Superbly contrasting dark bronze foliage and lavender pink flowers that mature to white. Foliage emerges in spring a wonderful burgundy-black and slowly fades to bronzy green after a few weeks.

Geranium macrorrhizum album..... 1 gal \$10.00ea
Ht.25-30cm. Z4. This lovely white flowered form of the species has pink stamens on the flowers which give them a blush pink effect.

Geranium macrorrhizum 'Bevans Variety'..... 1 gal \$10.00ea
Ht.25-30cm. Z4. Rosy magenta flowers with pink stamens.

Geranium macrorrhizum 'Ingwersen's Variety'1gal \$10.00ea
Ht. 25-30 cm. Z4. Blooms May to July with clusters of clear pink, 3cm flowers. Great as a dense ground cover.

Geranium x magnificum (G.ibericum x platypetalum)... \$10.00ea
Ht. 50-60cm. Z5. This old garden plant has soft shaggy pubescent leaves with numerous blue-violet flowers in mid-summer.

Geranium malviflorum 11cm pot \$4.50ea
Ht. 20-30cm. Z4-5. Tuberous. Flowers violet blue or violet with stronger veins. Likes well drained soil and sun.

Geranium sanguineum 'New Hampshire Purple'1gal\$10.00ea
Ht.20cm. Z4. Deep reddish purple flowers above compact foliage.

Geranium 'Orkney Cherry'1gal \$15.00ea
Ht.20-30cm. Z4. Vivid pink, continuous blooming flowers contrast nicely with maroon foliage

Geranium orientalitibeticum 11cm pot \$5.00ea
Ht. 20-35cm. Z8. Tuberous. Dwarf alpine perennial with dark pink purple flowers with white centers.

Geranium x oxonianum 'Claridge Druce'.....1gal \$10.00ea
Ht. 35-45 cm. Z4. A hybrid of G.endressii and G.versicolor. Lilac-pink flowers with purple venation. Sun to shade.

Geranium x oxonianum 'Katherine Adele'1gal \$10.00ea
Ht.40cm. Z6. Pretty pink flowers have darker veins. Dark green foliage has maroon markings which are stronger in more heat.

Geranium x oxonianum 'Phoebe Noble'1gal \$10.00ea
Ht. 40-50cm. Z5. This is a vigorous plant covered all summer in dark lipstick pink flowers. When untidy, trim it back and in a couple of weeks it's in bloom again.

Geranium x oxonianum 'Southcombe Double'1gal \$10.00ea
Ht. 35cm. Z5. Flowers mostly double salmon pink. A compact selection ideal for the front of a border.

Geranium x oxonianum 'Thurstonianum'.....1gal \$10.00ea
Ht. 60-75cm. Z5. Flowers pink with narrow petals and numerous dark purple veins. Another vigorous spreading G.endressii hybrid.

Geranium 'Patricia'.....1gal \$10.00ea
Ht. 50-75cm. Z3. This hybrid between G.endressii and G.psilostemon has vivid cyclamen red blooms with dark centers.

Geranium psilostemon1gal \$10.00ea
Ht. 75-80 cm. Z5. Blooms June and July with 4cm black centered magenta flowers. Sun to semi-shade. A great larger geranium for the perennial border.

Geranium phaeum album1gal \$10.00ea
Ht. 60-80cm. Z5. A pure white flowered selection.

Geranium phaeum Mourning Widow.....1gal \$10.00ea
Ht. 60-80cm. Z5. This tall plant has lobed leaves, often marked le at their base with dark bluish-red reflexed nodding flowers.

Perennials

Geranium phaeum 'Lavender Pinwheel'1gal \$10.00ea
Ht. 60-80cm. Z5. This selection has special flowers. Each flower is pale lavender, with violet veins radiating from a green eye, then the edge of each petal features a dark, picotee rim. The result is a delicate patterning of colour, with misty shadows where the petals overlap.

Geranium phaeum 'Sambor'1gal \$10.00ea
Ht. 40-50cm. Z5. This selection has large dark markings on the leaves as well as the typical maroon flower.

Geranium phaeum 'Springtime'1gal \$12.00ea
Ht. 40-50cm. Z4. A unique geranium with silvery mottled green foliage and deep maroon blooms.

Geranium pratense 'albiflorum' Meadow Cranesbill 1gal \$10.00ea
Ht. 60-75cm. Z5. Deeply cut dark green leaves. Pure white flowers with translucent white veins. Prefers sun to light shade.

Geranium pratense 'Dark Reiter'\$15.00ea
Ht. 30cm. Z3. Mounds of dark, deeply cut foliage with lavender blue flowers.

Geranium pratense 'Double Jewel'\$20.00ea
Ht. 25cm. Z4. Unique double white flowers with an intriguing purple heart. Nice compact habit.

Geranium pratense 'Hocus Pocus'\$15.00ea
Ht. 30cm. Z3. Mounds of dark, deeply cut foliage with lavender purple flowers.

Geranium pratense 'Purple Ghost'\$15.00ea
Ht. 30cm. Z3. Soft lavender flowers with darker veins.

Geranium pratense 'Splish Splash'1gal \$10.00ea
Ht. 45cm. Z4. A striking geranium with mauve blue splashes and flecks on pure white flowers.

Geranium 'Rozanne'1gal \$15.00ea
Ht.50cm. Z4. A long bloomer with striking marbled foliage and very large violet blue flowers with white centers.

Geranium sanguineum Bloody Cranesbill1gal \$10.00ea
Ht. 25-30 cm. Z4. Blooms May to September with 4cm crimson flowers. Excellent groundcover in sun to semi-shade. Leaves turn red in fall.

Geranium sanguineum 'Album'1gal \$10.00ea
Ht. 25-30 cm. Z4. Blooms May to September with 4cm pure white flowers. Somewhat looser habit than species. Excellent plant for sun to shade. Foliage greyish in color.

Geranium sanguineum 'Max Frei'1gal \$10.00ea
Ht. 20cm. Z4. Large deep magenta flowers on compact plant. Excellent for the rock garden.

Geranium sanguineum var. striatum ('Lancastrense')\$10.00ea
Ht. 20cm. Z4. Large flesh pink flowers with prominent venation. Grows very low to the ground.

Geranium sessiliflorum 'Nigricans' "Dwarf Black Cranesbill"
\$5.00ea
Ht.10-15cm. Z5. Copper-blue-black leaves and cute white flowers make this a great addition to the perennial garden.

Geranium 'Sweet Heidi'1gal \$13.50ea
Ht.35cm.Z4. Large, pink saucer-shaped flowers with bright white eye.

Geranium sylvaticum 'Mayflower'1gal \$10.00ea
Ht. 45cm. Z4. Flowers upright, a rich violet blue with a small white center. A good naturalizer in open, not too dry site or under trees.

Geranium sylvaticum 'Silva'1gal \$10.00ea
Ht. 45cm. Z4. Flowers upright, purple in color in early to mid-summer. A good naturalizer in open, not too dry site or under trees.

Geranium 'Tiny Monster'1gal \$10.00ea
Ht.10-25cm .Z4. Large lavender purple flowers on this dwarf cross between G. sanguineum and G. psilostemon.

Geranium tuberosum11cm pot \$4.50ea
Ht. 30-40cm. Z4-5. Tuberous. This is a wonderful hardy spreading geranium that arises from small tubers. Deeply cut leaves and purple-violet flowers with darker veins, deep blue anther and crimson stigma

Geranium versicolor1gal \$10.00ea
Ht. 45cm. Z4. A striking geranium with mauve flowers heavily veined with dark purple pencilling.

Geranium wlassovianum1gal \$10.00ea
Ht. 30cm. Z3. A wonderful compact plant with deep purplish magenta flowers veined with deep violet. From Northern China.

Geum macrophyllum1gal \$10.00ea
Native. Ht. 30-70cm. Z5. Light green, pubescent leaves. Cup-shaped yellow flowers. Sun to light shade.

Gillenia trifoliata Bowmans Root\$10.00ea
N.A.Native. Ht.60-100cm. Z3 A fantastic perennial with arching stems and trifoliolate leaves divided into three narrow toothed lobes. Showy white flowers with narrow petals in loose terminal panicles. Plant on the woodland edge where it will bloom from April till June. Excellent reddish fall coloration.

Glaucidium palmatum11cm pot \$29.00ea
Ht.30-45cm. Z5. Truly a Japanese gem with large maple-like leaves and large satiny pink flowers in spring.

Glaucidium palmatum leucanthemum11cm pot \$45.00ea
Ht.30-45cm. Z5. Truly a Japanese gem with large maple-like leaves and large satiny white flowers in spring.

Grindelia integrifolia Entireleaved Gumweed . 10cm pot \$5.00ea
Native. Ht. 30-75cm. Z3. This native perennial with bright yellow daisy like flowers often grows along cracks in rocky areas along or close to the sea shore.

Gunnera magellanica11cm pot \$4.99ea
Ht. 5-12cm. Z7. A wonderful groundcover from the Falkland Islands. Small rounded dark green shiny leaves with crinkled edges. Fruits bright reddish.

Hacquetia epipactis10cm pot \$6.00ea
Ht.7-10cm. Z5. Very early spring blooming with tight clusters of yellow flowers set atop a ring of green leafy bracts. Rounded three-five lobed deep green leaves make a nice carpet in the woodland garden after blooming.

Perennials

Helleborganza

Our Hellebore Extravaganza

February 12th-March 31st

Our first major event of 2016 will begin on February 13th and continue until March 31st. Featured at this event will be an outstanding collection of Hellebores as well as other fabulous late winter blooming plants including Adonis, Bulbocodium, Corydalis, Cyclamen, Dentaria, double and single Hepatica. Hard work and dedication to hand pollination has produced amazingly beautiful strains of Hellebores in which every plant is fabulous and unique. Similarly, breakthroughs in Hellebore tissue culture have created stunning strains in which every plant is identical. Many of these strains and cultivars are offered and listed below, however, others will be posted on the new plants list on our website just prior to the event. We are offering selections from major hellebore breeders such as Marietta and Ernie O'Byrne, Joseph Heuger, Judith and Dick Taylor, Heronswood Nursery, Yokohama Nursery, Gisela Schmiemann and Charles Price from countries around the world, including Britain, Belgium, Germany, USA, Canada and Japan.. To preview photos of the unbelievable double and single flowered Winter Jewels Strain, go to our website. We will also have species hellebores and a good selection of larger double and single plants available at the nursery. If you cannot come and want to pick up the plants within a short period of time or have them shipped, fill out an order form with your credit card information and include a pick up date or shipping date and we will choose for you. There will be special offers to those who attend including smaller and much larger plants and plants offered in small numbers. We look forward to seeing you at Helleborganza! More on Facebook. We will add more new hellebores to our New plants list.

Helleborus x Anna's Red 1gal \$20.00ea
Ht. 45cm. Z5. Wow Wow. Fantastic marbled foliage. Dark red buds open to red flowers with a contrasting ring of chartreuse nectaries. The flowers age to a darker red. Not available until MAY 2013. Bred by Rodney Davey and Lynda Windsor's nursery in Tytherleigh. Fantastic. Order separately for May 2013 onward.

Helleborus argutifolius\$15.00ea
Ht.40-60cm. Z6. Grey green leaves with toothed edges makes this a great addition to the shade garden. Flowers pale green. One of the first Hellebores available here. After bloom cut old stems to the ground.

Helleborus argutifolius 'Silver Lace' \$15.00ea
Ht.40-60cm. Z6. Stunning silver leaves with toothed edges makes this a great addition to the shade garden. Flowers pale green. After bloom cut old stems to the ground. From tissue culture so each plant is identical.

Helleborus argutifolius 'Silverston' \$15.00ea
Ht.40-60cm. Z6. A seed strain with nice silver overlay on greenish-grey toothed leaves. Flowers pale green.

Helleborus argutifolius 'HGC Snow Fever' \$25.00ea
Ht.40-60cm. Z6. Stunning new leaves emerge flushed and flecked in pink and then age to green heavily flecked in white. One of the most exciting new hellebores for year round interest.

Hastingsia alba White Rush lily..... 10cm pot \$6.00ea
Native. Ht.40-90cm. Z5. An interesting perennial from a small tuber. Long grass-like leaves topped with tall racemes of creamy white flowers tipped with green, lilac or pink.

Hedychium coccineum 'Krishna'\$12.50ea
Ht. 1-2m. Z7. Highly fragrant exotic peach coloured blooms. Sun to part shade.

Hedychium coccineum 'Tara'\$14.99ea
Ht. 1-3m. Z7. This is probably the hardest of the gingers and it's a keeper. It is a large plant with 30cm long spikes of flame orange flowers. It blooms earlier than most starting in June and going on until September.

Hedychium coronarium 'White Butterfly Ginger'\$10.00ea
Ht.1-3m . Z8. Large, white fragrant Butterfly shaped flowers are produced in late summer or early fall. Plant in part shade.

Hedychium coccineum 'Sonya'\$12.50ea
Ht. 1-3m Z7. Exotic ginger with peach fragrant flowers in summer. Sun to part shade.

Hedychium densiflorum 'Assam Orange'\$12.50ea
Ht. 1-3m. Z8.Exotic ginger with soft orange fragrant flowers in summer. Sun to part shade.

Hedychium flavescens Yellow Butterfly Ginger'\$16.00ea
Ht. 2m. Z8. Exotic cream and yellow fragrant flowers arise in summer. Sun to part shade.

Hedychium yunnanense\$18.00ea
Ht. 1m. Z8. Exotic ginger from China with deep orange fragrant flowers in summer. Sun to part shade.

Helenium autumnale 'Moerheim Beauty' 1gal \$10.00ea
Ht. 1m. Z5. Showy daisy-like flowers in shades of rich red which fades to ochre-brown, reverse even dark red. Good cut flower.

Helenium autumnale 'Red Army' 1gal \$10.00ea
Ht. 60cm. Z5. Showy daisy-like flowers in shades of rich red. This selection is shorter than most. Good cut flower.

Helianthella uniflora Little sunflower 10cm \$5.00ea
Native. Ht. 5-30m. Z4. Bright yellow sunflower like flower for a dry well drained sunny site.

Heliopsis 'Loraine Sunshine' False Sunflower..... 1gal \$11.00ea
Ht. 75cm. Z3. This showy perennial has stunning white foliage heavily veined with green and is topped with bright yellow daisy-like flowers that bloom all summer and into the fall until it gets a good frost. Makes an excellent cut flower.

Perennials

Helleborus x ballardiae 'HGC Cinnamon Snow'\$15.00ea
Ht. Z5. From Joseph Heuger's Nursery in Germany comes this hybrid of *H. lividus* and *H. niger*. Large flowers open with a tinge of pale yellow that turns into a cinnamon color as it matures creating a unique look. Dark green leaves with reddish stems. From tissue culture so each plant is identical.

Helleborus x ballardiae 'HGC Maestro' \$15.00ea
Ht. Z5. From Joseph Heuger's Nursery in Germany comes this hybrid of *H. lividus* and *H. niger*. Creamy white flowers with pink highlights and a dusty rose reverse. Compact habit with deep green leaves, lighter veins and red stems. From tissue culture .

Helleborus x ballardiae 'HGC Mahogany Snow'\$15.00ea
Ht. Z5. From Joseph Heuger's Nursery in Germany comes this hybrid of *H. lividus* and *H. niger*. Lovely pink buds open to white flowers with pink reverse. Flowers age increasing darker pink and eventually end up a rich Mahogany pink. Compact habit with deep green leaves, lighter veins and red stems. From tissue culture so each plant is identical.

Helleborus x ballardiae 'HGC Moonlit Marble'(Spring Party)
.....\$15.00ea
Ht. Z5. From Joseph Heuger's Nursery in Germany comes this hybrid of *H. lividus* and *H. niger*. Pink buds open to white flowers which age to a rich pink. Dark green leaves with silvery veination and reddish stems Make this foliage awesome. From tissue culture so each plant is identical.

Helleborus x ballardiae 'HGC Shooting Star'\$15.00ea
Ht.30cm. Z6. Dusty rose buds open to white flowers that fade to sage green. Deep green leaves with prominent veins and dark red stems. . From tissue culture so each plant is identical.

Helleborus x ericsmithii 'Angel Glow'\$15.00ea
Ht. 45cm Z5. Grey-green leaves on purple-red stems. In winter or early spring, the dusty soft pink flower stalks rise to 30cm, topped with clusters of pink-backed ivory buds. The flowers open pink and age to a dusky pink with green highlights.

Helleborus x ericsmithii 'Candy Love'\$15.00ea
Ht. 40cm. Z5. A wonderful new hybrid from Belgium. Upright soft creamy pink flowers above highly decorative foliage marbled and red veined. Flowers persist for 3-4 months and age to a chocolate pink color. From tissue culture so each plant is identical.

Helleborus x ericsmithii HGC Ice Breaker Max (Winter's Glow)
..... \$20.00ea
Ht 30cm Z4. Large, creamy white blooms with a green blush. Handsome, large, shiny green leaves. Evergreen. From tissue culture so each plant is identical.

Helleborus x ericsmithii 'Ivory Prince'\$15.00ea
Ht. 45cm Z5. Exquisite hellebore with upward facing ivory flowers, tinged with streaks of pink and green. Awesome blue-green foliage and wine- red stems. From tissue culture so each plant is identical.

Helleborus x ericsmithii 'Pink Beauty'\$15.00ea
Ht. 45cm Z5. The thick grey-green leaves on purple-pink stems whose color runs well into the leaf base. In spring, the dusty pink flower stalks rise to 30cm, topped with clusters of pink-backed ivory buds. The flowers open ivory and pink, aging beautifully to dusty pink.

Helleborus x ericsmithii 'Pirouette'\$15.00ea
Ht. 45cm Z5. A lovely form, originally from Blackthorn Nursery, with dark red buds which open white and turn a deep red as they age, giving colour over a very long season. Green foliage with nice pewter overlay. From tissue culture so each plant is identical.

Helleborus x ericsmithii 'Ruby Glow'\$15.00ea
Ht. 45cm Z5. Dark green leaves with prominent silver-grey veins and outward-facing, saucer-shaped pale pink to deep rose-pink flowers. From tissue culture so each plant is identical.

Helleborus x ericsmithii 'HGC Snow Dance'\$15.00ea
Ht.40cm. Z5. From Joseph Heuger's Nursery in Germany comes this new hybrid. Dusty rose buds open to cream flowers and mature to rosy cinnamon Dark green leaves with red stems. From tissue culture so each plant is identical.

Helleborus x ericsmithii 'HGC Silvermoon'\$15.00ea
Ht. 40cm. Z5. A wonderful new hybrid from Joseph Heuger's Glandorf Nursery in Germany with silvery green leaves. Upright glowing white flowers age to a reddish pink. From tissue culture so each plant is identical.

Helleborus x ericsmithii 'HGC Winter's Bliss'(Champion)
..... \$15.00ea
Ht.15cm. Z5. This new introduction from Joseph Heuger's Nursery in Germany has rosy buds that open to large creamy white flowers with dark pink reverse. aka HGC Champion . From tissue culture so each plant is identical.

Helleborus x ericsmithii 'HGC Winter's Song' \$15.00ea
Ht.15cm. Z5. This new introduction from Joseph Heuger's Nursery in Germany has dark pink buds that open to Ivory white flowers with strong pink reverse. aka HGC Joker. From tissue culture.

Helleborus x ericsmithii 'Winter Moonbeam' \$15.00ea
..... Larger plants \$25.00ea
Ht. 30cm. Z6. This striking new hellebore from England has gorgeous glaucous green foliage with dramatic silvery grey veining. Leaflets are attached by red petioles adding to the overall foliage display. White flowers age first to pink and later to reddish pink. From tissue culture so each plant is identical.

Helleborus x ericsmithii 'Winter Sunshine'\$15.00ea
Ht. 30cm. Z6. A companion plant to Winter Moonbeam also developed in England. Cream flowers set well above the dark green foliage age to pink red. From tissue culture so each plant is identical.

Helleborus foetidus \$15.00ea
Ht.40-60cm. Z5. The pendant muted yellow-green flowers often with purple margins are held in clusters. Dramatic, deeply-cut foliage that holds up through the winter.

Helleborus foetidus 'Fine Feathered Friend' \$15.00ea
Ht.40-60cm. Z5. A new introduction from Pine Knot farms with finely cut foliage adding a lovely lacy appearance to the garden.

Helleborus foetidus 'Red Silver' \$15.00ea
Ht.40-60cm. Z4. A great introduction originally from the garden of Ernie and Marietta O'Byrne although we got ours from Judith Knot Taylor at Pine Knot Farms. Red Silver has wonderful pewter overlay to the foliage as well as red petioles. Typical green flowers usually with a reddish edges. A seed strain so expect some variation.

Perennials

Helleborus foetidus 'Wester Flisk'..... \$12.99ea
Ht.40-60cm. Z4. Finely divided evergreen foliage with reddish stems. Bell shaped yellow/green flowers with maroon edges in clusters in late winter to early spring above the foliage.

Helleborus x hybridus Anemone flowered strain.....\$20.00ea
We have only a few of these semi double beauties. Color is totally random but we love the semi double nature.

Helleborus x hybridus 'Ashwood Fascination'.....\$20.00ea
Ht. 40cm. Z4. From Ashwood Nurseries comes this fantastic hellebore that produces peachy-apricot flowers with rosy-maroon spotting. From tissue culture so each plant is identical.

Helleborus x hybridus 'Ashwood Peach Cocktail'.....\$20.00ea
Ht. 40cm. Z4. From Ashwood Nurseries comes this fantastic hellebore that produces peachy-pink flowers with dark rosy-maroon brush strokes at the base of each sepal and a ring of dark rosy-maroon nectaries. From tissue culture so each plant is identical.

Helleborus x hybridus 'Best Yellow Strains'\$20.00ea
Ht. 40cm. Z4. From a private hybridizer comes unbloomed seedlings of his best yellows. But as seedlings there is no guarantee that they will bloom 100% true to color.

Helleborus x hybridus 'Cherry Frost'.....\$25.00ea
Ht. 40cm. Z4. A fantastic hybrid Hellebore from Japan with white flowers that have deep pinky-red spots and splashes at the base of each sepal. Each of the nectaries are trimmed in the same color. From tissue culture so each plant is identical.

Helleborus x hybridus 'Double Queen Mix'..... \$20.00ea
Ht. 40-60cm. Z4. This strain originates from Washfield Nurseries in England and is still overseen by Elizabeth Strangman. A great double flowered strain that self sows in the garden at almost 100% doubles.

Helleborus x hybridus 'Enchantment' \$20.00ea
Ht. 40cm. Z4. A fantastic hybrid hellebore from Japan with white flowers that have a splash of deep maroon-burgundy at the base of each sepal as well as a ring of luscious dark maroon-burgundy nectaries. From tissue culture so each plant is identical.

Helleborus x hybridus 'Gold Finch'.....\$20.00ea
Ht. 40cm. Z4. From Dan Hinkley's breeding program at Heronswood comes this stunning hybrid. Rounded golden yellow sepals speckled with a myriad of tiny red spots. From tissue culture so each plant is identical.

Helleborus x hybridus 'Heronwood Green'.....\$20.00ea
Ht. 40cm. Z4. From Heronswood Nurseries comes this hybrid with classy single green flowers. From tissue culture so each plant is identical. We cannot ship this plant into the U.S.A.

Helleborus x hybridus 'Kingston Cardinal'.....\$25.00ea
Ht. 40cm. Z4. A selection originally made at Heronswood Nursery. This is a fantastic double raspberry red. Stems and buds emerge from the ground a rich red enhancing the late winter show. From tissue culture so each plant is identical. We cannot ship this plant into the U.S.A.

Helleborus x hybridus 'Lady Series'
Ht. 30-40cm. Z.4-5 Developed by Gisela Schmiemann these hybrids have superior colors, upright stems with large rounded flowers. These come over 80% true from seed! Plant in sun to part shade in well drained soil

Helleborus x hybridus 'Blue Lady'.....\$10.00ea
Ht. 30-40cm. Z.4-5. Bluish-purple flowers.

Helleborus x hybridus 'Metallic blue lady'\$10.00ea
Ht. 30-40cm. Z.4-5. Powdery blue-purple flowers.

Helleborus x hybridus 'Pink Lady' \$10.00ea
Ht. 30-40cm. Z.4-5. Soft pink flowers

Helleborus x hybridus 'Red Lady'\$10.00ea
Ht. 30-40cm. Z.4-5. Clear red flowers

Helleborus x hybridus 'White Lady Spotted'\$10.00ea
Ht. 30-40cm. Z.4-5. White spotted red.

Helleborus x hybridus 'Yellow Lady'..... \$15.00ea
Ht. 30-40cm. Z.4-5. Yellow flowers speckled with maroon.

Helleborus x hybridus 'Mardi gras Doubles' \$20.00ea
Ht.45-60cm. Z4-5. From the breeder Charles Price comes this series from seed with very large double flowers ranging in color from deep reddish purples and pink through to light pink and white.

Helleborus x hybridus 'Mardi Gras Apricot Shades'... \$10.00ea
Ht.40-150cm. Z5. Large single blooms in a pretty blend of apricot and soft yellow. Nice dark green foliage. From breeder Charles Price. Stunning single selection.

Helleborus x hybridus 'Mardi Gras Bicolor Mix'.....\$10.00ea
Ht.40-150cm. Z5. A strain with bicolored blooms in a blend of violet and white, to reddish cream and warm pink. Single flowers typically with darker edges (picotee). From breeder Charles Price. Awesome picotee flowers.

Helleborus x hybridus 'Mardi gras Black Shades' .. 1gal \$15.00
Ht.45-60cm. Z4-5. From the breeder Charles Price comes this series from seed with very large flowers ranging in color from black to dark reddish.

Helleborus x hybridus 'Mardi gras Shades of Green' . \$20.00ea
Ht.45-60cm. Z4-5. From the breeder Charles Price comes this series from seed with very large flowers in shades of green. Only a few available.

Helleborus x hybridus 'Mardi gras shades of Pink' \$10.00ea
Ht.45-60cm. Z4-5. From the breeder Charles Price comes this series from seed with large flowers ranging in color from rose pink to dusky pink to soft pink, some clear and some spotted.

Helleborus x hybridus 'Mardi gras Plum shades' ... 1gal \$15.00
Ht.45-60cm. Z4-5. From the breeder Charles Price comes this series from seed with very large flowers that have cool rich dark plum colored flowers with a slightly bluish overlay.

Helleborus x hybridus 'Mardi gras Slate shades' 1gal \$15.00
Ht.45-60cm. Z4-5. Breeder Charles Price produced this series from seed with very large flowers with cool bluish purple near black flowers that are coated with that sought after slaty blue powder.

Perennials

Helleborus x hybridus 'Mrs Betty Ranicar' Fall \$25.00ea
Ht.30cm. Z.5 It's back, the double from down under. A lovely full double white that comes almost completely true from seed. There is some spotting every once in a while. This was first found in Betty Ranicar's garden in Tasmania by John Dudley. Expect 1-2% to be singles.

Helleborus x hybridus 'Painted Bunting' \$20.00ea
Ht. 40cm. Z.4. A stunning single. Each white petal is painted with a stroke of burgundy red in a central starburst pattern and further enhanced with burgundy red veination. From tissue culture so each plant is identical. We cannot ship this plant into the U.S.A.

Helleborus x hybridus 'Party Dress' \$20.00
Ht.45-60cm. Z4-5. The Party Dress seed strain originates from Blackthorn Nursery in England and has large, frilled double flowers that look much like their namesakes. Double flowers range from white to yellow to red to rose-pink in color.

Helleborus x hybridus 'Pine Knot Select Mix Strain'\$15.00ea
Ht. 40cm. Z4. From Pine Knot farms comes their select unbloomed seedlings from their best singles and semidoubles. The color range is fantastic.

Helleborus x hybridus 'P.K.S Our Best Bicolors'\$15.00ea
Ht. 40cm. Z4. From Pine Knot farms comes their select unbloomed seedlings from their best bicolored singles.

Helleborus x hybridus 'P.K.S. Our best Darks'\$15.00ea
Ht. 40cm. Z4. From Pine Knot farms comes unbloomed seedlings from their best single and semidouble dark flowered forms, from dark red to velvety purple black. But as seedlings there is no guarantee that they will bloom 100% true to color.

Helleborus x hybridus 'P.K.S. Our best Dark Wine'\$15.00ea
Ht. 40cm. Z4. From Pine Knot farms comes unbloomed seedlings from their best single and semidouble dark wine flowered forms. Back lit in the garden these wine color plants are to die for. But as seedlings there is no guarantee that they will bloom 100% true to color.

Helleborus x hybridus 'P.K.S. Our best Picotee'\$15.00ea
Ht. 40cm. Z4. From Pine Knot farms comes unbloomed seedlings from their best single and semidouble picotee flowered forms. But as seedlings there is no guarantee that they will bloom 100% true to color.

Helleborus x hybridus 'Pine Knot Select Our best Rhubarb and custard'\$15.00ea
Ht. 40cm. Z4. From Pine Knot farms comes unbloomed seedlings from their best single and semidouble Rhubarb and custard flowered forms. As seedlings expect variation.

Helleborus x hybridus 'P.K.S. Our best Pinks'\$15.00ea
Ht. 40cm. Z4. From Pine Knot farms comes unbloomed seedlings from their best single and semidouble pinks. Colour ranges from light pink to dark.

Helleborus x hybridus 'Pine Knot Select Our best Whites and spotted Whites'\$15.00ea

Helleborus x hybridus 'Southern Belles Strain'...Special \$15.00ea
Ht. 40cm. Z4. From Pine Knot farms Judith and Dick Tyler have developed this awesome strain of doubles and semidoubles. These seedlings are from hand pollinated double and semi double plants in a wide range of colours. As with all Helleborus grown from seed these plants will be variable, and will not reproduce exactly like their parents. Doubles usually breed 90-95% true and semi doubles only about 75% true. So a small percentage will bloom single. The color range is fantastic. Bloom sized plants.

Helleborus x hybridus 'Southern Belles Strain' Our best Double Darks.....\$20.00ea

Helleborus x hybridus 'Winter Jewel' (WJ)

Series' Listed below are the Winter Jewel series of Helleborus from Marietta and Ernie O'Byrne of Northwest Garden Nursery. A spectacular array of series of single and double hellebores all grown from hand pollinated seed. Unlike the tissue culture plants, one is never enough from a particular group as each plant is unique. In other words, expect some variation. If you're reading this in the catalogue, go to our web site (or theirs) to see the mouthwatering, jawdropping selection of images. If you are ever to appreciate good breeding, hard work and the spectacular potential of a single group of plants it will be now as you look at those images. We thin these are the best of the best.

Helleborus x hybridus Winter Jewel Amethyst Glow \$18.00ea
Ht.45-60cm.Z4. I really like this one. Dark burgundy-purple flowers, each edged in lighter pink

Helleborus x hybridus 'Winter Jewel Apple Blossom' .. \$18.00ea
Ht.45-60cm.Z4. Each plant is an individual masterpiece, single flowers in tones of light to darker pink.

Helleborus x hybridus 'Winter Jewel Apricot Blush'\$18.00ea
Ht.45-60cm.Z4. Each plant is an individual masterpiece, single flowers in tones of apricot-yellow and peach, edged, brushed veined or picoteed in rich rose highlights.

Helleborus x hybridus 'Winter Jewel Black Diamond'...\$18.00ea
Ht.45-60cm.Z4. This strain boasts single flowers of the darkest nature from slate-purple-black flowers to near-black. Foliage most often emerges purplish.

Helleborus x hybridus 'Winter Jewel Cherry Blossom'...\$18.00ea
Ht.45-60cm. Z4. This is a single flowered strain with a high percentage of semidouble anemone shaped flowers. Typically flowers are soft pink with a darker rose-red veination, picotee edging and nectaries or starburst.

Helleborus x hybridus 'Winter Jewel Jade Star'\$18.00ea
Ht.45-60cm. Z4. This strain has exquisite single green flowers streaked, veined, flushed and or picoteed with rich dark purple.

Single flowers in tones of white, burgundy and pink.

Helleborus niger Christmas Rose......\$10.00ea
Ht. 30cm Z3. This species has white flowers which fade to pink as they age. Blooms from December onward to mid-February. Plant in sun to part sun in well drained soil.

Helleborus niger 'HGC Josef Lemper'.....\$15.00ea
Ht.30-40cm. Z3. This new introduction from Joseph Heuger's Nursery in Germany starts to bloom near the end on November. Slightly cupped, pure white, upward facing flowers turn light green as they age. Excellent plants with strong stems and dark green foliage. From tissue culture so each plant is identical.

Helleborus niger 'HGC Jacob'\$15.00ea
Ht. 10-20cm Z3. This new introduction from Joseph Heuger's Nursery in Germany has large slightly fragrant pure white flowers. In intense cold the flowers take on a slight pink tint. From tissue culture so each plant is identical.

Helleborus x nigercors 'HGC Green Corsican'\$15.00ea
Ht.25cm Z6.A hybrid between H. niger and H. argutifolius from Joseph Heuger's Glandorf Nursery in Germany. An early bloomer with large, creamy white flowers that mature to fresh green. From tissue culture so each plant is identical.

Helleborus x nigercors 'HGC Ice Breaker Corsican'.. \$15.00ea
Ht.30cm. Z4. From Joseph Heuger's Nursery in Germany comes this new hybrid. • White blooms, with white or blush reverse, and age to nice strong green. From tissue culture so each plant is identical.

Helleborus x nigercors 'HGC Ice Breaker Fancy'.....\$15.00ea
Ht.30cm. Z4. From Joseph Heuger's Nursery in Germany comes this new hybrid. • White blooms, with white or blush reverse, and age to green. From tissue culture so each plant is identical.

Helleborus x nigercors 'HGC Ice Breaker Pico'.....\$15.00ea
Ht.30cm. Z4. Pale pink buds open to large, greenish cream flowers that age to a light green. Leaves with a blue gray cast. From tissue culture so each plant is identical.

Helleborus x nigercors 'HGC Ice Breaker Prelude'.....\$15.00ea
Ht.30cm. Z4. Chartreuse buds and large, creamy white flowers that age to green. Usually start to flower in January. Foliage is a grayish green. From tissue culture so each plant is identical.

Perennials

Helleborus x nigercors 'Snow love' \$15.00ea
Ht. 45cm. Z5. A lovely Hellebore hybrid from Belgium with large single snow white flowers and evergreen durable foliage. The flowers seem to last and last on this one and eventually turn a showy soft green color. Last year our plants had flowers for months.

Helleborus x nigercors 'HGC Winters Ghost'(Spring Breeze)
..... \$15.00ea
Ht. 45cm. Z5. Crisp, white flowers from dusky pink flower buds and attractive deep green foliage with slight silver ghosting.

Helleborus x nigercors 'White Beauty' 2gal\$25.00ea
Ht. 45cm. Z5. Fantastic foliage, heavy deep green leaves with silvery white veination. Creamy white flower buds open to lovely cream-white flowers that eventually age to green. From TC.

Helleborus orientalis guttatus 1gal \$14.99ea
Ht. 45cm. Z6. A lovely subspecies or possible hybrid which usually has white or cream flowers spotted with red or purple.

Helleborus x Penny's Pink 1gal \$20.00ea
Ht. 45cm. Z5. Wow. Wow. Foliage emerges a bronzy colour with pink veining. The pink fades to creamy white then to green. Dark pink buds open to pink flowers with a contrasting ring of chartreuse nectaries. The flowers age to a darker pink. Limited numbers early in the season and more in May.

Helleborus x 'Snow White'\$20.00ea
Ht.45cm. Z4. A most unusual plant from the esteemed Yokoyama Nursery in Japan. This hybrid between *H. niger* and *H x hybridus* is a first of its kind. Very large flat white flowers held well above the foliage age to a reddish pink. From tissue culture so each plant is identical.

Helleborus x sternii 'Blackthorn Group'\$15.00ea
Ht.45cm. Z5. Handsome steely blue foliage with nicely contrasting red stems all in a tidy compact habit. Cupped creamy-green flowers held in upright branched clusters with rose blush on their buds and back sides make this a must for every garden.

Helleborus x sternii 'Hot Flash' \$15.00ea
Ht.30cm. Z5. A gorgeous evergreen variety with deeply serrated, silvery leaves with red stems and veins. Blooms in late winter/early spring with pale green flowers with a pink blush.

Helleborus x sternii 'Silver Dollar' \$15.00ea
Ht.20cm. Z6 Compact mound of serrated silver leaves held together with pink stems. In late winter plants are topped with 15cm tall branched stems holding round greenish-white flowers with a nice pink flush on the backside. Seed grown strain.

Helleborus thibetanus..... Fall only \$35.00ea
Ht. 45cm. Z6-7. Simply an incredible Hellebore from China. Nodding bell shaped flowers open snow white, aging to blush pink with darker veins. These grow nothing like any other Hellebore, they usually go dormant by early summer. Roots are naturally dark in color, from tan to dark brown.

Helleborus torquatus hybrid \$15.00ea
Ht. 20-40cm Z5. A rarely offered species that is slow to mature with highly cut foliage. Flowers are typically purple but may also be blue-green with purple veination and purple reverse or even all green.

Hemerocallis 'Apricot Beauty' Daylily.....1gal \$10.00ea

Hemerocallis 'Stella d' Oro' Dwarf Daylily 1gal \$10.00ea
Ht. 20-28cm. Z2. This dwarf reblooming yellow flowered, fragrant Daylily is very popular. Like sun to semi-shade.

Hemerocallis 'Tigger' Daylily 1gal \$13.00ea
Ht. 60cm. Z2. This fragrant, reblooming daylily has orange flowers with a red collar and a green throat.

Hemerocallis 'Twilight Secrets' Daylily 1gal \$15.00ea
Ht. 70cm. Z2. Gorgeous purple-lavender blooms with a heavily ruffled yellow edge and golden yellow eye zone. Reblooms.

Hemerocallis 'White temptation' Daylily 1gal \$10.00ea
Ht. 60cm. Z2. Showy creamy white flowers.

Hepatica acutiloba Sharp lobed Hepatica 11cm pot \$5.00ea
N.A.Native. Ht. 30-60cm. Z4. Evergreen. Resembles H.americana but plants are larger and leaves are more sharply pointed. Flower color from light blue to white to rose pink. Shade to part sun.

Hepatica americana Round Lobe Hepatica 10cm pot \$5.00ea
N.A.Native. Ht. 15cm. Z4. Evergreen. Prostrate, glossy deep green trilobed leaves. Single flowers set above foliage on short stalks. Flower color ranges from lavender to blue to white to rose-pink. Prefers shade to semi-shade.

Hepatica maxima **only a few** \$30.00ea
Ht.20-30cm. Z5. The largest of all hepaticas found on Ulleng Island in Korea. Soft pink flowers. Plant in light shade.

Hepatica nobilis 'Blue form' 10cm pot \$5.00ea
Ht.15cm. Z4-5. Evergreen. A nice form with blue flowers.

Hepatica nobilis 'mixed seedlings' 10cm pot \$5.00ea
Ht.15cm. Z4-5. Evergreen. So far this group of seedlings has thrown intense blue flowers and incredibly hot pink flowers but you never know what you're going to get.

Hepatica nobilis pink seedings. \$9.99ea
We have a few seedlings grown from an awesome pink mother plant.

Hepatica nobilis Select seedlings. \$9.99ea
We are offering a mix of seedlings that have been grown from seed of selected mother plants. The range and variation of the mother plants is great and seedlings could be anything.

Hepatica nobilis var japonicum \$9.99ea
Ht.15cm. Z5. We are extremely pleased to offer a selection of mixed colors from a Japanese Hepatica grower. Ranging from pure white to pink to red and blue some with colored stamens.

Hepatica nobilis var japonicum colored stamens forms.... \$15.00ea
Ht.15cm. Z5. We are extremely pleased to offer a selection of mixed colors of Japanese Hepatica. Ranging from pure white to pink with colored stamens.

Hepatica nobilis japonica Honshu Special \$20.00ea
Ht 15cm. Z4. These are gorgeous Japanese hepaticas from a breeder in Japan. Colors and forms are mixed. Do you want to try a plant no one else has? Plant in deep shade for best results. We are planting lots of these in our own gardens.

Hepatica nobilis japonica Sado Red \$24.00ea
Ht 15cm. Z4. This gorgeous Japanese hepatica is a great new colour strain and produces flowers ranging from deep pink to maroon red. This colour strain originally came from Sado Island in Japan.

Hepatica nobilis Rubra Plena 10cm pot \$35.00ea
Ht.15cm. Z5. This is one of the almost impossible to get double flowered hepaticas. Rich fully double reddish purple flowers.

Perennials

Hepatica transsilvanica \$10.00ea
 Ht. 5-10cm. Z5. A great spreading hepatica forming a mat topped with showy blue flowers in the spring. The only fast spreading hepatica.

Japanese Flowering Hepatica

Among this group are some of the most beautiful double flowered plants going. Several hundred selections are offered in Japan and some cost as much as 100,000 yen or more. We will be offering an increasing selection of double flowered, named varieties in the most incredible color range. Those who know will notice the reduced pricing but most are still expensive by North American standards. Please check out this section at our website for a larger selection and some fantastic pictures. We will have a few available this spring (early March). The variation is endless and words do not do justice to these amazing Japanese Hepaticas; however, we will give it a shot. Go to our web site and look at the images. The flowers are intricate, often looking very different from bud to near open flower to open flower.

Anjyu..... \$75.00
 A nice outer whorl of large rounded dark-pink petals with subsequent whorl after whorl of smaller white petals rimmed in dark-magenta pink as you proceed toward the center of the flower.

Daishihou \$75.00
 The outer whorl is made up of broad purple-blue petals, the inner whorls get progressively infused with white as you move towards the center.

Fukai..... \$88.00
 A lovely double with a lilac-pink outer ring of broad rounded petals and stacks and stack of progressively smaller petals getting progressively lighter in color.

Hijiri..... \$75.00
 When first open this double has outer whorls of near white petals and the inner whorls are creamy green. As it opens the whorls of petals get progressively whiter and the creamy-green is restricted to the petal bases.

Kasugano..... \$75.00
 An incredible clone with an outer ring of broader rich pink-purple petals with each inner ring of petals getting progressively smaller. As the flower ages the color fades to white at the tip of each petal.

Kimon..... \$49.00
 Large full double with each petal is soft mauve-blue on the outside rim and fades to white in the center.

Komadori..... Late spring 2014 \$98.00
 Large outer white petals are infused with a touch of pink. The inner petals are edged with pink and have a cream-yellow-green center. The creamy-yellow-green gets stronger on the inner most petals. I expect the partly open flower to be amazing.

Kouetsu..... \$75.00
 An outer whorl of 6-9 large rounded purple petals with a center made up of tightly packed whorl on whorl of smaller purple-tinged red petals that are infused with a touch white

Miyako Odori..... \$75.00
 Large outer two whorls of petals are a nice soft pink with darker pink reverses. The final five or six inner whorls of petals are white with a touch of cream.

Miyuki..... \$75.00
 A large rounded ring of magenta-purple petals with tightly packed inner ring of smaller pointed white petals with a sharply defined trim of magenta-purple. The middle inner ring can tinge green as the flower ages.

Muramasa..... \$75.00
 Large outer two whorls of petals are white infused with a touch of pink the next four or five are white streaked with chartreuse green and the innermost four or five whorls are white.

Murasaki-shikibu..... \$99.00
 Stunning. The outer whorl of large rounded petals are a rich blue-purple. The Next Inside whorl is violet-purple, then two or three whorls of white edged with violet, then two or three whorls of a soft green with a violet trim another white infused violet trimmed whorl then final central cluster of darker rich violet.

Okesa Bayashi..... \$75.00
 Large violet blue petals that fully open to expose a dense ring of shorter rose violet stamens.

Orihime..... \$49.00
 An incredible rose pink double with an outer ring of broad petals surrounding a perfectly arranged fully double centre. When fully open, the centre fades to white.

Pink Giant \$49.00
 A clonal form with huge pink flowers. Very rarely offered

Ran Shiro..... \$125.00
 Large outer whorl of purple-mauve petals followed by a few whorls that are white infused with purple-mauve then three or four more that are white. In the very center are a few short yellow segments.

Red seedlings..... special \$20.00
 We are extremely pleased to offer seedlings of these wonderful Japanese red hepaticas.

Ryo Fu \$145.00
 Large double pink flowers. The centers of the petals in the inner whorls fade to white giving the flower a lighter colored center.

Sado Red \$24.00ea
 Ht 15cm. Z4. This gorgeous Japanese hepatica is a great new colour strain and produces flowers ranging from deep pink to maroon red. This colour strain originally came from Sado Island in Japan.

Saiun..... \$75.00
 A lovely perfect full double flower. Outer whorl of larger rounded rich pink flowers and inner whorls getting progressively whiter as you approach the center giving a white center often with a kiss a pink at the tips of the inner most petals.

Sakura Nishiki \$98.00
 The just open double flower is awesome. The outer petals are near white and a few layers inward they are edged pink with chartreuse green centers and the center most rings are green. When open the outer most petals are near white with a tinge of pink and the middle petals are pink, some with white centers, some with cream centers and finally the innermost rings are white with a tinge of pink.

Perennials

Sasa Bune \$99.00
 The outer ring has broad round lilac-purple petals while the next layer is slightly smaller. The middle layers are edged lilac-purple with a dab of creamy-green at the tips that fades to creamy-white at the base. The petals in the central layer are curled forward a bit and are lilac-purple.

Sato no Yuki \$75.00
 This wonderful fully filled double white hepatica has first a layer of larger rounded petals followed by layer upon layer of progressively smaller petals.

Shi Cho \$75.00
 A profuse flowering double with blue-violet petals that are darker at their tips and lighter towards the center.

Shirin specila \$36.00
 A profuse flowering double with blue-violet edged petals with white centers stacked layer upon layer all set atop an outside layer of larger round blue-violet petals

Shigyoku \$49.00
 Broad rounded outer petals form a perfect back drop for the inner rows of shorter rounded petals. The outer and middle petals are violet purple and the central most petals fade to white at the base.

Sai Haku \$75.00
 This is a stunning double white. On the partially open flowers the center petals are a sumptuous creamy-green that turns white on the fully opened flower.

Sui En \$75.00
 A crazy beautiful double with broad rings of larger rounded white petals that progressively become smaller and greener. As the flower ages the green petals on the inner six or seven layers get a rose colored trim at the edges.

Subaru \$98.00
 This wonderful fully filled double blue hepatica has most of the petals aligned in rows giving it a lovely stacked appearance. Towards the center the petals become white.

Sen Nin \$110.00
 The partially opened flowers are stunning. An outer whorl of large rounded whitish petals are held within a series of tighter, short, waxy, dark rose colored petals. These petals surround rings of slightly larger greenish white petals with rose markings on the reverse which in turn surround the center of the creamy-green flower. The open flower lies flatter and the inner petals fade to white with a touch of creamy green.

Tamamushi \$99.00
 A fantastic pink double. The outer ring of petals (7,8) are larger and more rounded. Piled on top are layer upon layer of slightly smaller petals. When fully open the innermost 3 to 4 rings of petals are tipped green, the very center fading to white.

To Gen Sui \$110.00
 An outer ring of rounded larger bright pink petals which become progressively smaller. The centers of inner rings of bright pink petals fade initially to a creamy-green that later ages to near white.

Yuzuru \$49.00
 An awesome double with the outermost whorl of pink. The next 4-5 whorls are a chartreuse green and the center is a darker reddish pink

Heuchera micrantha 10cm pot \$5.00ea
Native. Fl.Ht. 30-90cm. Z6. Evergreen. Large, roundish light grey-green leaves with greyish markings in loose mounds. Small, whitish flowers in loose, airy clusters of tall wiry stems. Shade to semi-shade in well drained soil.

Heracleum sphondylium (H. lanatum) Cow-parsnip 1gal \$10.00ea
Native. Ht. 70-250cm. Z5. Huge, green, toothed, woolly haired leaves. Large, flattened flower heads made up of small greenish-white flowers bloom in May and June.

Hosta 'Abba Dabba Do' \$13.00ea
 Ht.60+cm. Z3. This is a sport of H. Sun Power with green leaves and a bright yellow edge. The foliage emerges all green and then the edges develop. An introduction by Tony Avent.

Hosta 'Abiqua Drinking Gourd' \$10.00ea
 Ht.35cm. Z3. Deeply cupped and heavily corrugated blue-green leaves. White flowers.

Hosta 'Abiqua Recluse' \$12.00ea
 Ht. 45cm. Z2. Nice, lower growing variety with golden foliage.

Hosta 'American Halo' \$18.00ea
 Ht. 60cm. Z3. Slightly wavy leaves are intensely blue with a wide wavy creamy margin. White flowers.

Hosta 'Antioch' \$10.00ea
 Ht. 50cm. Z3. Pale green leaves with yellow margin that fades to creamy white. Lavender flowers.

Hosta Atlantis \$24.00ea
 Ht.60cm. Z3. This Hosta forms a huge 5' wide clump of slightly wavy, pointed, green leaves. Each leaf has a wide light yellow margin.

Hosta 'August Moon' 1gal \$10.00ea
 Ht. 60cm. Z3. Large, rounded, puckered, golden leaves. Flowers white with a touch of pale lavender.

Hosta 'Barbara Ann' 1gal \$13.50ea
 Ht.50cm. Z3. This sport of H.sieboldiana Elegans has thick corrugated blue-green leaves with a broad cream margin that slowly turns to white. Near white flowers.

Hosta 'Big Daddy' 1gal \$10.00ea
 Ht.60-80cm. Z3. One of the best big Hostas with huge blue-green cupped leaves. Flowers white.

Hosta 'Big Mama' \$10.00ea
 Ht.70cm. Z3. Very thick, heavily corrugated blue-green leaves. Near white flowers.

Hosta 'Birchwood Parky's Gold' 1gal \$10.00ea
 Ht.46cm. Z3. Large chartreuse leaves become medium golden by early summer. Lavender flowers.

Hosta 'Blond Elf' 2gal \$20.00ea
 Ht.20cm. Dwarf. Wavy yellow lance shaped leaves. Soft lavender flowers.

Hosta 'Blue Boy' \$10.00ea
 Ht.35cm. Z3. Blue green heart shaped leaves. White flowers.

Perennials

Hosta 'Blue Cadet'.....1gal \$10.00ea
Ht.40cm. Z3. Round blue leaves. Flowers lavender in color.

Hosta 'Blue Mammoth'..... \$15.00ea
Ht.85cm. Z2. A gorgeous big blue hosta with thickly corrugated leaves and light lavender flowers.

Hosta 'Blue Mouse Ears'.....\$17.00ea
Ht.10-25cm. Z3. Dwarf. A very cute small hosta with small, rounded gray green foliage.

Hosta 'Blue Umbrella'.....1gal \$10.00ea
Ht. 90cm. Z3. Large blue, textured leaves. Flowers white.

Hosta 'Brim cup'..... 1 gal \$13.00ea
Ht. 30cm. Z3. Rich, medium green, cupped, seersucker leaves with a wide white margins; quickly forms a mature clump. White flowers.

Hosta Captain's Adventure.....\$15.00ea
Ht.40-50. Z2. A sport of Captain Kirk with unique tricolored foliage. The lighter colored margins are separated from the darker yellowish green centers by darker green, giving it a leaf on leaf look.

Hosta Captain Kirk.....\$24.00ea
Ht.50. Z2. This Hosta has a delicious wide golden center surrounded by a very broad dark green edge. As you can imagine, the contrast is truly stunning.

Hosta Center of Attention..... \$24.00ea
Ht.25cm. Z3. Each blackish green, deeply veined leaf is highlighted by a stunning golden center that brightens to creamy white as the season progresses.

Hosta 'Cherry Berry'..... 1gal \$15.00ea
Ht.30-40cm. Z3. Dark green lance shaped leaves with irregular white centers. Leaf petioles and flower scapes are a clear reddish color(rare in hostas). Flowers purple.

Hosta 'Christmas Tree'..... 1gal \$10.00ea
Ht.50cm. Z3. A medium sized hosta with a pyramidal habit. Large rugose blue green leaves with a distinct creamy white border. Flowers are light lavender in color.

Hosta Clifford's Forest Fire.....\$24.00ea
Ht.90cm. Z3. A choice sport of Hosta Sagae with a wider leaf margin.

Hosta Clifford's Stingray..... \$20.00ea
Ht.50cm. Z3. This a tetraploid sport of Fire and Ice with heavy green edging feathering into white leaf centers. This hosta holds up well in the sun.

Hosta 'Dancing in the Rain'.....\$20.00ea
Ht.60cm. Z3. A wonderful sport of Blue umbrellas. Large white centers with irregular flaming blue-green edges.

Hosta 'Diamond Tiara'..... 1gal \$10.00ea
Ht. 50cm. Z3. Wavy green leaves with a yellow edge.

Hosta 'Dream Weaver'..... \$15.00ea
Ht. 75cm Z3. A wonderful sport of H.'Great Expectation' with creamy yellow to white centers surrounded by a thick blue green margin.

Hosta 'Dust Devil'.....\$18.00ea
Ht.60cm. Z3. Dark green center bordered by margins which are initially chartreuse but slowly turn creamy white by summer. Lavender flowers.

Hosta 'Earth Angel'.....\$20.00ea
Ht.90cm. Z3. 2009 Hosta of the year. From the classic 'Blue Angel' comes 'Earth Angel', a wonderful variegated form. Large heart-shaped blue-green leaves have a wide creamy-white border. Pale lavender flowers top the clump in early summer.

Hosta 'Empress Wu'.....1gal \$20.00ea
Ht.120cm. Z3. One of the largest hosta with huge leaves that can be 45cm long and across. Huge dark green leaves with good substance and heavy veining make this a focal point in any garden. Plants are larger this year.

Hosta 'Emily Dickinson'..... 11 cm pot \$16.00ea
Ht. 50cm. Z4. A relatively new hybrid with medium green leaves and yellow margins. Fragrant lavender flowers.

Hosta 'Eternal Flame'.....1gal \$15.00ea
Ht.25cm. Z3. This sport of H.Whirlwind is stunning with its black-green leaves and brilliant white central pattern that holds throughout the summer.

Hosta 'Fire and Ice'.....\$14.00ea
Ht.50cm. Z3. The leaves of this absolutely stunning hosta have pure white centers and irregular dark green margins. Lavender flowers.

Hosta 'Fire Island'.....1gal \$12.00ea
Ht.60cm. Z3. New leaves emerge brilliant yellow on red petioles; red colouring extends from the base of the petiole up into the leaves; the foliage darkens to chartreuse, but the red petioles remain all season long. A real standout.

Hosta 'First Frost'.....\$13.50ea
Ht.40cm. Z3. Hosta of the year for 2010. Intense blue leaves with gold margins that later turn to white. Light lavender flowers.

Hosta 'First Mate'..... \$13.50ea
Ht.25cm. Dwarf. Leaves have a beautiful golden center and a wide dark green margin.

Hosta fluctuans 'Variegated' (Sagae)..... \$13.00ea
Ht. 50cm. Z4. This is one of the most cherished cultivars with frosty green leaves and bright creamy yellow margins. Heavy substance, good slug resistance and pale lavender flowers.

Hosta 'Fragrant Bouquet'.....1 gal \$17.00ea
Ht.55cm. Z3. Creamy yellow margin brightens to white by summer with pale green center. Light lavender fragrant flowers.

Hosta 'Fragrant Dream'..... \$18.00ea
Ht. 65cm. Z3. Medium green foliage with a creamy golden margin. Fragrant blooms.

Hosta 'Francee'..... \$10.00ea
Ht.50-60cm. Z4. Medium sized, dark green leaves with a white margin. Lavender flowers.

Hosta Fried Green Tomatoes.....\$10.00ea
Ht.65cm. Z3. Rich green leaves and fragrant lavender flowers.

Perennials

Hosta 'Fringe Benefit'.....1gal \$10.00ea
Ht.50-60cm. Z3. Dark blue-green leaves with a wide, irregular creamy-yellow margin and pale lavender, lily-like, bell flowers.

Hosta 'Frosted Jade'..... \$10.00ea
Ht. 60-75cm. Z3. Frosted blue green heart shaped leaves with a distinct white margin. White flowers.

Hosta fortunei 'Aureamarginata'.....1gal \$10.00ea
Ht. 60cm. Z3. Dark green leaves with a stunning golden-yellow border. Lilac flowers.

Hosta fortunei 'Hyacinthina'.....1gal \$10.00ea
Ht. 60cm. Z3. Blue-grey leaves with a glaucous white underneath. Pale lavender flowers.

Hosta Fortunei 'Silver Crown'..... 1gal \$10.00ea
Ht.60cm. Z3. Green leaves with white edges and lavender flowers. An H.fortunei Albomarginata type.

Hosta 'Funny Mouse'..... \$13.50ea
Ht.20cm. Dwarf. Another mouse with blue-green leaves with a white margin that turn to creamy white as the season progresses.

Hosta 'Ginko Craig'.....1gal \$10.00ea
Ht. 15cm. Z3. Short lance shaped leaves with sharp white borders. Dark purple flowers.

Hosta 'Gold Edger'.....1gal \$10.00ea
Ht 20cm. Z3. Small, light yellow-green leaves and white flowers.

Hosta 'Great Expectations'.....1 gal \$15.00ea
Ht. 60cm. Z3. Blue green margins with golden center in spring brightening to white by summer. Flowers near white.

Hosta Grey Ghost.....1gal \$12.00ea
Ht.75cm. a sport of Blue Angel, leaves are spear shaped and pointed, emerging a very unique yellowish-white in the spring and turning blue-green in summer.

Hosta 'Ground Master'.....1gal \$10.00ea
Ht. 30cm. Z3. Medium green lanceolate leaves with white margin. Flowers purple.

Hosta 'Guacamole'.....1gal \$15.00ea
Ht. 45cm. Z3. Light green with dark blue-green edge.

Hosta 'Hanky Panky'..... \$30.00ea
Ht.25-45cm. Z3. A sport of Hosta Striptease. Green centers surrounded by a narrow white stripe and yellow edges that mature to white. Lavender flowers.

Hosta 'Honey Bells'.....1gal \$10.00ea
Ht. 70cm. Z3. Large, light green leaves. Fragrant violet-white flowers.

Hosta 'Honeysong'..... \$10.00ea
Ht.50cm. Z2. Large golden yellow leaves flamed with contrasting green. Lavender flowers.

Hosta 'Independence'.....\$22.00ea
Ht.45cm. Z2. This unique hosta (the reverse of H. Revolution) has green leaves with thick, white edging with green speckles.

Hosta 'Inniswood'.....\$10.00ea
Ht.45cm. Z3. Bright yellow heart shaped leaves with bluish green margins and the odd central streak.

Hosta 'Invincible'.....1gal \$10.00ea
Ht. 25cm. Z3. Very shiny dark green leaves, white fragrant flowers.

Hosta 'Island Charm'.....\$18.00ea
Ht.25cm. Z3. A small white centered hosta with green edges and lighter green streaking. Very cool.

Hosta 'Jimmy Crack Corn'.....\$10.00ea
Ht.50-60cm. Z3. Large gold leaves with deeply impressed veins and near white flowers makes this a stunner.

Hosta 'Julie Morss'.....\$10.00ea
Ht.45cm. Z3. Light green leaves with a chartreuse center and blue green margins later becoming all green. Lavender flowers.

Hosta 'June'.....1 gal \$17.00ea
Ht. 30cm. Z3. Gold centered with blue green margins. A sport of Halcyon. Flowers lavender.

Hosta 'June Fever'.....1 gal \$17.00ea
Ht. 40cm. Z3. A new sport of Hosta June. Nearly all gold yellow leaves with narrow blue-green margin.

Hosta 'Kabitan'..... \$16.00ea
Ht. 25cm Z3. This is kind of a neat hosta with very narrow yellow foliage with a clear green border on slightly ruffled edges.

Hosta 'Kifukurin Ko Mame'..... 11 cm pot \$20.00ea
Ht. 4-10cm. Z3 This is a rare dwarf hosta whose name translates as 'gold margined very small Hosta'.

Hosta 'Kiwi Full Monty'..... \$20.00ea
Ht. 55cm Z3. This sport of H.Striptease has rich blue-green margins and a leaf center that transitions from chartreuse to creamy yellow to ivory.

Hosta Korean Snow.....\$24.00ea
Ht.30cm. Z3. This unusual hosta begins the season misted with green and white. The leaves slowly change to a shiny medium green. Purple flowers are spidery.

Hosta 'Krosse Regal'.....1gal \$10.00ea
Ht. 60-76cm. Z3. Medium, blue-grey, wavy edged leaves and large funnel shaped lavender flowers. This is considered by many to be the best Hosta for specimen planting.

Hosta lancifolia.....1gal \$10.00ea
Ht. 30cm. Z4. Green, spear-shaped leaves form a perfect mound. Deep violet-purple flowers.

Hosta 'Liberty'..... \$19.00ea
Ht. 100cm. Z3. Very striking plant with dark green foliage and a wide creamy yellow margin. Lavender flowers.

Hosta 'LittleTreasure'..... \$15.00ea
Ht.15cm. Dwarf. Slightly wavy, thick, creamy white leaves with a wide blue-green margin.

Perennials

Hosta 'Loyalist' \$13.50ea
Ht. 45cm Z3. This is a reverse variegated sport of H. Patriot. Creamy-white centers and dark green margins.

Hosta 'Lucky Mouse' \$15.00ea
Ht.20cm. Dwarf. thick blue-green leaves with a wavy yellow margin that slowly turns white as the season progresses.

Hosta minor 10cm pot \$6.00eaHt. 10cm. Z3. Dwarf. Collected in Japan by Steve Doonan. Forms nice clumps of shiny green lanceolate leaves with clusters of purple flowers

Ht.90-100cm. Z3. Frosty blue foliage that changes to shiny dark green by mid-summer is edged with creamy yellow margins that age to white. A sport of H. Krosse Regal. Makes a great specimen or background plant. Purple flowers.

Hosta 'Remember Me'\$19.00ea
Ht.60cm. Z2. This sport of H. June has creamy foliage with green margins. Lavender flowers. Same delightful habit as H. June.

Hosta 'Revolution'\$16.50ea
Ht.60cm. Z3. A cool hosta with green leaves with a creamy white irregular center splashed and speckled in green.

Hosta 'Rootin Tootin' \$10.00ea
Ht.35cm. Dwarf. This gorgeous hosta has dark green leaf margins with lime green streaks and a bright yellow center that ages to creamy white.

Hosta 'Royal Standard'1gal \$10.00ea
Ht. 50cm. Z3. Large, light green leaves. Fragrant white funnel shaped flowers.

Hosta sieboldiana1gal \$10.00ea
Ht. 90cm. Z4. Very large textured grey-green leaves when mature. Funnel shaped white flowers.

Hosta sieboldiana 'Elegans'1gal \$10.00ea
Ht. 80cm. Z4. Heavily textured, large, blue-grey rounded leaves. White flowers.

Hosta Sieboldiana 'Golden Sunburst'1gal \$10.00ea
Ht.60cm. Z3. This is a yellow leaved sport of H.sieboldiana 'Frances Williams'.

Perennials

Hosta sieboldiana 'Frances Williams' 1gal \$10.00ea
Ht. 60cm. Z3. Blue-green leaves with a yellow margin. White bell shaped flowers

Hosta 'Shade Fanfare' 1gal \$10.00ea
Ht.40-45cm. Z3. Cool light green leaves with creamy margin. Flowers lavender.

Hosta 'Sharmon' 1gal \$10.00ea
Ht. 45-60cm. Z3. Medium green leaves streaked with yellow. Lavender flowers.

Hosta 'Show Boat' 1gal \$12.00ea
Ht:35cm. Dark green leaves are surrounded by a wide creamy-white margin and topped with lavender flowers

Hosta 'Sleeping Star' \$15.00ea
Ht.35cm. Dwarf. Heart shape blue leaves with a wide yellow margin that ages to cream.

Hosta 'Snowcap' \$10.00ea
Ht. 50cm. Z2. Round, corrugated frosty blue green leaves have thick creamy edges. White flowers.

Hosta 'St Elmos Fire' \$12.00ea
Ht.40cm. Z3. Leaves emerge bright yellow and age to green with crisp white edges. The effect of having both new and old foliage with yellow and green centres at the same time is great.

Hosta 'Striptease' 1gal \$16.00ea
Ht 45cm. Z3. Satiny heart shaped leaves have a white central line bordered by a light golden band which is surrounded by a dark green margin. The band is often not seen in young plants, develops with age. Lavender flowers.

Hosta 'Stiletto' 1gal \$10.00ea
Ht 15cm. Z3. A miniature with narrow leaves with a fine, thin white edges.

Hosta 'Sugar and Cream' 1 gal \$10.00ea
Ht. 65cm. Z3. Creamy white margins and medium green centers. Fragrant lavender flowers.

Hosta 'Sugar Daddy' \$16.00ea
Ht. 55cm Z3. A wonderful variegated sport of H.'Big Daddy' with the same corrugated blue green leaves but the edges are a variable creamy white.

Hosta 'Sum and Substance' 1gal \$10.00ea
Ht. 70-80cm. Z4. This is a large hosta with huge golden yellow leaves and white flowers. The degree of color increases with the amount of light, but not too much or it will burn.

Hosta 'Summer Fragrance' \$10.00ea
Ht. 65cm. Z2. Medium green leaves with creamy white to yellow edges and very fragrant medium purple blooms.

Hosta 'Sun Power' 1gal \$13.00ea
Ht.60cm. Z3. One of the best gold hostas, forming a beautiful clump rapidly. Leaves pointed and twisted.

Hosta 'Super Nova' \$15.00ea
Ht. 60cm. Z3. A reverse form of the old favourite H.sieboldiana 'Frances Williams' with a puckered golden center and wide blue margin. Near white flowers.

Hosta 'Stained Glass' \$18.00ea
Ht. 35cm. Z3. The brilliantly shiny golden foliage is surrounded by a 2" wide dark green margin. Fragrant lavender flowers.

Hosta 'Tattoo'\$30.00ea
Ht. 45cm. Z3. This is a spectacular hosta with vibrant gold leaves 'tattooed' in the center with a green outline of a maple leaf.

Hosta tokudama1gal \$10.00ea
Ht. 30cm. Z3. Frosty blue leaves are puckered and cup shaped. White flowers. Overall look is like a miniature H. sieboldiana elegans.

Hosta T Rex 1gal \$10.00ea
Ht. 75cm. Z3. One of the largest hostas with huge dusky blue leaves.

Hosta 'Touch of Class' \$15.00ea
Ht. 30cm Z3. Another gorgeous sport from the popular hosta June. Thick blue green foliage with a chartreuse gold center.

Hosta 'Twilight' \$10.00ea
Ht.75cm. Z3. Light green leaves with yellow margins age to dark green with white margins.

Hosta undulata 'Albomarginata' 1gal \$10.00ea
Ht.80-100cm. Z3. Narrow wavy green leaves with a white margin, flowers lilac in color.

Hosta undulata 'Mediovariegata' 1gal \$10.00ea
Ht. 35cm. Z3. Wavy green leaves with white central stripe. Flowers lilac. Variegation often changes over time.

Hosta ventricosa 1gal \$10.00ea
Ht.50cm. Z4. Glossy, dark green leaves. Flower stalks reach to 95cm with large, bell-shaped, light violet, striped dark purple-violet flowers.

Hosta 'Wide Brim' 1gal \$10.00ea
Ht. 60cm. Z4. Leaves have a green center with an irregular margin of creamy-yellow. Open faced light lavender flowers.

Hosta 'Whirlwind' 1gal \$15.00ea
Ht.25cm.Z3. This unusual hosta has creamy white twisted foliage that is edged with dark green.

Hosta 'Wolverine' \$18.00ea
Ht.45cm. Z3. A fast growing plant with shiny blue green leaves with a wavy golden margin. Long leaves give a nice cascading look. Violet flowers.

Hosta 'Zager's Blue' \$14.00ea
Ht.60cm. Z3. A nicely textured, blue-green hosta with white flowers.

Hosta 'Zager's White Edge' 1gal \$10.00ea
Ht.50cm Z3. Elongated forest green leaves with bright silvery white margins.

Hosta 'Zounds' 11cmpot \$10.00ea
Ht. 50-60cm. Z3. A brilliant clump of gold textured heart shaped leaves. Flowers pure white. A real stand out in shade.

Perennials

Houttuynia cordata 'Chameleon' 10cm pot \$4.00ea
Ht. 20-45cm. Z5. Heart shaped leaves with colorful splashes of pink, cream, yellow and red. Otherwise same as H. cordata.

Hypoxis hirsuta Goldstar 8cm pot \$5.00ea
N.A. Native. Ht. 15-30cm Z.4 Small rhodohypoxis-like plant with tufts of grass-like foliage with star-like bright yellow flowers.

Impatiens omeiana 10cm pot \$5.00ea
Ht. 30cm. Z6. Yes, a hardy impatiens! This amazing plant for the woodland garden has whorls of long purple-green foliage with a prominent white vein down the center of the leaf. Blooms in late summer to early fall with large, fragrant yellow snapdragon like flowers. This perennial forms a sizeable clump over time. Foliage resembles that of a New Guinea Impatiens.

Incarvillea delavayi 1gal \$10.00ea
Ht. 40-75cm. Z5. Large widely flared, pink trumpet shaped flowers on short stems These are very showy plants.

Incarvillea delavayi Bee's Pink 1gal \$10.00ea
Ht. 50cm Z5. Basal rosette of lanceolate, coarse toothed leaves forms from fleshy roots. Large pink-rose trumpet shaped flowers in May.

Incarvillea 'Snowtops' 1gal \$10.00ea
Ht. 40-75cm. Z5. Similar to I. delavayi but with pure white flowers

Incarvillea zhongdianensis \$10.00ea
Ht. 25cm. Z6. Large widely flared, bright pink trumpet shaped flowers on short stems. Very pretty in a sunny rockery.

Iris chrysographes Black Form 1gal \$10.00ea
Ht. 50cm. Z4. A nice Iris with very dark violet black flowers.

Iris chrysophylla 10cm pot \$6.00ea
Native. Ht. 20cm. Z6 This is a great small woodland Iris with cream to soft yellow flowers with arching sepals centrally marked with strong yellow and dark gold to reddish-brown or deep lavender penciling. Rarely offered.

Iris cristata Crested Iris 10cm pot \$5.00ea
N.A. Native. Ht. 15cm. Z4. Light green leaves, large sky blue to lavender flowers with dark venation and white markings. Blooms in April to May. Excellent groundcover in sun to semi-shade.

Iris clarkei 10cm pot \$4.00ea
Ht. 40cm. Z This little Himalayan Iris has flowers ranging from mid violet-blue to dark blue or reddish purple, with a large white, violet veined patch on the falls. It does well in sun to part shade.

Iris douglasiana Douglas's Iris 10cm \$5.00ea
Native. Ht. 15-50cm. Z4. Exceptionally variable in height, habit and flower color which ranges from white to pink to blue and all shades in between. Blooms in June. Sepals (Falls) have four dark lines on them. Leaves narrow, glossy green in large clumps.

Iris ensata Japanese Iris 10cm pot \$5.00ea
Ht. 60-80cm. Z5. A wonderful mix of Japanese Iris ranging in color from purple to red-purple to pink and white.

Iris ensata 'Freckled Geisha' 1gal \$12.00ea
Ht. 90cm. Z4. This spectacular Iris has white blooms with ruffled lavender purple edges and splashes of the same colour throughout the bloom.

Iris ensata 'Gusto' 1gal \$11.00ea
Ht. 80cm. Z4. Royal purple blooms with white central feathering.

Iris ensata 'Imperial Magic' 1gal \$10.00ea
Ht. 80cm. Z4. Purple blooms with white splashes and veining in June-July. Prefers sun to part shade in acidic, moist soil.

Iris ensata 'Lion King' 1gal \$12.00ea
Ht. 90cm. Z4. This spectacular Iris is white with a bright rosy purple edge that almost hides a splash of yellow sunshine at the heart.

Iris ensata 'Pink Lady' 1gal \$10.00ea
Ht. 80cm. Z4. Large soft pink blooms. Prefers sun to part shade in acidic, moist soil.

Iris ensata 'Sorcerer's Triumph' 1gal \$10.00ea
Ht. 70cm. Z4. Large purple flowers have white falls with purple venation. Prefers sun to part shade in acidic, moist soil.

Iris ensata 'Temple Bells' 1gal \$10.00ea
Ht. 80cm. Z2. Large, deep blue blooms Prefers sun to part shade in acidic, moist soil.

Iris ensata 'White Ladies' 1gal \$10.00ea
Ht. 80cm. Z2. Large, white flowers with yellow bases. Double.

Iris ensata Yuki Dourou \$25.00ea
Single fans of this rare white double flowered Japanese Iris

Iris foetidissima Roast Beef Plant 1gal \$10.00ea
Ht. 60cm. Z6. Green sword shaped leaves. Flowers a faded lilac color. This plant is usually grown for the bright red seeds that are shown when the capsule splits. Red seeds persist well into the fall.

Iris innominata \$5.00ea
Native. Ht. 25cm. Z6-7. A very tough Iris that is perfectly happy in dry woodland. This plant has very narrow evergreen grass-like leaves. Flower colour is variable from creamy-orange to ochre through to pink to purple with darker veins and wavy falls. Older clumps can have up to 70 flowers. Plant in well drained soil from part shade to lightly shady gardens. Great for planting on the edges of woods.

Iris kaempferi 'Mount Fujiyama' \$10.00ea
Ht. 80cm. Z2. Large pure white flowers.

Iris louisiana 'Black Gamecock' \$10.00ea
Ht. 60cm. Z4. Intense velvety blue-black blooms with a striking yellow central marking.

Iris louisiana 'Delta Star' \$10.00ea
Ht. 70cm. Z4. Lovely dark bluish purple flowers with a contrasting central flash of yellow. An excellent deer resistant swamp iris for the edge of a pond or a boggy area.

Iris louisiana 'Jack Attack' \$10.00ea
Ht. 90cm. Z5. This very special iris has gorgeous wine purple, highly ruffled flowers with a prominent yellow eye zone.

Perennials

Iris pallida 'Albo variegata' 1gal \$10.00ea
Ht.60-75cm. Z6. This has fragrant, bright blue-lavender flowers and white leaf variegations. Grows easily in ordinary garden soil in a sunny position.

Iris pallida 'Aurea variegata' 1gal \$10.00ea
Ht.60-75cm. Z6. This has fragrant, bright blue-lavender flowers and golden green leaf variegations. Grows easily in ordinary garden soil in a sunny position.

Iris pumila 'Quicken' 1gal \$10.00ea
Ht.25cm. Z2. White standards and falls edged with deep purple blue. Prefers sun to part shade in acidic, moist soil.

Iris setosa Northern Flag 10cm pot \$5.00ea
Native. Ht. 30-50cm. Z3. Slender, sword like leaves. Flowers violet purple (rarely white) with darker venation.

Iris setosa nana Dwarf Northern Flag 10cm pot \$5.00ea
Native. Ht. 30-50cm. Z3. Slender, sword like leaves. Flowers violet purple (rarely white) with darker venation. Blooms in June. Humusy, well drained soil in sun to part shade.

Iris siberica 'Blue King' 1gal \$10.00ea
Ht.70cm. Z2. A form with dark blue flowers.

Iris siberica 'Butter and Sugar' 1gal \$10.00ea
Ht.70cm. Z2. A favorite with white standards and butter yellow falls.

Iris sibirica 'Chilled Wine' 1 gal \$10.00ea
Ht.70cm. Z2. Reddish purple flowers accented with a blue spot and black markings.

Iris sibirica 'Pink Haze' \$10.00ea
Ht.90cm Z2. Pretty soft pink flowers with crimson markings.

Iris siberica 'Ruffled Velvet' 1gal \$10.00ea
Ht. 80cm. Z2. Flowers red-purple marked yellow with slightly ruffled falls.

Iris sibirica 'Silver Edge' \$10.00ea
Ht.80cm. Z2. A lovely contrast of ruffled, violet blue central petals and dark blue falls edged with silver. Excellent iris for stabilizing pond or stream banks. Very vigorous.

Iris siberica 'Skywings Light' 1gal \$10.00ea
Ht. 60cm. Z2. Nice light blue blooms.

Iris siberica 'Snow Queen' 1gal \$10.00ea
Ht. 70cm. Z2. Ivory white falls and standards.

Iris stolonifera \$10.00ea
Ht.30- 60cm. A variable species usually with blue or lavender petals edged and veined with brown with a blue or yellow beard. Produces running rhizomes.

Iris tectorum Japanese Roof Iris \$12.00ea
Ht.30-45cm Z5. Violet blue flowers are borne above the low fan shape foliage in late spring. Foliage is very flat and neat, and holds up well throughout the summer, long after flowers have faded. Roof Iris grows vigorously and easily, tolerates light shade, and forms dense clumps.

Iris tenax Oregon Iris 10cm pot \$5.00ea
Native. Ht.20-25cm. Z7. Tough narrow leaves once used by Native peoples to weave into ropes. Flower color is usually blue to purplish-blue but can range from white to cream and yellow to blue and purple. Full sun to semi-shade.

Isopyrum biternatum False Rue Anemone \$5.00ea
N.A.Native. Z3. Delicate ferny foliage is topped with cup shaped nodding white flowers. A very attractive early spring blooming groundcover. From tiny thread like roots.

Jeffersonia diphylla Twin leaf 11cm pot \$6.00ea
N.A.Native. Ht. 20-40cm. Z5. A wonderful clump forming perennial with leaves divided in two equal lobes and white flowers held above foliage. A perfect plant for a shady place in the rock garden or woodland garden.

Jeffersonia dubia \$19.99ea
Ht. 20-30cm. Z5. This is a wonderful plant from China that we have received in trade from several people. Similar to the above species with soft pink to bluish lavender flowers.

Keiskeia japonica 10cm pot \$15.00ea
Ht.60-90cm. Z5. This tall, almost woody woodland perennial from Japan has showy spikes of white flowers in the late summer.

Kirengeshoma koreana 1gal \$10.00ea
Ht. 100-120cm. Z5. This is a valuable fall bloomer with nodding, bell shaped flowers in terminal cymes on nodding branchlets. Similar to *K.palmata* but the stems tend to be darker and the flowers have petals that are more distinctly reflexed.

Kirengeshoma palmata 1gal \$10.00ea
Ht. 60-120cm. Z5. This is a valuable fall bloomer with nodding, bell shaped flowers in terminal cymes on nodding branchlets. Plants form a dense, multiple stemmed bush growing from a short, stout rhizome with large, 7-10 lobed rounded leaves.

Leptorrhena pyrolifolia Leather leaf Saxifraga 10.00ea
Native. Ht. Zone 2. A basal ring of shiny leathery evergreen leaves give rise to a spike with small white saxifrage like flowers.

Leucanthemum superbum 'Aglaiia' Shasta Daisy \$10.00ea
Ht.60-75cm. Z4. Fringed semi double flowers with yellow button center. No two blooms are the same.

Leucanthemum superbum 'Becky' Shasta Daisy \$10.00ea
Ht.75-90cm. Z4. One of the best shastas with sturdy stems holding 7-8cm wide white flowers. This is the 2003 perennial plant of the year.

Leucanthemum superbum 'Gold Rush' Shasta Daisy \$12.00ea
Ht.45cm. Z4. A nice compact plant with long blooming double fringed flowers that start golden yellow and age to white.

Leucanthemum superbum 'Real Dream' \$10.00ea
Ht.40cm. Z4. Three layers of soft yellow petals surround a yellow center.

Leucanthemum superbum 'Snowcap' \$10.00ea
Ht.45cm. Z4. A nice compact shasta with the typical single white long lasting flowers.

Perennials

Leucanthemum superbum 'Summer Snowball' \$10.00ea
Ht.75cm. Z4. Double white 'snowballs' all summer. A nice compact plant with long blooming double fringed flowers that start golden yellow and age to white.

Lewisia cotyledon Thick-leaved lewisia\$4.00ea
Native. Ht. 20cm. Z6. Fleshy, green leaves form dense rosettes up to 40cm wide. Flower color ranges from white, pink, yellow, salmon and orange with white veins. Blooms May to June, often to rebloom in August.

Liatris spicata1gal \$10.00ea
Ht. 90cm. Z2. Nice spikes of purplish bottlebrush like flowers.

Liatris spicata 'Kobold'1gal \$10.00ea
Ht 40cm. Z2. Very similar to species but much shorter and flowers are a touch darker in color.

Liatris spicata floristan White1gal \$10.00ea
Ht. 90cm. Z2. Very similar to species but with white bottlebrush like flowers.

Ligularia dentata 'Britt-Marie Crawford' 1gal \$14.00ea
Ht. 40cm. Z4. Large compact clumps of rounded maroon-black leaves. Taller stems appear in summer, bearing clusters of bright golden-orange daisy flowers.

Ligularia dentata 'Desdemona' 1gal \$10.00ea
Ht. 1m. Z4. Deep purple leaf stalks and the undersides of the leaves are a glossy purple. Reddish daisy-like flowers.

Ligularia dentata 'Othello' Big Leaf Ligularia.....1gal \$10.00ea
Ht. 1m. Z4. Large clumps of dark, bronzy-green, heart shaped leaves. Clusters of orange daisy-like flowers well above the foliage from August to Sept. Shade to semi-shade in rich soil.

Ligularia x hessei..... 1gal \$10.00ea
Ht.150-200cm. Z5. Large oblong leaves and large orange-yellow flowers on large inflorescences in early August. Best planted in humus-rich soil in shade to semi-shade.

Ligularia 'Osiris Fantaise' 1gal \$15.00ea
Ht.50-60cm. Z4. Heart-shaped, deep green leaves of a thick, rubbery texture. The serrated leaf margins are undulating, revealing the glossy, burgundy undersides of the leaves. Deep reddish purple stems and golden yellow flowers add to the appeal.

Ligularia 'Osiris Café Noir' 1gal \$20.00ea
Ht.50-60cm. Z4. Unusual dissected purple foliage contrasts well with golden yellow flowers.

Ligularia przewalskii 1gal \$10.00ea
Ht. 150-200cm. Z4. Basal, dark green leaves, deeply lobed. Stems dark purple. Flowers clear yellow in a dense panicle.

Ligularia stenocephala 'The Rocket' 1gal \$10.00ea
Ht. 1-2m. Z5. Deeply cut, wide leaves. Yellow, daisy like flowers in spikes up to 1.5m. Sun to semi-shade in rich soil.

Lilium canadense coccineum\$10.00ea
Z4-5. Ht.100-150cm. Up to 20 bell shaped pendulous flowers adorn this eastern North American Native. Flowers are red with darker spotting and a yellow throat. A plant for the edge of a woodland where it will quickly form a tight clump. We are selling small bulbs, two year away from blooming.

Lilium columbianum Columbian Lily 10cm. pot \$12.99ea
Native. Ht. 1-1.5m. Z7. Our native Tiger Lily, with nodding golden yellow lily-like flowers often with maroon spots. Sun to semi-shade in humus-rich soil.

Lilium distichum \$12.00ea
Ht.50-100cm. Z4. Bright orange open flowers lightly spotted with maroon. This species from China blooms mid summer.

Lilium formosanum Hime \$15.00ea
We have only a few of this dwarf fragrant selection from Japan.

Lilium formosanum \$10.00ea
Fragrant white flowers.

Lilium grayi..... Limited two per order \$10.00ea
Ht.1.5m. Z4. The bell shaped flowers of this striking lily are crimson red on the exterior, darkening towards the base. The interior is light red with dark purple spotting and has a yellow base. This native of Virginia, North Carolina and Tennessee likes sun to partial shade in humus rich soil where it will quickly form a sizeable clump. We are selling small bulbs which are two year away from blooming.

Lilium hansonii.....\$10.00ea
Ht.to 1.2m. Z5. This is a lovely fragrant Turk's Cap type lily from Korea with deep orange-yellow flowers spotted with purple-brown towards the base.

Lilium lancifolium flore-pleno \$8.00ea
Ht.1.5m. Z2. We offer nice bulbs of this striking lily with double orange flowers with brown spots.. In cultivation since the 17th century.

Lilium martagon Turk's Cap Lily..... \$10.00ea.
Ht. 40-100cm. Z4. Up to 50 flowers purplish-pink, densely spotted purple.

Lilium martagon album Turk's Cap Lily \$15.00ea.
Available late spring after varification . Ht. 40-100cm. Z4. Up to 50 white flowers per stem.

Lilium martagon 'Early Bird' \$10.00ea
Ht. 40-100cm. Z4. This selection has magenta flowers with a tad of ochre yellow showing through and a few red spots. It seems to bloom earlier than the species and stays in bloom much longer.

Lilium martagon 'Flore pleno' \$7.50ea
Ht.1-2M. Z6. These are small young bulbs of this rarely offered form of the species. The thickly textured pink flowers are fully double. Will develop over time from TC.

Lilium maximowiczii \$16.00ea
Ht.1-1.5m. Z5. A Turks cap type lily with orange flowers spotted with brownish purple.

Perennials

Lilium michiganense Michigan Lily \$10.00ea
N.A. Native. Ht. 1-2m. Z3. A wonderfully recurved red-orange lily with a lighter yellow base delightfully spotted and speckled with darker reddish brown.

Lilium pardalinum Leopard Lily \$12.00ea
N.A. Native. Ht. 2-3m. Z5. Orange red to crimson Turk's cap type flowers spotted maroon.

Lilium philadelphicum \$15.00ea
N.A. Native. Ht. 1.25m. Z2-3. Upfacing orange-red flowers with a yellow spotted throat.

Lilium rubellum \$20.00ea
Only a few of these fragrant soft pink lilies from Japan. This is so pretty!

Lilium sargentiae \$10.00ea
Ht. 1.2-2 M. Z3. Big white fragrant trumpets colored on the exterior of the sepals with a lovely dusky rose. A large impressive lily from China.

Lilium superbum \$7.50ea
N.A. Native Ht. 1.2-1.8M. Z3. Turks Cap type lily with vibrant orange heavily spotted flowers with crimson tips.

Linnaea borealis Twinflower..... 10cm pot \$4.00ea
Native. Ht. 10cm. Z1. Evergreen. Small, round, glossy green leaves on long runners make a lovely ground cover. Sweetly fragrant, rosy pink bell shaped flowers in pairs from slender stalks.

Lobelia siphilitica Blue Cardinal Flower \$5.00ea
Ht. 60-90cm. Z3. An easy to grow perennial with tall spires of beautiful blue, double lipped flowers.

Lobelia x speciosa 'Fan Deep Red' \$10.00ea
Ht. 60-90cm. Z5. An easy to grow perennial with tall spires of deep vibrant red flowers that are especially attractive to hummingbirds. Prefers a moist site, for example, near a pond edge and blooms from mid summer into fall.

Lobelia tupa \$10.00ea
Ht. 1-2 M. Z7-8. This Chilean native is alluring as it is showy and reputed to be deer proof. Cloaked in pointed, broad, pale green, felted foliage, each soaring purple-tinged stem is crowned with a large, tapering raceme of rich-red blossoms. Google this one.

Lychnis gracillima \$8.00ea
Ht. 20-30cm. Z6. A nice clump forming perennial with white flowers with 5, lacy looking petals per flower. Prefers part shade.

Lycoris albiflora White Spider Lily \$8.00ea
Ht. 40-60cm. Z8-9. Long white flowers with protruding stamens on bare stems in Sept-Nov.

Lycoris elsiae Creamy Spider Lily \$8.50ea
Ht. 40-60cm. Z7-8. Flowers creamy with a diffuse apricot band inside lobes when they first emerge. Sept-Nov.

Lycoris radiata Spider lily \$5.00ea
Ht 40-50cm. Z3. Red flowers in Sept-Nov.

Lycoris sanguinea Spider lily \$8.00ea
Ht 50cm. Z5. Blood red flowers in Jul- Aug.

Lysichiton americanum Yellow Skunk Cabbage 1gal \$12.99ea
Native. Ht. 1-2M. Z4. Brilliant yellow spathes, appearing in February to March, surround large thick spadix with numerous tiny green flowers. Enormous thick shiny green leaves up to 135cm long.

Lysichiton camtschatcensis White Skunk Cabbage .. 1gal \$18.00ea
Native. Ht. 1M. Z3. Brilliant white spathes, appearing in February to March, surround large thick spadix with numerous tiny green flowers. Large thick shiny green leaves.

Lysimachia clethroides Gooseneck Loosestrife 1gal \$10.00ea
Ht. 70-100cm. Z4. Lightly hairy, lanceolate leaves; very attractive new growth. Long, dense, arching flower spikes are white and bloom in July to September. Plant in sun to part-shade in humus-rich soil.

Lysimachia ciliata 'Purpurea' 1gal \$10.00ea
Ht 1-2m. Z3. This tall spreading perennial has lovely deep maroon foliage and bright yellow flowers.

Lysimachia punctata 'Golden Alexander' 1gal \$10.00ea
Ht. 60cm. Z4. This is a golden variegated loosestrife with yellow flowers.

Maianthemum dilatatum 10cm pot \$4.00ea
Native. Ht. 10-25cm. Z5. False Lily-of-the-valley. Heart shaped green leaves. Small fragrant white flowers on 5cm long racemes. Pea-sized berries are light green with brown mottling and later become red in fall. Shade to semi-shade in moist humus-rich soil. Excellent groundcover.

Meconopsis x shelldonii (lingholm) 10cm pot \$4.00ea
..... 1gal \$12.00ea
Ht. 100-120cm. Z6. An excellent hybrid between M. grandis and M. betonicifolia. Clear blue flowers. This is the easiest to grow himalayan Blue Poppy. Outstanding. Feed frequently.

Medeola virginiana Indian cucumber Root..... \$7.50ea
N.A. Native. Ht. 30-60cm. Z3. A totally bizarre Trillium relative with leaves in two whorls and really cool flowers. Sepals and tepals light green and recurved petals dark purple, out pointing, long and very narrow. Stamens black, pointing straight forward with bright orange pollen. Flowers are followed by dark purple black berries. Foliage becomes flushed with purple in the fall. Naturally small tubers.

Mertensia virginica Virginia Bluebells..... 11cm pot \$6.00ea
N.A. Native. Ht. 40-60cm. Z4-5. A wonderful perennial with bluish green leaves and flowers in nodding clusters. Pink buds open to rich sky blue flowers. Goes dormant after flowering. Shade to semi-shade

Mimulus dentatus Toothed leaved Monkey Flower 10cm pt \$4.00ea
Native. Ht. 10-40cm. Z7. A cool plant that doesn't look like a mimulus at first. Creeping rhizomes produce nice sized clumps of upright stems bearing dentate shiny leaves in a moist woodland setting. Tubular yellow lipped flowers spring from large apricot colored buds.

Mimulus guttatus Yellow Monkey Flower..... 10cm pot \$4.00ea
Native. Ht. 15-60cm. Z6. Dense mat forming, creeping perennial with yellow tubular, lipped flowers. Lower lip hairy and throat has red spots. Sun to semi-shade in moist soil.

Perennials

Mimulus moschatus Monkey flower..... \$5.00ea
Native. Ht.10-20. Z3. A creeping monkey flower with yellow flowers. Great in damp soil or nears seeps or pond edges, but also does just fine in average garden soil.

Mitchella repens Partridgeberry Fall only 10cm pot \$6.00ea
N.A.Native. Ht. 1-2cm. Z3. Evergreen. This is a low spreading plant with white, paired flowers. Fruits bright red and edible. Great groundcover under shrubs but slow.

Mitella breweri\$5.00ea
Native. Ht. 10cm. Shade plant with nice looking foliage The small green saucer-shaped flowers have five narrow wire like greenish petals which are divided into little branches. Looks like jewelery.

Mitella ovalis Oval-leaved mitrewort..... 10cm pot \$4.00ea
Native. Ht. 5-10cm. Z7. Oval, very hairy green leaves. Tiny, whitish flowers are suggestive of finely crafted wire jewel-work. Good groundcover in shade to semi-shade.

Monarda fistulosa\$5.00ea
Native. Ht. 70-90cm. The native Bee Balm with rose-purple flowers.

Montia parvifolia Small-leaved Montia 10cm pot \$4.00ea
Native. Ht. 10cm. Z5. Small, thick, succulent leaves form a basal rosette which goes dormant in the driest summers. Slender flower stems radiate out from the rosette with clusters of 1-8 pink or white veined pink flowers. Great in moss covered rock.

Nepeta x faassenii 'Junior Walker'.....1gal \$10.00ea
Ht.40cm. Z4. Deep purple blue flowers above fragrant grey green foliage Lovely fragrant perennial for a sunny, dry location.

Opuntia fragilis\$5.50ea
Native. Ht. Z5. The dark green pads of this variety were collected years ago from a particularly large, robust plant. Yellow flowers.

Ornithogalum magnum\$10.00ea
Ht.50-90cm. Z5. A spectacular species with large white flowers striped green on the reverse. From a bulb, plant in hot sunny position.

Oxalis griffithi Double Flowered Form\$12.00ea
Ht.10-15cm. Z6. A double flowered form of this Japanese native groundcover with double white to pale pink flowers. Easy to grow in the shade garden.

Oxalis griffithi Double Pink Flowered Form\$18.00ea
Ht.10-15cm. Z6. A pink double flowered form of this Japanese native groundcover. Easy to grow in the shade garden.

Oxalis magellanica 'Nelson' (Flore-pleno) 10cm pot \$5.00ea
Ht3-4cm. Z6. Low green mats of tightly packed shamrock like foliage with plump round crisp white berry like flower buds atop that burst into perfect double flowers. Excellent for planting between pavers or in the semi-shaded rock garden in sun to part shade, it is also sterile so no worries about it self sowing.

Oxalis oregana Oregon oxalis 10cm pot \$4.00ea
Native. Ht. 5-15cm. Z4. Evergreen. Clover like leaves form a great, dense ground cover for shade to semi-shade. White flowers bloom throughout the summer.

Oxalis oregana 'Rosea' 10cm pot \$4.00ea
Native. Ht. 5-12cm. Z4. Evergreen. Leaves slightly smaller than species and undersides are purplish. Soft, rose-pink flowers bloom throughout the summer. Shade to semi-shade.

Paeonia

Beautiful, large perennials with lovely large, showy flowers that are familiar to most. The following varieties are available. Paeonies like well drained humus-rich soil in sun to light shade.

Paeonia 'Angels Cheeks'.....1gal \$40.00ea
Ht.90cm. Z2. Huge, fragrant, fully double pink flowers.

Paeonia 'Bartzella' Itoh Peony Bartzella\$50.00ea
Huge semi double lemon yellow flowers with lemon fragrance. We have a few young plants that should bloom in a year or so.

Paeonia 'Bowl of Beauty'1gal \$15.75ea
Ht. 80cm. Z2. Fuschia pink flowers with an impressive central cluster of feathery, creamy-yellow, narrow petal-like stamens.

Paeonia 'Bowl of Cream'1gal \$18.00ea
Ht. 90cm. Z2. A large very full flower of the cleanest creamy white. Very limited supply.

Paeonia 'Callies Memory' Itoh Peony Callies Memory\$50.00ea
Huge pale pink petals with darker red centre and great fragrance make this a wonderful addition to the garden. We have a few young plants that should bloom in a year or so.

Paeonia 'Cara Louise' Itoh Peony Cara louise\$69.00
Large white semi-double blooms with lavender to purple flares. Young plant should bloom in a year or so.

Paeonia 'Catherine Fonteyne'1gal \$12.00ea
Ht. 90cm. Z5. Double lilac-rose flowers bloom in mid-June.

Paeonia delavayi \$39.99ea
Ht.1.6m. Z6. This tree peony from China has nodding maroon flowers and gracefully dissected foliage.

Paeonia 'Dr. Alex Fleming'1gal \$14.00ea
Ht.100cm. Z2. Fully double deep salmon pink flowers.

Paeonia 'Duchesse de Nemours'1gal \$12.00ea
Ht. 70cm. Z5. Double creamy white flowers in early June.

Paeonia 'Edulis supreme' 1gal \$13.00ea
Ht. 90cm. Z3. Fragrant, double, deep pink blooms.

Paeonia 'Festiva Maxima'1gal \$14.00ea
Ht. 90cm. Z5. Pure white, double, fragrant flowers with a few crimson splashes.

Paeonia 'Fiona'1gal \$12.00ea
Ht.100cm. Z2. The fragrant, double blooms of this beauty are much like a deep burgundy red P. Sarah Bernhardt.

Perennials

Paeonia Garden Treasure.....\$159.00ea
Ht. 75cm. Z5 An Itoh which is a hybrid between a tree peony and a herbaceous peony. This variety has large semi-double to double yellow, fragrant flowers. Petals are lightly flared with scarlet red and surround a center of cream stamens, green carpels and pink stigmas.

Paeonia 'Gardenia'.....1gal \$24.00ea
Ht. 90cm. Z3. A large double white Gardenia shaped flower with yellow stamens peaking out around the white center. Very fragrant.

Paeonia 'Gay Paree'.....1gal \$15.00ea
Ht.90cm. Z3. A double ring of large purple petals and a fully double ruffled center of creamy white petaloids.

Paeonia 'General MacMahon'.....1gal \$12.00ea
Ht. 60cm. Z2. Double deep carmine-pink flowers.

Paeonia 'Goldmine'.....1gal \$75.00ea
Ht. 75cm. Z2. Finally a fully double yellow peony that is not related to the tree peonies. Very limited supply.

Paeonia 'Honeygold'.....1gal \$22.00ea
Ht. 60cm. Z2. White base crowned with feathery yellow stamens topped with a few white petals. Very limited supply.

Paeonia 'Immaculee'.....1gal \$16.00ea
Ht.100cm. Z3. Flowers open soft pink turning white as they age. Creamy yellow center. Flowers mid-season.

Paeonia japonica.....\$29.00ea
Ht.45cm. Z5. This lovely woodland peony from Japan produces single white flowers with yellow stamens that almost glow in a shady location. Striking red fruits burst open to reveal showy blue seeds.

Paeonia 'Jan van Leeuwen'.....1gal \$12.00ea
Ht. 60cm. Z2. A classic crisp single to semi-double lightly fragrant white peony with a central boss of yellow stamens.

Paeonia 'Julia Rose' Itoh Peony Julia Rose.....\$50.00ea
Single to semi double blooms open cherry red, then orange then yellow (Shows three colors at once). Excellent plant habit.

Paeonia 'Kansas'.....1gal \$12.00ea
Ht. 80cm. Z5. Clear carmine red double flowers.

Paeonia 'Karl Rosenfield'.....1gal \$12.00ea
Ht. 80cm. Z5. Double crimson red flowers bloom mid-June. Very good cut flower.

Paeonia 'Krinkled White'.....1gal \$14.00ea
Ht. 60cm. Z3. Fragrant crinkled white flowers with prominent yellow stamens.

Paeonia lactiflora 'Do Tell'.....1gal \$21.00ea
Ht. 60-75cm Z2. Large anemone type flowers feature light shell pink outer petals and darker rose-pink centers. Mild fragrance.

Paeonia Lafayette Escadrille' Itoh Peony..... \$69.00ea
Ht. 75cm. Z2. This is a very vigorous intersectional peony with rich crimson red single flowers and dense dark green segmented foliage.

Paeonia Laura Dessert..... \$21.00ea
Ht. 75cm. Z3. Double creamy white flowers with golden stamens.

Paeonia lutea ludlowii Tibetan Peony	1gal \$12.00ea
.....	2gal \$25.00ea
Ht.1-2.5M Z5-6. A vigorous species tree peony from Asia. Light colored stem produces large, medium green pinnate leaves that turn rich shades of yellow and orange with splashes of pink in the fall. Flowers are golden yellow with exteriors often marked with red.	
Three 1gal plants for	\$25.00

Paeonia mascula ssp. mascula\$21.99ea
Ht.70-90cm Z5. A wonderful species with single purple flowers. Young plants.

Paeonia 'Margaret Truman'\$12.00ea
Ht.80cm. Z4. Ruffled double deep pink flowers fade to lighter pink at the edges.

Paeonia mlokosewitschii older plant \$45.00ea
Ht.100cm. Z6. Affectionately known as Molly the Witch, this peony has blue-green leaves and single, upright, bowl shaped, soft primrose yellow, fragrant flowers. We offer young 4 yr old plants.

Paeonia 'Monsieur Jules Elie'1gal \$12.00ea
Ht.90cm. Z2. Double fragrant light rose-pink flowers.

Paeonia 'Morning Lilac' Itoh Peony Morning Lilac\$50.00ea
Large, single to semi-double, deep lavender-pink blooms streaked with fuchsia and white. We have a few young plants that should bloom in a year or so.

Paeonia obovata\$45.00ea
Ht.60cm. Z5. Lovely pink flowers atop oval leaves. Plant in fertile soil in part shade.

Paeonia officinalis alba Plena1gal \$13.50ea
Ht.80cm. Z2. Fully double huge long lasting white flowers.

Paeonia officinalis Rosea Plena1gal \$13.50ea
Ht.80cm. Z2. Fully double huge long lasting rose-pink flowers.

Paeonia officinalis Rubra Plena.....1gal \$13.50ea
Ht.80cm. Z2. Fully double huge long lasting deep red flowers.

Paeonia 'Pecher'.....1gal \$16.00ea
Ht. 100cm. Z2. Semi-double pale pink to white with a few dabs of red. Very limited supply.

Paeonia 'Pink Hawaiian Coral'1gal \$25.00ea
Ht.90cm. Z2. An explosion of double coral-orange flowers blending to pink at the tips.

Paeonia 'Prairie Charm'.....\$99.00ea
Ht. 75cm. Z5 An Intersectional Peony (Itoh) which is a hybrid between a tree peony and a herbaceous peony. Semi-double; yellow and at the base of each petal is a large, red-purple flare. All this encircles a prominent center of creamy white and green.

Paeonia peregrina.....\$29.99ea
Ht.50cm. Z7. A wonderful species with deep red cup shaped flowers. Young plants.

Paeonia 'Primevere'1gal \$25.00ea
Ht. 90cm. Z2. Single creamy white flowers with a full central mound of yellow feathery stamens. Very limited supply.

Perennials

Paeonia 'Raspberry Sundae'.....1gal \$30.00ea
Ht. 100cm. Z2. Layer upon layer of lush soft pink and cream gently fringed petals form the imposing rosetted blooms of this lovely peony. Very limited supply.

Paeonia 'Red Charm'.....1gal \$30.00ea
Ht.90cm. Z2. Gorgeous dark red blooms are huge, very deeply ruffled and sit atop very strong stems.

Paeonia rockii.....\$59.99ea
Ht. 100-200cm Z3. Pale bud open to large tissue paper-like white flowers often with a hint of flesh pink but always with a deep maroon base. Nice 4 yearold plants grown from hand pollinated white flowered parents.

Paeonia 'Sarah Bernhardt'.....1gal \$12.00ea
Ht. 100cm. Z5. Fragrant double pink flowers bloom in late June. Good as a cut flower.

Paeonia 'Scrumdiddlyumptious' Itoh Peony Scrumdiddlyumptious \$50.00ea
Large, peachy yellow flowers. Rare

Paeonia 'Sequestered Sunshine' Itoh Peony Sequestered Sunshine\$50.00ea
Large, semi double, bright canary yellow, blooms.

Paeonia 'Shirley Temple'.....1gal \$12.00ea
Ht.90cm. Z2. Double, loosely ruffled white, fragrant blooms are flushed with pink accents.

Paeonia 'Simply Red' Itoh Peony Simply Red..... \$50.00ea
Huge single or rarely blooms of the richest darkest red. We have a few young plants that should bloom in a year or so.

Paeonia 'Sorbet'.....1gal \$19.00ea
Ht. 90cm. Z3. Dark pink outer petals with ruffled creamy mid zone topped by more erect rose pink petals.

Paeonia suffruticosa 'Da Hu Hong' (Hu's Red)\$39.00ea
Ht.100cm. Z5. Double ruffled rosy red.

Paeonia ostii 'Feng Dan Bai'\$39.00ea
Ht.100-200cm. Z5. Flowers: white, sometimes with pinkish veins; single, large, with dense fragrance.

Paeonia suffruticosa 'Hanakiso'.....2gal \$35.00ea
Ht. 100-200cm. Z3-4. A semi double perfect pink bright pink. Strong grafts.

Paeonia suffruticosa 'Highnoon'.....2gal \$35.00ea
Ht. 100-200cm. Z3-4. Large bright yellow flowers with central cluster of orange stamens. Strong grafts.

Paeonia suffruticosa 'Kinkaku'.....2gal \$35.00ea
Ht. 100-200cm. Z3-4. Golden Temple of Nara. An awesome selection with huge, fully double orange-yellow ruffled flowers Strong graft.

Paeonia suffruticosa 'Renkaku'2gal \$35.00ea
Ht. 100-200cm. Z3-4. A Japanese selection known as 'Flight of Cranes' with huge, single ruffled, satiny white blooms.

Paeonia suffruticosa 'Shimninishiki'.....2gal \$35.00ea
Ht. 100-200cm. Z3-4. Large red flowers with white streaking. Strong grafts.

Paeonia Sword Dance..... \$15.00ea
Ht. 90cm. Z2. Fragrant single red flowers with prominent clusters of yellow stamens.

Paeonia tenuifolia Itoha Fern leafed Peony..... \$29.00ea
Ht. 50cm. Z5. Wonderful highly cut lacy foliage and single dark red flowers.

Paeonia 'Top Brass'1gal \$30.00ea
Ht. 90cm. Z2. Peony Top Brass is a double bomb type hybrid peony with rounded cream guard petals and a double center of light pink to cream, and vibrant yellow. Fragrant, a good landscape plant.

Paeonia veitchii var. woodwardii.....\$30.00ea
Ht.50cm. Z5. A lovely compact Chinese peony for part shade. Elegant nodding pink to magenta flowers atop highly cut foliage.

Paeonia 'Viking Full Moon' Itoh Peony \$125.00ea
Ht. 75cm. Z2. A robust Peony with long lasting, single light greenish yellow flowers.

Paeonia Yellow Crown\$79.00ea
Ht. 75cm. Z5 An Intersectional Peony (Itoh) which is a hybrid between a tree peony and a herbaceous peony. This variety has large deep yellow double flowers.

Paris polyphylla..... Fall only 11cm pot \$12.99ea
Ht.40-95cm. Z6. Flowers with narrow green sepals and thread-like golden petals atop a whorl of narrow green leaves. Fruit capsule scarlet red.

Parnassia palustris var. izuinsularis 10cm pot \$20.00ea
Ht.30cm. Z3. A neat alpine from Japan with single white flowers. See the picture on Facebook.

Peltoboykinia tellimoides..... \$10.00ea
Ht. 1m. Z7. Excellent foliage plant with large palmate 7-9 lobed leaves. Google it now.

Peltoboykinia watanabei \$20.00ea
Ht. 60cm. Z5. Excellent foliage plant from Japan for shade with large palmate lobed leaves. Small creamy-yellow flowers are held above the leaves. Good groundcover for moist shaded area near ponds etc.

Penstemon davidsonii Davidson's Penstemon 10cmpot \$5.00ea
Native. Ht.10-15cm. Z5. Evergreen. Dark green shiny leaves form dense, matted subshrub. Lilac-pink flowers bloom midsummer. Sun to light shade. Plants are small. Fall only.

Penstemon fruticosus Shrubby Penstemon 10cm pot \$5.00ea
Native. Ht.15-30cm. Z6. Semi-evergreen. Small, elliptical leaves cover the compact framework of this shrub-like perennial. Lavender blue flowers bloom in summer. Likes gritty, nutrient poor soil in sun to semi-shade.

Penstemon menziesii purple-red Form 10cm pot\$5.00ea
Native. Ht.10cm. Great mat forming perennial with large purple-red flowers.

Perennials

Pentstemon menzeisii white form..... 10cm pot \$5.00ea
Native. Ht.10cm. Great mat forming perennial with large creamy white flowers.

Pentstemon Mexicali Red Rocks 1gal \$10.00ea
Ht. 30-50cm Z5. Drought tolerant evergreen penstemon with brilliant rose-magenta flowers. Loved by gardeners, humming birds and butterflies.

Pentstemon serrulatus Coast Penstemon 10cm pot \$4.00ea
Native. Ht. 40-60cm. Z6. Small toothed, shiny, lance shaped leaves. Bluish purple flowers bloom from April to July. Sun to semi-shade.

Pentstemon serrulatus Alba Coast Penstemon.... 10cm pot \$5.00ea
Native. Ht. 40-60cm. Z6. A pure white flowered form.

Pentstemon strictus 10cm pot \$5.00ea
N.A.Native. Ht.60-80cm. Z3-4. Clusters of lovely intense dark blue to violet blue flowers in spikes.

Pericaria affinis 'Dimity'..... 1gal \$10.00ea
Ht.20cm. Z3. Striking white and red flowers in terminal spikes rise above deep green foliage. Plant in sun to part shade.

Pericaria amplexicaulis 'Album' 1gal \$12.00ea
Ht.85cm. Z3. White flowers in terminal spikes rise above deep green foliage. Plant in sun to part shade.

Pericaria amplexicaulis 'Firetail' 1gal \$10.00ea
Ht.90cm. Z5. Striking bright red flower spikes above green foliage. Plant in sun to part shade.

Pericaria amplexicaulis 'Pink Elephant' 1gal \$20.00ea
Ht.40cm. Z5. Bright pink flowers in narrow bottlebrush-like racemes atop dark stems from June to September.

Pericaria polymorpha Giant Fleece Flower..... 2gal \$20.00ea
Ht.150-200cm. Z3. Upright plumes of creamy white flowers from June to September atop a mound of green foliage.

Pericaria 'Red Dragon' 1gal \$10.00ea
Ht.60cm. Z5. The stunning deep green foliage with a subtle overlay of red is patterned with a dark maroon marking which is outlined with creamy white. A gorgeous foliage plant for sun to part shade.

Petasites japonica 1gal \$10.00ea
Ht.60-120cm Z4. Huge rounded basal leaves and flower scapes covered with white flowers. This is great spreader. for pond edges.

Petasites palmatus Palmate Coltsfoot..... 1gal \$10.00ea
Native. Ht. 20-50cm. Z6. Large, deeply divided leaves with white, wooly undersides sprout from slender, creeping rhizome. Flower heads precede leaves and are initially rose-pink opening to white. Excellent groundcover for any moist to wet site.

Phlox diffusa Spreading Phlox 10cm pot \$5.00ea
Native. Ht.10-15. Z6. Mat forming perennial with light green mossy foliage. Blooms in spring with lilac to pink or rarely white flowers. Great for the rockery or as a ground cover in sun to light shade.

Phlox douglasii Douglas moss phlox 10cm pot \$5.00ea
Native. Ht.5-10cm. Z2. Mat forming perennial with mossy green foliage and bright crimson flowers.

Phlox divaricata Woodland Phlox \$10.00ea
Ht.20-30cm. Z3. A lovely spreading woodland phlox with fragrant lilac to white flowers with a dark purple eye.

Pinellia cordata 10cm pot \$12.99ea
From the tiniest of corms comes this beauty from China. Heart shaped leaves are dark green with veins marked in cream. Spathe green with purple veins, spadix long and scented of fruit. This is the only variegated Pinellia. It makes a striking groundcover in shade.

Plectritis congesta Sea Blush 10cm pot \$4.00ea
Native. Ht.10-60cm. Z3. One of the few native annuals we offer. This self-sowing native blooms in spring with ball shaped clusters of bright pink flowers.

Podophyllum difforme Goyoren..... \$59.00ea
Ht 30-45cm. Z5. A clone selected in Japan of this wonderful Chinese species. Blood red flowers and awesome mottled foliage.

Podophyllum Spotty Dotty..... \$35.00ea
Ht 30-45cm. Z5. New foliage is heavily mottled with reddish-purple blotches around a solid green center. When mature, the colors fade and the leaves will be dinner-plate size and make a surreal statement in the woodland garden. This one can be touchy to get started.

Podophyllum delavayii (P.veitchii)..... \$59.99ea
Ht.30-40cm. Z6. Also know as Dysosma delavayii. This wonderful Chinese perennial with branching upright stems exhibits remarkable mottling of the leaves when they emerge. These large, deeply lobed and toothed, peltate leaves are mottled with rich reddish- mahoganies and browns. Deepmahogany-red to coral-red elongated, pendant flowers in April-May. One of the best foliage woodlanders. Each plant is different.

Podophyllum hexandrum Himalayan Mayapple .. 1gal \$12.00ea
Ht.20-30cm. Z6. Large 3-5 lobed peltate shiny green foliage emerges with a flush of reddish bronze blotches of mottling on the leaves. A very reliable, showy perennial for shade to part sun. Pink solitary flowers are followed by red fruit.

Podophyllum peltatum Mayapple..... 11cm pot \$10.00ea
N.A.Native. Ht. 30-50cm. Z4. Leaves deeply lobed. Fragrant, solitary nodding flowers are white to pale pink and almost trillium like. Fruits yellowish in color and apple shaped. An easy to grow spreading perennial in shade to part-sun.

Podophyllum pleiantha \$20.00ea
Ht.20-60cm. Z5. Large green leaves edged with fine teeth. Mature leaves on older plants are lobed. Stunning red flowers.

Polemonium carneum Great Jacob's ladder..... \$4.00ea
Native. Ht.15-40cm. Z6. Peachy soft pink flowers with a tinge of blue.

Polygonatum canaliculatum Great Soloman's Seal..... \$8.00ea
N.A.Native.Ht.60-120cm. Z3. Graceful arching stems with rows of pair flowers hanging down. The bell shaped white flowers are tipped with green and followed by purple-black berries in fall.

Polygonatum cirrhifolium late spring only \$12.00ea
Ht. 60-120cm. Z6. Narrow leaves in whorls with tendril-like tips. White tinged purple or green flowers in axils of leaves followed by red fruits.

Perennials

Polygonatum falcatum 'Silver Striped form'.....\$20.00ea
Ht. 50-85cm. Z4. This natural selection from Japan has arching stems bearing narrow green leaves each with a central silver stripe down the midrib. Long creamy-white flowers with green tops dangle in pairs below the leaves.

Polygonatum falcatum 'Kon Chiri Shima'.....\$59.00ea
Ht.25-30cm. Z4. A variegated dwarf selection of this Japanese native Polygonatum. 'Kon Chiri Shima' has broad bands of golden yellow and green splashed inside with some leaves being all yellow. Variegations will fade out to green by mid-summer. Very rare.

Polygonatum falcatum 'Tiger Stripes'.....\$38.00ea
Ht. 50-85cm. Z4. This selection from Japan has arching stems bearing narrow green leaves striped with yellow. Plant in well drained soils

Polygonatum Grace Barker..... \$20.00ea
Ht. 25-40cm. Z4. A fantastic small Solomon's Seal adorned with small, dark green, crinkled foliage, surrounded by an irregular white border.

Polygonatum hookeri.....\$20.00ea
Ht. 3-10cm. Z4. A tiny species from China that has single or paired pink-purple open faced flowers just above the ground.

Polygonatum humile Dwarf Solomon's seal.....\$6.00ea
Ht.15cm. Drooping white flowers with green tips.

Polygonatum multiflorum Solomon's Seal.....1gal \$10.00ea
Ht. 60-120cm. Z4. In May and June nodding white flowers with greenish tips hang in groups of 3-5 from arching stems. Shade to semi-shade. Rhizome creeping. Blue-black fruit.

Polygonatum multiflorum variegatum.....\$10.00ea
Ht.60-120cm. Z4. Variegated form of the species.

Polygonatum odoratum akajik.....\$22.00ea
This selection from Japan has arching stems bearing narrow green leaves offset by red stems. Plant in well drained soils.

Polygonatum odoratum Byakko.....\$39.00ea
Ht.5-10cm. Z4. This beautiful woodland plant from Japan is a real stunner with its unusual green and white variegation. The leaf is split into a green part at the tips of the leaves and a white part where the leaf joins the stem. The name means 'White Tiger' in Japanese. Flowers are sweetly fragrant. This plant needs to be in the perfect location to show variegation which is bright morning sun and it prefers to be crowded.

Polygonatum odoratum Fireworks.....\$20.00ea
Ht.50-75cm. Z4. New growth emerges with near pure white foliage, becoming finely streaked with bright creamy white and rich green as the leaf ages on tall strawberry-red stems.

Polygonatum odoratum 'Variegatum' Variegated Solomon's Seal
.....\$5.00ea
Ht. 110cm. Z4. Leaves boldly blotched and striped with ivory white. Shoots emerge in spring, mostly pink and ivory with traces of green and the bright color holds until stems are almost fully grown. Flowers are white with greenish spot in throat, and are held in large clusters.

Polygonatum punctatum.....\$15.00ea
Ht. 30cm. A near evergreen species with white flecked purple flowers in the leaf axis. Easy in part shade humus rich soil.

Polygonatum verticillata rubrum.....\$15.00ea
Ht. to 1m. Z5. A choice Chinese woodland perennial with narrow foliage and red flushed flowers followed by red berries in fall.

Polygonatum verticillata Himalayan Giant.....\$15.00ea
Ht. 1-1.2m. Z5. A fantastic large Solomon's Seal from the Himalayas with white flowers followed by showy red fruit. Leaves emerge purple.

Polygonum tenuicale.....10cmpot \$5.00ea
Ht.8-10cm. Z6. A dwarf species that forms nice tidy clumps with dense upright spikes of fragrant white flowers. We owe this plant to the generosity of the late Don Armstrong.

Potentilla anserina Silverweed..... 11cm pot \$4.00ea
Native. Ht. 10-30cm. Z7. Pinnately compound leaves are held erect and are green and slightly hairy in shade to semi-shade. In sun, the leaves are held almost prostrate and are much hairier and become silvery green in color. Spreads by long runners. Flowers single yellow.

Pulsatilla vulgaris Prairie Crocus, Pasque flower 10cm pt \$5.00ea
Ht.7-15cm. Z5. Silky, white, hairy, finely divided leaves. Beautiful flowers from bluish-violet, lavender to red or white. Blooms March to April. Flowers precede the leaves. Sun to light shade in well drained soil.

Primula alpica violacea Tibetan Primrose.....\$5.00ea
Ht. 30-45cm.Z6. A graceful primula with tall stalks bearing clusters of pendulous, fragrant rich red purple bell shaped flowers. The odd plant may revert to the typical creamy yellow.

Primula beesiana.....\$6.00ea
Ht. 40cm. Z6. A pretty candelabra type primula with rosy purple to magenta flowers on tall stems in late spring.

Primula x bulleesiana.....\$5.00ea
Ht. 40-60cm. Z6. This pretty candelabra type primula has flowers with somewhat variable colors as they are hybrids between *Primula bulleyana* (yellow-orange) and *beesiana* (pink-purple). Blooms are typically rosy purple to magenta on tall stems in late spring.

Primula bulleyana.....\$5.00ea
Ht. 60cm. Z5. A cool Primula from China with whorls of deep orange flowers held on slender stalks above the foliage.

Primula denticulata Drumstick Primula.....\$5.00ea
Ht. 30cm. Z4. Lilac flowers with yellow centers packed in tight, round ball shaped heads.

Primula denticulata alba Drumstick Primula.....\$5.00ea
Ht. 30cm. Z4. Clear white flowers with yellow centers packed in tight, round ball shaped heads.

Primula denticulata Blue Form Drumstick Primula.....\$5.00ea
Ht. 30cm. Z4. Deep blue flowers with yellow centers packed in tight, round ball shaped heads.

Primula denticulata Rubin Selection.....\$5.00ea
Ht. 30cm. Z4. Bright carmine-red colors the distinctively shaped 'drumstick' blossoms.

Perennials

Primula japonica Millers crimson seedlings 1gal \$10.00ea
Ht.30-45cm. We offer large plants of this famous red form of Japanese candelabra Primula. Can tolerate very wet soil in sun to partial shade.

Primula juliae \$5.00ea
Ht. 20cm. Z3. Compact, semi-evergreen perennial forms a rosette of oval leaves and purple flowers flushed crimson in spring.

Primula kisoana alba \$10.00ea
Ht. 10-20cm. Z5. A white flowered selection from Japan of an excellent woodland species that spreads slowly by underground runners into a colony. Usually sulks after transplanting.

Primula luteola \$5.00ea
Ht. 15-40cm. Z5. This rarely offered species from the Caucasus has sulphur yellow flowers with darker yellow centers packed in tight ball shaped clusters.

Primula rosea \$5.00ea
Ht. 10-20cm. Z6. Hot rose pink to red flowers in late spring followed by foliage which emerges tinted a lovely reddish bronze.

Primula secundiflora \$5.00ea
Ht. 30cm. Z6. Hanging bell shaped reddish purple to deep rosy red flowers in late spring to early summer. Foliage is evergreen.

Primula sieboldii \$5.00ea
A great spreading Primula with white, pink or purple flowers. We offer a great mix.

Primula sieboldii Aka Tombo \$15.00ea
Ht 15-20cm Z3. A Japanese selection with hot pink flowers with narrow notched petals. Looks like a pink snowflake.

Primula sieboldii Asahi Gata \$15.00ea
Ht 15-20cm Z3. A Japanese selection with soft pink flowers that fade to white at the tips. Each petal is lobed into two.

Primula sieboldii Hana Guruma \$15.00ea
Ht 15-20cm Z3. A Japanese selection with larger, broader flower petals a dusky dark pink in color, slightly lighter near the center.

Primula sieboldii Hokutosei \$15.00ea
Ht 15-20cm Z3. A Japanese selection with lacy lavender pink flowers that fade to a near white with a darker lavender pink center.

Primula sieboldii Kurama \$15.00ea
Ht 15-20cm Z3. The back of each petal is a hot magenta pink, this color wraps around the front tips of the toothed petal tips and fuses into white as you head towards the center of the flower.

Primula sieboldii Mita jiman \$15.00ea
Ht 15-20cm Z3. Soft lavender pink petals that fade to white near the flowers center. Each large petal has a fine toothed edging.

Primula sieboldii Momiji bashi \$15.00ea
Ht 15-20cm Z3. Each very lacy petal is splashed with varying amounts of pink and white.

Primula sieboldii Sensyo \$15.00ea
Ht 15-20cm Z3. Lacy pink petals with a fine white edge and a small white center.

Primula sieboldii Tatsuta no yu \$15.00ea
Ht 15-20cm Z3. A Japanese selection with hot pink flowers with each petal fringed.

Primula sieboldii white Lace Selection \$8.00ea
A great set of selections with white lacy flowers.

Primula sinopurpurea \$5.00ea
Ht. 35cm. Z5. Nodding violet to creamy white flowers in late spring to early summer. AKA Primula chionantha ssp sinopurpurea.

Primula tosaensis \$10.00ea
Ht.10cm.Z6. A small Japanese species with lavender-pink flowers.

Primula waltonii \$5.00ea
Ht. 30cm. Z6. Pendant flowers are deep pink to wine-red with a creamy central face and red central eye. Blooms early summer.

Prunella vulgaris Self-heal 10cm pot \$4.00ea
Native. Ht. 10-50cm. Z6. Lance-shaped, lightly haired leaves. Purplish-pink flowers form a spike like cluster atop short stems.

Pteridophyllum racemosum 10cm pot \$20.00ea
Ht 20cm. Z3. A rare Japanese perennial with near evergreen, Deer fern like foliage and spikes of pure white bell shaped flowers in June.

Ranunculus aconitifolius flore Plena Fair Maids of France
..... \$12.00ea
Ht.30-60cm. Z5. Pure white perfect densely double flowers on airy stems above deeply cut foliage. This is one of our most sought after plants and for the first time we have a good supply.

Ranunculus acris var. nipponicus \$15.00ea
Ht. 20-40cm. Z6. A nice clump forming groundcover from Japan with bright yellow buttercup flowers in June to early August.

Ranunculus ficaria Plena Double flowered Buttercup \$4.00ea
Fl.Ht. 15cm. Z5. Arising from tiny bulb-like tuberous roots in early spring to form spreading rosettes of shiny green leaves topped with vibrant double yellow flowers. Summer dormant. A great companion plant for bulbs in the shaded wild garden.

Ranunculus occidentalis Western Buttercup \$5.00ea
Native. Ht. 20-60cm. Z6. A tall native ranunculus important in Garry oak meadow communities. Plant in meadows with other garry oak meadow community plants. Ten plants for \$35.00

Ranzania japonica \$59.00ea
Ht 15-40cm.Z7. A seldom offered, legendary plant from the mountains of Japan. Each wiry stem bears twin trifoliate leaves. From between these leaves is a single or more commonly a small cluster of drooping cup-shaped mauve-pink flowers that later develop into upright clusters of white berries. This slow-growing perennial will form a nice clump over time. Grow in humus rich soil in the shaded woodland.

Rheum palmatum Ornamental Rhubarb 1gal \$12.99ea
Ht. 200-250cm. Z5. Similar to garden rhubarb but new leaves are larger and greenish to dark purple-red and flower panicles are white and age to deep pink in color.

Perennials

Rheum palmatum var. tanguticum 'Red Select' Ornamental Rhubarb
 1gal \$12.00ea
 2gal \$25.00ea
 Ht. 200-250cm. Z5. In this selection new leaves are reddish to purplish-maroon and later fade to green. The flowers stalks are tinged red-purple as well the flower panicles age to red as seed is set.

Rhodohypoxis

Tufts of narrow grass like leaves to 10cm are nearly obscured by masses of 3cm white, pink, or red flowers over a long spring-summer bloom period. Bulbs multiply quickly. Many varieties at first look similar but in time as the clumps grow one can see the subtle differences. Zone 7.

Rhodohypoxis bauri 'Dawn' \$4.00ea
 Pink flowers.

Rhodohypoxis 'Emily Peel' \$5.00ea
 Large pink flowers.

Rhodohypoxis bauri 'Great Scott' \$5.00ea
 Reddish pink flowers.

Rhodohypoxis 'Harlequin' \$4.00ea
 White flowers suffused with purple at the tips.

Rhodohypoxis 'Lily Jean' \$6.00ea
 Double sugary pink flowers. From small bulbs.

Rhodohypoxis 'Pictus' \$4.00ea
 Soft pale pink that is almost white suffused with purple pink at the tips.

Rhodohypoxis 'Pixie' \$4.00ea
 Small flowers with long narrow petals.

Rhodohypoxis 'Platypetala' \$4.00ea
 Flowers white maybe with a very pale hint of pink.

Rhodohypoxis 'Ruth' \$4.00ea
 Rounded white petals and a compact habit.

Rhodiola rosea (Sedum integrifolium) Rose Root \$6.00ea
Native. Ht.10-15cm. Z1. A great sedum relative that is welcome addition to the rock garden.

Rodgersia aesculifolia Rodgersia 1gal \$10.00ea
 Ht.70-180cm. Z5. Large leaves, 50cm across, rounded, seven parted with reddish brown hairs. Leaves look like the leaves of a Horse Chestnut tree. Clustered, tiny pinkish flowers on 80-120cm panicles are somewhat Astilbe like.

Rodgersia Die Stolze Rodgersia 1gal \$20.00ea
 Ht.75-80cm. Z4. Green foliage with hints of bronze and orangey pink, somewhat astilbe-like flowers.

Rodgersia pinnata 'Chocolate Wings' \$21.00ea
 Ht. 80cm. Z4. Chocolate foliage emerges in spring and ages to bronze green. Spikes of pink flowers.

Rodgersia pinnata 'Elegans' 1gal \$10.00ea
 Ht.90-100cm. Z6. A pink Astilbe-like flower makes this one special. Leaves are dark glossy green and palmately shaped. Another great plant for the edge of a pond.

Rodgersia podophyllum 'Braunlaub' \$10.50ea
 Ht. 100cm. Z5. Striking bronze leaves are sharply serrated and age to dark green by mid summer. Spikes of creamy flowers are flushed with red.

Roscoea alpina 11cm pot \$10.00ea
 Ht.30cm. Z6. This species has pink or mauve flowers held at leaf level. Fast to form a showy little clump. 3 For \$27.00

Roscoea beesianum 11cm pot \$10.00ea
 Fl.Ht. to 55cm. Z6. This is thought to be a natural hybrid of R.auriculata x R.cautleoides. Its yellow flowers are streaked lightly with purple on the laterals and heavily on the lip.

Roscoea cautleoides 11cm pot \$10.00ea
 Fl.Ht. to 55cm. Z6. Large soft yellow flowers on a spike carried clear of the leaves appear with the new foliage in June.

Roscoea purpurea \$10.00ea
 Ht. 30cm. Z6. Purple flowered species.

Roscoea purpurea 'Cinnamon Stick' \$12.00ea
 Ht. to 60cm. Z6. Large lavender flowers on deep blood red stems make this one of the best of the group. Even the green leaves are tinted red.

Roscoea purpurea 'Spice Island' \$12.00ea
 Ht. to 60cm. Z6. Large lavender-purple flowers on deep red stems make this one of the showiest of the group. Even the green leaves are tinted red.

Rubus acaulis Alaska Berry 10cm pot \$5.00ea
Native. Ht.5-10cm. Z1. Single, pretty, dark rose-pink flowers. Small, reddish raspberry-like fruit makes delicious jam or jelly. Excellent groundcover for shade to semi-shade.

Rubus pedatus Creeping Raspberry 10cm pot \$5.00ea
Native. Ht.2-5cm. Z5. This creeping, mat forming perennial looks almost like a strawberry plant; with flowers and all. The tiny fruit consist of 1-4, tasty drupelets. This makes an excellent evergreen groundcover for shade to semi-shade.

Rudbeckia fulgida 'Goldsturm' \$10.00ea
 Ht.60cm. Z3. Golden yellow daisy-like flowers with a dark center.

Rudbeckia hirta 'Chim Chiminee' \$10.00ea
 Ht.60cm. Z5. Unique quilled petals in an array of autumn colours from orange to yellow, red, bronze and shades in between.

Rudbeckia hirta 'Sonora' \$10.00ea
 Ht.60cm. Z4. This selection has golden yellow flowers with a wide mahogany band around its black eye.

Rudbeckia nitida 'Herbstonne' \$10.00ea
 Ht.175cm. Z2. This variety is particularly hardy and very tall. Sunny yellow daisy-like flowers.

Perennials

Rudbeckia occidentalis 'Black Beauty'..... \$10.00ea
Ht.75cm. Z4. This is a weird one! It has a very black central cone but no actual flower rays. Butterflies love it.

Salvia glutinosa Jupiters Distaff 1gal \$10.00ea
Ht.80-120cm. Z5. A great plant for the edge of a woodland garden with spikes of yellow flowers from mid-summer to mid-autumn.

Sanguisorba obtusa1gal \$10.00ea
Ht. 50-60cm. Z5. Long pinnate leaves with 13-17 leaflets. Pale rose flowers in long nodding spikes in late summer to early fall. Prefers sun to light shade in average garden soil.

Sanguinaria canadensis Bloodroot 11cm pot \$5.00ea
N.A.Native. Ht.15-20cm. Z4. As they break the ground in early spring, each tightly rolled blue-green leaf encloses a flower bud, keeping it safe from harm. Flowers are glistening white and open flat in the morning, stand erect by midday and close in the evening.

Sanguinaria canadensis 'Armstrong Pink'.... 10cm pot \$20.00ea
N.A.Native. Ht.15-20cm. Z4. This is the much sought after pink flowered form. Plants emerge later with purple tinged foliage. Flowers emerge with pink buds and open to a soft pink that fades to white.

Sanguinaria canadensis 'Multiplex' Double Flowered Bloodroot
10cm pot\$15.00ea
N.A.Native. Ht.15-20cm. Z4. This is the much sought after double flowered form. This stays in bloom much longer than the single flower form. Plant in humus rich soil in shade to semi-shade. From a tuberous root.

Sarracenia 'Dana's Delight'\$12.00ea
Z5-6. This pitcher plant is sometimes referred to as Red leucophylla. An exceptional plant with ruffled hood with brilliant red veins and bright pinkish pitcher. Carnivorous.

Sarracenia leucophylla 'tarnok'\$12.00ea
Z6-7. A pitcher plant with crisp white hoods veined deep red. Awesome. Carnivorous.

Sarracenia 'rubra'\$12.00ea
Z6-7. This pitcher plant has a bright yellow-green pitcher with the best color in summer and fall. Red Flowers. Carnivorous.

Sarracenia 'Scarlet Belle'\$12.00ea
Z6-7. Pitcher hoods are angled to keep most of the rain from entering the hood. Veins are dark red and filled in with white. Carnivorous.

Satureja douglasii Yerba Buena..... 10cm pot \$5.00ea
Native. Ht. 10-25cm. Z5. An excellent small scale well behaved groundcover for shade with small white flowers. Leaves can be used to make a soothing tea. Drought tolerant.

Sauromatum venosum **Voodoo Lily** \$10.00ea
Z8. This interesting tuber produces a long, slender fleshy pink to maroon spadix with a yellowish spathe mottled with maroon. A striking solitary pale green leaf mottled with dark green or maroon follows in summer. The spadix emits a very distinctive foul smell, luckily for only a day. Striking purple tennis ball sized seed head in fall.

Saxifraga bronchialis Spotted saxifrage..... 10cmpot \$5.00ea
Native. Z6. Ht 3-5cm. Spreading foliage resembles moss with white flowers spotted purple-red on short slender stalks.

Saxifraga cortusifolia Japanese Woodland Saxifrage\$5.00ea
Ht.10cm. Z7. Unique white flowers held above glossy, rounded fleshy foliage in spring. Great groundcover for the woodland garden.

Saxifraga fortunei \$10.00ea
Ht.50cm. Z6. Green to bronze maple-like leaves with sparkling white flowers in late summer.

Saxifraga fortunei Bronze Form..... \$10.00ea
Ht.50cm. Z6. A hardworking perennial for shade to part sun. Great bronze leaves topped with sparkling white flowers in late summer.

Saxifraga hypnoides Mossy saxifrage..... 10cmpot \$4.00ea
Ht.5cm. Z6. Spreading foliage resembles moss with white flowers on short slender stalks.

Saxifraga integrifolia. Grassland Saxifrage 10cmpot \$4.00ea
N.A. Native. Ht.10-20cm. Z6. This western saxifrage has rosettes of roughly triangular, fleshy foliage with smooth edges topped with airy inflorescence of single white blooms.

Saxifraga mertensiana. \$5.00ea
Native. Toothed kidney shaped leaves and sprays of white flowers. Makes are very tidy neat looking cluster.

Saxifraga occidentalis. \$5.00ea
Native.Ht. 20-30cm. Low evergreen rosettes of toothed leaves and tall spikes of pink to white flowers.

Saxifraga oregana...... 10cm pot \$5.00ea.
Native. Ht.10cm. Z5. A lovely basal rosette of leaves gives rise to a tall leafless stem topped with a cluster of white flowers.

Saxifraga paniculata 10cmpot \$4.00ea
Ht 15-25cm. Z2. Mat forming spreading species with white flowers on short slender stalks.

Saxifraga stolonifera 10cmpot \$4.00ea
Ht 15cm. A wonderful evergreen groundcover with rounded grey-green leaves patterned with silvery veins and a purplish underside with pink hairs. White flowers on tall wiry red stems. Fantastic groundcover.

Saxifraga stolonifera 'Harvest Moon' \$10.00ea
Ht.60cm. Z7. This gorgeous groundcover perennial has green foliage with golden highlights topped with white to very soft pink starry shaped flowers in summer. Prefers part shade in rich soil.

Saxifraga stolonifera Kamakura Silver. \$12.00ea
Ht. 15cm. Z5. A wonderful new selection with more silver on the young leaves. Evergreen. White flowers on tall wiry red stems. Fantastic groundcover.

Saxifraga umbrosa primuloides 10cm pot \$4.00
Ht. 5cm. Z7. Pink flowers on small evergreen rosettes.

Saxifraga umbrosa variegata (London Pride) 10cm pot \$4.00ea
Z7. Large green rosettes splashed cream yellow with spikes of starry pinkish white flowers from May to June.

Perennials

Saxifraga 'Whitehill' 10cm pot \$4.00ea
Ht. 5cm. Z6. Mat forming rosettes of blue-green leaves with rosy undersides and inner edges. Delicate white flowers.

Schizostylus coccinea Oregon Sunset 1 gal \$10.00ea
Ht.30-45cm. Z6. A great plant with rich melon pink flowers and spreading, grass-like foliage.

Schizostylus coccinea Major 10cm pot \$4.00
Ht.30-60cm. Z6. Seedlings of this form with brick red flowers.

Schizostylus coccinea shades of Pink Kaffir Lily..... 1 gal \$10.00
Ht.30-45cm. Z6. A great plant with rich pink flowers and spreading, grass-like foliage. A late bloomer.

Scilla rosenii bakuriani 10cm pot \$11.00ea
Z6. This very beautiful scilla has vivid blue flowers with white centers. Petals recurve like a erythronium as they age.

Scoliopus bigelovii Adder's tongue.....\$18.00ea
Native. Z6. Ht. 20cm. This trillium relative from California is one of the coolest woodland plants. It is in full bloom in late January. Flowers have three creamy greenish petals covered with mahogany brown stripes. The foliage, which emerges after bloom, consists of two large strap shaped leaves spotted with dark blotches. Forms a nice clump over time in a woodland garden. Limit one per customer.

Scopolia carniolica Zwanenberg\$14.00ea
Z5. Ht. 60cm. From a fleshy rhizome dark brownish purple bells emerge with the leaves in early spring. Awesome.

Sedum divergens..... 10cm pot \$4.00ea
Native. Ht.5-7cm Z4. Mat forming stonecrop with small rounded shiny green leaves and yellow flowers. Excellent red fall color.

Sedum hybrid 'Abbeydore' \$10.00ea
Ht.40cm Z3?. Light pink buds open to gorgeous dark pink-red flowers.

Sedum hybrid 'Diamond Edge'. \$11.00ea
Ht.40cm. Z3. Light green foliage with white edges and dark pink flowers.

Sedum lanceolatum 10cm pot \$4.00ea
Native. Ht. 5-15cm. Z5. Evergreen. This species grows from a basal rosette, leaves are narrow linear and dark green. Habit is low and compact in full sun and looser and more spreading in partial sun. Flowers a soft pale yellow clustered in flattened heads.

Sedum Munstead 'Strawberries n' Cream'. \$10.00ea
Ht.75cm. Z2. Red buds in numerous clusters open to soft pink blooms.

Sedum oreganum Oregon Stonecrop 10cm pot \$4.00ea
Native. Ht. 5-7cm. Z5. Evergreen. Bright green, succulent foliage forms mats of small rosettes. Yellow flowers in clusters atop short stems become pinkish with age. Likes sun to light shade

Sedum represtre 'Angelina'. \$11.00ea
Ht.15cm. Z3. A groundcover sedum with golden yellow needle shaped foliage that changes to amber in fall. Yellow flowers.

Sedum spathulifolium Broad-leaved Stonecrop . 10cm pot \$4.00ea
Native. Ht. 5-7cm. Z5. Evergreen. Smooth, fleshy, spoon- shaped blue-green leaves form distinct rosettes. Yellow flowers in branched cymes bloom June to July. All forms of this plant have a beautiful, mat forming cushiony habit. Sun to semi shade in well drained soil.

Sedum spathulifolium 'Capa Blanco'..... 10cm pot \$4.00ea
Native. Ht. 4-6cm. Z5. Evergreen. This selection has small, thick, silvery white, glossy, decorative leaf rosettes. Very nice.

Sedum spathulifolium 'Rubra' 10cm pot \$4.00ea
Native. Ht. 5-7cm. Z5. Evergreen. This selection has primarily reddish tones on the leaves that turn reddish purple in the fall. Same conditions as species.

Sedum spectabile 'Carl'\$10.00ea
Ht.45cm. Z2. Excellent rosy pink flowers atop grey-green foliage.

Sedum spectabile 'Frosty Morn' \$10.00ea
Ht.60cm. Z3. Green foliage with white edges and pale pink blooms.

Sedum stenopetalum..... 10cm pot \$4.00ea
Native. Ht.10-20cm Z4. Mat forming stonecrop with very narrow leaves and yellow flowers. Good red fall color.

Senecio pauciflorus Alpine Butterweed.....10cm pot \$4.00ea
Native. Ht. 15-40cm. Bright yellow daisy like flowers adorn this drought tolerant plant.

Sidalcea hendersonii 11cm pot\$6.00ea
Native. Ht. 1-1.4m. Z4. An incredible but rare native with a basal rosette of leaves and a tall, dense raceme smothered in rose-pink to red flowers.

Shortia uniflora Dwarf. On site sales only..... \$16.00ea
Ht. Z7. A showy woodland perennial from Japan. Glossy evergreen leaves turn maroon red in winter. Showy pink flowers with frilly edges appear in spring. Plant in shade in acidic well drained soil. Care must be taken as this plant is slow to establish

Shortia uniflora Large form. On site sales only \$16.00ea
Ht. Z7. A showy woodland perennial from Japan. Glossy evergreen leaves turn maroon red in winter. Showy white flowers with frilly edges appear in spring. Plant in shade in acidic well drained soil. Care must be taken as this plant is slow to establish

Sisyrinchium angustifolium Blue-eyed Grass 10cm pot \$4.00ea
Native. Ht. 15-20cm. Z3. Tufts of grass-like leaves with violet-blue yellow throated flowers. Blooms May to October. Sun to semi-shade.

Sisyrinchium angustifolium 'Album'..... 10cm pot \$5.00ea
Native. Ht. 15-20cm. Z3. Tufts of grass-like leaves with white flowers. Blooms May to October. Sun to semi-shade.

Sisyrinchium californicum Golden-eyed Grass... 10cm pot \$4.00ea
Native. Ht. 10-25cm. Z8. Tufts of grass-like leaves with golden-yellow flowers. Blooms June and July. Sun to semi-shade. Can be grown in a colder climate but will be a self seeding annual.

Sisyrinchium douglasii Satin-flower 10cm pot \$5.00ea
Native. Ht. 15-20cm. Z6. Very narrow leaves in small tufts. Blooms in March or April with bell-shaped reddish-purple flowers. Sun to semi-shade. This is very slow to multiply, naturally small.

Perennials

Sisyrinchium macounii album White-eyed grass 10cm pot \$4.00ea
Native. Ht. 10-15cm. Z8. Evergreen. Narrow, iris-like leaves in tufts. Pure white flowers in late spring. Sun to semi-shade.

Solidago canadensis Goldenrod..... 1gal \$10.00ea.
Native. Ht.20-200cm Zone 2. This is the lovely goldenrod throughout our region.

Solidago multiradiata Rocky mountain Goldenrod.... 1gal \$10.00ea.
Native. Ht.20-80cm Zone 3. This is the lovely goldenrod seen at higher elevations and throughout the north country

Smilacina japonica 11cm pot \$9.99ea
 Ht.80cm. Z6. Somewhat similar to *S. racemosa* with lower leaves and flowers with densely hairy stalks. Makes a great spreading woodland groundcover over time. Native of Korea and Japan.

Smilacina oleracea 11cm pot \$11.99ea
 Ht. 80-175cm. Z5. An outstanding species with nodding racemes of pinkish-purple (rarely white) bellshaped flowers. Fruits orangey-red. Native to the Himalayas.

Smilacina paniculata 11cm pot \$9.99ea
 Ht. 60-100cm. Z7-8. This species is from China.

Smilacina purpurea 11cm pot \$11.99ea
 Ht. 20-40cm. Z6. An interesting species from the Himalayas with a pendulous terminal spike of dark purple or white flowers.

Smilacina racemosa False Solomon's Seal..... 11cm pot \$5.00ea
Native. Ht. 80-90cm. Z5. Rhizomatous perennial forming dense colonies of erect to nodding, unbranched stems bearing alternate, lance shaped leaves. Terminal panicles to 15cm long consisting of many creamy white flowers followed by red berries.

Smilacina stellata Star-flowered False Solomon's Seal.....\$5.00ea
Native. Ht. 20-60cm. Z4. Similar in habit to *S.racemosa*. Creamy white, star like flowers in terminal clusters of 5-20, bloom in July. Berries are round, greenish with 3 reddish purple stripes aging to dark red. Shade to semi-shade in humus-rich soil.

Solidago canadensis Goldenrod..... 1gal \$10.00ea.
Native. Ht.20-200cm Zone 2. This is the lovely goldenrod throughout our region.

Solidago multiradiata Rocky mountain Goldenrod.... 1gal
\$10.00ea.
Native. Ht.20-80cm Zone 3. This is the lovely goldenrod seen at higher elevations and throughout the north country

Stachys cooleyae Cooley's Hedge Nettle 10cm pot \$5.00ea
Native. Ht.1-1.5M. Z6. An attractive non stinging nettle with spikes of violet-pink to purply-pink flowers.

Stachys monieri 'Hummelo' \$10.00ea
 Ht.60cm. Z4. This species forms lush clumps of long, narrow, textured green leaves (quite unlike *stachys byzantina* – Lamb's ears). It is lovely even when it's not in bloom. Lavender-rose flower spikes are held above the foliage. This is not a well known perennial, but it is definitely worth a spot in the sunny border.

Streptopus amplexifolius Twisted stalk 11cm pot \$8.00ea
Native. Ht. 60-120cm. Z6. A very showy native with yellowish white pendulous bells held by sharply kinked pedicels (twisted stalk) followed by bright red fruits in late summer.

Streptopus roseus Rosy Twisted stalk 11cm pot \$6.00ea
Native. Ht. 30cm. Z3. A very showy native with dusky rose-pink pendulous bells held by sharply kinked pedicels (twisted stalk) followed by bright red fruits in late summer. Makes a nice groundcover or clump in the woodland garden.

Stylophorum diphyllum Wood Poppy..... 11cm pot \$4.00ea
 N.A.Native. Ht. 40cm. Z4. This woodland relative to poppies has bright golden yellow flowers set above a bushy set of basal leaves.

Symplocarpus foetidus Eastern Skunk Cabbage.....\$16.00ea
 N.A.Native. Ht.30cm. Z4. A very early blooming skunk cabbage with curved yellow/green flowers with purplish brown/red mottling. Large green leaves appear after blooms.

Syneilesis aconitifolia Shredded umbrella Plant \$16.00ea
 Ht.45cm. Z5. A wonderful foliage plant from Japan and Korea with large, more finely cut grey-green leaves. New leaves emerge covered in silky white hairs.

Syneilesis palmata Umbrella Plant \$12.00ea
 Ht.45cm. Z5. A wonderful foliage plant from Japan with large, highly cut grey-green leaves. New leaves emerge covered in silky white hairs.

Syneilesis palmata 'Kikko'\$75.00ea
 Ht.45cm. Z5. A wonderful foliage plant from Japan with large, highly cut and divided variegated leaves. Each leaf has an intricate network of yellow veins providing amazing contrast.

Tanakea radicans.....\$15.00ea
 Ht.30cm. Z6. A rarely offered evergreen creeping perennial from Japan. Leathery serrated leaves in basal clusters support large clusters of small white flowers. Great groundcover.

Tellima grandiflora Fringecups..... 10cm pot \$4.00ea
Native. Ht. 40-60cm. Z6. Evergreen. Very hairy green leaves form large mounding rosettes. Small, greenish-white, fragrant flowers in terminal raceme turn pink as they age. Upon close inspection, the flowers reveal an unsuspected delicacy and beauty. Good groundcover for shade to semi-shade in humus-rich soil.

Thalictrum 'Black Stocking' Meadow Rue.....1gal \$18.00ea
 Ht. 180cm Z5. Huge clusters of lavender magenta flowers are borne on near black stems.

Thalictrum delavayi 'Hewitt's Double' Meadow Rue 1gal \$12.00ea
 Ht. 100-120cm. Z7. Masses of small double purple flowers on numerous large panicles set above small green leaves on wiry black stems. Blooms July to August.

Thalictrum delavayi var.decorum 10cm pot \$8.00ea
 Ht. 1-2M.Z7. This is an incredible meadow rue with showy inflated purple buds that open to very large lavender flowers with protruding yellow stamens. These are young plants but when mature they will top six feet in height.

Thalictrum flavum ssp.glaucum (*T. speciosissimum*)
 Yellow Meadow Rue 1gal \$10.00
 Ht. 1-1.5m. Foliage a lovely bluish green with yellow flowers.

Perennials

***Thalictrum ichangense* 'Evening Star Strain'** 1gal \$10.00ea
Ht. 30cm Z4. An exciting new woodland meadow rue with mottled epimedium like leaves. New leaflets colored copper to red brown with silvery veination and older leaflets colored olive green with silvery veination. Clusters of pink flowers on wiry stems.

Thalictrum rochebrunianum \$12.00ea
Ht. 1-2M Z4. A large meadow rue with bright lavender flowers with prominent yellow stamens.

Tiarella trifoliata Foamflower 10cm pot \$4.00ea
Native. Ht. 15-40cm. Z6. Evergreen. Leaves divided into three leaflets with the middle segment being three lobed; outer segments being two lobed. Same flower as *T.laciniata*. Shade to semi-shade.

Tiarella wherryi 1gal \$11.00ea
N.A.Native. Ht. 25cm. Z5-6. One of the best *Tiarella* species with large trusses of fragrant white flowers with a pink blush.

Tofieldia glutinosa \$5.00ea
Ht. 12-30cm. Z1. A small plant with iris-like foliage and white flowers in dense terminal clusters followed by bright reddish seed capsules.

Tofieldia nuda* var. *furusei \$15.00ea
Ht. 12cm. Z4. A dwarf tufted Japanese perennial with iris like leaves and racemes of showy starry white flowers with purple anthers in July.

Tolmiea menziesii Piggy-back Plant 10cm pot \$4.00ea
Native. Ht. 10-25cm. Z6. Evergreen. Heart shaped, hairy, 5-7 lobed, leaves on hairy stalks. Buds at the base of the leaves develop into plantlets that root into daughter plants when the leaves touch the ground. Small brownish-purple flowers in airy clusters atop 40-80cm tall stems. Makes an excellent ground cover for shade to semi-shade. It also makes a wonderful indoor plant in a pot or hanging basket.

***Tradescantia x andersoniana* 'Concorde Grape'** \$5.00ea
Ht Z5. Deep rich purple flowers with prominent yellow stamens. Great tufted perennial with grass like foliage for sun to part shade producing multitudes of flowers from late spring through summer.

***Tradescantia x andersoniana* 'Hawaiian Punch'** \$5.00ea
Ht. 45cm. Z5. Purple-red blooms. Great tufted perennial with grass like foliage for sun to part shade producing multitudes of flowers from late spring through summer.

***Tradescantia x andersoniana* 'Karminglut'** \$5.00ea
Ht. 50cm. Z5. Carmine-red flowers. Great tufted perennial with grass-like foliage for sun to part shade producing multitudes of flowers from late spring through summer.

***Tradescantia x andersoniana* 'Leonora'** \$5.00ea
Ht. 40cm. Z5. Violet blue flowers. Great tufted perennial with grass-like foliage for sun to part shade producing multitudes of flowers from late spring through summer.

***Tradescantia x andersoniana* 'L'Innocence'** \$5.00ea
Ht. 50cm. Z5. Pure white flowers. Great tufted perennial with grass-like foliage for sun to part shade producing multitudes of flowers from late spring through summer.

***Tradescantia x andersoniana* 'Osprey'** \$5.00ea
Ht. 50cm. Z5. White flowers with feathery blue stamen filaments in the centers. Great tufted perennial with grass-like foliage for sun to part shade.

Trautvetteria caroliniensis False Bugbane 11cm pot \$4.00ea
Native. Ht. 30-60cm. Z5. Large, palmate, deeply lobed, coarsely toothed leaves. White flowers in clusters are set above the foliage. This rhizomatous perennial makes an excellent ground cover for shade to semi-shade. Great around ponds, streams or in a woodland setting.

Tricyrtis

A wonderful group of perennials that bloom very late and brighten up late summer and dreary fall days.

Tricyrtis hirta Toad Lily \$10.00
Ht. 60cm. Z4. We have this speckled flowered beauty back in production.

Tricyrtis latifolia \$12.00ea
Ht. 50cm. Yellow flowers with burnt umber spots in late summer.

Tricyrtis macropoda Candelabra Toad Lily 1gal \$10.00ea
Ht. 50-70cm. Z5. White flowers with violet spots. Native to China.

Tricyrtis ohsumiensis Yellow Toad Lily 1gal \$15.00ea
Ht. 225cm. Z4. Bright yellow flowers lightly peppered with red.

Trientalis latifolia Broad-leaved Starflower 10cm pot \$4.00ea
Native. Ht. 10-20cm. Z5. Four to eight leaves in terminal whorls atop thin wiry stems. Rose pink or white, 2cm flowers set atop the leaves. This small, creeping perennial makes an excellent groundcover in shade to semi-shade in humus-rich soil.

Trilliums

A wonderful group of woodland plants that need no introduction for most. We are looking for other species and forms especially double flowered forms. We currently are growing six different double flowered forms which when we have sufficient numbers we will offer.

We are also looking for people to collect us *Trillium* seeds, any and all species. We recommend a well drained humus rich soil in dappled shade for best plant performance.

Trillium apetalon \$20.00ea
Ht. 20-30cm. Z4. An interesting species from Japan with purple-red flowers. Huge tubers.

Trillium catesbaei Rosy Trillium 11cm pot \$9.00ea
N.A.Native. Ht. 30-45cm. Z4. This is a beautiful trillium with nodding pink to rose flowers with purple anthers.

Trillium cuneatum Whippoorwill Flower 11cm pot \$9.00ea
N.A.Native. Ht. 25cm. Z5. Leaves unmarked or faintly mottled, flowers dark maroon to brown. Blooms May-June.

Trillium erectum Purple Trillium \$9.00ea
N.A.Native. Ht. 20-30cm. Z4. Purple-red flower set 2.5-5cm above leaves on a slender stalk. Petals are nearly erect, with purple red anthers bearing white pollen. Easily grown in humus-rich soil in shade to part sun. Blooms April to May.

Perennials

Trillium erectum x flexipes 11cm pot \$9.00ea
N.A.Native. Ht. 20-45cm. Z4. This is similar to T.erectum albiflorum in early bloom but after a few days turns a lovely light tan color. Flower is also slightly nodding.

Trillium flexipes 11cm pot \$9.00ea
N.A.Native. Ht. 30-40cm. Z4. Similar to T.cernuum but nodding flowers almost always above the leaves. Flowers usually white but occasionally pink, red or brown.

Trillium grandiflorum Snowy Trillium 11cm pot \$9.00ea
N.A.Native. Ht. 30-45cm. Z3. White flowers, turning to pink with age. Petal margins wavy, anthers yellow.

Trillium grandiflorum plenum \$75.00ea
N.A.Native. Ht. 30-45cm. Z3. This is another white double T. grandiflorum with fully double white, camellia-like flowers. This, in our stock, is referred to as Trillium grandiflorum double form #5 as we have not been able to trace the origin of this double form.

Trillium grandiflorum Snowbunting \$75.00 ea
N.A.Native. Ht. 30-45cm. Z3. A wonderful form with nice fully double white flowers. Mature single eyed divisions. We have only a few of these to spare and must limit them to one per customer. Only a few available.

Trillium kamschaticum \$20.00ea
Ht. 20-30cm. Z4. Japanese species. Large white slightly fragrant flowers. Huge tubers.

Trillium luteum Yellow Trillium..... 11cm pot \$9.00ea
N.A.Native. Ht. 30-40cm. Z6. Fragrant, lemon scented yellow flowers and attractively mottled leaves. Blooms May to June. Easy to grow in humus-rich soil.

Trillium ovatum Trillium..... 11cm pot \$9.00ea
Native. Ht. 25-60cm. Z5. Fragrant white flowers age to pink then to wine purple. Blooms March to May. Easy to grow.

Trillium parviflorum 10cm pot \$10.00ea
Native. Ht.17-30cm. Z6. Young mottled leaves and white sessile flowers with a spicy fragrance. Leaves usually slightly mottled, fruit dark maroon.

Trillium pusillum Dwarf White Trillium..... 11cm pot \$9.00ea
N.A.Native. Ht. 20-30cm. Z6. White flowers age to cherry red, petals inclined upwards. Bronze-green leaves.

Trillium recurvatum Prairie Trillium..... 11cm pot \$9.00ea
N.A.Native. Ht. 30-45cm. Z5. Brown-red flowers set atop mottled leaves. Easy grower, plant in shade to part shade.

Trillium rivale \$9.00ea
Native. Ht.5-15cm. Z3. A wonderful tiny trillium that forms clumps. Flowers range from white to pink often spotted with purple. These are four year old seedlings that are naturally very small (tuber much smaller than the size of a pea). These should bloom in a year.

Trillium rivale 'Del Norte' seedlings.....\$10.00ea
Ht.35-45cm. Z5. Reputed to be a hybrid between T.ovatum and T.rivale. It looks like a giant T.rivale and clumps up fast. Totally awesome.

Trillium rivale seedlings of a Pink Form\$10.00ea
Ht.5-10cm. Z5. We offer 3-4 year old seedlings of this beautiful pink form of Trillium rivale. Naturally tiny rhizomes.

Trillium stamineum\$10.00ea
N.A.Native. Ht.15-30cm. Z4. A sessile trillium with twisted petals laying somewhat horizontally with a prominent upright cluster of stamens. Flowers usually very dark red purple. Blooms April to June. Only a few available.

Trillium sulcatum Southern Red Trillium\$9.00ea
Ht.30-70cm. Z4. A showy species similar to T.erectum with larger petals which are slightly recurved at the tips. Typically a rich maroon red but ranges from red to yellow and occasionally pink or white. Very large rhizomes. A must for any garden. It appears that the predominant form in our population is the rarer white form. We are unable to select individual colours.

Trillium vaseyi..... 11cm pot \$10.00ea
Ht. Z5. Large red nodding flowers. A beautiful species. We have just a few of these this year.

Triteleia hyacinthina = (Brodiaea hyacinthina) Fool's Onion, White Brodiaea 10cm pot \$4.00ea
Native. Ht. 50-60cm. Z6. This June flowering native arises from a round, bulb-like corm. Numerous white bell shaped flowers with green mid-vein in clusters atop wiry stems. Sun to semi-shade. This is a great plant to naturalize in grassy areas.

Triteleia laxa (Brodiaea laxa) 10cm pot \$4.00ea
Native. Ht. 30-60cm. Z6. Large umbels of deep blue flowers atop wiry stems bloom in mid June. Sun to semi-shade. Naturalizes well.

Triteleia peduncularis Long rayed Brodiaea\$4.50ea
Native. Ht. 30-45cm. Z6. This little known bulb is fantastic for naturalizing in the garden or as part of a wildflower meadow. Large umbels of white flowers with blue-purple striping on the reverse. Blooms in July. Excellent long lasting cut flower.
Special Ten for \$35.00

Trollius europaeus 'superbus' 1gal \$10.00ea
Ht.70cm. Z2. Cool lemon yellow double flowers in late spring to summer atop showy finely divided foliage.

Trollius x cultorum 'Alabaster' 1gal \$12.00ea
Ht.45cm. Z3. Beautiful creamy white double flowers in late spring to summer atop showy finely divided foliage. Similar to T. Cheddar.

Trollius x cultorum 'Cheddar' 1gal \$12.00ea
Ht.60cm. Z3. Rich double layers of soft yellow tissue paper-like petals atop attractive finely divided glossy foliage. Similar to T. alabaster but seems more vigorous.

Trollius x cultorum 'Lemon Queen' 1gal \$10.00ea
Ht.50cm. Z2. Bright light lemon yellow flowers on stalks above deep green highly cut and dissected leaves.

Trollius x cultorum 'New Moon' 1gal \$12.00ea
Ht.60cm. Z3. A lovely new selection similar to Cheddar and Alabaster with slightly larger creamy white flowers.

Perennials

Trollius x cultorum 'Golden Queen' 1gal \$10.00ea
Ht.70-80cm. Z4. Deep orange-yellow globe shaped flowers on stalks above deep green highly cut foliage.

Tropaeolum ciliatum Hardy climbing Nasturtium\$5.00ea
Ht.200cm? Z5-6. Blood red veined yellow Nasturtium like flowers. Deeply lobed leaves. Plant arises from small slender root stalk..

Tropaeolum tuberosum Hardy nasturtium\$10.00
Ht. 1-3. Z8. This very vigorous, climbing, perennial nasturtium grows from an edible tuber. It produces vibrant orange-yellow flowers in late summer. Give it good moisture and some shade at its feet and something to climb and it will reward you all summer and feed you as well.

Uvularia grandiflora Merry Bells 10cm pot \$4.00ea
N.A. Native. Ht. 30-60cm. Z4. This is an elegant perennial from creeping rhizomes. Lemon yellow, bell shaped, pendulous flowers are suspended by slender stalks. Shade to part shade.

Uvularia perfoliata Wood Merry Bells 10cm pot \$7.00ea
N.A. Native. Ht. 60cm. Z4. Similar to U.grandiflora but with leaf base surrounding the stem. Forms attractive colonies for the shade garden. Seems faster growing than U.grandiflora.

Uvularia sessilifolia Little Merry Bells 10cm pot \$5.00ea
N.A. Native. Ht. 12-45cm. Z4. This species is smaller than the other two but very similar forming nice colonies over time in the woodland garden.

Vancouveria hexandra 1gal \$10.00ea
Native. Ht. 10-40cm. Z7. Deciduous. White nodding flowers in late spring. Epimedium-like 3-lobed leaflets on wiry stems. An attractive groundcover for shade to part sun.

Vancouveria planipetala\$12.00ea
Native. Ht 30cm. A well behaved evergreen ground cover with neat insideout white flowers.

Veratrum Viride Indian Helleborine 2gal \$20.00ea
Native. Ht. 2-2.5M. Z3. Large, heavily ribbed leaves are arranged spirally on this large bold perennial. Terminal flower inflorescences are made up of a myriad of small green flowers. All parts of this plant are poisonous. Prefers shade.

Veronicastrum sibiricum Siberian Culver's Root 1gal \$12.00ea
Ht. 1-1.25M. Z3. This perennial produces whorls of lance-shaped olive green leaves. Leaves are larger and have deeper veination than V.virginica. Lilac-rose-pink flower spikes in mid to late summer. .

Veronicastrum virginicum album 1gal \$10.00ea
N.A. Native. Ht.150cm. Z3. An awesome perennial for the back of the border. It produces whorls of clean, lance-shaped dark green leaves, and branched candelabras of narrow, white flower spikes in mid to late summer. Foliage is stupendous.

Veronicastrum virginicum Fascination 1gal \$10.00ea
N.A. Native. Ht.150cm. Z3. An awesome perennial for the back of the border. It produces whorls of clean, lance-shaped dark green leaves, and branched candelabras of narrow, lilac-rose flower spikes in mid to late summer. Foliage is stupendous.

Viola adunca Western Dog Violet \$4.00ea
Native. Ht.8-12cm. Z3. A great little native violet with violet-blue

flowers with darker veining and a white patch.

Viola blanda Sweet White Violet \$4.00ea
Ht.7-12cm. Z2. N.A. Native. Herbaceous violet with white flowers

Viola coreana (AKA Viola koreana)\$5.00ea
Ht. 10cm. Z4. Cyclamen leaved violet. Lovely silver mottled leaves and lilac-lavender flowers.

Viola glabella Yellow Wood Violet..... 10cm pot \$4.00ea
Native. Ht.20-30cm. Z6. Heart shaped, smooth, serrated almost succulent green leaves. Large yellow flowers with purple pencilling on the lower three petals. Blooms in early spring. Shade to semi-shade in humus rich soil.

Viola papilionacea Common Blue Violet \$4.00ea
Ht. 15-30cm. Z4. Deep blue to violet blooms (occasionally white with blue markings) from spring to fall.

Viola rupestris Teesdale Violet..... 10cm pot\$4.50ea
Ht. 5cm. We have only a few of this lovely pink form of this normally blue violet. A very well behaved violet.

Viola pennsylvanica Smooth Violet \$4.00ea
Ht. 12-30cm. Z2. A nice spring blooming yellow violet.

Viola sempervirens 10cm pot \$5.00ea
Native. Ht. 5cm. Z5. Evergreen. Small, thick, serrated round leaves. Yellow flower with strong purple pencilling on the lower three petals. Shade to semi-shade in humus-rich soil. Mat forming groundcover blooms in early spring.

Viola sororia 'Freckles' 10cm pot \$4.00ea
N.A. Native. Ht.10-15cm. Z5. Heart shaped green leaves. White flowers finely speckled with violet blue.

Wasabi mazuma Japanese Horseradish\$15.00ea
Ht.20cm. Z8. Large rounded leaves and trusses of white flowers. Plant prefers moist deep shade.

Zephranthes candida White Rain Lily \$4.00ea
Ht.20cm. Z8. A lovely little bulb with grass like leaves and large upfacing white flowers. Two bulbs per pot.

Zauschneria californica \$5.00ea
N.A. Native. Ht.30-50cm. Z8. This California native fuchsia is a lovely drought tolerant woody stemmed perennial with grey-green foliage and awesome bright red tubular blooms that are attractive to hummingbirds. It blooms spectacularly from late summer to fall.

Perennials-Grass-Like Plants

Grasses and Grass-like Plants

This list covers most of the grasses, bamboo and grass-like plants in the catalogue, but not all, so look in the perennial section for others (dierama, iris, sisyrinchium etc.). Good architectural plants for the garden. We have a large assortment of grasses at the nursery.

Acorus gramineus 'variegatus' Variegated Sweet Flag 1gal \$10.00ea
Ht.15-40cm. Z7. Green leaves with white stripes. Evergreen. Very easy to grow, forming clumps with distinctive fan shaped clumps within. Plant in sun to light shade in moist soil.

Borinda angustissima Bamboo \$30.00ea
Ht.3-4m. Z8. A wonderful clumping bamboo.

Calamagrostis xacutiflora 'Karl Foerster' 1gal \$10.00ea
Ht. 150-180cm. Z4. A nice grass with green blades and green bloom spikes which age to gold.

Carex acuta Graceful Sedge..... 11cm pot \$4.50ea
Ht.20-40cm. Z3. This species makes a nice groundcover in shade to part sun and can even be used around ponds. A tufted grass with glaucous green leaves with reddish brown sheathes.

Carex 'Coman's Bronze' Leather Sedge\$4.50ea
Ht.30cm. Z5. This is a lovely coppery-bronzy brown.

Carex flagellifera Bronze form\$4.50ea
This is a great form of the Orange sedge with bronze tinted foliage.

Carex morrowii 'Ice Dance'1gal \$10.00ea
Ht. 30-45cm. Z5. Very nice, well behaved sedge with weeping, shiny green foliage edged and striped with silver.

Carex oshimensis Evergold Evergold Sedge \$10.00ea
Ht.30cm. Z6. Lush clumper with arching variegated foliage.

Carex pendula maxima Drooping or weeping sedge\$10.00ea
Tuft forming evergreen sedge with shiny mid green leaves and showy arching catkins.

Carex plantaginea Seersucker Sedge.....\$10.00ea
Ht.20-30cm. Z4. Seersucker sedge makes a great texture plant for moist, shady places (can also tolerate dry shade). Clumps are composed of strap-shaped, puckered, shiny green foliage .

Carex tenuiculmis \$4.50ea
Ht. 30-40cm. This New Zealand Native has a clumping or tussock habit and bronze red leaves.

Carex testacea Orange New Zealand Sedge.....\$4.50ea
Ht.30-45cm. Z7. A loosely tufted sedge with orange highlights on bronzy green foliage.

Chusquea culeou Clumping Bamboo..... 7gal \$105.00ea
Ht.to 5m. Z7. When mature, this gorgeous clumping bamboo from Chile looks like giant clumps of feather dusters atop interesting yellow-green solid wood canes. Lovely upright habit with gently weeping or arching tops. This excellent bamboo makes a striking specimen or privacy screen when planted in multiples.

Danthonia californica California Oat Grass \$4.00ea
N.A Native. Ht.1M. Clumping erect grass with short flattish foliage.

Elymus mollis Dune Grass 1gal \$12.00ea
Native. Ht.50-150cm. Z4. A large glaucous blue grass that grows often in the spray zone on small island and coastal beaches.

Eriophorum angustifolium Cotton Grass..... 10cm \$4.00ea
Native. Ht. 20-50cm. Z4. Narrow, grassy leaves arise from spreading rhizomes. Flowers consist of clusters of 2 or more drooping spikelets. In fruit; each seedlike achene is surrounded by several long, snowy white filaments forming a cottony head.

Fargesia denudata Bamboo\$30.00ea
Ht.3-5m. Z6. Similar to F. murielae but has shorter branches and smaller leaves.

Fargesia murielae Umbrella Bamboo5 gallon \$59.00ea
..... 2gal \$25.00ea
Ht.3-5m. Z6. A beautiful clumping bamboo with a soft cascading canopy of lush green leaves. Very nice plants.

Festuca idahoensis Blue Bunch Grass 11cm pot \$4.50ea
Native. Ht.20-30cm. Z4. This wild form of the species with, finely textured, greyish blue-green foliage not a silvery blue cultivar. A nice, hardy, drought tolerant, bunching grass.

Festuca idahoensis ssp. roemerii 10cm pot \$4.50ea
Native. Ht. 30-45cm. Z5. This is a coastal form that tends to make nice tufts of blue green.

Hakonechloa macra 'Aureola' \$13.00ea
Ht.25cm. Z5 This compact Japanese Forest grass has yellow and green variegated foliage.

Hakonechloa macra 'albostrata' \$13.00ea
Ht.25cm. Z5 This compact Japanese Forest grass has white and green variegated foliage.

Hakonechloa macra 'All Gold' \$13.00ea
Ht. 25cm. Z5. This compact Japanese Forest Grass has golden foliage with no variegation. Really brightens a shady spot.

Luzula multiflora (L. campestris) Field Woodrush 10cm pt \$4.00ea
Native. Ht. 10-25cm. Z6. Densely tufted perennial with grass-like leaves. Flowers in dense head-like clusters followed by showy, brown, egg-shaped seed capsules surrounded by somewhat frilly bracts. Shade to semi-shade.

Luzula nivea Snow Rush, Snowy Woodrush\$4.50ea
Ht.40-60cm. Z6. Evergreen clump forming rush with white flower clusters in May-June.

Millium effusum 'Aureum' Bowles Golden Grass 10cm pt \$4.00ea
Ht. 30cm. Incredible golden lemon bunches in spring with yellow flowers in summer. Plant in shade, or in sun if moisture is sufficient.

Miscanthus sinensis purpurascens \$10.00ea
Ht 90-120cm. Z3. A particularly showy grass with reddish green foliage in spring and summer which turns a brilliant orange red in fall. Oatmeal coloured blooms are flushed with pink.

Grass-Like Plants

Ophiopogon planiscapus nigrescens Black Mondo Grass \$10.00ea
Ht.20-35cm. Z5. A nice evergreen groundcover grass-like plant with black foliage. Flowers are white followed by shiny black fruits.

Panicum virgatum 'Haense Hens' \$10.00ea
Ht.120cm. Z4. A great accent grass with red flowers in summer/fall and gorgeous red-orange foliage in the fall.

Pennisetum alopecuroides Fountain grass..... 1gal \$10.00ea
Ht.80-100cm. Z6. Stems clumped. Slender upright flower panicles are yellow green to dark purple in late summer.

Pennisetum alopecuroides 'Hameln' \$10.00ea
Ht. 75cm. Z5. This is the dwarf form of the species and perfect for a spot where the species is too tall. It tends to bloom earlier, so is great for areas with a short growing season.

Phormium Apricot Queen \$29.00ea
Ht.50cm. Z8-9. Low compact growing habit with sword shaped leaves of soft pastel yellow tinted apricot in the winter with dark green margins and bronze edges.

Phormium Black Rage \$15.00ea
Ht.75cm. Z8-9. An excellent selection of New Zealand flax with a nice upright habit and gorgeous near black foliage.

Phormium tenax purpureum \$15.00ea
Ht.120cm. Z8-9. Nice New Zealand flax with broad, stiff purplish red foliage.

Phormium 'Carousel' \$29.00ea
Ht. 60cm. Z8-9. Foliage is a bronze green with red margins.

Phormium cookianum Cookianum New Zealand Flax \$29.00ea
Ht.100cm. Z8-9. Green foliage with a drooping habit.

Phormium cookianum 'Flamingo' \$29.00ea
Ht.50cm. Z8-9. A compact flax with sword-like leaves which have vertical orange-pink, light green and yellow stripes. Compact habit

Phormium 'Pink Stripe' \$29.00ea
Ht. 150cm. Z8-9. Broad bronze foliage edged pink.

Phormium 'Rainbow Queen' \$29.00ea
Ht. 120cm. Z8-9. Broad upright, variegated foliage drooping at the tips with rose red stripes on a bronzy background

Phormium 'Rainbow Sunrise' \$29.00ea
Ht. 80cm. Z8-9. Foliage is bronze with red and pink variations, tending to be more pink in the center.

Phormium tenax 'purpureum' \$12.00ea
Ht. 120cm. Z8-9. Broad stiff, purplish red leaves. Young plant.

Phormium tenax 'variegatum' \$29.00ea
Ht. 120cm. Z8-9. Broad stiff, olive green blades banded with creamy-yellow.

Phormium 'Wings of Gold' \$29.00ea
Ht. 60cm. Z8-9. Foliage is olive green with cream-yellow margin.

Phyllostachys aureosulcata Golden Grooved Bamboo 2gal \$20.00ea
Ht.3-5m. Z6. We are offering small clumps, 30-60cm in height, of

this hardy bamboo. Typical green stems with a yellow streak down the stem. Will form a nice 2-4m. clump in a couple of years.

Scirpus americanus American bullrush 10cm \$4.00ea
Native. Ht.15-100cm. Z4. Used in basket making and reclamation.

Scirpus atrovirens Dark green bullrush 10cm \$4.00ea
Native. Ht.50cm. Z4. Grown mainly for the brown cluster of flowers. Dark green foliage in clumps; grow in moist soil in sun to light shade.

Scirpus microcarpus Small flowered Bullrush 10cm \$4.00ea
Native. Ht.50-150cm. Z4. A tall bullrush used in swamps, fens and waterways as well as in reclamation.

Typha latifolia Common Cattail 1gal \$10.00ea
Native. Ht.1-3M. Zone2. These are the cattails you see from here to Alaska in every marshy spot.

Shrubs

We offer a full selection of shrubs at the nursery, however most we do not ship. Listed below are most of the shrubs we will ship.

Abelia x 'Edward Goucher' 1gal \$10.00ea
Ht. 1-1.5m. Z5. A semi-evergreen shrub with relatively large lilac-pink flowers with yellow-orange throat.

Amelanchier alnifolia Saskatoon 1gal \$10.00ea
Native. Ht. 2-4m. Z2. Drooping clusters of fragrant white flowers bloom in March to April. Sweet, edible saskatoon berries that taste and look like blueberries are produced in May and June. Rounded, 5cm across, finely toothed, grey-green leaves turn tones of yellow and red in fall. Sun to semi-shade.

Arctostaphylos uva-ursi Kinnikinnick 10cm pot \$4.00ea
..... 1gal \$10.00ea
Native. Ht. 4-40cm. Z4. Evergreen. This is a prostrate, mat forming shrub with small, glossy dark green leaves that turn reddish in fall. Clusters of small, fragrant pink to pinkish-white urn-shaped flowers bloom in April-May. In fall, clusters of bright red berries replace flowers and persist into winter. This groundcover prefers sun to semi-shade in well drained soil and will trail over rocks and down banks.

Aronia melanocarpa Autumn Magic 1gal \$10.00ea
Ht.100-180cm. Z3. Deep green leaves, smothered with masses of fragrant white flowers followed by edible shiny black berries. Good fiery red fall color.

Azara microphylla 1gal \$10.00ea
Ht. 4-8m. Z7. A large shrub or small evergreen tree with masses of inconspicuous yellow flowers that produce a wonderful vanilla scent in late winter and early spring.

Azara microphylla 'Variegata' 1 gal \$10.00ea
Ht. 4-8m. Z7. A large evergreen shrub or can be grown into a small tree. It boasts small rounded green leaves edged with soft yellow and vanilla scented flowers appear in late winter or early spring.

Azara serrata 1gal \$10.00ea
Ht. 2.5-4m. Z8. A very striking large shrub with lovely glossy green foliage and sweetly vanilla scented clusters of yellow flowers.

Buddleia Buzz Ivory' 1gal \$11.00ea
Ht. 120cm. Z5-6. A new dwarf Butterfly Bush from Thompson and Morgan. Pyramidal trusses of fragrant ivory white flowers.

Buddleia Buzz Purple' 1gal \$11.00ea
Ht. 120cm. Z5-6. A new dwarf Butterfly Bush from Thompson and Morgan. Pyramidal trusses of fragrant purple-pink flowers.

Buddleia davidii Butterfly Bush 1gal \$10.00ea
Ht.2.5m. Z5. A vigorous, fast grower with large trusses of fragrant flowers ranging from rose-purple to violet-purple-blue.

Buddleia davidii 'Black Knight' 1gal \$10.00ea
Ht.2.5m. Z5. A vigorous, fast grower with large trusses of fragrant flowers of the deepest midnight purple.

Shrubs

Buddleia davidii 'Harlequin' 1gal \$10.00ea
Ht. 1.8m. Z5. Leaves variegated with creamy white. Flowers are red-purple in colour.

Buddleia globosa 1gal \$11.00ea
Ht. 1-4Mcm. Z8. Unique golden yellow balls of flowers clustered along the tips of arching branches.

Buddleia 'Lochinch' 1gal \$10.00ea
Ht.2m. Z5-6. Pyramidal trusses of fragrant mauve-blue flowers. Leaves silvery white underneath.

Buddleia 'Nanho Purple' 1gal \$11.00ea
Ht.2m. Z5-6. Pyramidal trusses of fragrant lavender purple.

Buddleia davidii 'Pink Delight' 1gal \$10.00ea
Ht.1- 1.5m. Z5. A vigorous, fast grower with large trusses of fragrant pink flowers.

Buddleia 'Royal Red' 1gal \$11.00ea
Ht.2m. Z5-6. Pyramidal trusses of fragrant rich purple-red purple.

Buddleia davidii 'Silver Frost' 1gal \$10.00ea
Ht.1.5-1.75M. Z5. A vigorous, fast grower with large trusses of fragrant silvery white flowers.

Buxus sempervirens aureovariegata 1gal \$10.00ea
Ht.1-2m. Z5.. This gold and green variegated boxwood is a lovely foliage shrub. It will tolerate most conditions from sun to shade and is one of the only plants that appears(!) to be deerproof.

Callistemon citrinus Crimson Bottlebrush 1gal \$10.00ea
Ht.1-3m. Z8. This striking medium shrub or small tree has narrow pointed leaves which are lemon scented if crushed. Bright red terminal flower spikes resemble a bottlebrush. Drought tolerant and deer resistant.

Callistemon rigidus Stiff Bottle brush 1gal \$10.00ea
..... 2gal \$18.00ea
Ht. 1-3M. Z8. This is a drought tolerant selection with bright red bottlebrush like flower trusses and small narrow green leaves. We have only a few of these and they will be small in size unless shipped after a flush of growth in spring. Deer resistant.

Calycanthus floridus Carolina Allspice 1gal \$10.00ea
N.A. Native. Z5. Ht. 1-2m. Strawberry scented red-maroon flowers in May. Leaves aromatic.

Clethra acuminata Cinnamon Clethra 1gal \$10.00ea
N.A. Native. Ht. 2-4m. Z5. A superb native from the Appalachian Mountains with peeling bark and creamy white flowers in 10-15cm long terminal racemes. Blooms from July to August. Shade to part sun in humus rich, well drained soil.

Clethra alnifolia Ruby Spice 1gal \$10.00ea
Ht.1.4m. Z5. This new introduction from Richard Jaynes has intense rich pink, fragrant flowers in mid summer. This cultivar also has better blue green foliage color that turns rich yellow in autumn. Plants are small at the moment.

Clethra barbinervis Japanese Clethra 1gal \$10.00ea
Ht.2-3m. Z5. A wonderful shrub with orange peeling bark and fragrant white flowers in terminal panicles borne from July to September. To top it off, it has a wondrous orange-red fall color.

Shrubs

Clethra Hummingbird \$10.00ea
Ht.60-120cm. Z3. This lovely compact shrub has lush glossy green foliage and fragrant white flower trusses in July and August.

Corokia cotoneaster Wire netting Bush..... 1gal \$10.00ea
Ht. 1-2m. Z7-8. A wonderfully bizarre shrub with twisted and tortured branches sparsely leafed with small maroon green or bronze leaves that are silvery beneath. Small bright star shaped yellow flowers in the spring followed by red fruit in the fall.

Cornus sericea = (C. stolonifera) Red Twiggged Dogwood or Red Osier Dogwood1gal \$10.00ea
.....2gal \$18.00ea
Native. Ht. 1-5m. Z2. Multistemmed shrub, often spreading when lower prostrate branches root after touching the ground. Dark green leaves, blue-green beneath, turn brilliant red in fall. Twigs bright red especially in winter. Fruit is white to bluish. Sun to shade,

Cornus sericea 'Kelseyii' Kelsey's Dwarf Redtwig Dogwood1gal \$10.00ea
Native. Ht. 60-75cm. Z2. This is a nice dwarf selection of red twig dogwood. An excellent small shrub for a rockery or perennial border or as a ground cover. Same as species in other respects.

Corylus cornuta var. californica Beaked Hazelnut ...5gal \$45.00ea
Native. Ht. 2-3m. Z5. Multiple stemmed shrub has roughly heart-shaped green leaves with a double saw-toothed edge that turns yellow in fall. Long, pendulous, decorative male catkins appear in winter. Small, edible, tasty hazelnuts appear in fall. Sun to semi-shade in humus-rich soil. Plants will be small for spring shipping.

Daphne domini \$10.00ea
Ht. 25cm. This dwarf slow growing daphne from the Pirin Mts. of Bulgaria. It is evergreen and has masses of pink flowers that are followed by showy orange fruit. Small three years old plants ready for the rock garden. Naturally very small plants.

Daphne mezereum alba Winter Daphne 1gal \$15.00ea
Ht. 90cm Z 5. . Fragrant white flowers in late winter or early spring make this a must for the woodland garden. Flowers are followed by showy yellow fruit.

Daphne odora2gal \$25.00ea
Ht. 2m. Z7. This is a nice evergreen shrub with fragrant red-purple flowers in late winter to early spring. These appreciate being cut back regularly to maintain a nice shape. Fall only

Daphne odora Aureomarginata.....2gal \$30.00ea
Native. Ht.150cm. Z8. This wonderful variegated winter Daphne has evergreen leaves with yellow margins and fragrant pink flowers.

Daphne tangutica 1gal \$12.00ea
Larger sizes at the nursery.
Ht.1.75m. Z6. Evergreen. We are offering small three year old seedlings that are nice stout 4-8" tall plants. Makes a nice evergreen rounded shrub with fragrant rose-purple flowers.

Daphne x transatlantica Eternal Fragrance.....2gal. \$30.00ea
Ht.100cm Z6. Fragrant white flowers are blush pink on the exterior.

Dichroa febrifuga UBC Guizhou clone..... 2gal \$20.00ea
Ht.75cm. Z7. An evergreen hydrangea-like shrub from Japan with blue flowers and very showy metallic blue fruits.

Edgeworthia chrysantha 3 gal \$49.00ea
Ht.1.5M. This unique shrub has fragrant yellow blooms in early spring on bare branches (similar to deciduous daphnes). At the nursery only as they are too big to ship.

Eleagnus communata Wolf Willow..... 1gal\$12.00ea.
Native. Ht1-4M. Zone 2. Metallic silver foliage and metallic silver fruit. A lovely combination, what more could you want in a shrub?

Enkianthus campanulatus Red Bells..... 2gal \$20.00ea
Ht. 1-2M. Z5. This cultivar bears pendant clusters of creamy bells that are blushed and rimmed with red.

Enkianthus campanulatus var. sikokianus \$12.00ea
This is considered to be the darkest red of the red veined group of enkianthus with pendant clusters of red bell shaped flowers with streaks of shrimp pink.

Embothrium coccineum Chilean FireBush..... 1gal\$12.00ea
Ht.4-10m. Z7-8. This is a spectacular shrub with narrow lance shaped leaves and vivid scarlet red tubular flowers in terminal clusters. Plants will be small for spring shipping .

Fatsia japonica variegata1gal \$14.00ea
Ht.180cm and up. Z7-8. Gorgeous tropical looking evergreen shrub with dark green leaves edged with an uneven white border.

Fuchsia x bacillaris 'Isis'\$10.00ea
Ht. 1m. Z7. A fast growing deciduous shrub with tiny dark green leaves and a multitude of the teeny tiniest bright magenta red flowers. Blooms all summer long. Available late Spring onwards.

Fuchsia magellanica 'Aurea' Hardy Fuchsia \$10.00ea
Ht.to 5m Z6. Golden foliage. Single flowers are purple and red

Fuchsia magellanica 'Island Sunset' Hardy Fuchsia \$10.00ea
A fast growing deciduous shrub with lovely green, cream and pink variegated foliage. Single flowers are purple and red and bloom all summer.

Fuchsia magellanica 'gracilis'..... \$10.00ea
Ht. 80cm. Z7. This is a good dwarf form of magellanica with the typical red and purple flowers.

Fuchsia magellanica 'Pink'.....1 gal \$10.00ea
Ht. 1-1.5m. Z7. This is a good fast growing hardy fuchsia with a long bloom season of soft pink flowers. Good in sun or shade.

Fuchsia magellanica 'Ricartonii' Hardy Fuchsia\$10.00ea
Ht. 1-2m. A fast growing deciduous shrub with dark green foliage. Single flowers are purple and red and bloom all summer.

Fuchsia regia Climbing Fuchsia \$10.00ea
Ht.to 15m. Z8-9. Lovely large shrub or vine with pink-red and purple flowers followed by deep purple fruit.

Gaultheria procumbens Wintergreen..... 10cm pot \$4.00ea
N.A.Native. Ht. 10-15cm. Z4. Evergreen. This creeping, mat forming, dwarf shrub has shiny dark green leaves that turn red in fall . New leaves are bronzy green in colour. Clusters of small, urn-shaped flowers are replaced with plump, bright red, round berries in fall and persist through winter. This is an excellent ground cover.for shade to semi-shade in humus rich soil.

Shrubs

Gaultheria shallon Salal 10cm pot \$4.00ea
..... 1gal \$10.00ea

Native. Ht. 0.2-4m. Z6. Evergreen. Dense, spreading shrub; creeping and low in full sun; erect and tall in semi-shade and larger in shade. Large, shiny, dark green, leathery egg-shaped leaves. White or pinkish, pendulous, urn-shaped flowers in unidirectional, terminal raceme bloom in May to June. Rounded, black-red fruit appears in late summer, and makes an excellent jelly.

Heptacodium miconioides Seven Sons Flower 2gal \$19.00ea

Ht.3m Z4-5. An extraordinary new shrub from China with large clusters of small snow white fragrant flowers (in groups of seven) in August to September followed by bright red flower sepals which elongate on the fruit and persist well into the winter. The green foliage turns a wonderful yellowish then a purplish red in fall. The brown peeling bark is also particularly attractive. This species can also be grown as a small tree in full sun to part shade.

Holodiscus discolor Ocean-spray 1gal \$10.00ea

Native. Ht. 1-5m. Z5. Strong erect stems droop with the weight of large, up to 30cm long, creamy white flower panicles in July and August. Triangular, deep green leaves with whitish hairy undersides. Grows shorter in sun than shade.

Hypericum patulum *Hidcote* Hidcote Hypericum..... 1gal \$10.00ea

Ht. 1-1.5m. Z7. Evergreen. Don't confuse this beautiful shrub with St. Johns Wort. This forms a nice, rounded shrub that blooms from June to October with 8cm across, bright yellow flowers with a large central cluster of stamens. Sun to semi-shade.

Itea virginica 'Merlot' 1gal \$12.00ea

A compact form of this shrub with creamy white flowers and great deep red fall coloration.

Itea virginica *Saturnalia* Virginia Sweetpire \$12.00ea

Ht. 1-1.5m. A lovely June blooming shrub with fragrant white flowers and exceptional fall colour. Excellent compact habit. Will tolerate either sun or shade.

Kalmiopsis leachiana *Umpqua form*..... \$12.00ea

Native. Ht.30cm. This rare, slow growing evergreen shrub from the Siskiyou Mountains has rose pink flowers in april and May.

Ledum glandulosum *Trappers Tea* 1gal \$12.00ea

Native. Ht. 0.5-0.8m. Z2. Evergreen, aromatic, deep green leaves with greenish white undersides. Small fragrant white flowers in showy round clusters.

Ledum groenlandicum Labrador Tea 1gal \$12.00ea

Native. Ht. 0.5-1.5m. Z2. Evergreen. Somewhat straggly, multi-branched shrub with a slightly spicy fragrance. Narrow, lance-shaped, leathery green-leaves with margins rolled under have dense red-brown, tomentose undersides. Small white flowers in short, rounded terminal clusters. Leaves can be boiled to make a tea, but be careful; large doses may not be healthy. Sun to semi-shade in moist to wet, peaty soil. (A.K.A. Rhododendron groenlandicum).

Lonicera fragrantissima \$10.00ea

Ht.1-2m. Z5. Fragrant white flowers in early January and February. A must for the fragrant garden. Plants in spring will be on the small side.

Lonicera nitida 'Baggesen's Gold' 1gal \$10.00ea

Ht.1-1.5m. Z6. Evergreen. A wonderful foliage plant with small bright golden yellow leaves in a tight mass, somewhat like a fast growing boxwood. Plant in part shade to full sun. It can also be sheared to maintain it at any height.

Lonicera nitida 'Lemon Beauty' 2gal \$18.00ea

Ht.1-1.5m. Z6. A wonderful selection of box honeysuckle with small green leaves trimmed in lemon yellow.

Lonicera involucrata Black Twinberry 1gal \$10.00ea

Native. Ht. 1-2m. Z6. Yellowish flowers in pairs, surrounded by prominent reddish bracts, bloom from May to July. Shiny, round, paired black fruits also surrounded by same reddish bracts. Long lance-shaped leaves are slightly hairy. Peeling tan colored bark. Sun to semi-shade in humus-rich soil. Important hummingbird food.

Mahonia aquifolium Tall Oregon-grape 1gal \$10.00ea

Native. Ht. 1-1.5m. Z5. Evergreen. Leaves, 5-11 parted, with oval, shiny, toothed green leaflets. New growth usually reddish; old growth reddish-bronze in winter. Erect, yellow flower spikes bloom in April-May. Blackish purplish with grey cast edible berries make good jelly. Likes sun to semi-shade in well drained soil.

Mahonia nervosa Low Oregon-grape..... 1gal \$10.00ea

Native. Ht. 25-40cm. Z6. Evergreen. Low shrub with dull green leaves divided into 7-21 serrated leaflets. Upright clusters of yellow flowers bloom in April to June. Blue berries have a grey cast and make good jelly. Shade to semi-shade in well drained soil. Makes a nice ground cover in dry shade.

Mahonia repens Creeping Mahonia 1gal \$10.00ea

Native. Ht. 30-60cm. Z5. Evergreen. Very similar to M.aquifolium with a lower habit and very little fall color. Makes a good groundcover in sun to semi-shade in well drained soil.

Menziesia ferruginea Fool's Huckleberry..... \$10.00ea

Native. Ht. 50cm. Z6.. This is a medium sized shrub that resembles a deciduous azalea. Clusters of salmon pink urn shaped flowers in late spring to summer.

Mitraria coccinea 1gal \$10.00ea

Ht.1-2m. Z8-9. A much sought after evergreen Chilean native with a low spreading habit and amazing large tubular scarlet orange flowers. Grows almost vine-like.

Myrica californica California Wax Myrtle..... 1gal \$12.00ea

Native. Ht. 2.5-10m. Evergreen. Upright shrub usually grows to 3m in a garden. Glossy, narrow dark green leaves with toothed edges. Small, inconspicuous flowers are followed by purplish, waxy nutlets. This plant is very full and dense and makes a beautiful hedge or screen in sun to shade in well drained soil.

Myrica pennsylvanica Candleberry, Bayberry 1gal \$10.00ea

N.A. Native. Ht. 2-3M. Z2. The persistent silvery-greyish berries are used in making Bayberry candles. Plants form upright rounded shrubs with glossy green foliage.

Myrtus communis Myrtle 1gal \$10.00ea

Ht. 3-5m. Z8. Evergreen. Upright shrub with smooth, glossy, small oval leaves which are very aromatic when crushed. White, fragrant flowers bloom in July-August.

Shrubs

Myrtus racemosa 'Variegata' 1gal \$10.00ea
Ht. Z Evergreen. Lovely aromatic variegated foliage.

Oemleria cerasiformis = (Osmaronia cerasiformis)
Indian-plum or Osoberry 1gal \$10.00ea
Native. Ht. 1-3m. Z7. Multiple stemmed shrub has green lance shaped leaves with grey-green, pubescent undersides. First native shrub to bloom in spring with fragrant white flowers in nodding clusters, appearing in early March before the leaves.

Olearia macrodonta Holly Leaved Daisy Shrub \$12.00ea
Ht. 2-3m Z7. A robust holly-leaved shrub with masses of white daisy-like flowers. Drought tolerant in sun to part shade.

Oplopanax horridum Devil's Club 1gal \$10.00ea
Native. Ht. 1-4m. Z6. Large, 40cm across, maple-like leaves with 7-9 heavily toothed lobes. Both leaves and stems are armed with numerous, long sharp yellow spines. Numerous small white flowers in terminal, pyramidal clusters turn into pyramidal clusters of flattened shiny bright red berries. This prehistoric looking shrub prefers shade to semi-shade in moist to wet, yet well drained soil.

Parahebe catarractae \$4.00
Z8. A shrubby perennial which forms a loose mound of dark green small leaves. An abundance of blue saucer shaped flowers is produced in summer.

Philadelphus lewisii 'gordianus' Mock-orange 1gal \$10.00ea
Native. Ht. 1-3m. Z3. This is the coastal form of the species. Upright shrub with broad, spreading habit and light brownish peeling bark. Fragrant white flowers in terminal clusters of 3-11. Sun to shade in well drained soil.

Phygelius x rectus 'Devil's Tears' Cape Fuchsia \$10.00ea
Ht. 3m. Z8. This semi-evergreen shrub has glossy dark green foliage and pendulous dark reddish flowers with yellow throats which bloom all summer.

Phygelius x rectus 'Moonraker' Cape Fuchsia \$10.00ea
Ht. 3m. Z8. This semi-evergreen shrub has glossy dark green foliage and pendulous yellow tubular flowers which bloom all summer.

Phygelius x rectus 'Pink Elf' Cape Fuchsia \$10.00ea
Ht. 3m. Z8. This semi-evergreen shrub has glossy dark green foliage and pendulous salmon pink tubular flowers with a crimson throat which bloom all summer.

Phygelius x rectus 'Trewidden Pink' Cape Fuchsia \$10.00ea
Ht. 3m. Z8. This semi-evergreen shrub has glossy dark green foliage and pendulous pink tubular flowers which bloom all summer.

Physocarpus capitatus Pacific Ninebark 1gal \$10.00ea
Native. Ht. 1-3m. Z5. Glossy, dark green, 3-5 lobed, maple leaf-like leaves with pale, grey-green undersides. Numerous, small flowers form rounded terminal clusters followed by reddish seed heads. Sun to semi-shade in moist to wet humus-rich soil.

Podocarpus alpinus Blue Gem \$10.00ea
Ht. 1m. Z6. A nice dwarf evergreen shrub with blue-green foliage that emerges pinkish or red in spring.

Potentilla fruticosa 'Summit Yellow' 1gal \$10.00ea
Native. Ht. 1-1.5m. Z2. Small grey-green leaves divided into 3-7 leaflets. Small mounding to erect, very bushy, drought tolerant shrub. Our selection is a mounding variety with large yellow flowers. Sun to semi-shade in well drained soil.

Rhododendron macrophyllum Red Rhododendron, Pacific Rhododendron 2gal \$25.00ea
Native. Ht. 1-8m. Z7. Evergreen. Erect to spreading shrub with thick, leathery, smooth, dark green, 7-15cm, long leaves. Pink to rosy-purple flowers with yellow markings in large terminal clusters bloom in late spring. Very pretty native shrub for shade to semi-shade in humus rich soil

Rhododendron occidentale Western Azalea 2gal \$29.00ea
Native. Ht. 1-2m. Z6. The sweetly fragrant flowers of this native are a wonderful mix of pink and white. Shade to light sun. A fantastic native shrub.

Rhodotypos scandens Black Jetbead \$10.00ea
Ht. 1-2m. Z4. This deciduous shrub from China and Japan has large showy white flowers in late spring and early summer followed by shiny jet black fruits. Plant in well drained soil in full sun to part shade.

Ribes divaricatum 1gal \$10.00ea
Native. Ht. 3m. Z4. A thorny native gooseberry which is very attractive to birds and butterflies. White flowers followed by reddish black fruits.

Ribes x gordonianum 1gal \$12.00ea
Ht. 1-2.5m. Z6. This hybrid between R.sanguineum and R.odoratum has fragrant red flowers that are apricot-yellow on the inside.

Ribes lacustre Swamp Gooseberry \$10.00ea
Native. Ht. 50-100cm. Z4. A good shrub for a moist to wet site. Branches are covered in prickles and bear small pinkish flowers in clusters in May followed by black edible fruit in fall.

Ribes lobbii Gummy Gooseberry 2gal \$18.00ea
Native. Ht. 1-2m. Z7. Stoutly thorned shrub with small shiny 3-5 lobed leaves. Flowers have chocolate-red reflexed petals and creamy white petals; the effect is very much like a fuchsia. Full sun to semi-shade in well drained soil. This is a clone we have selected that appears to be more robust.

Ribes sanguineum Red Flowering Currant 1gal \$10.00ea
..... 5gal \$39.00ea
Native. Ht. 2-4m. Z6. Crinkly, green, 3-5 lobed maple leaf-like leaves with whitish undersides. Our selection of the species has dark, reddish brown bark, numerous red flowers in long pendulous racemes

Ribes sanguineum 'Appleblossom' 1gal \$10.00ea
Native. Ht. 1-3m. Z6. This selection has apple-blossom coloured flowers.

Ribes sanguineum 'Blushing Victorian' 1gal \$10.00ea
Native. Ht. 1-3m. Z6. This is our own cultivar with truly pink flowers in long pendulous racemes. Similar to species in habit and requirements. We have a few for spring and a few for fall shipping.

Ribes sanguineum 'Brocklebankii' 1gal \$10.00ea
Ht. 150cm. Z5. Stunning chartreuse coloured foliage and pink flowers in spring. Performs best in part shade.

Shrubs

Ribes sanguineum 'Diamonds And Rubies'..... 1gal \$12.00ea
Native. Ht. 1-2.5m. Z6. Our new introduction has white flowers with a good dash of ruby red at the outer base of the flower bud and receptacle and this holds as the flowers open. Named by Mike on Facebook.

Ribes sanguineum 'King Edward VII'.....1gal \$10.00ea
Native. Ht. 1-2.5m. Z6. This cultivar is lower, has a more compact habit with pure red flowers in long pendulous racemes. Sun to semi-shade in well drained soil.

Ribes sanguineum 'Pink Tails' 2gal \$20.00ea
Native. Ht. 1-2.5m. Z6. Our new introduction has huge pink flower trusses that tend to fork into two at the base. The result is the largest fullest flower of all.

Ribes sanguineum 'Tourmaline Bells' Fall 2016 1gal \$12.00ea
Native. Ht. 1-2.5m. Z6. Our new introduction has white flowers with a touch of tourmaline red at the base of the flower bud receptacle. Named by Melanie on Facebook.

Ribes sanguineum 'Wallace'1gal \$12.00ea
Native. Ht. 1-2.5m. Z6. This cultivar is has a more compact habit with the brightest red flowers in long pendulous racemes. Sun to semi-shade in well drained soil.

Ribes sanguineum 'White Icicle'.....2gal \$20.00ea
Native. Ht. 2-4m. Z6. This cultivar was introduced by the University of British Columbia. White flowers in long pendulous racemes.

Rosa acicularis Prickly Rose 1gal \$10.00ea
Native. Ht. 1-1.5m. Z2. Stems densely covered with small straight prickles. Leaves dull green with whitish pubescence underneath. Flowers are dark pink, 5cm across, fragrant and bloom in May to June. Scarlet hips are pear shaped. Sun to semi-shade in well drained soil.

Rosa Glacier Magic2gal \$29.00ea
Ht. 80cm. Z5. A pretty upright, free-flowering bushy groundcover rose with lightly scented double white blooms in hot summer climates; rosy pink blooms in a cooler climate.

Rosa gymnocarpa Dwarf Woodland Rose.....1gal \$10.00ea
Native. Ht. 0.5-1.5m. Z6. This tough, yet delicate looking rose has dainty, dark pink flowers with prominent golden stamens. Blooms in June and July. Like *R. acicularis*, this species is well armed with numerous small prickles. One of the few truly shade tolerant Roses.

Rosa pisocarpa Clustered Wild Rose 1gal \$10.00ea
Native. Ht. 1-2.5m. Z6. Lilac-pink flowers, 3-4cm across, usually in cluster of 3-6; otherwise similar to *R. nutkana*, but bushes fuller. It is also found in sun to semi-shade in moist sites. Large scarlet red hips are pear shaped.

Rosa nutkana Nootka Rose2gal \$29.00ea
Native. Ht. 1.5-3m. Z6. Large, fragrant, lilac-pink, up to 8cm across, flowers are usually solitary. Bloom in June and July. Hips are reddish-orange and relatively large. This is the most common and well recognized rose in coastal B.C. It is found in full sun to semi-shade in mostly moist sites. Plant with Snowberries for an attractive red & white winter show.

Rosa rubrifolia Red Leaf Rose 2gal \$29.00ea
Ht. 1-2m. Z3. A lovely shrub species rose with purplish red foliage and single reddish pink flowers. Particularly hardy and disease resistant.

Rosa 'Sweet Haze'..... 2gal \$29.00ea
Ht. 70cm. Z4. A lovely rose blooming profusely with fragrant soft pink flowers.

Rosa woodsii Wood's Rose, Alberta Wild Rose1gal \$10.00ea
Native. Ht. 1.5-2m. Z4. Bluish-green leaves. Young stems reddish while older ones are greyish; both have numerous slender prickles. Fragrant, pink flowers are usually clustered in groups of 1-3. Blooms in June to July. Bright red hips in clusters.

David Austin Roses

Rose Ambridge Rose.....2gal \$29.00ea
Ht. 90cm. Z5. Double deep apricot pink blooms which lighten towards the outer petals. Strong, sweet fragrance. On own root.

Rose Golden Celebration.....2gal \$29.00ea
Ht. Z5. Absolutely magnificent. Huge, rich golden yellow full double fragrant flowers. Repeat bloomer, on own root.

Rose Mary Rose2gal \$29.00ea
Ht. Z5. Lovely double rose pink blooms with a delicious old rose fragrance of honey and almond. On own root.

Rose Molineux2gal \$29.00ea
Ht. 90cm. Z5. Highly fragrant rich yellow double blooms. On own root.

Rose Wenloch.....2gal \$29.00ea
Ht. Z5. A free flowering crimson red double with a wonderful rich old rose fragrance with a hint of citrus. On own root.

Antique Roses

Rose Chinensis mutabilis fall only \$12.00ea
Ht. 90-180cm. Z6. A wonderful fragrant, single rose which opens yellow and changes to orange, pink and finally deep reddish pink. A repeat bloomer. On own root. Available Fall 2014.

Rose Crested Moss2gal \$29.00ea
Ht. 90-180cm. Z6. A fully double silvery pink old rose with an incredible strong, sweet fragrance. Flower buds are covered with moss-like protrusions (modified sepals). On own root.

Rose Konigan von Danmark..... 2gal \$29.00ea
Ht. 1-1.5m. Z4. A stunning old rose with fragrant bright pink fully double flowers.

Rose Tuscany Superb2gal \$29.00ea
Ht. 120-150cm. Z5. Known as the Old Velvet Rose. Rich maroon-crimson double blooms darken with age to a rich purple with shimmering black highlights. On own root.

Rubus ideaeus ssp strigosus Wild Red Raspberry1gal \$10.00ea
Native. Ht. 1-2m. Z3. This wonderful wild raspberry with its juicy red fruits and brilliant red fall color is a great addition to the garden. Plant in shade to sun.

Shrubs

Rubus parviflorus Thimbleberry 1gal \$10.00ea
Native. Ht. 1-2m. Z6. Large, 25cm across, maple leaf-like leaves. Single white flowers in clusters of 3-5 are followed by bright red cap-shaped sweet edible berries which make an excellent jam.

Rubus spectabilis Salmonberry 1gal \$10.00ea
Native. Ht. 1-2.5m. Z5. Fragrant, single, reddish-pink, 5cm across, nodding flowers bloom February to March. Berries are bright orange to purple-red when ripe. These sweet, edible berries make good jam. An excellent shrub for the garden in shade to semi-shade in a moist to wet site.

Rubus spectabilis `Double flowered form' 1gal \$12.00ea
Native. Ht. 1-2m. Z5. A very striking, dark, pink double flowered form of the species.

Rubus tricolor 1gal \$10.00ea
 Ht. 15cm. Z. Large dark green very waxy glossy leaves on trailing procumbent fuzzy stems. Leaves turn brilliant red in the fall. This plant would be suitable to use as a large scale ground cover or as foliage spilling over a rock wall. We cannot ship any Rubus species into the U.S.A.

Salix yezoalpina 1gal \$10.00ea
 Ht. 10-15cm. Z3. A wonderful little willow with silvery hairy leaves and a creeping habit.

Sambucus nigra Frances 1 gallon \$10.00ea
 Ht. 2-3m. Z4. A newer variegated selection with leaves of cream, green and yellow. Trusses of white flowers followed by edible black fruits.

Sambucus racemosa Red Elderberry 1gal \$10.00ea
Native. Ht. 2-4m. Z5. Creamy-white flowers in pyramidal clusters bloom in April or May. Bright red, shiny berries. Large, deep green leaves are divided into 5-7 leaflets. Late Spring.

Senecio greyi (Brachyglottis greyi) Sunshine Shrub 1gl \$10.00ea
 Ht. 1m. Z8. Evergreen. Silvery grey felt-like leaves with whitish undersides make this dense rounded shrub a knockout. Bright yellow daisy like flowers bloom all summer long. Plant in a well drained site in full sun to part shade. Will tolerate crappy soil.

Senecio monroi 1gal \$10.00ea
 Ht. 1m. Z8. This a lovely small shrub for a very sunny, well drained site. Nice grey-green foliage with crinkly edges contrasts with bright yellow daisy-like flowers in summer.

Shepherdia argentea Silver Buffalo Berry 1gal \$10.00ea
 N.A. Native. Ht. 4m. Z2. A small shrub, with clusters of small yellowish flowers in the early spring and silvery leaves and showy red edible fruits in fall.

Sorbaria sorbifolia False Spirea 1gal \$10.00ea
 Ht. 2m. Z2. Small white flowers in large terminal panicles bloom in June and July. Deep green leaves are divided in up to 23 toothed leaflets. Sun to semi-shade.

Sorbus reducta \$10.00ea
 Ht 1-1.5M. Dwarf, deciduous shrub from China with dark shiny green leaves composed of up to 15, toothed leaflets, turning purple in autumn. Small clusters of white flowers are followed by pink to white fruits.

Spiraea betulifolia Birch leaved Spiraea 2gal \$18.00ea
Native. Ht. 30-60cm. Z4. White flowers (occasionally tinted rose) in large dense rounded clusters top this small rounded shrub in July and August. Plant in full sun to part shade.

Spiraea douglasii Pink Spiraea 1gal \$10.00ea
Native. Ht. 1-2m. Z5. Spreads by suckering shoots, can be invasive. Flowers are purplish-pink in narrowly conical, dense panicles. Blooms July to August. Small grey-green leaves with velvety undersides.

Stephanandra incisa `Crispa' 1gal \$10.00ea
 Ht. 5m. Z5. A rarely offered Japanese shrub with a mounding habit and arching branches. White flowers in loose terminal racemes appear in late spring and summer. The arching branches are clothed in triangular, incised, serrated green leaves that are highlighted in fall with yellow, orange and often ruddy red.

Symphoricarpos albus Western Snowberry 1gal \$10.00ea
 2gal \$18.00ea
Native. Ht. 0.5-1.5m. Z3. Erect, branching shrub spreads by rhizomatous shoots. Pinkish white bell-shaped flowers in short clusters bloom June to September. Round, snow white fruits in dense clusters persist well into winter.

Symphoricarpos mollis Trailing Snowberry 1gal \$10.00ea
Native. Ht. 20-50cm. Z7. This is basically a creeping form of S. albus. Same flowers, berries and leaves on trailing stems that root freely. Sun to shade. Makes a nice groundcover.

Syringa x laciniata Cut Leaf Lilac \$10.00ea
 Ht. 2m. Z5. This lilac from Asia has dissected foliage at first, but later leaves are not dissected. Summer blooming, fragrant flower clusters are deep lilac in bud and open to mauve with a violet centre. Great fall color.

Vaccinium alaskenses Alaska Blueberry 1gal \$12.00ea
Native. Ht. 80-125cm. Z3. An attractive shrub in leaf, flower and fruit. Flowers are a bronzy pinkish color in early spring and develop into the tastiest blueberries come summer. Foliage turns a wondrous mix of reds and purples in fall. Plant in humus rich soil in sun to part shade. Get those delicious berries that you pick when hiking. **All vacciniums are prohibited entry into the U.S.A.**

Vaccinium membranaceum Black Huckleberry 1gal \$12.00ea
Native. Ht. 0.5-1m. Z6. Upright, spreading shrub with small light green leaves. Solitary pinkish-white flowers in June-July are soon replaced by deep purplish black, edible berries. Sun to semi-shade in humus-rich soil. **All vacciniums are prohibited entry into the U.S.A.**

Vaccinium ovalifolium Oval leaved Blueberry \$12.00ea
Native. Ht. 1-2m. Z2. This deciduous native blueberry produces showy small pink flowers followed by yummy blueberries. **All vacciniums are prohibited entry into the U.S.A.**

Vaccinium oxycoccos Bog Cranberry \$6.00ea
Native. Ht. 1-3cm. Z2. A low creeping shrub with dark pink bell shaped flowers followed by plump cranberries in fall. Plants available from late spring onwards. **All vacciniums are prohibited entry into the U.S.A.**

Shrubs

Vaccinium ovatum Evergreen Huckleberry 1gal \$10.00ea
Native. Ht. 1-4m. Z7. Evergreen. Erect, bushy shrub with small leathery, shiny, dark green, egg shaped leaves. New growth is a beautiful bronzy pink. Clusters of soft pink, bell-shaped flowers bloom in April to May. Shiny, sweet, edible purplish-black berries. Shade to semi-shade in humus-rich soil. **All vacciniums are prohibited entry into the U.S.A.**

Vaccinium parvifolium Red Huckleberry 1gal \$10.00ea
Native. Ht. 1-2.5m. Z6. Upright shrub with bright green angular stems and small rounded bright green leaves. Small pinkish-white bell shaped flowers bloom in April to May. Clear red edible berries are good in jam, jellies and pies. Shade to semi-shade in humus-rich soil. **All vacciniums are prohibited entry into the U.S.A.**

Vaccinium vitis-idaea Lingonberry, Cowberry ... 10cm pot \$4.00ea
Native. Ht. 10-30cm. Z5. Evergreen. Creeping shrub which spreads by underground runners. Glossy, dark green, 2.5cm long leaves with bright red-orange tinges on new growth. Clusters of small urn-shaped, pinkish-white flowers in May. Pea-sized, bright red, sour berries make excellent jellies and preserves. **All vacciniums are prohibited entry into the U.S.A.**

***Vaccinium vitis-idaea* 'koralle'** 10cm pot \$4.50ea
..... 1gal \$10.00ea
Ht. 10-15cm. Z4. Evergreen. An attractive, very free fruiting form of lingonberry originally selected in Holland. **All vacciniums are prohibited entry into the U.S.A.**

Vaccinium vitis-idaea minus Dwarf Lingonberry. 10cm pot \$4.50ea
Native. Ht. 5cm. Z4. Evergreen. Smaller leaves, shorter and slower than species. Flowers and berries are much more visible as well. **All vacciniums are prohibited entry into the U.S.A.**

***Vaccinium vitis-idaea minus* 'Wabaskaw'** 10cm pot \$4.50ea
Native. Ht. 5-10cm. Z2. Evergreen. Free fruiting form of lingonberry originally selected by us near the town of Wabasca in Northern Alberta. Slowly forms a beautiful evergreen mound. Lovely deep dark red berries. **All vacciniums are prohibited entry into the U.S.A.**

Viburnum betulifolium \$12.00ea
Ht. 3-3.5m. Z5. New growth emerges in the spring a wonderful bronzy red color. A large upright deciduous shrub with an open habit. White flowers in fall are followed by a magnificent profusion of red currant-like fruits. Awesome hot pink and red fall coloration.

***Viburnum lentago* 'Pink Beauty'** Nannyberry \$10.00ea
N.A. Native. Ht. 2-6m. Z2. A nice deciduous shrub with creamy white flowers in spring and summer followed by fruit that begins green and ages to yellow, then pink, then red and finally to purple-black.

Viburnum trilobum Highbush Cranberry 1gal \$10.00ea
Native. Ht. 2-4m. Z2. A magnificent large shrub. It has a nice full, erect habit and bluish-green leaves with three deep lobes that turn carmine red early in fall and persist for a long time. Numerous small white flowers in large flat topped clusters bloom in May to June, followed by transparent, scarlet red fruit that persist well into winter. Fruit edible but tart. Sun to semi-shade in humus-rich soil.

***Weigela* 'Purpurea'** 1gal \$10.00ea
Ht. 1-1.5m. Z4. This is a wonderful selection with deep purple foliage and dark red flowers

Vines

Akebia quinata Chocolate Vine..... 1gal \$10.99ea
Ht.5-10m. Z5. Clusters of vanilla scented, black-purple flowers are followed by egg sized lavender fruit. Attractive five lobed dainty leaves make this another great addition from China. Fall only.

Billardiera longiflora Tasmanian Blueberry Vine.....\$12.50ea
Ht 1-2m. Z8. Small bell shaped, sometimes purple-tinged, green-yellow flowers are produced in summer followed by bright purple-blue fruits in autumn. A great small evergreen vine.

Campsis radicans Trumpet Vine..... 1gal \$12.00ea
N.A.Native. Ht.upto 12m. Z3. Bright orange trumpet shaped flowers in summer to early fall make this a stunning vine.

Clematis campaniflora 1gal \$13.50ea
Ht. To 6m. Z6. Lovely, soft blue nodding bell shaped flowers. Blooms from July to September.

Clematis columbiana Blue Rock Clematis 1gal \$13.50ea
Native. Ht.1-3m. Z3. Lovely, nodding blue bell shaped flowers Blooms from July to September.

Clematis spoonerii 1gal \$13.50ea
Ht. To 6m. Z6. A lovely, fragrant, 4 petaled, pure white flowered clematis. A must for the fragrant garden.

Decumaria barbara Climbing Hydrangea \$13.50ea
N.A.Native. Ht.3-10M. Z6. Shiny dark green foliage is complemented by honey scented blooms in late spring. Foliage turns soft yellow in fall.

Fatshedera x lizei 5gal \$49.00ea
Ht. To 1-2m. Z7. An interesting bigeneric cross between Fatsia japonica and English ivy (hedera helix). Large evergreen vine with large five lobed glossy green leaves.

Lonicera ciliosa Orange Honeysuckle1gal \$12.00ea
Native. Ht. 1-10m. Z5. A vigorous vine with blue-green leaves and clusters of bright orange tubular flowers followed by clusters of orange berries in the fall. Sun to semi-shade in well drained soil.

Lonicera hispidula Hairy Honeysuckle1gal \$10.00ea
Native. Ht. 10-20cm as groundcover. Ht. 1-3m as climber. Z6. This native Honeysuckle makes a good groundcover or a short climbing vine in shade to light sun. Small, grey-green hairy leaves with clusters of wine-purple flowers followed by bright red berries .

Lygodium japonicum Japanese Climbing Fern\$5.00ea
Ht.3-5M. Z7. Japanese climbing fern is a lovely, self clinging fern with lacy fronds up to 5 meters in height! It's a great one to let scamper through open shrubs or up trees.

Schizophragma hydrangeoides 'Moonlight'1gal \$12.99ea
Ht.upto 10m. Z5. A hardy deciduous climbing vine from the Mountains of Japan. This selection has silvery pewter mottling on the heart shaped leaves. Leaves turn orange red in fall. Large (up to 25cm across) lacy white flower clusters in July.

Schizophragma hydrangeoides Rosea..... 1gal \$12.99ea
Ht. up to 10m. Z5. A wonderful new selection of this rare beauty with large plate sized flower heads of light pink blooms that are

Vines

surrounded by rose pink bracts that darken with age.

Sollya heterophylla Australian bluebell..... \$12.00ea
Ht.1.5m. Z8 (9). A twining shrub (almost vine-like) from Australia that blooms in late summer with lots of blue, bell shaped flowers. Good for planting next to more open shrubs where it can mingle.

Spring on-site Sale

March 11th-13th,2016

20% off most stock

(Hellebores, Hardy Orchids and Hepaticas not included).

Every year we have our big Spring Sale at the nursery.

This sale is only for people who visit the nursery for onsite sales and is not offered for plants that are shipped from the nursery. We'll have some great deals on larger tree ferns and other large stock. The nursery also carries a large inventory of other plant material not listed in the catalogue. So, bring your truck! Sale may be postponed if we have snow.

Deciduous and Evergreen Trees

Deciduous and Evergreen Trees

Abies grandis Grand Fir1gal \$10.00ea
Native. Ht. 50-80m. Z4. Evergreen. Beautiful full fir with glossy deep green, long needles in two rows along branches and white lines on undersides. Sun to shade. Will reach 15-20m in thirty years. Larger sizes available at the nursery.

Aesculus hippocastanum Common Horse Chestnut .2gal \$20.00ea
 Ht. 15-25m. Z3. Large, densely branched tree with large rounded crown. Big leaves divided into 5-7 leaflets. Numerous white, yellow and red speckled flowers, in 20-30cm long, erect panicles, bloom May to June. Large fruit to 6cm, with thick, prickly green husk surrounding one or two seeds.

Acer barbinerve5gal \$45.99ea
 Ht. Shrub or small tree. Z4. A rarely offered small maple from Korea and Manchuria. Smallish five-lobed coarsely toothed leaves emerge a coppery brown color fading to green and turning a bright yellow come fall. Young twigs reddish. Yellow flowers held in clusters of 4-6 on 6cm long racemes.

Acer caudatum ssp. ukurunduense 5gal \$59.00ea
 Z6. A beautiful small tree or shrub with small 5-7 lobed leaves, lightly grey tomentose beneath. Very showy upright flower clusters. Lovely peeling bark.

Acer circinatum Vine Maple1gal \$12.50ea
2gal \$25.00ea
 Ht. 3-7m. Z6. Small tree or shrub, frequently multi-stemmed with medium sized 7-9 lobed leaves. Excellent fall colour of splendid red. Reddish flowers hang in clusters in early spring. This plant has a stiff, erect habit when grown in full sun and a loose almost vine-like habit when grown in shade, making it a very versatile and useful tree. Larger sizes at the Nursery.

Acer circinatum 'Little Gem Little Gem'2gal \$39.00ea
Native. Ht. 1-?. Z5 This is a dwarf form of the species with a compact, rounded habit that is ideal for small gardens. This is a clone selected from offspring of Acer Little Gem

Acer circinatum 'Pacific Fire'5gal \$69.00ea
Native. Ht. 3-7. Z5 A great new variety that has bright red bark on the new growth. New growth emerges chartreuse and ages to green. An absolute knock out in the winter especially in the snow. Sun to part shade.

Acer circinatum 'Pacific Spirit'5gal \$59.00ea
Native. Ht. 1-3. Z5 This dwarf has small crinkly leaves that are dark green in summer and wonderfully colored in fall with reds, yellows and oranges. Shade to part sun.

Acer circinatum 'Sunglow'5gal \$59.00ea
Native. Ht. 1-4M. Z5 Leaves emerge an apricot and peach color in the spring, fading to a lime chartreuse yellow for the rest of the season. Shade to part sun. What a cool vine maple.

Acer griseum Paper bark Maple2 gal \$30.00ea
 Ht.10m. Z5. Paperbark Maple is renowned for its' mature exfoliating bark which exposes cinnamon orange wood.

Acer macrophyllum Bigleaf Maple 1gal \$10.00ea
Native. Ht. 15-25m. Z6. Large, glossy, dark green leaves turn shades of yellow and orange in fall. In spring; yellow, fragrant flowers hang in 20-30cm long panicles that appear with the first leaves in spring. An outstanding shade tree and one of the most beautiful of all large maples. Larger sizes available at the nursery.

Acer monspessulanum Montpellier Maple 5gal \$45.00ea
 Ht. 6-10m. Z5. A small densely rounded crowned tree with small attractive three lobed leaves. There is something about this tree that every time I walk by and look at the charming little leaves I am forced to stop and smile. Found from South Eastern Europe to Western Asia. Can tolerate dry gravel and alkaline soil but performs well in wetter acidic conditions. Slow growing.

Acer palmatum The Japanese Maples

There is a tremendous variation in appearance between the different varieties we grow. All have small to medium sized, more or less dissected, 5-7 lobed leaves. They prefer to grow in sun to semi-shade in well drained soil. If the red leaf cultivars are planted in too much shade the leaf colour will turn to green. **This year all the plants are too large to ship.** So if you come to the nursery we will have a good selection of 5gal and 7gal plants. This year we will have a huge selection of Hapanes maples.

Acer palmatum Bloodgood 5gal \$89.00ea
 Ht. 4m. Z5. Dark, black-red leaves hold color throughout most of summer and turn a spectacular fiery red in fall. By far the most popular red leaf variety.

Acer palmatum Burgundy Lace 5gal \$89.00ea
 Ht. 4m. Z5. Small tree with deeply divided, very lacy, burgundy red leaves. Turns a lovely scarlet red in autumn. Branches have a slightly weeping habit that combines with the lacy leaves to give this variety a very feathery, graceful look.

Acer palmatum 'Butterfly' 5gal \$89.00ea
 Ht. 2-3m. Z5. Small deeply lobed leaves are attractive bluish-green with rose and creamy-white margins in spring. In summer, the pink tones are reduced but the white remains. The rosy pink margins return in fall and intensify to brilliant crimson. This is a good eye catcher for the small garden.

Acer palmatum 'Emperor I' 5gal \$89.00ea
 Ht.3-4m. Z5. A rich crimson upright Japanese Maple which is heat tolerant and hold its colour well. Bright fiery crimson colour in fall.

Acer palmatum 'Fireglow' 5gal \$89.00ea
 Ht.3m. Z5. A heat tolerant upright Japanese maple with good bright red-purple colour.

Acer palmatum Orido Nishiki 5gal \$89.00ea
 Ht. 3.5-5m. Z4-5. A small rounded variegated maple with pink new growth and a variable white variegation on green leaves.

Acer palmatum 'Oshio Beni' 5gal \$89.00ea
 Ht.2.5m. Z5. New growth in the spring is orange-red, changing to bronze in summer. Fall colour is a beautiful rich scarlet.

Acer palmatum Sango kaku Coral bark Maple 5gal \$89.00ea
 Ht. 4-5m. Z5-6. This upright selection has brilliant coral bark in the fall and winter which looks incredible contrasted against a snowy backdrop. Green leaves turn yellow tinted rose in the fall.

Deciduous and Evergreen Trees

Acer palmatum 'Seiryu'5gal \$89.00ea
Ht. 4-5m. Z4-5. A truly unique, dissected leaf Japanese maple with upright growth. Deep green dissected leaves turn rich yellow to crimson in fall.

Acer palmatum 'Shishigashira' The Lions maple 5gal \$89.00ea
Ht. 3-4m. Z5. Crinkled leaves are dark green and packed closely together leading to the common name of Lions Mane. Fall colour is a rich gold to crimson with pink highlights.

Acer palmatum Shojo5gal \$89.00ea
Ht. 3-4m. Z4-5. A good upright maple with smaller dark red-purple leaves and good fall colour.

Acer palmatum Trompenburg5gal \$89.00ea
Ht. 3.5-5m. Z4-5. An upright growing Japanese maple with glossy deep purple leaves with rolled edges. Good crimson fall colour.

Acer platanoides Norway Maple.2gal \$18.00ea
Ht. 30m. Z3. A medium sized maple with dark grey bark with five lobed leaves that turn a wondrous yellow in fall.

Acer rubrum Red Maple.....2gal \$18.00ea
N.A. Native. Ht. 40m. Z3. A medium sized deciduous tree with grey bark and 3-5 lobed, 5-15cm long leaves. Foliage turns a lovely scarlet in fall.

Alnus rubra Red Alder.....1gal \$10.00ea
Larger specimens available at the nursery
Native. Ht. 10-25m. Z6. This fast growing, broadly pyramidal tree is common throughout the coastal region of the Pacific Northwest. Prefers sun to semi-shade in moist to damp soil.

Araucaria araucana Monkey Puzzle Tree.....7gal \$99.00ea
Ht. 20-30m. Z7. An interesting tree from Chile with dark green, shiny, hard pointed scale-like leaves. The stiff branches are held horizontally in distinct whorls. Plant in humus rich soil in sun to part shade. Reportedly monkeys sit beneath this tree, whiling away the days, puzzling how to ascend this intriguing tree with its spiny scale like leaves. An attractive tree to plant for its lovely silhouette or to see how many monkeys reside in your neighbourhood. This has been upgraded to an endangered species so we can no longer ship to the U.S.A.

Aralia elata Japanese Angelica Tree..... 5 gal \$44.95ea
Ht. 14m. Z4. This is a fast growing deciduous tree with spiny stems, white flowers in August followed by purple fruit and striking reddish purple fall colour.

Betula alleghaniensis Yellow Birch..... 2gal \$18.00ea
N.A. Native. Ht. 18-30m. Z3. A deciduous tree with yellowish bark, smooth on young trees, peeling as the tree ages. Dull green leaves turn yellow in fall. Male catkins are 8-12 cm long.

Betula glandulosa Scrub Birch1gal \$10.00ea
Native. Ht. 1-3m. Z3. In nature, this is a small erect shrub with small nearly circular leaves growing in usually acidic, nutrient poor soil. In neutral, rich soil it grows larger and the leaves quickly become larger but will revert if soil is made acidic.

Cercis siliquastrum Judas Tree.....1gal \$12.99ea
Ht. 5-8m. Z6. This is usually a small slender tree with deep purple-rose flowers and large green heart-shaped leaves.

Cornus controversa Giant Dogwood..... 2gal \$25.00ea
Ht. 10-15m. Z5. An interesting tree with a horizontal spreading habit giving the tree a multi-tiered effect. White flowers are carried in flat clusters on the tiered branches. Foliage turns red early in fall and persists for a long time.

Cornus nuttallii Pacific Dogwood 2gal \$20.00ea
Native. Ht. 15-20m. Z5. This is our native dogwood tree with large snowy white bracts in spring. Best planted in less than full sun.

Cornus mas Cornelian Cherry..... 1gal \$10.00ea
Ht. 5m. Z5. This winter blooming shrub or small tree has wiry golden-yellow flowers before leaf out followed by brilliant small cherry-like, red edible fruit. A valuable winter bloomer.

Cornus mas 'Macrocarpa' \$10.00ea
Ht. 5m. Z5. A rarely offered form of this winter blooming shrub with the same wiry golden-yellow flowers but with larger brilliant cherry-like red edible fruit. A valuable winter bloomer.

Cornus officinalis Japanese Cornel Dogwood..... 2gal \$25.00ea
Ht. 2-6m. Z6. Similar to *Cornus mas* but considered superior in all respects. Bright yellow flowers in March to April followed by showy red fruits. The foliage turns a nice rich red color in autumn.

Crataegus douglasii Black Hawthorn 1gal \$10.00ea
Native. Ht. 3-10m. Z5. Small tree or large multistemmed shrub. Dark green, oval shaped leaves with saw toothed margins turn pinkish red in fall. Small white flowers in terminal clusters of 10-20 blossoms, bloom in May. Small, edible berries, deep wine red at first, mature to a deep glossy black. Sun to semi-shade in humus-rich soil.

Davidia involucrata Dove Tree..... 2 gal \$29.00ea
Ht. 9-15m. Z5. Dove or Handkerchief tree is a showy shade tree bearing large white flowers with bracts up to 7" long.

Fraxinus americana White Ash 2gal \$18.00ea
N.A. Native. Ht. 40m. Z3. A deciduous tree with a spreading crown and grey bark. Pinnately compound leaves with 5-9, long stalked leaflets turn a rich burgundy red with purple highlights in fall.

Fraxinus latifolia Oregon Ash. 5gal \$44.95ea
Native. Z5-6. Ht. 10-20m. Leaves divided into 5-7 leaflets. Bright green in colour turning clear yellow in fall. Can take wet sites.

Gymnocladus dioica Kentucky Coffee tree \$12.00ea
Ht. 12m. An interesting tree with huge 1meter long pinnately compound leaves. White flowers in terminal clusters. Fruits can be used to make a coffee like beverage.

Koeleruteria paniculata 1gal \$12.00ea
Ht. 15-25m. Z7. Long yellow flower trusses in summer are followed by fruit. Drought tolerant tree with wonderful fall colour.

Malus fusca = Pyrus fusca Western Crabapple 1gal \$10.00ea
Native. Ht. 5-7m. Z6. Our Native crab-apple is a small tree or large, multistemmed shrub with numerous long spurs on the branches. Diversely shaped leaves turn a brilliant yellow and red in fall. Small, edible, yellow, red-cheeked fruit also appear in fall in large showy clusters. Fragrant white, apple blossom like flowers in clusters bloom in April to July. Sun to semi-shade in moist to dryish soil. Larger sizes available at the nursery.

Deciduous and Evergreen Trees

Magnolia acuminata Cucumber tree2gal \$29.00ea
.....5gal \$49.00

N.A. Native. Ht. 15-20m. Z3. A wonderful tree with small fragrant greenish-yellow tulip shaped flowers. The true beauty of this tree emerges in late summer when the green cucumber shaped fruit turn a velvety brilliant red which then split to reveal bright orange-red seeds that come popping out.

Magnolia officinalis.....5gal \$64.99ea
Ht.20m. Z7. White flowers with numerous red stamens. Cone-like fruits turn red when ripe.

Magnolia stellata 'Waterlily' Waterlily Star magnolia
.....5gal \$64.99ea
Ht. 2-2.5m. Z5. Compact, densely branched shrub. Profuse pink buds open to semi-double, fragrant, many petaled white flowers. The most popular magnolia. Sun to semi-shade in well drained soil.

Picea mariana Black Spruce\$10.00ea
Native. Ht.20m. Z2. A medium sized, dark blue-green narrow conifer with red-brown exfoliating bark. Needles are blue-green in colour. These are the dominant trees of the bogs of Northern Canada.

Populus tremuloides Trembling Aspen 1gal \$10.00ea
Native. Ht. 15-30m. Z1. Rarely taller than 15m in cultivation. Slender tree with light grey-green bark. Rounded, blue-green leaves have flat leaf stalks which allow the leaves to "tremble" in the slightest breeze. Pale yellow fall color.

Quercus garryana Garry Oak 1gal \$10.00ea
.....2gal \$25.00ea
..... On site sales only 5gal\$49.95ea
..... On site sales only 7gal \$95.00ea

Native. Ht. 5-30m. Z7. This can be a large tree or a relatively small shrubby bush. Leathery, dark green, glossy leaves with deeply rounded lobes and a whitish underneath. Sun to semi-shade in well drained soil. This always makes an attractive plant.

Rhamnus pershiana Cascara1gal \$10.00ea
Native. Ht. 3-15m. Z7. Dark green, glossy, prominently veined, egg-shaped leaves turn yellow in fall. Small greenish-yellow flowers in terminal clusters followed by clusters of conspicuous, shiny black, edible berries. The bark has long been used as a laxative.

Salix hookeriana Hookers Willow 1gal \$10.00ea
Native. Ht. 4.5-6m. Z2. Shrub or small tree the young leaves and twigs are covered in a thick soft white hair. The catkins are larger on this species than most. Also used in basketry.

Salix lasiandra Pacific willow 1gal \$10.00ea
Native. Ht. 1-9m. Z2. Tall slender, large multi-stemmed shrub or small tree with grayish- brown bark that furrows with age. Leaves are shiny, thin and long, with finely toothed margins, and the undersides that are whitish and waxy Also used in basketry.

Salix purpurea nana Dwarf Arctic Willow..... 1gal \$10.00ea
Native. Ht. 1-2.5m. Z2. Small shrub with bluish green leaves and reddish-purple- maroon stems. Good for a border or as a low hedge or a specimen. Also used in basketry.

Salix scouleriana Scoulers Willow..... 1gal \$10.00ea
Native. Ht. 4-10M. Z2. Small tree or shrub with a wide tolerance

for soil types and moisture. Also used in basketry.

Salix sitchensis Sitka Willow 1gal \$10.00ea
Native. Ht. 1-8m. Z5. Small tree or large shrub with smooth, brownish red bark turning gray and slightly furrowed with age. Leaves are bright green oval shaped being wider near the tip and densely hairy on undersides. Also used in basketry.

Sorbus sitchensis Sitka Mountain Ash 5gal \$44.95ea
Native. Ht. 1-4m. Z5. Small tree or shrub with bluish green leaves divided into 7-11 leaflets. Small white flowers in round topped terminal clusters. Scarlet red berry-like fruit.

Sorbus sitchensis Sitka Mountain Ash 5gal \$44.95ea
Native. Ht. 1-4m. Z5. Small tree or shrub with bluish green leaves divided into 7-11 leaflets. Small white flowers in round topped terminal clusters. Scarlet red berry-like fruit.

Styrax hemsleyanum Chinese Snowbell Tree 5gal \$65.00ea
Ht 10m. Z7. White fragrant flowers in hanging clusters in summer.

Styrax japonica Snowbell Tree 2gal \$18.99ea
Ht. 8-10m. Z5. A wonderful small tree with fragrant white, bell-shaped pendulous flowers in clusters of three to six. Blooms in June to July followed by greenish white fruits in the fall.

Styrax japonica Benibana Pink Snowbell Tree..... 1gal \$20.00ea
Ht. 8-10m. Z5. A wonderful small tree with fragrant soft pink, bell-shaped pendulous flowers in clusters of three to six. Blooms in June to July followed by greenish white fruits in the fall.

Styrax japonica Pendula Weeping Snowbell Tree.... 1gal \$15.00ea
Ht. 8-10m. Z5. A wonderful small tree with fragrant white, bell-shaped pendulous flowers in clusters of three to six. Blooms in June to July followed by greenish white fruits in the fall.

Tetracentron sinense 5gal \$65.00ea
Ht.10-20m. Z6. Heart shaped leaves turn an incredible deep red in fall. Yellow flowers in a narrow terminal pendulous spike in June. From China.

Trachycarpus fortunei Fan Palm 1gal \$15.00ea
..... 2gal \$29.00ea

Large sizes at the nursery
Ht. 20m. Z7-8. The palm tree of choice on Salt Spring Island. Slow growing to 20m. We offer small 1 gallon plants grown from seed collected on Salt Spring Island from Banana Joe's trees.

Thuja plicata Western Red Cedar 1gal \$10.00ea
Native. Ht. 20-60m. Z4. Evergreen. Large, fast growing broadly pyramidal tree with large, drooping and spreading branches. Makes a good specimen or can be sheared into an excellent formal or informal hedge. Sun to shade in humus-rich soil.

Tsuga mertensiana Mountain Hemlock 2gal \$20.00ea
Native. Ht.10-40m. Z2. Evergreen. Blue-green foliage with a silvery cast. Needles grow all around stems to give a soft, tufty appearance. Slow growing in the garden reaching 2-3m in twenty years. Good in sun to shade in humus-rich soil.

Tsuga heterophylla Western Hemlock 1gal \$10.00
Native. Ht.20-60M Z5. A great specimen or screening tree for shade to part shade.

Information

Native plant Week

May 1st- 7th, 2016

20% off all native plants this week

This event is hard to time. This year we are going with the first week of May and hopefully the timing will coincide with the blooming of some of our favourite spring wild flowers such as fawn lilies and shooting stars.

Our aim is to feature many early spring bloomers in addition to hundreds of other native bulbs, perennials and shrubs. We have long promoted the use of native plants and grow the largest selection in the Pacific Northwest, so we are excited to showcase over 500 species and varieties. There will be many special deals offered. If you can't make it or need another chance to purchase native plants, we are proud supporters of the Native Plant Sale at The Swan Lake Christmas Hill Nature Sanctuary in Victoria, B.C. Go to www.swanlake.bc.ca for information.

Orchidmania

May 1st- 7th, 2016

Our third event held in conjunction with Growing Native is Orchidmania. The number of hardy ground orchids has exploded and we would like gardeners to become more familiar with these beauties. The hybrids are very easy to grow and make a valuable and unique addition to the garden. We also have many species for the purist, some of which are easy to grow and some are not. All ground orchids will be 10% off during this week.

How to grow hardy Orchids Workshop

We will be offering workshops on how to grow hardy orchids during Orchidmania, May 1st and 2nd. The workshops will be held each day at 1:00pm to allow time for people to come from the lower mainland or Vancouver Island. The workshop will provide hands on demonstrations of how to propagate, divide, fertilize, prepare soil and plant many different varieties of hardy orchids, as well as providing information about hardy orchids and their culture (and dispelling myths that they're difficult to grow!). Bring your questions. The course will be held outdoors with demo plants in hand. Cost will be \$50.00 per person which will be returned as a voucher for \$50.00 that you can use towards the purchase of hardy orchids. You will also leave with a free hardy orchid. The instructor will be Richard. This course comes with a warning: hardy orchids are addictive, the more success you have, the more you'll want to plant. We aim to enable. Please book early: email us at thimfarm@telus.net

What should I do when my plants arrive?

When your plants arrive, unpack them immediately and **carefully check the packing material to make sure you haven't missed anything.** Very, very carefully unwrap and remove the plastic bag or packing material and water your plants. Ideally, plants should be planted immediately upon receipt, but if necessary they can be potted and left to establish in pots before planting out. Protect from slugs and snails and other harmful pests. With a trowel, dig a hole one and a half times as wide as the root spread and one and a half times as deep to allow you to set the crown 2-5cm deep (some plants, ie. ferns and bleeding hearts like to have their crowns slightly exposed). Place the roots in the planting hole and arrange them in such a way that looks natural, often in a pin wheel configuration. Hold the crown with one hand and carefully replace the soil, working it gently around the root system, with the other. Be sure to eliminate any air pockets etc. by firming the soil around the crown with your hand (pressing firmly, but not packing) and watering thoroughly, even if it's raining. Sometimes it is difficult to tell which way is up with a dormant plant. Look carefully for roots, or for where last years stems have been trimmed. If in doubt, plant on its side. It's hard to advise about soil amendment because soil quality varies so much, but we usually recommend planting with a small amount of bone meal. Lastly, it usually pays to ensure adequate drainage as most plants appreciate it and some demand it. Water enough to maintain adequate moisture. Now, sit back and be patient: some plants, like bulbs may sit dormant until the mood to sprout strikes them and this may not be until the following season, so don't poke around too much checking for sprouts as you will probably do more harm than good. Good luck!

Mail Order Information

Fraser's Thimble Farm 175 Arbutus Rd. Salt Spring Island. B.C. V8K 1A3

Read this page before you order

PLANTS: Only plants in the following pots can be shipped: 10cm, 11cm, 1gal, 2gal. The larger sizes can usually be shipped but special arrangements must be made, contact us. All plants are pot grown and are shipped bare-root or with plastic bag replacing the pot to reduce shipping costs.

Substitutions: We will not substitute plants unless you have noted preferred substitutes on the order. We offer refunds as a credit on future orders (sometimes as a cash refund); please note your preference on the order form. We appreciate a list of substitutions especially if you're paying by cheque.

Plant Availability: We ship on a first-come, first-served basis, so we cannot guarantee that all the plants listed in catalogue will be available at all times. If we state Fall 2016 or May 15th 2016 2, that is the first date we expect that plant to be available, so please don't order a plant that is not ready before your shipping date; put it on a new order.

Shipping: We ship via Expedited or Express Post from mid-September through to the end of May and later if the weather permits. We will ship during the winter when weather permits (early November to about Dec. 20th. then again starting early in February onward). We have tried to ship in late May and later but the plants are too advanced by this time. Orders without phone numbers will be held until you contact us to provide a phone number.

Guarantee: We ship healthy, true to name plants usually on Mondays or Tuesdays each week during spring and fall. However, our quality guarantee expires after the plants have been in transit to you for more than four days. Claims due to our error must be made immediately, if valid will be dealt with as a credit towards your next order.

Back Orders: We are unable to process back orders. Please reorder.

Confirmation: We do not send out Confirmations. We suggest you make a copy of your order if you need to look at it before your plants arrive. We will phone you if you indicate you want a confirmation on your order form to let you know we received your order. Sometimes plant availability cannot be determined until very close to your requested shipping date.

How to Order:

A: You can mail in your order

B: You can fax your order to us at (250)-537-5788.

C: You can E-mail it to us at thimfarm@telus.net. Mark your e-mail as '**Order**' so we know yours is an important email. We only check our email 3-4 times per week, we have found this a somewhat unreliable service so we will try to respond with a simple **received** message to every email within 3-4 days so you know we actually got your message (we cannot guarantee that there is security for credit card # etc). Do not send your order as an attachment! Due to the number of viruses sent to us this year, we generally don't open them any more.

D: you can A, B or C the order for pick up at the Nursery. If you do this please give us the date you will pick up the order so we can make sure we have it in stock. Please make sure, if you are picking up your order, that we actually receive it ahead of time if you want it pulled for you. We encourage you to browse through the Nursery and look at the thousands of plant we don't list in the catalogue.

E: Phone orders. **We do not take phone orders.** If you want to check on a plants availability, please phone us, we are practically attached to cordless phones throughout the Spring but we do not have an office staff and are rarely inside when you call. We don't mind phone calls. If you hear a fax tone, it means we are out of phone range at the moment, so please try again in a few minutes.

U.S Customers and Orders: We ship to all of the Continental US. All prices are in US funds for US customers. The difference in exchange helps cover some of the extra costs for export orders such as brokerage, duty and transport over the border. We expect to do U.S. orders every 4 weeks in Spring and Fall this year. We may increase the frequency depending on demand. Every order to the US requires a Phytosanitary Certificate, which is \$17.00 and usually this is the only extra cost. For 2016 we will not be shipping any plants to the USA that are covered under C.I.T.E.S (Orchids, Tree Ferns, Cyclamen, Sarracenias, Galanthus etc **The minimum order for shipments to the US is \$50.00 worth of plants.** For those who want to visit the nursery and pick up an order, give us your order at least a week ahead of time so we can get the necessary documents in order. **U.S. orders must have a contact phone number.**
